*Wallkill Valley.*—This road was foreclosed under a second mortgage and sold November, 1875. (V. 21, p. 442; V. 22, p. 42, 209.)

*Warren (N. J.).*—Leased to Delaware, Lackawanna & Western at 7 per cent on stock and bonds. Net earnings in 1873, $416,186.

*Washington City, Virginia Midland & Great Southern.*—Gross earnings year ending Sept. 30, 1875, $1,033,980; expenses, $672,307; net earnings, $401,-612. The company has been assisted by Balt. & O. Coupons on O. & A. 2d, 3d and 4th mortgages are overdue. (V. 22, p. 15.)

*Western & Atlantic*—This road is owned by State of Georgia, and leased at $240,000 per annum. Lessees have issued the income bonds. (V. 22, p. 136.)

*Westchester & Philadelphia.*—Net earnings 1873-4, $147,949. Old debts retired by new mortgage.

*West Jersey.*—Gross earnings, 1875, $659,797; expenses, $366,509; net, $293,287. Net profit above interest and rentals, $95,689. (V. 22, p. 232.)

*West Wisconsin.*—The company defaulted on interest due Jan. 1, 1875, and funded nine coupons from that date. The following is from the official statement: Since its organization the company has issued $4,000,000 gold first mortgage land grant bonds, of which $3,[illegible],500 are outstanding; $640,000 Southern extension bonds, of which $370,000 are held as collateral security by floating debt creditors; $2,500,000 seven per cent gold consolidated bonds, of which $1,471,000 are held as collateral to the floating debt. The other debts of the company on Jan. 1, 1875, were as follows: Bills payable, $1,080,921. There are collaterals belonging to the company held for these, as follows: Southern extension bonds, $370,000; consolidated bonds, $1,471,000; and 200 cars; other items of debt, $1,826,141. Earnings, 1874, $884,920; operating expenses, 697,107; net earnings, 187,812. For full particulars see V. 20, p. 77, 291, 314; V. 21, p. 396.

*Western Alabama.*—Sold in foreclosure, April 19, 1875, and bought by Central Ga. and Georgia Railroads. (V. 20, p. 398, 405, 445.)

*Western Maryland.*—This company was largely assisted by the city of Baltimore, which has also bought its overdue coupons. The only bonds remaining in default for interest to their holders are the second preferred unendorsed. Cost of road and equipment to October 1, 1875, $4,473,450. Annual report for last fiscal year to September 30, 1875, shows gross receipts, $293,718; expenses, $194,420; net receipts, $99,298. The gross earnings were $15,925 larger than the preceding year. The financial condition September 30, 1875, was as follows: Liabilities—Stock subscriptions, $683,632; funded debt, $3,675,000; material on hand, $1,682; general revenue, $97,722; sundry suspended debts, $3,602—total liabilities, $4,473,451. Assets—Cost of old road and appurtenances, $2,404,398; cost of new road, $1,889,483; sundry individual indebtedness, $2,846; Union Railroad Company, $2,500; loss on sale of second preferred bonds, $43,500; construction and equipment, $57,268; sinking fund second mortgage city endorsed, $30,000; balance $36,911—total assets, $4,473,451. (V. 22, p. 207.)

*Western North Carolina.*—Sold in foreclosure, June 23, 1875, for $825,000. (V. 20, p. 314, 453; V. 21, p. 40.)

*Western Pennsylvania.*—The Pennsylvania RR. leases owns $972,650 stock out of the total amount of $1,022,450. $148,000 of branch bonds, and all of $1,200,000 general mortgage bonds; net earnings 1875, $182,059. (V. 22, p. 206.)

*Williamston & Tarboro.*—Road in progress. No recent financial information.

*Wilmington Columbia & Augusta.*—Leases and operates the Wil. & Weldon. In 1874-5 net earnings were $183,271, including profit on W. & W. Coupons of Dec., 1875, are unpaid. (V. 22, p. 15.)

*Wilmington & Reading.*—This road was in progress, and defaulted on second mortgage after crisis of 1873. Default on first mortgage was made April, 1875. Foreclosure pending. The Berks Co., an extension, was sold out and is now leased to Philadelphia & Reading. (V. 20, p. 358, 383, 522, 547; V. 21, p. 137, 592; V. 22, p. 182.)

*Wilmington & Weldon.*—Leased December, 1872, to Wilmington, Columbia & Augusta road at 7 per cent on stock. Lessee assumes all liabilities. (V. 22, p. 16.)

*Wisconsin Central.*—This company defaulted July, 1875, and its latest statement and proposition for funding, &c., are in V. 21, p. 245. (V. 20, p. 291, 571; V. 21, p. 324.)

*Worcester & Nashua.*—Net earnings 1874-5, $178,-330. Guarantees the stock and bonds of Nashua & Rochester company, leased. (V. 21, p. 590.)

**CANAL.**

*Chesapeake & Delaware.*—Delaware City to Chesapeake City, Md. (V. 18, p. 582).

*Chesapeake & Ohio.*—This company was assisted by State of Maryland, and is making progress towards meeting its past due interest. (V. 21, p. 77.)

*Delaware Div.*—Leased to Lehigh C. & N. Co., at interest on bonds, and 8 per cent a year on stock.

*Del. & Hudson Canal.*—This Co., which is among the largest miners and carriers of coal, leases the Alb. & Susq. and Renss. & Sar. Railroads. Also endorses bonds of N. Y. & Canada RR. Annual report for 1874, V. 20, p. 498. (V. 18, p. 472, 503; V. 20, p. 382.)

*Lehigh Coal & Navigation.*—Gross receipts in 1875, $1,849,085; expenses, int. and dividends, $1,914,276. Excess of receipts, $65,191. The Central R. R. of N. J. assumes (in purchase of equipment), $2,310,000 of the gold loan due 1897, leases the Lehigh & Susquehanna Rail Road, and operates the Lehigh Canal. The Lehigh & Wilkes-Barre Coal Co. assumes $500,-000 of the gold loan due 1897, and $822,000 (all) of the convertible gold loan due 1891, and has also leased the coal lands of the Company. (V. 22, p. 279.)

*Monongahela Navigation Company.*—Receipts, 1874, $315,463; expenses, $88,120; dividends, $97,721.

*—Congregationalist.*

The most eminent authors of the day, such as **Hon. W. E. Gladstone, Prof. Max Muller, Prof. Huxley, Dr. W. B. Carpenter, Prof. Tyndall, R. A. Proctor, Francis Power Cobbe, The Duke of Argyll, James A. Froude Mrs. Muloch, Mrs. Oliphant, Miss Thackeray, Jean Ingelow, Geo. MacDonald, William Black Anthony Trollope, R. D. Blackmore, Matthew Arnold, Henry Kingsley, Thomas Carlyle, W. W. Story, Robert Buchanan, Tennyson, Browning,** and many others, are represented in the pages of

## LITTELL'S LIVING AGE.

In 1876 THE LIVING AGE enters upon its thirty-third year. It has never failed to receive the warmest support of the best men and journals of the country, and has met with constantly increasing success. Having recently absorbed its younger competitor, "EVERY SATURDAY," it is now without a rival in its special field.

During the year it will furnish to its readers the productions of the ablest authors, above-named and many others; embracing the Serial and Short Stories of the

**LEADING FOREIGN NOVELISTS,**

and an amount unapproached by any other periodical in the world of the most valuable literary and scientific matter of the day, from the pens of the FOREMOST ESSAYISTS, SCIENTISTS, CRITICS, DISCOVERERS AND EDITORS, representing every department of Knowledge and Progress.

*A weekly Magazine*, of sixty-four pages, THE LIVING AGE gives more than

**THREE AND A QUARTER THOUSAND**

double column octavo pages of reading matter yearly. It presents in an inexpensive form, considering its amount of matter, with freshness, owing to its weekly issue, and with a *satisfactory completeness* attempted by no other publication, the best Essays, Reviews, Criticisms, Tales, Sketches of Travel and Discovery, Poetry, Scientific, Biographical, Historical and Political Information, from the entire body of Foreign Periodical Literature.

It is, therefore, invaluable to every American reader, as the only thorough as well as fresh compilation of a generally inaccessible but indispensable current literature,—*indispensable* because it embraces the productions of the

**ABLEST LIVING WRITERS**

in all branches of Literature, Science, Art, and Politics

"*It reproduces the best thoughts of the best minds of the civilized world, upon all topics of living interest.*"—Philadelphia "Inquirer."

"*The best of all our eclectic publications.*"—"The Nation," New York.

"*And the cheapest. A monthly that comes every week.*"—"The Advance," Chicago.

"*A pure and perpetual reservoir and fountain of entertainment and instruction.*"—Hon. Robert C. Winthrop.

"*The best periodical in America.*"—Rev. Dr. Cuyler.

"*It has no equal in any country.*"—Philadelphia "Press."

"*Its publication in weekly numbers gives it a great advantage over its monthly contemporaries in the spirit and freshness of its contents.*"—"The Pacific," San Francisco.

"*Ought to find a place in every American Home.*"—New York "Times."

"*Simply indispensable to any one who desires to keep abreast of the thought of the age in any department of science or literature.*"—Boston "Journal."

PUBLISHED WEEKLY at $8 00 a year, *free of postage*; or for $10 50 (*covering prepayment of postage on both periodicals,*) THE LIVING AGE and *either one* of the American *four dollar* monthly Magazines (or *Harper's Weekly* or *Bazar*, or *Appleton's Journal*, weekly) will be sent for a year; or, for $9 50, THE LIVING AGE and Scribner's *St. Nicholas.*

**LEASES, RENTS,**

And other Insurable Property, at Just Rates of Premium.

## THE CONTINENTAL

WAS THE

*FIRST COMPANY TO SUBMIT TO THE RESTRICTIONS OF THE SURPLUS LAW OF* 1874.

By the provisions of this law the Company is compelled to limit its dividends to stockholders to 7 per cent. per annum, and to deposit one-half of the remainder of its earnings in the Insurance Department of this State, as a SPECIAL RESERVE SAFETY FUND, for the PROTECTION and SAFETY of such policy holders as may not be burned out at the time of a conflagration so great as to destroy the ability of all Companies, to pay their losses in full, thereby avoiding the necessity of placing the Company in the hands of a Receiver in Bankruptcy.

Some of the benefits of submission to this law are as follows:

*First*—To the assured, who are claimants for losses at the time of the great fire.

It will give them more money than can be obtained under the requirements of any other law on this subject, because it exempts the Company from receiver's fees, legal costs, or other expenses of bankruptcy.

It requires the Company to maintain at all times a "GUARANTEE SAFETY FUND" equal in amount to the "Special Reserve Fund," for the greater protection of policy holders generally.

It will prevent any encroachment upon it by later losses under uncancelled policies.

It compels just and prompt adjustments and payments, no matter how great the fire or loss.

*Second*—To the policy-holders whose property is not involved in such fire—a hitherto neglected class:

It will give a deserved protection and provide for the payment of their later sustained losses, as if no great fire had occurred.

It will save them from vexatious and serious loss of time and money in seeking and paying for new insurance, while waiting indefinitely for the return of what is due from the Bankrupt companies whose policies have become worthless, and whose assets may be in the clutches of a slow-paced Receiver.

GEO. T. HOPE, President.
H. H. LAMPORT, Vice-Pres't.
CYRUS PECK, Secretary.
B. C. TOWNSEND, Sec. Agency Dept.
ABRAM M. KIRBY, Sec. Local Dept.

# REAL ESTATE MORTGAGE BONDS

GUARANTEED BY THE

# Equitable Trust Co.,

**$1,000,000 CAPITAL.**

THESE REAL ESTATE MORTGAGE BONDS ARE COMMENDED TO THE ATTENTION OF THE MOST

**CONSERVATIVE INVESTORS.**

*First*—They have the individual liability of the maker.

*Second*—Each bond is secured by a first mortgage of real estate of not less than double its value.

*Third*—The prompt payment of both principal and interest of every bond is guaranteed by this Company.

The Company guaranteeing these Bonds receives no deposits, owes no money, and incurs no obligations of any character except those arising from such guaranty thereby keeping its whole capital of One Million Dollars unimpaired, TO MEET AT ALL TIMES the prompt payment of both principal and interest of these Bonds.

All mortgages securing the Bonds are formally approved by the following Executive Board:

| | |
|---|---|
| ROBERT L. KENNEDY, | ADRIAN ISELIN, |
| SAMUEL WILLETS, | JAMES A. ROOSEVELT, |
| WM. REMSEN, | EUGENE KELLY, |
| CHAS. BUTLER, | JOHN D. MAXWELL, |
| HENRY P. HAVEN, | GUSTAV H. KISSELL. |

These Securities bear Seven Per Cent Interest payable semi annually, and are offered for sale at one hundred and two and interest at the office of the Equitable Trust Company, Nos. 32 & 34 William street.

JONATHAN EDWARDS, President.

UNION TRUST COMPANY OF NEW YORK,
73 BROADWAY, COR. RECTOR ST.,
NEW YORK, March 24th, 1876.

A PLAN FOR ARRANGING THE AFFAIRS of the

# Missouri Kansas & Texas Railway Company

has been prepared and has received the approval of a large number of those interested.

It proposes—

1st. That the First Mortgage Bondholders shall accept interest in Gold, at the rate of four per cent per annum, for the next three years, and five per cent for the ensuing three years, and shall fund past-due coupons, and the difference between above rates and seven per cent, in a new second mortgage income bond, at eighty per cent of its par value.

2d. That the floating debt creditors shall accept any first mortgage or Booneville Bridge bonds held as collateral, in payment of their claims, as far as so secured, at certain equitable rates; and, for unsecured claims shall receive new second mortgage income bonds, as above, at the same rate of eighty per cent.

3d. That the present second mortgage shall be cancelled, and the new mortgage executed for $10,000,000. The bonds to bear interest at six per cent per annum in cash, if the net earnings of the Railway admit, otherwise in certificates redeemable with six per cent interest out of revenue, before payment of any dividend upon the stock.

4th. That the net earnings, in excess of the amount required for above purposes, are be applied towards increasing the cash payments upon the first mortgage coupons, and should *two* successive first mortgage coupons be paid in full, the road is to be surrendered to the stockholders. That until then, and pending the proposed agreement, the Union Trust Company of New York, Trustee, under the mortgagee, shall take possession of the Railway and its property, and manage the same in accordance therewith, assisted by an Advisory Board, to consist of five members appointed by bondholders, creditors and directors of the Railway Company and two by the Trust Company.

Should the agreement be adopted, application will be made to the Courts to the end that the Trust Company be put in possession, and that the first two per cent payment, for which funds are understood to be on hand, may be made.

Agreements for signature are to be found at the Office of the Union Trust Company of New York, to which the attention of parties interested is invited. EDWARD KING, President.

**NOTICE.—TO THE HOLDERS OF "WESTERN EXTENSION" FIRST MORTGAGE BONDS OF THE "NEW YORK & OSWEGO MIDLAND RAILROAD CO."**—In pursuance of the judgment of foreclosure and sale, entered December 7, 1875, in the action entitled: Supreme Court, Tompkins County, Delos DeWolf et al., Trustees, plaintiffs, against The New York & Oswego Midland Railroad Company et al., defendants.

The undersigned Referee, duly appointed therein, hereby gives notice that he will attend at his office, No. 132 Broadway, New York City, on the 5th day of April next, at 12 o'clock M., to take proof of the ownership and amount of such bonds, and the owners and holders thereof are required to appear before the said Referee, at the time and place aforesaid, and present their claims and proof of ownership and amount of said bonds.—Dated New York, March 15, 1876. D. IRA BAKER,

**THE COUPONS DUE APRIL 1, 1876,** of the CENTRAL PACIFIC RR. CO. LAND BONDS, and of the CENTRAL PACIFIC RR. CO. (San Joaquin Valley Branch) FIRST MORTGAGE BONDS, will be paid at the Office of FISK & HATCH, No. 5 Nassau street.

C. P. HUNTINGTON, Vice-President.

**THE COUPONS DUE APRIL 1, 1876,** of the FIRST MORTGAGE BONDS OF THE SOUTHERN PACIFIC RAILROAD COMPANY (of California) will be paid at the Office of the Company, Nos. 9 Nassau and 11 Pine streets, New York.

C. P. HUNTINGTON.

CHICAGO MILWAUKEE & ST. PAUL RAILWAY COMPANY, No. 64 WILLIAM STREET,
NEW YORK, March 16, 1876.

**DIVIDEND NOTICE.**

Notice is hereby given that a dividend on the preferred stock of this company, of $7 per share, has been declared out of the net earnings of 1874, and a further dividend of $7 per share out of the net earnings of 1875, said dividends to be paid on the 10th day of April next, in the consolidated sinking-fund bonds of this company.

The transfer books will be closed on the 23d day of March, at 3 P. M., and re-opened on the 10th day of April next.

JULIUS WADSWORTH, Vice-President.

THE PRODUCERS CONSOLIDATED LAND AND PETROLEUM COMPANY, TREASURERS' OFFICE,
NEW YORK, March 17th, 1876.

**DIVIDEND No. 2.—THE BOARD** of Directors have this day declared a quarterly dividend of SIX PER CENT on the capital stock of this Company, from the net earnings to February 29th, inclusive, payable at the Treasurers' office, No. 21 Pine street, on and after the 20th day of April next.

Transfer books will be closed from the 11th to the 20th of April, both days inclusive.

W. H. PERIGO, Clerk.

The London office of the CHRONICLE is at No. 5 Austin Friars, Old Broad Street, where subscriptions are taken at the following rates:
Annual Subscription to the Chronicle (including postage)..... £2 2s.
Six months' subscription..... 1 3s.

WILLIAM B. DANA, JOHN G. FLOYD, JR. } WILLIAM B. DANA & CO., Publishers, 79 and 81 William Street, NEW YORK. POST OFFICE BOX 4 592.

☞ A neat file-cover is furnished at 50 cents; postage on the same is 17 cents. Volumes bound for subscribers at $1 50.

☞ A complete set of the COMMERCIAL AND FINANCIAL CHRONICLE—July 1865, to date—is for sale at the office. Also one set of HUNT'S MERCHANTS MAGAZINE, 1839 to 1871, sixty-three volumes.

☞ The Business Department of the CHRONICLE is represented among Financial Interests in New York City by Mr. Fred. W. Jones.

## THE ATTITUDE OF CONGRESS TOWARD THE CURRENCY.

A signal demonstration has just been added to the long list of previous proofs of the difficulty of forecasting the action of Congress toward the currency, and of the vast mischiefs which this uncertainty must needs cause throughout the country. On Monday, in the House of Representatives, Mr. Payne moved to suspend the rules and pass his bill for the "gradual resumption" of specie payments. This measure has been very diligently pressed forward, and its claims have been loudly trumpeted forth in Congress and by the press. Even the best judges of the course of future legislation were moved to declare that if any currency bill could pass Congress during the current session, this was the measure that would become a law, and this alone. As our readers are aware, we have held the opinion from an early period in the session, that the views of the conflicting parties were so inharmonious, and that the difficulties separating these parties were so obstinate and so incapable of solution, that little, if any, legislation of importance against the Resumption bill need be feared by one party or hoped for by the other. The unfriendly reception which Mr. Payne's bill met with on Monday when the House voted it down by 156 to 81 was unexpected. Easy as it is to be wise after the event, we meet with very few persons to whom so heavy a vote against a bill claiming to be so popular was not a surprise. Without attempting an exhaustive analysis of the causes of its defeat, for which we have neither space nor leisure, we may deduce one or two facts which it suggests to us. First of all, the bill attempted to conceal its true character by a misnomer. It purported to be a bill for resumption. Its real operation would not have been to aid resumption. This is plain from the very terms of the bill. Its first section directs the Secretary of the Treasury to set aside and retain in coin each year, until United States notes shall be appreciated to par with gold, an amount equal to three per cent of the outstanding legal tenders or legal tender notes, to be held as a resumption fund for the redemption of such legal tender notes, provided that such coin set aside and retained shall be counted as a part of the sinking fund. Here there is a serious change in the sinking fund legislation, but very little to aid resumption. Turning to the second section, we find that it requires all the National banks without exception to set aside, and retain from the coin received by them as interest on the bonds deposited as security for their circulation an amount equal to three per cent of their circulation, such coin to be counted as a part of their legal money reserve. Here we have an attack on an important part of our financial system. This time the assault is made on the National banks, which cannot without danger be interfered with in the management of their business by vexatious new legislation. It is the part of good statesmanship to strengthen the banks in the present crisis, and not to weaken or embarrass them by the capricious novelties of experimental legislation and doubtful finance. To do otherwise is to impede the resumption of specie payments by the most effective of all possible means, the weakening of the banks, which are the financial instruments through whose agency in part the country will make the transition to specie payments. It is impossible to deny that the last section of the bill is in the completest harmony with the previous two sections. Having raised obstacles to resumption, the bill in its third section repeals so much of the Resumption Act of January 14, 1875, as provides for the redemption of legal

tender notes to the amount of 80 per cent of the National bank notes in circulation, and as much as provides for the redemption of legal tender notes in coin after January, 1879. This, then, is the first point we deduce from the decisive action of Congress on this bill. They will not be induced to vote for a bill which, under pretext of achieving a given result, would practically operate in an opposite direction. It is this growing intelligence and practical familiarity on the part of many members of Congress with the complicated and delicate nature of the currency machinery which renders them incapable of being misled by bills which, like the one under consideration, ostensibly aim at one goal, but would steer the financial barque in some opposite course.

Another hopeful feature which accompanies this growing intelligence, in and out of Congress, in regard to financial questions, is a more earnest and conservative principle of responsibility. How far this principle is quickened by the approach of the Presidential election we need not here inquire. When the Legal Tender Act was passed in 1862 its most vehement enemies opposed it partly on the ground that it would introduce currency issues into Congress, and that as compared with despotic oligarchies our simple form of government offers fewer guarantees for administrative reform, or for exacting responsibility from those among us who make and execute the laws. Hence the door would be opened, so it was argued, to corruption and malfeasance, to defalcations in high places, and perhaps to National bankruptcy. In some of these arguments there was too much of truth; and at this day they read almost like a history of what has since been so conspicuously set before the whole world. We must admit that in one respect these evil prognostications have failed; and, as we all hope, they will always fail. They over-estimated the dangers on which we were advancing; or, if this is too much to affirm, they at least undervalued the elasticity and recuperative strength of our free institutions. It is often cited by thoughtful men as one of the many hopeful signs of the times that, throughout the whole Nation, the spirit is abroad of watchful, earnest responsibility about legislation. This responsibility is one of the educating forces by which republics grow and purify themselves. Perhaps our people are, many of them, in this respect, as in some others, in advance of their representatives in Congress. But, anyhow, the principle and the power of responsibility for legislation in finance is making evident progress among us, and it is destined to render legislation more and more conservative and cautious. So, at least, it appears to some of our shrewdest observers; and on this belief we have hitherto rested the expectation of few fiscal reforms in the immediate future.

A third inference from the action of the House of Representatives on the Payne bill is the waning power of the powerful clique, or lobby, which was so active in Washington a year ago and for several winters before. These busy gentlemen seem to have almost wholly disappeared, and such of them as remain have betaken themselves, it is hoped, to less mischievous pursuits. With these lobbyists have vanished those plausible theories of the currency with which they used to amuse themselves, mystify the public, and beguile their followers. These inflationist theories have been so often and so sternly refuted by the logic of events, and there is such an active mass of forces urging our financial barque in the direction of specie payments, that it would seem as if our resumption act of 1875, like that of 1819 in England, may bring about the restoration of specie payments without the disruption of confidence and the disturbance of business that were predicted, the transition being easily and with wholesome tranquillity consummated a year or two before the time appointed by law. Such is the belief which seems to spread in the financial circles more extensively now than a short time ago. If this sanguine view is not destined to be fully realized, it at least influences public opinion, so far as it prevails, to acquiesce in the conclusion which seems more and more probable that no new resumption legislation of importance is at present to be expected.

## ARE LEGAL TENDERS A LEGAL TENDER?

No inquiry can be more important than that which relates to or questions the "legal-tender" quality of our currency. And yet, every lawyer who examines the legal points involved will at least find very serious doubts arising whether any of the new issues of legal tenders which have been put out, carry with them such a function. We raised this inquiry some time since; and it will be remembered that Mr. Spaulding, in his introduction to the history of greenbacks, expressed the same doubt. To-day we publish in another column the views of Mr. Edward Atkinson, reaching a similar result, and, by inference, concluding that very little of our present currency is legal tender. His argument will bear close reading and furnish good subject for thought. As we all know, he is not a lawyer, and therefore his "brief" is, perhaps, unconventional; but that is of little moment so long as his points are well taken.

We must remember that the question decided by our Supreme Court was only with regard to the issues of United States notes during the war, under the acts of 1862 and 1863. That Court simply held that during such a strife, in which the existence of the Nation was at issue and in its great extremity, the power to make a piece of paper a legal tender did exist. Such was the question, and the only question, before the Court. But now, while in a condition of profound peace, when the revenues are more than sufficient to meet our expenses, when no possible public necessity can be pleaded, we find new issues put out under a new law. Does the Constitution furnish any basis for extending to them the legal-tender feature?

The evident reply made to this will be that they are simply re-issues, and therefore they are the same old notes. This is the view the Government takes; and, therefore, in putting out the currency, they have printed on it "Issue of 1874" or "Issue of 1875" in one place and in another place are the words "Act of March 3, 1863," thus striving to connect present issues with the original law. But to make this claim good, several weak points require investigation, an adverse decision upon any of which would unfortunately appear to be fatal to the claim made. One or two features of the case which Mr. Atkinson has not brought out may be advantageously noticed.

And first, how does the law stand on this subject to-day? That is, what are the existing statutes, and when were they passed? Turning to the Revised Statutes, page 1,091, sec. 5,596, we find the following: "*All acts* "of Congress passed prior to said first day of December, "one thousand eight hundred and seventy-three, *any por-* "*tion* of which is embraced in any section of said revision, "are hereby repealed etc." This would seem to be plain. Probably Congress did not consider the effect of what it was doing. But is it not clear that this section wipes out of existence every portion of the act of 1863, since portions of it are embraced in several sections of said

revision? We are not arguing that the repeal affected any notes then (1873) outstanding, and which still remain out, but prefer at the present time to confine our remarks to the issues of 1874 and 1875. These were all put out after the Revised Statutes were approved June 22, 1874. The conclusion would seem to be forced upon us, therefore, that they must be issued under the law passed in 1874. Our Government sees the pit that is before them, and tries to bridge it by printing on each note the words "Act of March 3, 1863." But the fact remains unchanged—that Act is repealed *in toto* as we have seen, and has no more life than an Egyptian mummy. Thus, then, has passed out of existence the war legal-tender enactment, and all authority under that law to clothe notes with the legal-tender quality is at an end. Some may think they see a way of escape from this conclusion by claiming that the statutes of 1874 were simply a revision, and therefore will be construed as a continuation of the old act. There might possibly be some plausibility in this suggestion, if it were not for the broad repealing clause we have quoted, which repeals the old act—not even attempting to continue any part of it—but enacts a new law in "lieu thereof." And, to make the intention more certain, the law-makers, in the subsequent portion of this repealing sentence (sec. 5596), give their reason, in the following words, for inserting so sweeping a repeal: "all parts "of such acts not contained in such revision, having "been repealed or suspended by subsequent acts, or "not being general or permanent in their nature." By this we are to understand that they did not consider the balance of the act of any "permanent" value, and therefore, after saving in the revision what was wanted, they inserted the general repealing clause of "All acts," etc. Words could scarcely be plainer. And thus we are brought back to the real question—whether Congress in 1874, nine years after the war was ended, when the Treasury was overflowing, when no public exigency called for it, could under our Constitution pass an act making bits of paper legal dollars? This is a proposition our Court has never passed upon, and if we may take the opinions delivered by the Judges in the cases decided as indicating the grounds upon which they rested their judgment, they never will hold that any authority exists in the Constitution for the present enactment.

But let us go one step further. The act of 1863 has been repealed. Hence, the power to make new notes and call them re-issues of those of 1863, if it ever existed at all, has passed away. Whenever those 1863 issues, therefore, come into the Treasury, and are destroyed and replaced by others, their life has ended. They are a creature of a statute which now has no existence. The question whether the simple payment into the Treasury closes their career we do not raise here, for we are arguing simply with regard to the re-issues of 1874 and 1875. So far as those issues are concerned, they cannot be a renewal of the notes of 1863. Those notes have been destroyed. The statute under which they were made has been destroyed. They must, therefore, be new issues under some other existing statute, and not re-issues under a dead statute. The Revised Statutes say (secs. 3,579 and 3,580) that re-issues may be made; but those provisions are inoperative, because, we repeat, after you have once destroyed the note of 1863 there is no statute of 1863 under which to make a new note. Consequently, these so-called re-issues of 1874 and 1875 are *original* or new issues of notes. And where can you find any authority in our Revised Statutes for such a new issue? We are waiving the question for the present whether Congress has the power under the Constitution to grant such authority. What we say is, it has not even attempted to grant it. There is no statute in existence to-day which authorizes a new issue of legal-tender notes. This point, then, seems quite clear, and we do not perceive any way of avoiding the conclusion.

Look at the question from another point of view. What we have already said is based upon the repealing act of the revised statutes. Yet this is only one feature of the case—one of the weak spots in the structure which supports the legal tenders; and we have dwelt upon it at considerable length, simply because no one has ever referred to it before. But there is an equally strong argument based on the note itself, and entirely disconnected from the repealing act; and that is, that on the very face of the note, all of these re-issues show they are not re-issues of a previous note—they are not the old contract extended, but a totally new contract. They differ, in almost every particular, from the parent note—in number, date, paper, general appearance, and (as if that were not enough) they are even stated to be an issue made in 1869, or 1874, or 1875. The only marks that connect them with the old contract are the words "Act of March 3, 1863," reminding one strongly of the boy's lion in the primer, under which he had to write "lion," lest no one would recognize it. In some such quandary our officials must have been when they placed those words on their new bantling. It is not the instrument, the agreement, the contract, or whatever you may call it, made during the war, and has not, therefore, the war and its necessities to justify it.

We might notice other facts bearing upon the general subject, but prefer at this time simply to refer our readers to Mr. Atkinson's suggestive communication. Should not steps be immediately taken to bring this question before the United States Court?

## THE NEW YORK LEGISLATURE AND THE REPEAL OF THE MORTGAGE TAX.

Besides the reform of the usury laws, there are several fiscal abuses which the Legislature of this State should not fail to dispose of before the close of this year's session. One of the most important of these is the tax on mortgages, which, as we have often demonstrated, is not only a double tax, and on that account ought not to be allowed to continue, but it is also mischievous in a multitude of ways to the best interests of the country, and in the present depressed state of business it operates as a check to recuperation. In the report of the State Assessors, which has lately been published, the validity of the arguments against this tax is recognized, and a remedy is suggested. The Assessors, in discussing the subject, say: "We learn from the resolutions of the Chamber of Commerce, from petitions to the Legislature, and from the opinions of the press and of individuals of large influence in financial circles, that the people of New York desire that all bonds and mortgages should be exempt from taxation. We would suggest that the Legislature allow the experiment to be made *in that city*, as the belief there seems to be almost universal that such exemption would be the means of increasing the improvements on real estate in all portions of the city, and of causing many large capitalists, who have sought homes elsewhere, to return again." It is gratifying to find this official recognition of the evil which the CHRONICLE has so long opposed, and which is assuredly destined to pass away before long, even should the present Legislature refuse to do its duty, which we are

unwilling to believe. For obvious reasons, however, the remedy proposed by the Tax Assessors is altogether inadequate. They would exempt from taxation mortgages of property in this city alone, while leaving those outside of the city subject to the fiscal exaction as at present. But one of the chief arguments against the tax is that its repeal would relieve our farmers from the burden of an unpopular, mischievous and indefensible tax, which takes far more money out of their pockets than it puts into the State Treasury. If the farmers of the interior of the State cannot partake of the benefit of the repeal, this wholesome reform would lose many of its advantages. Moreover, it is alleged that, except we can enlist in favor of the measure the votes of the country members of the Legislature, no bill proposed for that purpose can be passed. However this may be, the benefits of the exemption of mortgages from taxation ought to be extended to the whole of the State, so that one impartial rule should govern all.

There are two general reasons commonly urged against the mortgage tax. First, that it is wrong in principle, and, secondly, that if right in principle it is inexpedient as a part of the fiscal policy of any enlightened nation. Both these objections receive considerable force from the decision of the Supreme Court of California in the case of "The People *vs.* Savings and Loan Society." The opinion of the Court was given by Mr. Justice McKinsley, Judge Niles concurring. Concurrent opinions were filed by Chief Justice Wallace and Mr. Justice Crockett. Judge Rhodes dissented without filing an opinion. Thus the Court, by a majority of four against one, decided that the taxation of mortgages is illegal and unconstitutional. It is scarcely possible to over-rate the practical value of this important decision, or the aid it is likely to afford in the war against the taxation of mortgages in this State and elsewhere. Still, we find that the decision is in some quarters misunderstood. For example, an intelligent correspondent, a large owner of real estate in this city, asks us whether this decision is not capable of being cited as a precedent of some binding force in our New York courts. Now, it is a sufficient answer to all such inquiries that the decision in question was pronounced in the Supreme Court of the State of California, and that, although it denies, on certain grounds, the validity of mortgage taxation, its binding force cannot extend beyond the boundaries of the State of California; and yet, so far as the points discussed are applicable, the opinions delivered would have influence in the courts of every State.

In California, as in other States, the revenue of the State Government is derived from a tax on property, both real and personal. The State Constitution declares (Art. XI., Sec. 13) that, "Taxation shall be equal and uniform throughout the State," and that "all property in the State shall be taxed in proportion to its value, to be ascertained as directed by law." There is no specific law which singles out mortgages by name and declares that they shall be taxed. The Code of the State declares that "all property shall be taxed," and there is a provision in Section 17 which defines personal property as "money, goods, chattels, evidences of debt, and things in action." From these facts the Court infer that, unless the Constitution, as above quoted, restrains or limits the power of the Legislature, so as to prohibit the taxation of "evidences of debt and things in action," the tax assessors ought to include in their annual lists, and burden with State taxation, "not only mortgages, but all debts, 'solvent' or not solvent, and also all rights of action, whether arising *ex contractu* or *ex delicto*." To demonstrate this rigid interpretation, the Court offer the following argument:

> First, it is the established law that all property must be taxed, and the Legislature has no power to exempt any property, and, second, the Legislature has declared that all property shall be taxed, and attempted to include in the definition of property all choses in action. But to declare that it is the duty of the assessor to assess all "things in action," is to give a construction to the Constitution which must lead to the grossest absurdities. The Constitution in its application to the various departments of the Government, and to individual rights, must receive such a construction as to give it a practical operation. There would be a contradiction in the single section of the Constitution, if it were construed as requiring that all property should be taxed equally and uniformly with reference to its value, and that the word property includes those things practically incapable of an appraisement bearing any definite relation or proportion to other things or property. That causes of action are dependent on too many contingencies to be capable of appraisement which shall accord with any rule of equality or uniformity of value, is too plain for argument. All property which is visible and tangible is capable of such assessment; choses in action are not. The word "property" has been used in our language in several senses; but in the case in hand we cannot be limited to the meaning given it by the Code, but may also—and such is our duty—look for its meaning in the Constitution. The Constitution provides that no property, as property, shall be taxed, except such as is capable of a valuation by the assessors, which shall be ratably equal and uniform with that affixed to all other property. * * *
>
> It is property in possession or enjoyment, and not merely in right, which must ultimately pay every tax. The Legislature may declare that a cause of action shall be taxed, but a cause of action cannot pay the tax; and this because it has, and can have, no value independent of the tangible wealth out of which it may be satisfied. In a certain sense a promissory note or any credit is property. Whether "solvent," as the term is ordinarily employed, or not, it may be assigned for value; it would be difficult, however, to explain why a note discounted at 20 per cent would be less appropriately called "property" than one sold at par. In any case, a credit has no value other than the value it has acquired by reason of the probability that the property, having present actual value, upon which a tax is levied and collected, will be applied to the satisfaction of the claim it represents. He who has the property in possession must be taxed on its value, and the value once taxed cannot be retaxed without a violation of the Constitutional provision that each value shall be taxed proportionately to the sum of all the values. The sovereign power of the people in employing the prerogative of taxation regards, not the claims of individuals on individuals, but deals with the aggregate wealth of all; that which is supposed to be unlimited is here limited by an inexorable law which parliaments cannot set aside, for it is only to the actual wealth that governments can resort, and, that exhausted, they have no other property resource.

After illustrating these views, by a reference to several previous decisions, the Court deduce the conclusion that, under the Constitution of California, a credit document or claim like a bond and mortgage cannot be taxed at all, inasmuch as it "has no independent value, and therefore cannot be taxed in proportion to such value," or as part of the aggregate wealth of the State, contemplated by the organic law of the State. It thus appears that the decision before us, while it offers abundant encouragement to those of us who have been working for the emancipation of mortgages from taxation in this State, does not encourage us to relax our endeavors to procure the needful legislation, or to cherish the expectation that somehow the California decision can be drawn into a precedent in some other State. The use we have to make of the luminous reasoning of the Supreme Court of California is to bring it to bear upon our legislators, who are, many of them, perplexed and imperfectly informed on this matter, earnestly desirous to do right towards their constituents and towards the State.

We observe that in some of the newspapers the opinion has been expressed that in the decision of this case the Court relied upon and were solely governed by one or both of the fundamental reasons, which, at the beginning of this article, we laid down as fatal to the mortgage tax. This is not a correct view of the case. It is true that our two arguments receive new force from the lucid exposition of the Court, but the decision turned wholly, as will be seen, upon the interpretation of the precise words of the Constitution. In proof of this, the Court expressly say that they "abstain

from any reference to the moral effects of a species of legislation which ordinarily transfers the burden or taxation from the lender to the borrower, and encourages misrepresentation and perjury by permitting the collection of a tax to depend upon the oath of the creditor, based on his opinion of the solvency of his debtors. The case should be decided by reference to the power of the Legislature under the Constitution. 'Credits' are not 'property' subject to taxation within the meaning of the section of the Constitution above quoted."

These important aspects of the mortgage tax were, however, discussed in the concurrent opinions of Judge Crockett and of Chief Justice Wallace. The former declares that to tax mortgages is to inflict double taxation. This opinion, as our readers will remember, Mr. Justice Crockett expounded in the case of "Savings and Loan Society *vs.* Austin," 46, Cal., 415, on which we offered a few remarks some time ago. He contended, in that case as in the present, that the tax contemplated in the Constitution and the Code "had been paid by the mortgagors and could not be again collected from the mortgagee." These considerations are reinforced by the further argument of Chief Justice Wallace that a tax on credits, not only puts a double burden of taxation on somebody, but that this burden falls on the very persons who are least able to bear it. "All human experience, as well as the settled theories of finance, concur, that it is not the lender who pays—but the borrower. The borrower is the consumer. The interest which he pays to the lender is the prime cost of the delay for which he has contracted. If the Government, by the imposition of additional taxes, increase the cost, the borrower, being the consumer, must pay it. The truth of this proposition is indeed so generally recognized that it is not unusual to insert, in the instrument by which the repayment of the loan is secured, a distinct covenant upon the part of the borrower to refund to the lender all taxes which the latter may be compelled to pay by reason of the loan; and even where the covenant is omitted, the lender is doubtless fully protected at the expense of the borrower by the exaction of an increased rate of interest upon the loan. To hold, therefore, that 'credits' constitute 'property' within the intent of the thirteenth section of the eleventh article of the Constitution would be to attribute a meaning to the word property, as there used, which would not promote, but would utterly defeat the uniformity of property taxation, in this State, which it was the principal purpose of that section to secure." It is to be regretted that the sole dissenting Judge did not think it worth while to state the grounds of his dissent. Whether those reasons were not of sufficient general interest or whether the learned Judge was deterred by some other motive does not appear. What is certain is, that, in all the States of the Union, the law is rising to a more enlightened, scientific and solid basis in regard to mortgage taxation. It is to be desired that our New York Legislature should lose no time in passing the repealing act. It is the wish of the people that mortgages should be exempt from tax burdens, not only in this city, but throughout the whole of the State.

## A LAYMAN'S LEGAL-TENDER BRIEF.

In writing the following, Mr. Atkinson appears to have overlooked the repealing sections of the Revised Statutes, or to have considered that only the sections of the act of 1863 which are revised now, were repealed. We have stated our views on this point in a previous article, and make this statement simply to explain the first portions of this "Brief."

BOSTON, March 20, 1876.

*First.* The notes which now circulate as legal tender are technically known as "United States notes."

*Second.* Certain "Treasury" notes were also issued, in 1862 and 1863, bearing interest, which were made a legal tender for their face value, but they have been retired.

*Third.* These notes were originally issued under the acts of 1862 and 1863, and sundry re-issues have since been made, notably the series of 1869, 1874, and 1875. Are all the notes, now outstanding, under authority of the act of 1863, whenever issued or re-issued?

*Fourth.* A United States note is a promise to pay dollars, and the dollar is defined by law to be a coin; therefore, the authority to issue them is authority to promise to pay coined dollars.

*Fifth.* The original acts gave authority to re-issue, but it is a question whether this authority to re-issue first applied to any notes except those which were paid back into the Treasury for bonds bearing interest. It is not denied that an intention to permit such notes to be re-issued may be implied from the terms of the acts.

*Sixth.* Whatever doubt may have existed as to the question of a *re*-issue of the notes as simple promises to pay dollars before the revision of the statutes, all doubt is removed by such revision. Section 3,579 of Revised Statutes provides "When any United States notes are returned, they may be re-issued from time to time, as the exigencies of the public interest may require," and other provisions of the same act warrant a change in the date, style and signature of such United States notes or promises to pay dollars.

*Seventh.* The portion of the acts of 1862 and 1863 granting authority to *issue* such United States notes is not revised in the act of 1874, and is, therefore, in force. The revision of the statutes only touches the question of any issue in respect to *re*-issue.

*Eighth.* The original acts of 1862 and '63 further provided that such United States notes should be legal tender, and receivable for taxes and dues. This portion of the acts *has been* revised, and the following paragraph (3,588) now constitutes the law: "United States notes shall be lawful money and a legal tender in payment of all debts, public and private, within the United States, except for duties upon imports and interest upon the public debt." This statute now stands "in lieu" of all acts and parts of acts relating to legal tender. The District Court in Oregon lately held that the Revised Statutes "*superseded*" all previous acts.

*Ninth.* The Revised Statutes of 1874 do not provide for an original issue of United States notes, but only for re-issue of notes already existing.

*Tenth.* United States notes are now in circulation inscribed "Series of 1875," "Act of 1863." Such notes cannot be an issue of notes under the act of 1874, because that act does not provide for such an issue, neither could authority be given in a general way for such issue, because an original issue must be either a borrowing of substance or service and therefore an increase of the public debt, which would require a specific act of Congress; or, if issued in exchange for bonds bearing interest, such issue would be beyond the sum of $382,000,000, to which the total amount of U. S. notes has been limited as a maximum, which maximum has since been reduced by the provisions of the Resumption act.

*Eleventh.* It follows that notes of the series of 1875, if authorized at all, must be only as re-issues of notes originally authorized by the act of 1863, as they so declare themselves upon their face. As such re-issues, they are doubtless valid promises to pay dollars, and the obligation to pay is binding.

*Twelfth.* But since they are notes authorized to be issued under the act of 1863, they carry with them when re-issued under the act of 1874 only such portions of the act of 1863 as are unrepealed, and they do not carry with them the portions of the acts of 1863 that have been revised, since the Revised Statutes of 1874 now stand in lieu thereof.

*Thirteenth.* The notes of the series of 1863 re-issued in 1875, therefore, find their warrant only in two sections of the law, to wit, the paragraph of the act of 1863, by which their issue is authorized, and the paragraph of the act of 1874, by which their re-issue is authorized.

*Fourteenth.* If simply re-issues in 1875 under the act of 1863, can they carry with them any force of the act of 1863 except the unrepealed portion? Can any other provision of the act of 1874

to wit, the legal tender clause of 1874, be imparted into the re-issued note of 1863, and made a part of the contract?

*Fifteenth.* The note is a *re*-issued note, existing by virtue of the act of 1863; as such it may be said it is a United States note. Does the general provision of section 3,588 of the Revised Statutes impart to this re-issued note the function of legal tender? That section reads, "United States notes shall be lawful money and legal tender," &c.

*Sixteenth.* Can the provisions of the act of 1874 be applied to notes which were not in existence in 1874? When the act of 1874 was passed, the notes of 1863, of which the series of 1875 constitute a re-issue, were a legal tender by force of the act of 1863, and as United States notes *then in existence;* paragraph 3,588 covered them, and as such United States notes constituted them a legal tender. Does the force of paragraph 3,588 extend to and cover the re-issue of 1875?

*Seventeenth.* This brings us back to the question, is the re-issue of any note a continuation in substance of the borrowing which was made by the original issue, or is each so-called re-issue a new borrowing and a new transaction? Is it material whether the same paper, date and signature are used or not? Is not each re-issue, whether the same note is used or not, *in substance* a *new* act, a *new* borrowing, a *new* debt?

*Eighteenth.* Can the note returned to the Treasury, the return of which furnished the only authority for *re*-issue, be anything but *functus officio?* Is a re-issue evidence of anything but a new borrowing? If so, might not the Secretary of the Treasury at any time re-issue any of the 5-20 or 1881 bonds which he has purchased in reduction of the debt, on the plea that such a re-issue was only a continuation of the old loan.

*Nineteenth.* The question reverts to its original form, to wit: Is the note of the series of 1875, re-issued under the act of 1863, the actual note which was made a legal tender note by that act of 1863, and, if so, does it continue to be a legal tender under the act of 1874? Is it the same note that the Supreme Court has passed upon? Or is it a new note, representing a new transaction and a new borrowing, and can it be continued a legal tender under a legal tender act passed since the decision of the Court and in a time of profound peace, such act being unwarranted by the necessity of war or even of deficiency of revenue?

*Twentieth.* If the note of the series of 1875 is declared to be a legal tender, then the Revised Statutes of 1874, which supersedes the act of 1863, has this effect: it repeals the act of 1863 as to legal tenders, then re-imparts this function to existing notes; and, further, continues to impart it to a new series of a subsequent date, even if the new series represents a new borrowing.

*Twenty-first.* It is clear that, if United States notes are legal tender at all, the notes obtain that force from the Revised Statutes of 1874, and not from the act of 1863. Can it not be held that the Revised Statutes of 1874, making United States notes a legal tender, is unconstitutional? also, that the legal tender section does not cover the re-issued note?

*Finally,* may it not be held that a United States note, bought by the Treasury upon a sale of gold, is simply a note paid at a discount? When such note is paid, is it not dead? Is not its re-issue, or the re-issue of another note of the same amount in place of it, a new borrowing upon a new obligation, in support of which there is no specific act of Congress?

The above questions are respectfully submitted for the consideration of gentlemen who are learned in the law. It is hoped that it may not be considered presumptuous for one who is not of the fraternity to ask them.

EDWARD ATKINSON.

---

—Messrs. A. M. Kidder & Co., of 4 Wall street, offer for sale $100,000 of the city of Logansport, Ind., 8 per cent. water loan bonds, due January 1st, 1896, but redeemable after ten years. The property value of Logansport is stated at $9,000,000; the population, 14,000; the entire indebtedness, including water loan bonds, $415,500.

—Mr. Huntington, of the Central Pacific, advertises that the April coupons of the land grant bonds will be paid by Messrs. Fisk & Hatch. He advertises that the April coupons of the Southern Pacific will be paid at the office of the Company, No 9 Nassau street. The San Joaquin coupons, April 1, will be paid by Messrs. Fisk & Hatch.

—Messrs. R. T. Wilson & Co., the financial agents of the Knoxville & Ohio Railroad Company, invite bids, for thirty days, for the purchase of five hundred thousand dollars of the 7 per cent. currency first mortgage bonds of the company, at their office in New York, No. 2 Exchange Court.

—The East Tennessee Virginia & Georgia Railroad Company has declared a semi-annual dividend of three per cent on the capital stock of the company, payable on and after April 1, at the office of R. T. Wilson & Co., 2 Exchange Court, New York.

[From our own correspondent.]

LONDON, Saturday, March 18, 1876.

The demand for money during the week has been far from active, but loans for short periods have been in request, in consequence of which, a tolerably firm tone has prevailed. Commercial bills, however, are still in very limited supply, the requirements of the mercantile community being exceedingly moderate, and it is expected that when the money now held by the Treasury is released early next month an easier state of things will exist, notwithstanding that the terms for discount accommodation are at a very reasonable figure. The money temporarily required this week has been in connection chiefly with the settlement in the Stock Exchange. Owing to the heavy fall which had taken place in securities, the account, which occupied the first three days of the week, has a tedious and anxious operation. As many as 21 failures were recorded, mostly amongst the smaller brokers and dealers; but it is satisfactory to notice that no firm of eminence has succumbed. The large speculative "bull" account, however, which had been opened, has now been closed, and a healthier state of things seems to exist; but the investing public are doing but little, as their power to make investments has been greatly curtailed of late, and hence the markets, especially for adverse operations, are very extensively in the hands of powerful cliques of speculators. Besides, people in general are not just now in a speculative frame of mind. They even seem averse to making speculative investments, for there are some stocks offering now which are certainly cheap, but which recover very slowly from the recent depression. The fact is that the public are alarmed at the recent failures, and the rapid fluctuations in the prices of securities, and are quite disinclined to operate. They wanted no discouragement, for the revelations before the Parliamentary Committee last session caused them to be very timid and to be very doubtful about all new, or even recent, enterprise. There seems, therefore, to be little prospect of money being actively employed for some time to come. Trade remains extremely quiet, and there is scarcely any fresh enterprise. It is but natural to conclude therefore, that as soon as the money now locked up is released, difficulty will be experienced in maintaining the existing rates of discount. The prices of money are now as follows:

| | Per cent. | | Per cent. |
|---|---|---|---|
| Bank rate..... | 4 | Open-market rates: | |
| Open-market rates: | | 4 months' bank bills..... | 3¾@3¾ |
| 30 and 60 days' bills..... | 3¾@3¾ | 6 months' bank bills..... | 3¾@3¾ |
| 3 months' bills..... | 3¾@3¾ | 4 and 6 months' trade bills. | 4 @4¼ |

The rates of interest allowed by the Joint-stock banks and discount houses for deposits remain as follows:

| | Per cent. |
|---|---|
| Joint-stock banks..... | 3 @... |
| Discount houses at call..... | 3 @... |
| Discount houses with 7 days' notice..... | 2¼@... |
| Discount houses with 14 days' notice... | 3¼@... |

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland cotton, of No. 40's Mule twist fair second quality, and the Bankers' Clearing House return, compared with the previous four years:

| | 1872. | 1873. | 1874. | 1875. | 1876. |
|---|---|---|---|---|---|
| | £ | £ | £ | £ | £ |
| Circulation, including bank post bills | 24,618,060 | 25,009,113 | 25,457,344 | 25,859,288 | 26,636,186 |
| Public deposits | 13,039,847 | 16,338,588 | 10,100,202 | 8,089,214 | 10,013,667 |
| Other deposits | 18,362,220 | 18,686,200 | 17,385,237 | 17,902,450 | 19,694,617 |
| Government securities | 13,963,441 | 13,865,532 | 13,812,524 | 13,603,887 | 13,853,215 |
| Other securities | 22,852,327 | 25,169,123 | 19,310,684 | 20,374,512 | 21,805,854 |
| Reserve of notes and coin | 13,768,304 | 15,218,153 | 13,062,051 | 10,588,091 | 12,603,915 |
| Coin and bullion in both departments | 23,013,814 | 24,831,218 | 23,170,821 | 21,131,104 | 23,937,465 |
| Bank-rate | 3 p. c. | 3½ p. c. | 3½ p. c. | 3½ p. c. | 4 p. c. |
| Consols | 92⅞ | 92⅞ | 92¼ | 93¼ | 91⅞d. |
| English wheat | 55s. 6d. | 55s. 4d. | 60s. 8d. | 41s. 4d. | 43s. 3d. |
| Mid. Uplandcotton | 10 5-16d. | 9½d. | 8¼d. | 7⅞d. | 6 7-16d. |
| No.40 mule yarnfair 2d quality | 1s. 4d. | 1s. 3d. | 1s. ⅞d. | 1s. 0d. | 11¼d. |
| Clearing House return | 126,451,000 | 134,106,000 | 129,891,000 | 135,385,000 | 116,419,000 |

The following are the rates of money at leading cities abroad:

| | Bank rate. | Open market. | | Bank rate. | Open market. |
|---|---|---|---|---|---|
| | per cent. | per cent. | | per cent. | per cent. |
| Paris | 4 | 2½@3⅛ | Brussels | 3 | 3 |
| Amsterdam | 3 | 2¾@3 | Turin, Florence and Rome | 5 | 4½ |
| Hamburg | ... | 2½@3 | Leipzig | 4 | 4 |
| Berlin | 4 | 2¾@3 | Genoa | 5 | 4½ |
| Frankfort | 4 | 2¾@3 | Geneva | ... | 3½ |
| Viennaand Trieste | 4½ | 4 | New York | .... | 5@6 |
| Madrid, Cadiz and Barcelona | 6 | 6@8 | Calcutta | 9 | .... |
| Lisbon and Oporto | 4 | 3½ | Copenhagen | 5 | 5 |
| St. Petersburg | 6½ | 5¾@6½ | Constantinople | .... | .... |

The Bank return is rather more favorable, the proportion of reserve to liabilities being nearly 42 per cent. The Treasury balance is now diminishing, owing to the disbursements which have to be made in connection with the public service, but the total reserve amounts to £12,603,915, against £10,588,064; and the stock of bullion to £23,937,465, against £21,131,104 last year.

The supplies of silver offering have been very moderate, and the price of fine bars has risen to 54¼d. per ounce. The market is decidedly firmer in tone, and the steamer for India and China has taken out a further sum of £106,400. The sum of £500,000 in India Council bills was offered at public tender at the Bank of England on Wednesday, but only £30,000 was allotted, viz.: £10,000 on Calcutta and £20,000 on Bombay. Applications at 1s. 9d. the rupee were entertained in full. At the previous sale, which was on the 19th January, the price for bills on Calcutta was 1s. 9 3-16d., and on Bombay, 1s. 9¼d. In gold the movements have not been important. The demand, however, is considered to be sufficiently active to absorb our importations, but the Bank is gaining moderate supplies, owing to the return of coin from provincial circulation. The prices of bullion are as follows:

| GOLD. | s. | d. | | s. | d. |
|---|---|---|---|---|---|
| Bar Gold, per oz. standard | 77 | 9 | @ | ... | |
| Bar Gold, fine, per oz. standard | 77 | 9 | @ | .... | |
| Bar Gold, refinable, per oz. standard | 77 | 11 | @ | .... | |
| Spanish Doubloons, per oz. | 74 | 6 | @ | .... | |
| South American Doubloons, per oz. | 73 | 9 | @ | 74 | 0 |
| United States Gold Coin, per oz. | 76 | 3½ | @ | .... | |
| German Gold Coin, per oz. | 76 | 3½ | @ | .... | |
| **SILVER.** | | **d.** | | | **d.** |
| Bar Silver, Fine, per oz. standard | | 54¼ | @ | .... | |

| Spanish Dollars (Carolus), per oz. none here. | | ... | @ | .... | |
| Five Franc Pieces, per oz. | | .... | @ | .... | |

Quicksilver, £10 per bottle. Discount, 3 per cent.

The weather has been very boisterous during the week, and not so much progress has been made with spring sowing as could have been desired. Although a considerable quantity of rain and snow has fallen, the winds have had a very drying influence, but there are complaints from the lowlands that there is excessive moisture, and that agricultural work is, in consequence, much impeded. The trade for wheat during the week, though wanting in animation, has been firmer in tone, and choice qualities of produce have realized an improvement of about 1s per quarter. The supplies of home-grown wheat are falling off, and our importations of foreign produce are not only on a small scale, but promise to be below our requirements during the next few weeks. It is evident, therefore, that a considerable inroad must now be made into our stocks of grain, as the deliveries of home-grown produce are very considerably below our requirements. The Continental markets are firm for the better qualities of produce, and prices have an upward tendency.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest—viz., from September 1 to the close of the week, compared with the corresponding periods in the three previous years:

| IMPORTS. | 1875-6. | 1874-5. | 1873-4. | 1872-3. |
|---|---|---|---|---|
| Wheat cwt. | 31,913,283 | 20,012,946 | 24,755,547 | 27,272,529 |
| Barley | 5,499,420 | 8,921,024 | 5,276,925 | 9,714,430 |
| Oats | 5,077,794 | 4,679,054 | 5,406,725 | 5,299,367 |
| Peas | 914,017 | 986,390 | 511,543 | 756,612 |
| Beans | 2,088,192 | 1,256,853 | 2,725,438 | 1,502,306 |
| Indian Corn | 11,687,552 | 7,586,756 | 8,462,209 | 12,077,324 |
| Flour | 3,725,724 | 4,008,183 | 3,716,829 | 4,029,824 |
| **EXPORTS.** | | | | |
| Wheat cwt. | 122,200 | 159,452 | 1,500,951 | 122,223 |
| Barley | 16,206 | 153,580 | 201,710 | 7,808 |
| Oats | 156,990 | 36,928 | 69,438 | 9,703 |
| Peas | 17,863 | 14,513 | 8,769 | 5,071 |
| Beans | 4,915 | 1,138 | 2,225 | 932 |
| Indian Corn | 25,624 | 33,227 | 88,716 | 16,701 |
| Flour | 12,125 | 33,596 | 90,843 | 12,587 |

The sales of wheat in the 150 principal markets of England, during the week ending March 11, amounted to 36,677 quarters, against 38,920 quarters in the previous week, and 60,719 quarters in the corresponding week of last year. It is computed that in the whole Kingdom they amounted to 146,700 quarters, against 243,000 quarters in 1875. Since harvest, the sales in the 150 principal markets have amounted to 1,282,527 quarters, against 1,690,912 quarters, and in the whole Kingdom to 5,130,100 qrs., against 6,763,700 qrs. in 1874-5. The deficiency amounts therefore to 1,633,600 quarters. Since harvest, the following quantities of wheat and flour have been placed upon the British markets:

| | 1875-6. | 1874-5. | 1873-4. | 1872-3. |
|---|---|---|---|---|
| | cwt. | cwt. | cwt. | cwt. |
| Imports of wheat since harvest | 31,913,283 | 20,012,946 | 24,755,547 | 27,272,529 |
| Imports of flour since harvest | 3,725,724 | 4,008,183 | 3,716,829 | 4,029,824 |
| Sales of English wheat | 23,085,500 | 30,436,500 | 26,687,500 | 26,791,300 |
| Total | 58,724,507 | 54,457,629 | 55,159,876 | 58,093,653 |
| Deduct exports of wheat and flour | 134,325 | 198,048 | 1,591,596 | 134,760 |
| Result | 58,590,182 | 54,259,581 | 53,568,280 | 57,961,893 |
| Average price of English wheat for the season | 48s. 1d. | 41s. 2d. | 61s. 1d. | 57s. 0d. |

The stock markets were much depressed in the early part of the week, owing to the failures which were taking place and the inevitable closing of accounts. Latterly, however, a better feeling has prevailed, and a moderate recovery has taken place. The principal adverse feature during the last few days has been a marked relapse in Turkish stocks, caused by apprehensions that much difficulty will be experienced in obtaining the funds for the payment of the next coupons. Erie Railroad securities have attracted more attention, and the ordinary shares at one period of the week were quoted at 20@20¼. The following are the closing prices of consols and the principal American securities at to-day's market, compared with those of Saturday last:

| | Redm. | March 18. | March 11. |

# Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a decrease in both dry goods and general merchandise. The total imports amount to $5,610,582 this week, against $8,314,247 last week, and $5,408,848 the previous week. The exports amount to $4,449,173 this week, against $4,410,423 last week and $3,835,594 the previous week. The exports of cotton the past week were 6,164 bales, against 6,082 bales last week. The following are the imports at New York for week ending (for dry goods) Mch. 23, and for the week ending (for general merchandise) March 24:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

| | 1873. | 1874. | 1875. | 1876. |
|---|---|---|---|---|
| Dry goods | $3,531,657 | $2,587,487 | $1,958,049 | $2,027,327 |
| General merchandise | 10,352,941 | 9,844,449 | 5,168,980 | 3,583,255 |
| Total for the week | $13,884,598 | $12,431,936 | $7,127,029 | $5,610,582 |
| Previously reported | 99,147,942 | 88,112,651 | 82,001,671 | 74,187,632 |
| Since Jan. 1 | $113,332,540 | $100,544,587 | $89,131,700 | $79,798,214 |

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports, for the week ending March 28:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1873. | 1874. | 1875. | 1876. |
|---|---|---|---|---|
| For the week | $5,361,289 | $6,047,908 | $4,170,039 | $4,449,173 |
| Previously reported | 59,026,609 | 62,914,982 | 53,835,021 | 55,621,776 |
| Since Jan. 1 | $64,387,898 | $68,962,950 | $58,005,060 | $60,070,994 |

The following will show the exports of specie from the port of New York for the week ending March 25, 1876, and since the beginning of the year, with a comparison for the corresponding date in previous years:

| | | | |
|---|---|---|---|
| Mch. 21—Str. City of Montreal | Liverpool | Silver bars | $26,000 |
| Mch. 21—Str. City of Havana | Havana | American gold | 10,000 |
| | | Spanish gold | 174,395 |
| Mch. 22—Str. Abyssinia | Liverpool | American gold | 250,000 |
| Mch. 23—Str. City of Vera Cruz | Havana | American gold | 100,000 |
| | | American silver coin | 10,500 |

| 1871 | 2,777,007 | | |

**Rockford Rock Island & St. Louis.**—A telegram from H. Osterberg, received last week, in Davenport, Ia., stated that a meeting of the owners of the road had been held, at which his transactions as agent were approved, and he was authorized to build the Rockford road to Rockford, and money sufficient to do it was voted.

**Tennessee & Pacific.**—The Tennessee Board of Railroad Commissioners have resolved to sell this road at public sale in Nashville, Tenn., May 8. The sale is in consequence of the failure of the present company to pay instalments of the money due on its purchase of the property from the State. The balance due is $124,210, payable in State bonds.

—In noticing the arrangement of the Missouri Kansas & Texas Railway last week, it should have been said that the Advisory Board would consist of five members, appointed by bondholders, creditors, and directors, and two appointed by the Trust Company.

—The sale under foreclosure of 1st mortgage bonds of the New York and Oswego Midland Railroad Company, Western Extension, is postponed to April 25, 1876. D. Ira Baker, Referee.

—The Boston (30-year 5 per cent gold) water loan of $552,000 was awarded to Messrs. Brewster, Bassett & Co., bankers, of that city, at 110.57.

—The interest on the 8 per cent currency bonds of the Houston & Texas Central Railway is paid April 1 at the National City Bank.

## BANKING AND FINANCIAL.

WE WOULD CALL THE ATTENTION OF INVESTORS TO THE FIRST MORTGAGE SEVEN PER CENT BONDS OF THE SYRACUSE GENEVA & CORNING RAILWAY COMPANY. These Bonds are a first mortgage upon the road, issued at the rate of $16,000 per mile. THE FALL BROOK and MORRIS RUN COAL COMPANIES of PENNSYLVANIA guarantee to ship not less than 400,000 tons of Coal per annum over the road, and to retain and deposit the amount required to meet the interest and sinking fund in the FARMERS' LOAN & TRUST COMPANY, whether the above amount of Coal has or has not been shipped during the year. The object of the road is to furnish coal direct to THE NEW YORK CENTRAL RAILROAD and the various cities along its line. The above-named COAL COMPANIES have for several years furnished between four and five hundred thousand tons of Coal to the NEW YORK CENTRAL RAILROAD COMPANY for its own use. THE MAJORITY of the CAPITAL STOCK is owned by the NEW YORK CENTRAL RAILROAD COMPANY, which corporation controls the road. We offer a limited number of these BONDS at 95 and accrued interest, reserving the right to advance the price without further notice. Full information furnished on application, either personally or by letter.

AUG. J. BROWN & SON, BANKERS,
59 LIBERTY STREET, NEW YORK.

CHESAPEAKE AND OHIO R. R.

The holders of a majority in amount of both the six per cent. First Mortgage Bonds and of the seven per cent. Mortgage Bonds of the CHESAPEAKE AND OHIO RAILROAD COMPANY having given their assent to the Plan of Reorganization, an election for a "Committee of Purchase and Reorganization," to whom shall be committed the further carrying out of the Plan with the necessary powers for that purpose, is now in progress.

The undersigned have been designated as Tellers to receive the votes of the Bondholders, and the following gentlemen have been nominated as the "Committee of Purchase and Reorganization," viz.: A. A. LOW, JOHN CASTREE, C. P. HUNTINGTON, A. S. HATCH, of New York City, and ISAAC DAVENPORT, Jr., of Richmond, Va.

All Bondholders who have signified their assent to the Plan of Reorganization are entitled to vote in the election of the Committee; and those who have not already done so may become entitled to vote by signifying their assent prior to the closing of the election.

Copies of the Plan of Reorganization, Circulars, and Ballots may be obtained of Messrs. FISK & HATCH, No. 5 Nassau street.

FRANCIS A. FOGG,
WILLIAM G. LOW, } Tellers.
JAMES J. TRACY,

Address Box 235 Post Office, New York City.

## FRIDAY, MARCH 31, 1876—6 P. M.

**The Money Market and Financial Situation.**—The financial markets this week have generally been sluggish. The popular notion of a stringency in money about the first of April, which is just now an idea more historical than practical, undoubtedly exerts a certain influence in checking operations, and induces some parties to postpone their purchases of securities or other financial transactions till after that date.

Money continues easy, however, and there appears to be little anticipation of any real stringency in the market during the present season—the moderate decrease in the bank reserves being considered as of no special importance, and not likely to continue much longer. On call loans money is offered freely at 3@5 per cent., and even on time loans for 30 days secured by government collaterals, we have heard of loans at 3 per cent. For strictly prime commercial paper there is a good demand at 5@6 per cent., any transactions under 5 per cent. being on such exceptionally choice grades as to hardly form any standard for quotations.

The Bank of England, on Thursday, reported a gain of £336,000 in bullion for the week, and the minimum discount rate remained unchanged at 3½ per cent. The Bank of France gained 10,982,000 francs in specie.

The weekly statement of the New York City Clearing-House Banks, issued March 25, showed a decrease of $1,098,775 in the excess above their 25 per cent legal reserve, the whole of such excess being $11,732,500, against $12,831,275, the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

| | 1876. | | | 1875. | 1874. |
|---|---|---|---|---|---|
| | Mch. 18. | Mch. 25. | Differences. | Mch. 27. | Mch. 28. |
| Loans and dis. | $263,866,700 | $261,254,000 | Dec. $2,612,700 | $279,052,800 | $256,177,500 |
| Specie | 22,369,400 | 21,504,000 | Dec. 865,400 | 8,282,800 | 25,439,300 |
| Circulation | 16,483,300 | 16,199,700 | Dec. 283,600 | 21,531,800 | 23,726,400 |
| Net deposits | 220,281,900 | 214,181,500 | Dec. 6,403,300 | 214,724,500 | 239,730,900 |
| Legal tenders | 45,605,100 | 43,773,900 | Dec. 1,831,200 | 51,999,500 | 60,585,100 |

In commenting upon the dividends paid by Boston banks, Mr. Joseph G. Martin, of that city, has the following in his monthly circular:

"Of the sixty-one banks within the limits of Boston, five pay 6 per cent., two 5 per cent., fourteen 4 per cent., one 3½ per cent., twenty-five 3 per cent., one 3 per cent. quarterly, two 2½ per cent., one 2½ per cent. (for three months), two 2 per cent., five pass, and there are three new banks.

"In view of the radical changes in bank dividends within ten years, the following tabular statement of the last five payments will be of interest:

| Banks. | Dividends. 1874. | | 1875. | | 1876. |

* For three months, to change from January and July to April and October.
† Quarterly.

**United States Bonds.**—There has been less business in governments, and prices have generally declined a fraction, except for ten-forties, which are a trifle firmer. The market is affected to some extent by the uncertainty as to what class and amount of new bonds, if any, will be authorized by Congress, and also by the prospect that the Secretary of the Treasury will shortly sell $6,000,000 coupon bonds of the 5 per cents of 1881, under special authority of Congress, to provide for the payment of that amount of Alabama claims.

Closing prices daily have been as follows:

**State and Railroad Bonds.**—In State bonds there are no important changes: Louisiana consols have been increased in amount by the funding of about $1,500,000 more of the old bonds at a late meeting of the Funding Board, including the $1,000,000 levee 8's and the N. Louisiana & Texas RR. bonds of $357,000. Interest on South Carolina consols is noticed for payment at the Park Bank. Alabama bonds have advanced to 35½ on an inquiry from home purchasers. The city of New Orleans is now paying the following coupons: January, 1876, on old 6 per cent. consolidated bonds, in full; July, 1875, on railroad issues, (with coupons,) 50 per cent.; October, 1875, on ten per cent. bonds, 50 per cent.; February, 1875, on street improvement bonds, 50 per cent.; March and September, 1875, on old currency sevens, 50 per cent.; June, 1875, on new currency sevens, 50 per cent.; January and April, 1875, on gold bearing sevens, administration series, 50 per cent.; November, 1874, only on Carrollton bonds, fifty per cent.

Railroad bonds have shown only a moderate business, and prices of some bonds have been easier. There is nothing to indicate a change in tone as to these securities; but with dull markets all around prices have yielded slightly. New Orleans Jackson & Great Northern second mortgage coupons are bought here at par. The Dutchess & Columbia Division of the New York Boston & Montreal Railroad has been ordered sold under foreclosure of the first mortgage. The annual reports of two leading companies—the Central Railroad of New Jersey and the St. Louis Iron Mountain & Southern—will be found on another page.

Messrs. A. H. Muller & Son sold at auction the following:

| Shares. | Bonds. |
|---|---|
| 735 Mechanics' Nat. Bank....140@141 | 10,000 City of Rahway, N. J., 7s. 100 |

* This is the price bid; no *sale* was made at the Board.

**Railroad and Miscellaneous Stocks.**—The stock market has been inactive, and prices, as a rule, rather weak. There has been no change in the general situation to account for the weaker tone, and it is apparently the result of dull business, together

with sales to realize by some parties who have reaped the benefit of the advance made on several stocks since the first of the year. Railroad earnings keep up very fairly in comparison with March, 1875—most of the reports for the third week being nearly the same or a little below those of last year. One cause for fluctuations during the week was found in the varying reports from Chicago as to the meeting of freight agents in that city, it being finally reported to-day that they had adjourned harmoniously without making any reduction in rates. Panama, Pacific Mail and Union Pacific were feverish to-day, as the contract between the first two companies terminates at this date, and it is not known what arrangements will be made. The Chicago Burlington & Quincy Railroad net earnings over operating expenses for the first two months of 1876, were $893,197, against $712,498 last year; gross earnings for February are in the table below. Delaware Lackawanna and Western has declared its quarterly dividend of 2½ per cent. At the close, prices were generally steady on a small business.

Total sales of the week in leading stocks were as follows:

| | Pacific Mail. | Lake Shore. | West'n Union. | Chic. & N'west. | Erie. | Ohio & Miss. | St. Paul. | St. Paul pref. |
|---|---|---|---|---|---|---|---|---|
| Mch. 25 | 6,400 | 66,900 | 9,000 | 2,000 | 39,500 | 1,800 | 4,200 | 1,900 |
| " 27 | 5,400 | 46,200 | 29,600 | 1,200 | 21,300 | 4,100 | 1,100 | 2,900 |

* Decrease for third week is said to have been caused by high water in river.

**The Gold Market.**—Business in the gold room has been very moderate, and the price has given way a fraction. The specie engagements by to-morrow's steamers were reported this afternoon at $600,000, with a possibility that this amount might subsequently be increased. There seems to be no feature of special interest in the market, and there is little talk of speculative operations. On gold loans, the rates paid to-day for carrying were 2½, 2, 3, 3½, 4, and 1 per cent. Customs receipts of the week were $2,146,000.

The following table will show the course of gold and operations of the Gold Exchange Bank each day of the past week:

| | Quotations Op'n | Low. | High | Clos. | Total Clearings. | Balances Gold. | Currency. |
|---|---|---|---|---|---|---|---|
| Saturday, Mch. 25 | 114¼ | 114 | 114¼ | 114 | $18,044,000 | $1,366,861 | $1,582,290 |
| Monday, " 27 | 114 | 113¾ | 114 | 113¾ | 29,294,000 | 811,498 | 936,319 |

| Jan. 1 to date | 113 | 112¾ | 115 | 113¾ | .... | ..... | ..... |

**Exchange.**—The exchange market has been strong on a small business. The high rates have made merchants unwilling to purchase, and the large bankers prefer to ship specie. To-day, rates opened at an advance, but the market was pretty well supplied by bills in the hands of brokers, and leading drawers were not doing much in the early part of the day. In the afternoon, prices were firm on a basis of 4.86¾ for prime 60 days' sterling and 4.89¼ for demand, on actual business. In domestic exchange, the following were rates on New York to day at the cities named: Savannah and Chicago unchanged; Cincinnati firm, 75c. to 100c. premium; Chicago, par; New Orleans commercial, par, 1-32; bank, ⅛ premium, and St. Louis 100 premium.

The transactions for the week at the Custom House and Sub-Treasury have been as follows:

| | Custom House Receipts. | Sub-Treasury. Receipts. Gold. | Currency. | Payments. Gold. | Currency. |
|---|---|---|---|---|---|
| M'ch 25 | $300,000 | $391,860 09 | $203,384 82 | $182,889 81 | $410,874 75 |

## ANNUAL REPORTS.

### Central Railroad of New Jersey.

*(For the year ending Dec. 31, 1875.)*

From the annual report we have the following: The comparisons made below with the year 1874 include the branches, as well as the Lehigh & Susquehanna Railroad and branches under lease, the whole 180 miles of main line and 152 miles of branches having been operated as one concern.

PASSENGER, FREIGHT AND COAL BUSINESS.

| | 1875. | 1874. | Decrease. |
|---|---|---|---|
| Number of passengers | 4,456,944 | 4,614,587 | 157,643 |
| Miles traveled by passengers | 49,861,520 | 50,739,853 | 878,333 |
| Number of tons of merchandise carried | 919,198 | 1,124,742 | 205,544 |
| Tons carried one mile | 52 159,739 | 65,925,312 | 13,765,573 |
| Number of tons of coal carried | 2,608,331 | 3,696,922 | 1,088,591 |
| Tons carried one mile | 267,080,733 | 319,190,725 | 52,109,992 |

During the year the following additions have been made to the car equipment: There have been purchased 34 passenger cars, 2 baggage and mail cars, 4 baggage cars, and 3,000 4-wheel coal cars. There have been built, at the company's shops, 2 baggage cars, 2 8-wheel flat cars, 24 8-wheel work-train flat cars, 4 8-wheel caboose cars, 3 4-wheel caboose cars, 100 4-wheel gravel cars, and 8 4-wheel coal cars.

RECEIPTS AND EXPENSES.

The following is a statement of the ordinary receipts and expenses of both roads for the year 1875, compared with 1874:

| | 1875. | 1874. | Inc. or Dec. | |
|---|---|---|---|---|
| *Receipts.* | | | | |
| Passengers | $1,498,118 | $1,513,983 | Dec.. | $15,864 |
| Merchandise | 1,287,119 | 1,594,500 | Dec.. | 307,380 |
| Coal | 4,446,131 | 5,363,677 | Dec.. | 917,545 |
| Mail | 23,590 | 22,890 | Inc.. | 700 |
| Express | 27,210 | 25,074 | Dec.. | 2,743 |
| Rents | 26,455 | 22,458 | Inc.. | 3,997 |
| Miscellaneous | 22,305 | 25,044 | Dec.. | 2,739 |
| Car service | 80,684 | 17,101 | Inc.. | 63,583 |
| Total receipts | $7,411,636 | $8,589,630 | Dec. | $1,177,994 |
| *Expenses.* | | | | |
| Running expenses | $1,532,662 | $1,663,966 | Dec.. | $71,304 |
| Fuel consumed | 354,602 | 393,909 | Dec.. | 39,307 |
| Repairs of road | 819,272 | 738,433 | Inc.. | 80,839 |
| Repairs of engines | 282,348 | 316,444 | Dec.. | 34,095 |
| Repairs passenger cars | 70,714 | 64,240 | Inc.. | 6,474 |
| Repairs freight cars | 70,472 | 88,394 | Dec.. | 17,921 |

| Repairs buildings, bridges, docks, &c. | 165,244 | 162,641 | Inc.. | 2,603 |
| Repairs tools and machinery | 42,513 | 29,428 | Inc.. | 13,065 |
| Expenses Ashley Plains | 84 205 | 71,788 | Inc.. | 12,416 |
| Expense account | 153,945 | 151,263 | Inc.. | 2,681 |
| Damage to persons and property | 103,838 | 84,187 | Inc.. | 19,651 |
| Ferry-running expenses | 89,697 | 78,440 | Inc.. | 2,257 |
| Ferryboat repairs | 27,570 | 34,707 | Dec.. | 7,037 |
| Total expenses | $4 123 725 | $4,143,661 | Dec.. | $11,874 |
| Balance net earnings | $3,282,909 | $1,449,029 | Dec. | $1,166,120 |

INCOME ACCOUNT FOR THE YEAR.

The profit and loss account stands as follows:

| | | |
|---|---|---|
| Gross earnings during the year | $7,411,636 73 | |
| Reserved fund, undivided profits | 1,127,879 77 | $8,539,516 50 |

It has been debited as follows:

| | | |
|---|---|---|
| Ordinary expenses | $4,128,727 10 | |
| Extraordinary expenses, re-building bridges | 192,270 00 | |
| Loss in operating canals | 95,919 09 | |
| Rent of Lehigh & Susquehanna Railroad | 1,059,518 67 | |
| Interest account | 658,343 38 | |
| Taxes | 179,353 15 | |
| Dividend account | 2,013,125 00 | 8,327,186 39 |
| Balance to credit of reserved fund | | $212,330 11 |

The report says, of the business of the year, that the long coal strike very materially decreased the income, the reduction in the receipts from coal transportation being $917,545 81. The general business depression continued during the year, and was more sensibly felt than previously. There was also a loss of revenue from the final withdrawal of the coal trade of the Delaware Lackawanna & Western Railroad, and of the business of the Lehigh Valley Railroad. The business derived from the opening of the new road to Long Branch and Sea Girt has been very satisfactory, notwithstanding the late periods at which the several sections were opened. During the coming year it gives every promise of developing into a highly remunerative traffic, as the business of that part of New Jersey finds its way to the new outlet.

The ordinary expenses for the year include those of the Long Branch Railroad, and yet show a small reduction. Much work has been done on the main road which might have been deferred, had it not been thought wise to profit by the low prices of labor and material, and by the limited number of trains.

As the net profits of the last six months, great as they were, failed to make up for the deficiency of revenue from the first six months, the reserve fund of undivided profits was drawn upon for the amount required to make up the dividends of the year. It is expected that the business of the current year will be amply sufficient to keep up the ordinary dividends.

NEW ROUTE TO PHILADELPHIA.

Referring to the road which opens this route, the report says: Owing to the thoroughness with which the new part has been constructed and the shortness of the line—eighty-eight miles—the trains can be run between the two cities at as high a rate of speed as is consistent with economy. This company has had nothing to do with the construction of the new road, and is only called on to provide the necessary tracks and facilities for taking care of the business offered, and to furnish its *pro rata* share of the equipment.

THE LEHIGH AND WILKESBARRE COAL COMPANY.

The coal strike had, of course, a very serious effect on the business of this company, both reducing the receipts and increasing the proportion of expenses to the business done. The company is well organized and consolidated, and in a position to do a large trade at small cost. The tonnage of the year was 1,353,551 tons Wyoming coal, 338,770 tons Hazleton, and 397,426 tons Lehigh; in all, 2,089,747 tons. The receipts of the company from all sources amounted to $10,520,511 09; the expenses to $10,109.792 60, leaving the balance as earnings on the coal of $410,718 49. Included in the expenses are $530,000, the cost of maintaining the mines during the strike.

LEHIGH AND DELAWARE DIVISION CANALS.

As the transportation on the canals was limited by the equipment of boats, they were utterly unable to make up during the last half of the year the tonnage lost during the first half. The accounts, therefore, show a loss in operating the canals of $95,919 09.

The receipts of the year were $484,753 31, and the expenses, including rental, $580,672 40, and the net result was the loss above stated.

FINANCES.

During the year $525,000 have been added to the capital stock by the conversion of bonds, and $4,036,100 of consolidated mortgage bonds have been issued at a handsome premium. The balance of second mortgage bonds, $174,000, have been paid off; the convertible issue has been reduced $295,000, being the difference between the balance issued and the amount converted; and of the railroad car trust assumed, $64,929 88 has been paid. The expenditures on the main line during the year have amounted to $231,136 10; the expenditures on branches and advances to connecting roads have amounted to $1,746,556 74; for station houses, $56,057 30; and for equipment, $1,049,341 17. The Lehigh & Wilkesbarre Coal Company bonds held by this company will be disposed of from time to time, to stockholders or others, when they reach par. But little money will be required during the coming year.

GENERAL BALANCE SHEET, JANUARY 1, 1876.

| ASSETS. | | LIABILITIES. | |

### St. Louis Iron Mountain & Southern.

*(For the year ending December 31, 1875.)*

The report has the following:

The St. Louis Iron Mountain & Southern Railway, as consolidated in 1874, embracing 684½ miles, has been successfully operated during the year 1875, and has shown a steady growth in all departments and in its local as well as through business.

The following statement taken from the Merchants' Exchange Report of the city of St. Louis, shows the amount of freight, in tons, received at St. Louis by the St. Louis & Iron Mountain Railroad and the total by all railroads and by river, for five years:

| | 1875. | 1874. | 1873. | 1872. | 1871. |
|---|---|---|---|---|---|
| St. L. I. M. & S. R. R. | 451,225 | 292,842 | 392,634 | 504,705 | 291,505 |
| Lower Mississippi River | 128,020 | 109,780 | 226,585 | 225,960 | 313,211 |
| Total by rail | 3,252,770 | 3,165,033 | 3,245,178 | 2,838,364 | 2,298,321 |
| Total by river | 643,525 | 732,765 | 801,055 | 863,819 | 884,401 |
| Grand total | 3,896,295 | 3,897,858 | 4,046,233 | 3,702,283 | 3 182,722 |

The largest development on the St. L. I. M. & S. R. R. has been in the direction of Arkansas and Texas, though there has been a gradual increase in the traffic northward from the Southeastern States.

| | |
|---|---|
| The gross earn'gs of the road from transportation for the year were | $3,802,941 |
| The operating expenses for the year were | 2,013,853 |
| Net earnings | $1,789,087 |

Proportion of expenses to earnings, 52 96-100 per cent, or including taxes, &c., 57·56 per cent.

| | |
|---|---|
| The average earnings per mile of road were | $5,559 85 |
| The average expenses per mile of road were | 2,944 23 |
| Showing net earnings per mile of road | $2,615 62 |

Increase of net earnings, after deducting operating expenses, over previous year, 45 per cent.

Total number of passengers carried during the year, 612,069 bringing $897,984 41. Total number carried one mile, 25,320,188.

Total number of tons of freight carried during the year, 585,865, bringing $2,738,837. Total number of tons carried one mile, 121,607,476. Average revenue per mile per ton, 2 19-100 cents.

COMPARATIVE STATEMENT OF EARNINGS AND OPERATING EXPENSES IN 1874 AND 1875, FROM MAY 1 (DATE OF CONSOLIDATION) TO DEC. 31, INCLUSIVE:

| Month. | Earnings. 1874. | Earnings. 1875. | Operating Expn's. 1874. | Operating Expn's. 1875. |
|---|---|---|---|---|
| May | $251,508 | $275,147 | $174,199 | $162,494 |
| June | 235,072 | 294,030 | 170,418 | 154,109 |
| July | 228,911 | 236,240 | 164,680 | 157,280 |
| August | 234,205 | 283,956 | 158,446 | 153,369 |
| September | 292,216 | 333,776 | 150,693 | 169,611 |
| October | 363,964 | 388,603 | 173,120 | 192,749 |
| November | 337,741 | 429,765 | 167,388 | 191,961 |
| December | 401,218 | 497,049 | 166,200 | 181,628 |
| Total for 8 months | $2,347,838 | $2,729,789 | $1,325,138 | $1,366,189 |

The funded debt, including all classes of bonds, except funding certificates, at the end of the year, was $24,829,000. The annual interest thereon is $1,747,330, of which $1,392,930 is payable in gold and $354,400 in currency. The floating debt was reduced in ten months—viz: from March 1st to Dec. 31st—$1,091,935, and the balances still owing at the latter date, of every kind, after deducting certain available assets, amounted in the aggregate to $1,398,322 28. It was seen in February last, that, though the company might pay its interest, it was embarrassed by a floating debt which interfered with the economy of management, and depressed its securities. To free the company of this embarrassment, and at the instance of the holders of a large number of bonds, the bondholders were successfully appealed to to fund the remaining interest accruing in the year 1875 and a portion of that to accrue in 1876 and 1877 on all bonds, except the first mortgage St. L. & I. M.

The following interest is payable during the year 1876:

| | |
|---|---|
| Interest 12 months on first mortgage St. L. & I. M., Feb. & Aug., 1876. | $280,000 |
| Interest 6 months on Arkansas Branch bonds, Dec., 1876 | 96,350 |
| Interest 6 months on Cairo Arkansas & Texas bonds, Dec., 1876 | 57,750 |
| Interest 6 months on St. L. & I. M. 2d mortgage bonds, Nov., 1876 | 238,189 |
| Interest 12 months on St. L. & I. M. certificates, due Nov. 1, 1876 | 47,919 |
| Interest 12 months on Ark. Br. & C. A. & T. cert., due Dec. 1, 1876 | 82,240 |
| Total interest due in 1876 | $742,448 |

It is expected to reduce the floating debt during the ensuing year, so that it will be practically extinguished, and the regular payment of interest on all classes of bonds resumed at the time appointed.

The track and rolling stock have been kept in good order, 7 35-100 miles of steel, and 4 55-100 miles new iron rails laid, and $185,194 37 expended in construction.

In July last the transfer steamer "Junius S. Morgan" was completed, and entered service at Bird's Point. The boat and its outfit cost $44,239 83, in which this company has an interest of one-third. It has a double track of three rails each, and carries 12 cars. It plies between the four inclined-planes within two miles of our terminus on the Mississippi opposite Cairo, to-wit: Bird's Point, Mo., Fillmore, Ky., terminus of the New Orleans line; Cairo, terminus of the Illinois Central, and the terminus of the Cairo & Vincennes Railroad, on the Ohio above Cairo.

LAND DEPARTMENT.

Owing to the general dulness prevailing in business, sales were not large in the early part of the year, but a slight improvement was discernible after the crops were marketed. Settlements in Arkansas are increasing.

SALES IN ARKANSAS, 1875:

| | |
|---|---|
| Acres of land sold | 27,171 91-100 |
| Gross amount of purchase money | $113,926 90 |
| Of which was paid in cash | 17,526 82 |
| And the balance in notes. | |
| Average price per acre | 4 41¼ |
| Value of town lots sold | 9,081 00 |
| Of which was paid in cash | 3,190 08 |
| Expenses of Land department in Arkansas | 15,958 13 |
| Cash received for deferred payments on previous sales | 35,002 26 |

SALES IN MISSOURI:

| | |
|---|---|
| Acres of land sold to December 31, 1875 | 1,048 |
| Gross amount of purchase money | $3,604 76 |
| Average price per acre | 3 44 |
| Value of town lots sold | 10,092 93 |

Total number of acres of land remaining in the U. S. grant, certified and patented, in Arkansas, is 1,226,907, leaving 529,058 to be certified. The total number of acres as yet secured in Missouri from the United States and unsold is 62,462.

| | |
|---|---|
| At a low valuation these lands are worth | $3,926,591 |
| Estimated value of town lots and lands not used for railroad purposes, in Missouri and Arkansas | 770,204 |
| Estimated value of lands and lots | $4,696,795 |

CONDENSED BALANCE SHEET, DEC. 31, 1875:

| | Dr. | |
|---|---|---|
| Construction and equipment | | $44,805,336 92 |
| U. S. Land Grant | | 3,926,591 13 |

| | $341,839 41— | 1,271,682 12 |
| Rolling stock renewal fund | 100,000 00 | |
| Track and building renewal fund | 150,000 00— | 250,000 00 |
| Income account | | 13,544 84 |
| | | $49,726,384 82 |

* This amount has been largely reduced since 1st January, and balance being daily diminished.

## GENERAL INVESTMENT NEWS.

**Atchison Topeka & Santa Fe.**—The land sales of this company for February and previously were as follows: For February, 1876, 6,043.27 acres for $38,191.24; average per acre, $6.31¼. Sales previously, 536,252.52 acres for $2,802,887 98. Average per acre, $5 22½.

**Atlantic and Great Western.**—Up to March 7 there had been deposited with the trustees in London, under the reorganization agreement, $6,349,884 first, $3,412,662 second, and $6,714,042 third mortgage bonds, being $16,476,588 in all.

**Atlantic Mississippi & Ohio Railroad Bonds.**—A meeting was held on Saturday, March 4th, in London, by the bondholders of the consolidated mortgage loan of the Atlantic Mississippi & Ohio Railway Company. On the 23d of February, Messrs. Collinson & Co. (the company's agents) received a communication from General Mahone, to the effect that he did not see his way to the payment by the company of the interest warrants on the 1st April, and requiring the 4,000,000 dollars of bonds agreed to be deposited in London to be reduced by 500,000 dollars, together with some other important modifications, and the present meeting was therefore called to take into consideration the position of affairs. After a statement by Mr. John Collinson, a committee to protect the bondholders' interests was appointed.

**Canada Pacific Railway.**—In the House (Canadian Parliament), March 28, Mr. De Cosmos moved his resolutions generally affirming the principle that the Dominion should proceed immediately and continuously with the Canada Pacific Railway. He dwelt at considerable length upon the claim of British Columbia to the fulfilment of the bargain made with her, but, after discussion, the members were called in, and on a division the motion was lost; yeas, 6; nays, 154.

**Consolidation of Gold Mines.**—SAN FRANCISCO, March 24.—The Imperial, Empire, Gold Hill, Quartz, Eclipse, Trench, Bacon, and Bower mines have been consolidated under the name of Consolidated Imperial. The new stock will be placed on the market on Monday next.

**Detroit Hillsdale & Southwestern R. R. Company.**—The following is from a report of the Treasurer to January 1, 1876:

On May 1, 1875, the Detroit Hillsdale & Southwestern Railroad Company took possession of the road and property purchased by it, and formerly belonging to the Detroit Hillsdale & Indiana Railroad Company.

The property consisted of sixty-five miles of track from Ypsilanti, on the Michigan Central Railroad, about thirty miles west of Detroit, to Bankers on the Fort Wayne Jackson & Saginaw Railroad, and a few houses and small quantity of rolling stock.

All of the buildings and rolling stock were found to be in need of more or less repairs. A locomotive was hired temporarily until a new one was bought by the trustees. The track was not in very good condition, as ties were needed badly, and some of the bridges were in an unsafe condition. The gross earnings of the road for eight months, from May 1, 1875, to January 1, 1876, were as follows:

| | | |
|---|---|---|
| From passengers | $17,803 68 | |
| From freight | 26,939 10 | |
| From mail and express | 1,236 75— | $45,931 53 |
| The expenses for the same time were | | $30,604 89 |
| | | $15,376 64 |
| There is still due for various current expenses | | 3,400 00 |
| Net earnings for eight months | | $11,976 64 |

There are now outstanding seventy-nine first mortgage and thirty second mortgage bonds of the Detroit Hillsdale & Indiana Railroad Company, which have not paid the assessment or been exchanged for stock of the Detroit Hillsdale & Southwestern Railroad Company.

**Direct Cable Company.**—The annual meeting of the Direct United States Cable Company was held in London March 28. The policy of the directors in maintaining an independent organization was sustained. The directors, having invited Sir William Thomson and Mr. F. J. Bramwell to investigate the cause of the fractures, these eminent electricians reported that they were done maliciously. During the time the Company was enabled to work uninterruptedly for a period of upwards of a month the traffic receipts increased until the fracture of Dec. 10, when they reached an average gross sum of nearly £600 a day, thus giving the Company a gross receipt of messages reaching nearly to 30 per cent. of the whole cable traffic. The capital of the Company not having been found sufficient, chiefly in consequence of the change in the route of the cable, sanctioned by the extraordinary general meeting held on the 7th of August, 1873, and the heavy expenditure for repairs, the directors have, under the powers given to them by the articles of association, created debentures of £100 each, bearing interest at 7 per cent. per annum and repayable in five years; for £100,000.

**Grand Trunk Railway of Canada.**—The directors of this company announced in London, in February, a further issue of their perpetual five per cent debenture stock, sufficient to provide

the company a sum of £400,000. The stock of which this issue forms a portion was authorized by an act of the Canadian Parliament in 1874, for the purpose of enabling the company to clear off a certain amount of preference securities bearing a high rate of interest. The proceeds of the present issue were to be applied to the extinction of £71,000 International Bridge bonds, £16,000 Montreal & Champlain bonds, and to the payment of £43,000 due for certain cars and stations, making together a total of £130,000. The balance of £270,000 is required to cover existing liabilities of the company, in consequence of the directors being unable to realize the value of old rails and materials left on hand, through the operation of relaying the line with steel rails and changing the gauge, these rails and materials being of an estimated value of £580,000.

**Hannibal & St. Joseph.**—The President, Mr. William H. Neilson, in a recent address to the stock and bondholders, gave the total bonded debt on road and branches at $8,881,600, of which the details are given in our "Investors' Supplement" of March 25.

The trustees have funds on hand sufficient to retire about $33,000 of land bonds, which will leave about $143,000 unredeemed. These, the receipts from the Land Department will, in a few months, be sufficient to retire.

The Land Grant property of this company consists of notes given for lands sold and interest thereon to date, principal and interest secured by lien on the land, and of 100,000 acres of land remaining unsold. With honest and judicious management, your company will, no doubt, in a few years, realize from this property over $4,000,000.

The company is the owner of the bridge at Kansas City, from which it derives a yearly income of $80,000, to which may be added the value annually of its use by the Hannibal and St. Joseph Railroad itself, $50,000, and we may estimate the yearly income from the bridge at $130,000. The year opens full of promise as to the business of the road; the gross receipts for January, 1876, being more than $48,000 greater than for January, 1875, and for February, 1876, more than $41,000 over those of 1875. For repairs, improvements and back taxes, he says, the road will need, during the year 1876, about $500,000.

The directors have been authorized, by a vote of a majority of the stock, to raise this sum by an issue of bonds, secured by mortgage on the road and its appurtenances, which will be offered to the stock and bondholders and others. The mortgage is made for $1,500,000, as it would be inexpedient to tie up the road for a smaller sum, and thus preclude the possibility of obtaining on that security relief, should any future emergency of the company require an additional loan. If a negotiation of a portion of the bonds be effected on reasonable terms, something over one-third of this amount only will be needed.

**Houston & Texas Central.**—The following is a comparative statement of earnings and expenses for six months ending Feb. 1875 and 1876:

| | 1874-75. | 1875-76. |
|---|---|---|
| Gross earnings | $1,647,698 99 | $2,080,080 70 |
| Operating and general expenses | 941,606 44 | 971,125 25 |
| Net earnings | $706,092 55 | $1,108,855 45 |
| Gross increase | | $432,381 71 |
| Net increase | | 402,762 90 |

**Illinois Town Bonds.**—SPRINGFIELD, Ill., March 27.—Judge Treat, of the United States Court, yesterday rendered judgment for plaintiffs in the suits upon railroad aid bonds issued by the township of East Oakland, Vermillion County, and Arcola, Douglas county. These were test suits, and sustain the validity of the bonds.

**Louisiana State Bonds.**—John B. Manning, Esq., dealer in Southern securities, 78 Broadway and 7 New street, has favored us with a complete statement of Louisiana bonds outstanding March 20, 1876, as follows:

| For What Purpose Issued. | Rate of Interest. | Amount Outstanding March 20, '76. | Amount Mar. 20, not Fundable. |
|---|---|---|---|
| Relief of State Treasury | 6 | $148,000 | $5',500 |
| N. O. Jackson & G. N. RR. Co | 6 | 273,000 | 239,000 |
| N. O. & Nashville RR. Co | 6 | 77,000 | 18,000 |
| N. O. Opelousas & G. W. RR. Co | 6 | 250,000 | 65,000 |
| Vicksburg Shreveport & Texas RR. Co | 6 | 108,000 | 50,000 |
| Baton Rouge Grosse Tete & Op. RR. Co | 6 | 47,000 | 30,000 |
| Expenses of building levees | 8 | *1,000,000 | .... |
| " " " | 6 | 601,000 | .... |
| Work on levees (special levee bonds) | 8 | 838,000 | .... |
| Settlement of past due coupons | 6 | 159,200 | .... |
| Free School fund | 6 | 48 000 | 48,000 |
| Seminary fund | 6 | 1.6,000 | .... |
| Miss. & Mex. Gulf Ship Canal Co | 7-10 | 260,000 | 260,000 |
| Louisiana State Penitentiary | 7 | 93,000 | .. |
| North Louisiana & Texas RR. Co | 8 | *357,000 | .... |
| Relief of P. J. Kennedy | 8 | 1,000 | 1,000 |
| Floating debt | 6 | 1,619,100 | .... |
| Bœuf & Crocodile Navigation Co | 8 | 80,000 | 80,000 |
| N. O. Mobile & Chattanooga RR. Co | 8 | 195,000 | .. |
| N. O. Mobile & Texas RR. Co | 8 | 750,000 | 750,000 |
| " " " " | 8 | 2,500,000 | 2,500,000 |
| Mexican Gulf RR. Co (past due) | .. | 3,000 | 3,000 |
| Redemption of Cert's of Indebtedness | 6 | .... | .... |
| Totals | | $9,738,300 | $4,095,500 |
| Amount of bonds outstanding March 20th, 1876 | | | $9,738,200 |
| Amount of new consols emitted to March 20th, 1876 | | | 8,169,900 |
| Total bonded debt to March 20th, 1876 | | | $17,908,100 |

* The Funding Board met since the 20th March, and funded about $1,500,000 bonds, including these issues.

**Louisville New Albany & St. Louis.**—Under a decree of foreclosure made by the United States Circuit Court this road will be sold at public sale in New Albany, Ind., May 18, the sale including all the road in the State of Indiana. The terms of sale are cash, provided that if the property is bought in by any of the bondholders, their bonds and unpaid coupons will be accepted *pro rata* in payment. The sale includes ten miles of completed road, from Princeton, Ind., west to the Wabash River, and a large amount of unfinished road, grading, &c.

**Mariposa Land & Mining Company.**—The following statement of financial operations for fifteen months has been made public:

RECEIPTS.

| | |
|---|---|
| Assessment No. 1 (currency) | $18,662 00 |
| Do. No. 2 (currency) | 96,374 00 |
| Do. No. 3 (currency) | 95,895 00 |
| Premium on gold drafts (gold) | 75 00 |
| Loan bills payable | 10,000 00 |
| | $301,206 00 |

DISBURSEMENTS.

| | |
|---|---|
| Title account—Cash paid in acquiring the title to the Mariposa estate and in extinguishing liabilities against the same and encumbrances thereon | $177,808 76 |
| E. C. Burr, Superintendent—Labor and wages on the Mariposa tunnels, drifts and cross-cuts; on the Ophir mills; on the Broadhead canal and dam, and on the Benton dam and flume; for powder, drills, railway iron and care, lumber and timber, air pipes, supplies and other mining expenses | 60,122 00 |
| Premium on gold | 16,089 01 |
| Salary account | 13,700 00 |
| Machinery account | 12,410 65 |
| Office expenses, advertising, engraving, registration, insurance and telegrams | 8,192 99 |
| Checks and cash items | 1,223 36 |
| Cash in bank—New York and San Francisco | 11,658 95 |
| | $301,206 00 |

**Montclair & Greenwood Lake.**—The bondholders and stockholders passed over the road on a tour of inspection, in a special train, March 23. After the trip, a meeting was held, at which it was voted to authorize the issue of $100,000 of the new bonds provided for completing and repairing the road. Of this issue $60,000 are to be used to complete the eight miles from the present terminus at Monks', N. J., to the head of Greenwood Lake, which is now partly graded, and $40,000 for new equipment.

**N. O. St. Louis & Chicago.**—Judge Woods, in the case of the Illinois Central Railroad Company against this company, confirmed the Master in Chancery's report, and made an order instructing the receiver to call upon the complainants to furnish $250,000, to be applied to the payment for iron rails, and for the interest on the second mortgage bonds already recognized. The order further goes on to say, in case of refusal, a loan should be negotiated on the best possible terms for the creditors, and the receiver to make report of his action to the Master.

— Messrs. Kelly & Alexander, N. Y., offer to buy the second mortgage coupons, due April 1, at par.

**Pacific of Missouri.**—Francis A. Brooks, of Boston, Mass., has commenced suit in the United States Circuit Court against the Pacific Railroad of Missouri, the Atlantic & Pacific Railroad, and a number of other parties, in which it is charged that a large part of the income bonds of $1,500,000 were diverted from their original purpose and used by the Atlantic & Pacific in providing for its own debts and liabilities at rates greatly below their par value. It is also charged that the $2,000,000 improvement bonds, issued by the Missouri Pacific, were wrongly pledged by the Atlantic & Pacific to the payment of its own debts and liabilities. Similar malfeasance is charged against the Atlantic & Pacific with regard to the third mortgage bonds of $4,000,000 issued by the Missouri Pacific. The bill asks that the third mortgage bonds, except so far as exchanged for improvement bonds, be declared invalid; that President Peirce, Vail, Fish and Ketchum be summoned to answer with regard to the disposition of these bonds; that the lease be declared null and void, and a separate receiver be appointed for the Missouri Pacific.

A dispatch in the *Journal of Commerce*, from St. Louis, March 27th, says: At a special meeting of the directors of the Missouri Pacific Railroad last week, Charles P. Chouteau and Dan. R. Garrison were elected directors to fill the vacancies caused by the resignation of Andrew Pierce, Jr., and Oliver A. Hart. To day, at the regular meeting, George E. Leighton and W. E. Burr, of St. Louis, Jos. L. Stephens, of Boonville, and E. F. Leonard, of Illinois, were elected to fill the vacancies occasioned by the expiration of the terms of Samuel Hays, D. R. Garrison, M. J. Lippman and M. H. Coffin. Commodore C. K. Garrison, of New York, who owns or represents the majority of the third mortgage bonds of this road, now virtually controls in the event of the separation of the road from the Atlantic & Pacific (a petition for which is now pending in the United States Circuit Court). Action on the question of the separation of these roads will be taken by the court as soon as Judge Treat's health will permit him to take his seat on the bench.

**Producers' Consolidated Land and Petroleum Company.**—The following is the official statement as furnished to the committee of the New York Stock Exchange:

| | | |
|---|---|---|
| Net earnings as per statement of Dec. 18, 1875 | $89,052 18 | |
| Receipts from sale of production and purchase oil, net profits on sundry contracts, and value of production on hand at current price, say $2 25 per barrel | 283,186 19 | $372,214 37 |
| *Contra.* | | |
| Dividend No. 1, at 3 per cent, paid Jan. 15, 1876 | 75,000 00 | |
| Current running expenses for months December, 1875, and January and February, 1876 | 32,044 30 | |
| Dividend No. 2, at 6 per cent, payable April 20, 1876 | 150,000 00 | $257,044 30 |
| Surplus on hand at this date (equal to over 4 per cent on the stock) | | $115,200 07 |

**Southern Minnesota Railroad.**—The coupon due October 1, 1873 (and interest thereon), and the coupon due April 1, 1876, on the first mortgage (pink) bonds of this company, will be paid at the Third National Bank, New York, if presented between the 1st and 15th days of April.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, March 31, 1876.

The weather has continued cold and blustering. Two severe storms have occurred the past week, which have inflicted much damage upon railways, and thus obstructed inland navigation, and restricted regular trade. Still, the tone of business circles improves; there is a slow return of confidence in values, and private credits are better.

The speculation in pork and lard, and the course of prices in other hog products, have been towards easier figures; and yet no important decline can be noted. We have already given an approximate statement of pork packing for the season ending March 1st, and we have now from the Cincinnati *Price Current* a statement of packing at the West, from which it appears that the total number of hogs packed in the West for twelve months, ending March 1, embracing both summer and winter seasons, for two years, was as follows:

| | 1875-76 | 1874-75. |
|---|---|---|
| March 1 to November 1 | 1,262,343 | 1,200,444 |
| November 1 to March 1 | 4,880,135 | 5,566,226 |
| | 6,142,478 | 6,766,670 |
| Decrease in number, 1875-76 | | 624,192 |

The aggregate net weight of hogs for both summer and winter seasons compares for two years as follows:

| | 1875-76. | 1874-75. |
|---|---|---|
| Summer season, lbs., net | 223,845,720 | 196,872,810 |
| Winter season, lbs., net | 1,062,456,021 | 1,167,639,457 |
| | 1,286,301,741 | 1,364,512,267 |
| Decrease in 1875-6, lbs | | 78,210,526 |

A light packing for the summer of 1876 seems to be expected. To-day, pork was firmer, but quiet on the spot; and for future delivery the closing prices bid for mess were, $23 15 for April, $23 30 for May, $23 45 for June and $23 50 for July. Bacon and cut meats were without essential change. Lard was also higher, with closing bids for prime Western steam, $14 25 for spot and April, $14 40 for May, $14 52½ for June and $14 60 for July. Beef and beef hams have been quiet. Butter firm for new, which is scarce. Cheese in rather better demand at some decline. Tallow dull at 8¼c. for prime.

Rio coffee has further advanced, and fair to prime cargoes quoted at 17½@19c. gold. The sales of the week have been about 32,000 bags, reducing the stock to 152,000 bags, but the visible supply for the United States is increased to 314,000 bags. Mild grades of coffee have also been more active, except for Java, which remains quiet and nominal. Rice sold early in the week to the extent of 1,500 bags Rangoon, for export, at 2½c. gold, in bond. Foreign fruits are generally quiet, except Turkish prunes, which are active at 5¾@6c. Teas have been in fair demand and more steady. Molasses has been less active, but prices steady at 33@33½c. for 50 test, at which four cargoes sold. Sugars have been in good demand at the improvement noted in our last; fair to prime refining 7½@7¾c.; standard crushed refined 10⅝c.

Ocean freights have latterly been very quiet, so much so as to cause some decline and a great deal of weakness and irregularity; this applies both to berth and charter room. Late engagements include: Grain to Liverpool, by steam, 6@6½d.; cotton, ¼@9-32d., provisions, 30@35s. per ton; flour, by sail, 2s. 9d.; grain to London, by steam, 8d, and provisions at 35@40s. per ton. Nothing important to either Hull, Bristol or Glasgow. Grain to Cork for orders, 6s. 7½d.; do. to Rotterdam, 6s. 4½d.; refined petroleum to Bristol and Liverpool at 4s. 9d.; do. from Philadelphia to Antwerp or Bremen, 4s. 3d.; do. from Baltimore to the Baltic, at 4s. 9d. To-day, business was rather slow, but berth room was more steady; charter room continued weak. Cotton to Liverpool, by steam, ¼@9-16d.; cheese at 35s., and sugar at 30s. per ton; grain to London, by steam, 7½d. per 60 lbs.; flour, by sail, 2s. 3d.; the nominal rate for grain to Cork for orders was 6s. 6d.

Naval stores have shown a moderate degree of activity, and quotations have remained in a pretty firm position. Spirits turpentine closes at 41@41½c.; common to good strained rosin at $1 70@$1 80. Petroleum has latterly shown much firmness, though only a moderate business has been done; at the close, crude, in bulk, was quoted at 8¾c., and refined, in bbls., at 15c. Ingot copper closes firm at 22½c. cash, for Lake, with sales of 250,000 lbs. at this price. American pig iron is rather weak at $22@$23 for No. 1, and $20@$21 for No. 2; sales 2,000 tons, in lots, on private terms. Whiskey closed at $1 12½. Cloverseed is nearly nominal at 16½@17½c.

There has been an active export inquiry for Kentucky tobacco during the past week, at steady prices: lugs. 5½@7c., and leaf 7½@16c.; the sales embraced 1,500 hhds., of which 1,100 were for export and 400 for consumption. Seed leaf has been in fair demand, and quotations are without essential change; the sales embrace: crop of 1873, 61 cases New England, 78 cases Ohio, on private terms; and, crop of 1874, 57 cases do., at 4@6¾c, 279 cases New England at 7@17c., and 228 cases Pennsylvania on private terms; also, 200 cases sundry kinds at 7@25c. Spanish tobacco has remained steady, with sales of 400 bales Havana at 88c. @$1 15.

The market for hides has continued dull, and prices have shown weakness; dry Montevideo sold at 19c., gold, 4 months, dry California at 18½c., gold, 30 days, and city slaughter ox at 8½c., currency. Linseed oil has been in fair jobbing demand and steady at 59@60c. There have been arrivals of 3,000 bbls. crude whale, 2,000 bbls. of which sold for export on private terms; Northern quoted at 65c., and Southern 60@63c. Box herring lower and more active, at 24c. for scaled and 15c. for No. 1.

## COTTON.

FRIDAY, P. M., March 31, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (March 31) the total receipts have reached 59,912 bales, against 62,033 bales last week, 65,441 bales the previous week, and 78,380 bales three weeks since, making the total receipts since the 1st of September, 1875, 3,757,676 bales, against 3,194,907 bales for the same period of 1874-5, showing an increase since Sept. 1, 1875, of 562,769 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

| Receipts this week at— | 1876. | 1875. | 1874. | 1873. | 1872. | 1871. |
|---|---|---|---|---|---|---|
| New Orleans | 25,461 | 10,539 | 17,945 | 19,747 | 17,433 | 32,235 |
| Mobile | 5,466 | 2,159 | 3,892 | 3,490 | 2,421 | 5,470 |
| Charleston | 4,569 | 3,055 | 5,439 | 2,892 | 2,537 | 3,559 |
| Port Royal, &c. | 378 | .... | .. | | | |
| Savannah | 3,219 | 3,845 | 10,307 | 5,771 | 6,281 | 10,532 |
| Galveston | 5,997 | 4,227 | 5,300 | 4,363 | 1,283 | 4,635 |
| Indianola, &c. | 115 | 318 | 369 | | | |
| Tennessee, &c. | 5,481 | 4,441 | 7,219 | 3,643 | 6,785 | 8,176 |
| Florida | 61 | 81 | 123 | 64 | 166 | 296 |
| North Carolina | 1,538 | 2,207 | 1,095 | 543 | 746 | 448 |
| Norfolk | 7,266 | 7,335 | 7,650 | 7,349 | 3,669 | 6,391 |
| City Point, &c. | 331 | 324 | 583 | 775 | 266 | |
| Total this week | 59,912 | 38,531 | 59,922 | 48,637 | 40,619 | 71,744 |
| Total since Sept. 1 | 3,757,676 | 3,194,907 | 3,421,161 | 3,059,435 | 2,427,917 | 3,312,231 |

The exports for the week ending this evening reach a total of 75,744 bales, of which 48,682 were to Great Britain, 7,540 to France, and 19,522 to rest of the Continent, while the stocks as made up this evening are now 610,420 bales. Below are the stocks and exports for the week, and also for the corresponding week of last season:

| Week ending March 31. | Exported to | | | Total this week. | Same week 1875. | Stock. | |
|---|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | France | | | 1876. | 1875. |
| New Orleans* | 30,969 | 4,603 | 7,199 | 42,774 | 35,738 | 244,850 | 180,624 |
| Mobile | .... | .... | 5,459 | 5,459 | .... | 46,312 | 40,345 |
| Charleston | 3,376 | 2,934 | 840 | 7,150 | 1,750 | 24,002 | 30,022 |
| Savannah | .... | .... | .... | .... | 5,232 | 27,085 | 39,224 |
| Galveston† | 3,480 | .... | 4,560 | 8,040 | 6,621 | 37,783 | 56,980 |
| New York | 5,218 | .. | 946 | 6,164 | 2,916 | 179,274 | 203,117 |
| Norfolk | 2,990 | .... | .... | 2,990 | 4,528 | 17,114 | 5,140 |
| Other ports‡ | 2,619 | ... | 518 | 3,167 | 3,641 | 43,000 | 50,960 |
| Total this week | 48,682 | 7,540 | 19,522 | 75,744 | 60,446 | 619,420 | 606,912 |
| Total since Sept. 1 | 1,625,147 | 347,917 | 819,241 | 2,584,608 | 2,107,669 | | |

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 59,000 bales; for Havre, 21,000 bales; for Continent, 19,000 bales; for coastwise ports, 1,000 bales; which, if deducted from the stock, would leave 145,000 bales representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on shipboard at that port, not cleared: For Liverpool, 4,340 bales; to other foreign, 3,059 bales; for coastwise ports, 948 bales; which, if deducted from the stock, would leave remaining 24,236 bales.

‡ The exports this week under the head of "other ports" include from Baltimore 1,755 bales to Liverpool and 518 bales to Bremen; from Boston 44 bales to Liverpool; from Philadelphia 89 bales to Liverpool; from Wilmington 1,118 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 15,298 bales, while the stocks to-night are 12,508 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to March 24, the latest mail dates:

| PORTS. | RECEIPTS SINCE SEPT. 1. | | EXPORTED SINCE SEPT. 1 TO— | | | | Coastwise Ports. | Stock. |
|---|---|---|---|---|---|---|---|---|
| | 1875. | 1874. | Great Britain | France | Other foreign | Total. | | |
| N. Orleans | 1,246,575 | 914,231 | 554,599 | 231,039 | 218,380 | 1007,038 | 149,500 | 265,688 |
| Mobile | 344,443 | 306,102 | 116,864 | 20,686 | 52,632 | 190,182 | 106,203 | 48,310 |

| New York | 174,681 | 111,237 | 270,150 | 1,915 | 55,711 | 327,776 | .... | 180,588 |
| Florida | 11,652 | 12,151 | .... | ... | .... | .... | 11,652 | ... |
| N. Carolina | 89,967 | 90,335 | 22,352 | .... | 2,301 | 24,653 | 68,083 | 2,534 |
| Norfolk* | 439,517 | 359,082 | 32,461 | 1,817 | .... | 94,278 | 325,411 | 21,457 |
| Other ports | 86,478 | 61,916 | 67,481 | .... | 12,156 | 79,637 | ... | 38,000 |
| Tot. this yr. | 3,697,764 | ..... | 1576,465 | 339,677 | 592,812 | 2508,951 | 1085,999 | 654,513 |
| Tot. last yr. | .... | 3,156,976 | 1423.023 | 249,726 | 374,467 | 2047.216 | 1079 615 | 652,971 |

*Under the head of *Charleston* is included Port Royal, &c.; under the head of *Galveston* is included Indianola, &c.; under the head of *Norfolk* is included City Point, &c.

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market for cotton the past week has been feverish and somewhat unsettled in tone, but on the whole prices show some improvement for this crop. Spots were on Saturday last advanced to 13⅜c. for Middling Uplands, a recovery of ⅛c. from the lowest point early in the month, and this advance has since been maintained in the face of a considerable decline in gold and fair receipts at the ports and at the interior towns of the South. The demand has been fair for export and consumption, but there has been less speculation. To-day, prices (in sympathy with Liverpool advices) were easier, though not quotably lower. Spinners were moderate buyers, but the principal business was to deliver next week on short notices. For future delivery the market has been active, and at the close of Wednesday's business a considerable advance had been established. The prolonged bad weather at the South, and the threatened overflow of the Mississippi River, were elements of strength which were made much of; but Liverpool refused to take stock in them; and on Thursday our market gave way sharply. A feature in the speculation of the week has been its pretty general extension to the next crop, and it will be seen that for those deliveries prices had up to last night declined ⅛c.@⅛c. from the previous Friday. To-day, the early months of the present crop declined ⅛c., and the later months 1-16c., while the next crop was almost wholly neglected; receipts at the ports and at Memphis were comparatively large, and a return of good planting weather was generally reported.

The total sales for forward delivery for the week are 180,900 bales, including —— free on board. For immediate delivery the total sales foot up this week 10,541 bales, including 2,511 for export, 3,188 for consumption, 4,842 for speculation, and —— in transit. Of the above, 300 bales were to arrive. The following are the closing quotations:

| Price Middling Uplands, Liverp'l. | 6¼d. | 8d. | 8¼d. | 9⅛@9⅜d |

These figures indicate an *increase* in the cotton in sight to-nigh of 94,401 bales as compared with the same date of 1875, a *decrease* of 29,440 bales as compared with the corresponding date of 1874, and an *increase* of 134,692 bales as compared with 1873.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week and stock to-night, and for the corresponding week of 1875—is set out in detail in the following statement:

| | Week ending Mar. 31, 1876. | | | Week ending April 2, 1875 | | |
|---|---|---|---|---|---|---|
| | Receipts. | Shipments. | Stock. | Receipts. | Shipments. | Stock. |

| Total, new ports | 13,466 | 20,151 | 52,743 | 8,427 | 12,152 | 53,560 |
| Total, all..... | 23,073 | 40,396 | 145,001 | 15,362 | 23,223 | 142,425 |

* A count of stock at Nashville shows 955 bales less than estimated.

The above totals show that the old interior stocks have *decreased* during the week 11,534 bales, and are to-night 2,393 bales *more* than at the same period last year. The receipts at same towns have been 2,732 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 21,000 bales shipped from Bombay to Great Britain the past week, and 4,000 bales to the Continent; while the receipts at Bombay during this week have been 54,500 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, March 30:

| | Shipments this week— Great Britain. | Con-tinent. | Total. | Shipments since Jan. 1— Great Britain. | Con-tinent. | Total. | Receipts.— This week. | Since Jan. 1. |
|---|---|---|---|---|---|---|---|---|
| 1876..... | 21,000 | 4,000 | 25,000 | 128,000 | 89,000 | 217,000 | 54,500 | 317,500 |
| 1875..... | 18,000 | 15,000 | 33,000 | 266,000 | 153,000 | 419,000 | 56,000 | 582,000 |
| 1874..... | 16,000 | 35,000 | 51,000 | 210,000 | 145,000 | 355,000 | 65,000 | 520,000 |

From the foregoing it would appear that, compared with last year, there is a *decrease* of 8,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 202,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—As a general thing, there has been less rain and more favorable weather this week, but in many sections it has been too cold, and in some others too wet to permit of much progress in farm work. Still, crop preparations are on the average well advanced, more so than last year. The Mississippi still continues in a very threatening condition, the water at Memphis having reached the danger line, and the higher and rising water in the tributaries above would indicate that an overflow was inevitable.

*Galveston, Texas.*—Planting is making slow progress, as the weather has continued unfavorable. The frosts of last week will make the replanting of corn in some districts necessary, but only very partially will it be necessary to replant cotton. There have been two showery days this week, with a rainfall of one inch and two hundredths; and, for the month, the rainfall has reached four inches and eighty-three hundredths. The thermometer this week has averaged 61, the highest being 73, and the lowest 45.

*Indianola, Texas.*—It has been showery two days this week. The weather is so unfavorable that much of the seed planted has failed to come up, but may do so yet. Planting, however, is being retarded. The rainfall this week has been ninety-six hundredths of an inch, and during the month of March three inches and eighty-eight hundredths. The thermometer has averaged 57, the highest being 80 and the lowest 46.

*Corsicana, Texas.*—It has been too cold here, and very little progress has been made in replanting the corn killed by the destructive frosts of last week. We have also had frost on two nights of this week. There was a shower on one day, the rainfall being thirty-five hundredths of an inch. For the month the rainfall has reached three inches and thirty-nine hundredths. Thermometer has averaged 57, the highest being 77 and the lowest 36.

*Dallas, Texas.*—The weather is still very unfavorable for planting and replanting, as it has been too cold. It sprinkled on one day, the rainfall reaching five hundredths of an inch. For the month the rainfall has been one inch and eighty-two hundredths.

*New Orleans, Louisiana.*—We had a heavy storm on one day of this week, the rainfall reaching three and ninety hundredths inches. The thermometer has averaged 57. The rainfall for the month has reached a total of eleven inches and sixty-five hundredths.

*Shreveport, Louisiana.*—There has been no rain at this point during the week. The thermometer has ranged from 77 to 37, averaging 56.

*Vicksburg, Mississippi.*—There have been two rainy days here this week, the rainfall reaching two and eight hundredths inches. The thermometer has ranged from 40 to 68.

*Columbus, Mississippi.*—We had rain the early part of the week, the rainfall reaching sixty-four hundredths of an inch, but the latter part has been clear and pleasant. The thermometer has averaged 53, the extremes being 46 and 60.

*Little Rock, Arkansas.*—There was rain on one day of this week and two days were cloudy, the rainfall for the week reaching forty hundredths of an inch. Average thermometer during the same time 54, highest 72 and lowest 35.

*Nashville, Tennessee.*—There have been three rainy days, the rainfall reaching one inch and forty-two hundredths. The thermometer has averaged 46, the extremes being 37 and 55.

*Memphis, Tennessee.*—We have had three rainy days here this week, the rainfall aggregating three inches and five hundredths. Average thermometer 48, highest 57 and lowest 40.

*Mobile, Alabama.*—It rained constantly and severely one day this week, but the rest of the week up to to-day has been pleasant; to-day, it is cloudy and warm. The thermometer has averaged 56, the highest being 70 and the lowest 34. The rainfall has reached three inches and forty-three hundredths.

*Montgomery, Alabama.*—We had two rainy days the early part of this week, but the latter part has been clear and pleasant, the rainfall reaching one inch and twenty-eight hundredths, and the thermometer averaging 56, ranging from 36 to 71.

*Selma, Alabama.*—In the early part of the week there was rain on two days, but the remaining five days have been pleasant. Total rainfall, two inches and two hundredths. Average thermometer, 55.

*Madison, Florida.*—Our telegram from this point has failed to reach us.

*Macon, Georgia.*—We have had rain on two days this week. The thermometer has averaged 49, the highest being 77, and the lowest 38.

*Atlanta, Georgia.*—We had rain one day this week, a shower, the rainfall reaching thirteen hundredths of an inch. The thermometer has averaged 52, the highest being 64 and the lowest 33. Total rainfall for the month, five and ninety-one hundredths inches. There will be less cotton and more corn planted this year than last.

*Columbus, Georgia.*—There has been one rainy day here during the week, the rainfall reaching eighty-six hundredths of an inch. Average thermometer 54, highest 66 and lowest 34.

*Savannah, Georgia.*—Three days of this week have been rainy, but the rest of the week has been pleasant. The thermometer has averaged 62, the highest being 73 and the lowest 52. The rainfall has reached fifty-three hundredths of an inch. Total rainfall for the month, two inches and seventy-one hundredths.

*Augusta, Georgia.*—Three days of this week were showery, the rainfall reaching seventy-five hundredths of an inch, but the rest of the week has been pleasant. Average thermometer 57, highest 75 and lowest 38. Rainfall for the month, two inches and ninety-six hundredths.

*Charleston, South Carolina.*—It has been showery two days of the past week, the rainfall reaching eighty-three hundredths of an inch. The thermometer has averaged 42, the highest being 71 and the lowest 29.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock March 30. We give last year's figures (April 2, 1875) for comparison.

| | Mch. 30, '76. | | April 2, '75. | |
|---|---|---|---|---|
| | Feet. | Inch. | Feet. | Inch. |
| New Orleans..Below high-water mark..... | 8 | 8 | 4 | 11 |
| Memphis.....Above low-water mark..... | 34 | 0 | 33 | 9 |
| Nashville.....Above low-water mark..... | 32 | 5 | 22 | 9 |
| Shreveport. ...Above low-water mark..... | 24 | 5 | Missing. | |
| Vicksburg....Above low-water mark..... | 41 | 8 | 41 | 11 |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

WEEKLY RECEIPTS OF COTTON.—Below we give a table showing the receipts of cotton each week at all the ports of the United States for several seasons, indicating, also, the total crop each year. Our figures are given in thousands of bales.

WHERE IS OUR COTTON CROP GONE AND GOING?—We raise a very large crop of cotton, and imagine it will never be exhausted. But quietly, like the spring snows, it melts away until suddenly we are surprised that it's gone. Suppose we call this crop 4,500,000 bales, how much is there left for sale for European spinners? The statement would be about as follows, estimating the exports for this week, as our telegrams have not reached us while we write:

| | | |
|---|---|---|
| Total crop ..... | bales, | 4,500,000 |
| Already exported, about... | 2,600,000 | |
| Taken by spinners, about ..... | 800,000— | 3,400,000 |
| Leaving ..... | bales. | 1,100,000 |
| Of the above there is engaged for export about.. ..... | 200,000 | |
| Needed for our spinners..... | 300,000 | |
| Southern consumption ..... | 150,000— | 610,000 |
| Leaving unappropriated..... | bales, | 390,000 |

Here is less than 400,000 bales, out of a crop of 4,500,000, unappropriated. It would not be a surprise if we should wake up some fine morning and find a temporary twist in the market, the sales of "futures" having been so large and the surplus having a limit, as we see.

GUNNY BAGS, BAGGING, ETC.—Bagging has ruled very quiet during the past week, and prices are a shade easier. Sales are reported of 2,000 bales for future delivery at 13c., and the market closes quiet at that figure. Bales are unchanged and prices rule nominal at previous figures. Bags are quoted as dull at 13⅜@13½c. Butts have been in light request, but prices have ruled steady. We hear of sales of 300 bales at 2⅞@3 1-16c. Spot lots are quoted at 3c.

LIVERPOOL, March 31.—3:00 P. M.—BY CABLE FROM LIVERPOOL.—Estimated sales of the day were 10,000 bales, of which 2,000 bales were for export and speculation. Of to-day's sales 6,800 bales were American. The weekly movement is given as follows:

| | Mch. 10. | Mch. 17. | Mch. 24. | Mch. 31. |
|---|---|---|---|---|
| Sales of the week.. .....bales. | 85,000 | 91,000 | 86,000 | 53,000 |
| Forwarded..... | 17,000 | 11,000 | 10,000 | 9,000 |
| Sales American..... | 55,000 | 54,000 | 47,000 | 29,000 |
| of which exporters took..... | 8,000 | 8,000 | 11,000 | 8,000 |
| of which speculators took..... | 11,000 | 18,000 | 16,000 | 6,500 |
| Total stock..... | 849,000 | 802,000 | 777,000 | 753,000 |
| of which American..... | 486,000 | 461,000 | 443,000 | 421,000 |
| Total import of the week..... | 80,000 | 38,000 | 50,000 | 27,000 |
| of which American..... | 60,000 | 28,000 | 26,000 | 9,000 |
| Actual export.. ..... | 6,000 | 6,000 | 6,000 | 4,000 |
| Amount afloat..... | 332,000 | 442,000 | 442,000 | 502,000 |
| of which American..... | 280,000 | 321,000 | 331,000 | 374,000 |

The following table will show the daily closing prices of cotton for the week:

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 79,042 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

| | Total bales. |

| Boston ..... | 396 | . . . | .... | .... | .... | .... | .... | .... | 398 |
| Philadelphia..... | 200 | .... | .... | .... | .... | .... | .... | .... | 200 |
| Total ..... | 50,868 | 16,731 | 936 | 4,120 | 1,654 | 1,550 | 1,003 | 1,200 | 79,042 |

Included in the above totals are, from New York, 150 bales to Gothenburg; from New Orleans 730 bales to Nordkoping, and 98 to Genoa; from Boston 2 bales to other ports.

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

CITY OF SAN ANTONIO, str., at New York, March 24, from Galveston, had heavy gales almost the entire passage; in lat. 30 left the Gulf stream on account of heavy weather; 20th, lat. 32.50, had a severe S.E. gale, lasting till midnight, during which the sea flooded the decks fore and aft; the gale ended in very heavy rain-squalls from S. and W.; received no damage.

KNICKERBOCKER, str., Kemble, from New Orleans, March 23, for New York, put back, 25th, to New Orleans, with machinery slightly disabled.

MISSISSIPPI, str. (Br.), Lindell, from New Orleans for Liverpool, was aground on the bar, Southwest Pass, March 25.

TURKESTAN—Cargo was landed from ship Turkestan (Br.), from New York, ashore off Port Madoc on March 13, 14 and 15; during the transit of the cotton one of the axles of a truck broke, causing the cotton loaded on it to catch fire.

DISCO—The cargo of cotton had not been wholly discharged at Amsterdam, March 11, from the bark Disco (Br.), from Savannah. Up to that time about 60 bales had been found damaged by fire, and about 120 bales damaged by the water used to extinguish it. The injury to the vessel was not of great importance.

ENTERPRISE II.—The wreck of the bark Enterprise II. (Dutch), from New Orleans for Havre, wrecked on Mulata reefs in January last, has been sold—the hull for $395, and rigging, sails, &c., for $535 25. About 1,703 bales cotton were saved and taken to Havana, the portion in good condition to be re-shipped to destination, and the damaged to be sold; 600 bales cotton, damaged, were advertised to be sold March 23.

EXCELLENCEN SIBBERN, bark (Swede), from Galveston, at Liverpool, March 10, shipped a sea March 2, damaging skylights, filling the cabin, &c.

HOPE, bark (Br.), from Wilmington, N. C, at Liverpool, March 10, had cabin skylight smashed, and sustained other damage, when off the Western Islands, March 2.

A bark burned to the water's edge, apparently loaded with oil or cotton, was seen, March 3, in lat. 37 N., lon. 70.30 W., at 11:30 A. M.; the mizzenmast was seen to fall, but nothing could be learned concerning the vessel.

Cotton freights the past week have been as follows:

| | Liverpool. Steam. | Liverpool. Sail. | Havre. Steam. | Havre. Sail. | Bremen. Steam. | Bremen. Sail. | Hamburg. Steam. | Hamburg. Sail |

# BREADSTUFFS.

FRIDAY, P. M., March 31, 1876.

The flour market opened with a good deal of activity in low shipping extras, and prices had a slight upward tendency, but in the past few days there has been less doing, and prices were not fully supported. Still, there was no general decline, and buyers were much inclined to renew their purchases when slight concessions were made. The better grades of flours from winter wheat, but more especially Southern and St. Louis brands, are scarce and held for extreme prices. Medium winter flours are also more in favor with shippers for the West Indies, as much of the flour from spring wheat, which they have been accustomed to buy, does not maintain the quality of former years. The production of flour has somewhat increased, but is still moderate. Rye flour and corn meal have been doing rather better. To-day, the flour market was steady, but the demand limited, and low shipping grades not plenty.

The wheat market opened the week active and buoyant. There was a large demand for export, and local millers were much in want of stock, but foreign advices came in less favorable, and the market became dull at drooping prices, until yesterday, when a material decline in ocean freights led to a revival of business and a partial recovery in prices. The bulk of transactions has been at $1 15@$1 18 for No. 3 spring, $1 26@$1 29 for No. 2 do., and $1 38@$1 30 for No. 1 do. Winter wheats, though slow of sale, have brought full prices. Receipts at the Western markets are kept back by bad roads and stormy weather, while the whole spring wheat section has had a heavy fall of snow, which must delay sowing. To-day, the wheat market was quiet and unchanged.

Indian corn was active and buoyant in the first half of the week. Supplies were limited, and the demand quite urgent for export, while the wants of the home trade were larger than usual. The main demand, however, was to fill freight room by the English steamers, and this caused the range of prices to be greatly reduced, as the poorest qualities brought within 2c. as much as the best. Supplies continue quite moderate at all points. To-day, at ½c. decline, there was more doing, the sales being liberal at 60½c. for steamer Western mixed and Jersey canal yellow.

Rye has been doing better, the sales including Canada at 90c in bond. Canada peas have sold at 99c. in bond. Barley and barley malt are dull.

Oats have been active, and the better qualities have advanced There was considerable speculation early in the week, with sales of No. 2 Chicago at 48½c. in store and 49½c. afloat, but latterly the market has been dull and drooping.

The following are closing quotations:

| FLOUR. | | GRAIN. | |

## THE DRY GOODS TRADE.

FRIDAY, P. M., March 31, 1876.

The trade movement the past week has been emphatically slow with manufacturers' agents representing domestic cotton and woolen productions, and foreign goods have been so dull that importers have freely resorted to the auction rooms as a means of outlet. Local and Southern jobbers bought a fair quantity of assorted merchandise, but the Western trade operated with unusual caution, because of the extreme inactivity prevailing in that important section of country. City jobbers effected a fair aggregate distribution of cotton goods, prints, etc., at low prices, but in the regular way found business quiet, and retailers are apparently deferring their general purchases until a probable consumptive demand has been developed. The export trade in cotton goods has been fairly satisfactory, and additional orders have been received by mail and cable for considerable lots of brown and bleached goods, print cloths, etc. The unsatisfactory condition of the print market has induced curtailment of production, and many machines are now standing idle. Much injury has been done to several New England mills by the freshet, and the Baltic Mills (owned by the A. & W. Sprague Manufacturing Co. and running over 70,000 spindles) will not be able to resume production for two or three months in consequence of the damage sustained, which will probably exceed $200,000. Messrs. Wettstein, Oehninger & Co., importers of silks, and Robert Macdonald, importer and jobber of white goods, etc., have suspended payment.

DOMESTIC COTTON GOODS.—The exports of cotton goods for the week have been 1,377 packages, of which the largest quantities were sent to Liverpool, Hamburg and Brazil. The home demand has been moderate, with most relative activity in brown sheetings and fine bleached shirtings, which met with liberal sales from the hands of both agents and jobbers. Corset jeans were in steady demand and firm. Tickings ruled quiet, but a few low grades are closely sold up by agents. Denims, ducks, checks and stripes were taken in small lots for the renewal of assortments. Cheviots moved slowly, except when offered at a concession from former holding rates, when some few sales were made. Cottonades were uniformly quiet, and the supply is too large for the current demand. Rolled jaconets, cambrics and silesias were in limited request at unchanged prices. Print cloths were quiet, and, despite the increased demand for export, stocks have largely accumulated. Prices for 64x64 cloths were nominally 3¾ cash to 4c. 60 days. Prints continued inactive in first hands, but jobbing sales of fancy and shirting styles were made in liberal amounts when offered at low prices. The Bristol print works have discontinued production for the present, and the Cocheco works will be closed for the season on April 1st. Ginghams were in steady demand, and there was a fair movement in fancy cotton dress goods.

DOMESTIC WOOLEN GOODS.—There was comparatively little activity in any description of men's wear woolens from first hands, and sales were restricted to small lots required for the completion of jobbers' stocks. The jobbing trade in woolens was exceptionally light, when compared with previous seasons at this period. Fancy cassimeres and suitings of the most popular makes were in moderate demand and steady; but styles which are not strictly desirable are difficult to move at any reasonable price. Worsted coatings of the better grades were in fair request, but low qualities were not wanted and are irregular in price. Overcoatings were much less active than of late, and cloths and doeskins received little attention. Satinets for printing were in fair demand, as were some of the better grades of mixtures, but plain blacks were neglected. Kentucky jeans were a little more active, but sales were chiefly made in small parcels. Flannels and blankets continued quiet. Carpets were in moderate request, and low grade ingrains were distributed to a fair aggregate amount. Worsted dress goods lacked animation, and shawls remained quiet.

FOREIGN DRY GOODS.—Business was very quiet with importers, and there was increased pressure to dispose of accumulations through the auction rooms, where in some cases prices suffered a decline. Messrs. Arnold, Constable & Co. made a peremptory sale of woolens and worsteds through a leading auction house, when fair average prices were realized, although some goods sold very low. Silks were largely sold at auction, including the importations of such prominent firms as Kiefer & Co., C. F. Dambmann & Co., Leisler & Sommerhoff, &c., and brought low prices. Black cashmeres were in steady demand, and, although nominally firm in first hands, auction prices were lower. Alpacas and pure mohairs were in moderate request, as were fancy dress goods. White goods were more active, and there was a fair inquiry for housekeeping linen goods. Woolen goods continued dull and depressed in the hands of both importers and jobbers. Ribbons and millinery silks were in steady demand, and a public sale by Messrs. Strange & Brother proved a success.

We annex prices of a few articles of domestic manufacture:

### Mortgage Security Co.

OFFERS FOR SALE, AT PAR,

**SEVEN PER CENT TEN-YEAR BONDS**

SECURED BY

**FIRST MORTGAGES OF IMPROVED REAL ESTATE,**

GUARANTEED, PRINCIPAL AND INTEREST,

BY ITS

**CAPITAL STOCK OF $500,000.**

Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next-due Coupon being stamped so as to denote that interest begins at the date of purchase.

A Pamphlet with full information will be sent on application to the Company's Office,

**43 Milk Street, Boston.**

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.

The security of each Bond is not confined a to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by Individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactory investment. The Loans are all upon improved Farms in some of the most fertile Western states, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well-selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and interest are more promptly paid; and upon the success of Agriculture depends that of almost every industrial investment.

COMMON SENSE AND FAIR PLAY IN LIFE ASSURANCE!

*Do not Assure your Life* till you have examined the NEW PLANS devised by SHEPPARD HOMANS Actuary, for

THE

Provident Savings Life Assurance Society,

WESTERN UNION BUILDING,

NEW YORK.

**Guaranty Cash Capital, $125,000,**

Invested in U. S. Five-Twenty Bonds.

*This Society separates the Insurance Part of the Premium from the Reserve or Deposit Part*, which latter is held merely for accumulation.

*This Society recognizes the Policy-holder as owner of the Reserve.*

This Society, therefore, will either issue policies on the payment of uniform annual premiums, *guaranteeing a specified surrender value for every year in cash;* or it will furnish the PROTECTION OF LIFE ASSURANCE *at actual current cost for death claims and expenses of management, each year by itself, renewable at the close of any year without further medical examination.*.

These Plans are indorsed by leading Actuaries and State Commissioners, and also by the "*Society for the Promotion of Life Insurance among Clergymen*," James Brown, *President;* Howard Potter, *Treasurer.*

For Plans, Rates, and Full Particulars apply to

THE PROVIDENT SAVINGS LIFE ASSURANCE SOCIETY,

WESTERN UNION BUILDING, NEW YORK.

Gross Assets held by Board of Management in New York, $1,600,000.

The Company's actual losses by Chicago conflagration in 1871 were $1,743,457 81.

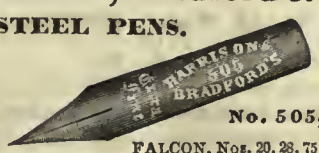
The Company's actual losses by Boston conflagration in 1872 were $503,680 46.

Yet the Company paid these losses at sight without borrowing or selling a single dollar of permanent investments, continued regular dividends to their stockholders, and at the end of 1873 had entirely made up (not in this country, however), the losses of these two conflagrations and all others, commencing 1874 with a surplus over $100,000 larger than ever before.

Annual Income of Fire Department alone over $4,000,000.

Fire and Life Assets entirely distinct—the one not liable for the other.

The Company organized A. D. 1809. Commenced business in this country A. D. 1867.



Agencies in most of the principal cities and towns in the United States.

### A Solid Twelve Per Cent

While bonds and stocks are the footballs of brokers the solid Illinois and Missouri TEN PER CENTS (semi-annually at the American Exchange National Bank, New York) and our choice Kansas TWELVE PER CENTS have *never failed*. Nothing but an earthquake can impair their *absolute security*; and as to promptness, ask our New York Bank. Our paper is *always at par* in New York, because *always paid at maturity*. Have loaned millions, and not a dollar has ever been lost.—For details address ACTUARY of the Central Illinois Loan Agency, Jacksonville, Illinois. P. O. Box 657.

## Financial.

### FISK & HATCH,

BANKERS,

**No. 5 NASSAU ST., NEW YORK.**

We give particular attention to Direct Dealings in Government Bonds at current market rates and are prepared, at all times, to buy or sell in large or small amounts, to suit all classes of investors. Orders by mail or telegraph will receive careful attention.

We shall be pleased to furnish information in reference to all matters connected with investments in Government Bonds.

We also buy and sell Gold and Gold Coupons Collect Dividends, and Town, County and State Coupons, &c., and buy and sell, on Commission, all Marketable Stocks and Bonds.

In our Banking Department we receive deposits and remittances subject to draft, and allow interest to be credited monthly, on balances averaging, for the month, from $1,000 to $5,000, at the rate of three per cent per annum, and on balances averaging over $5,000, at the rate of four per cent.

☞ The Business Department of the CHRONICLE is represented among Financial Interests in New York City by Mr. Fred. W. Jones.

## BORROWING CAPITAL.

The real want of our people, commonly expressed in the demand for more and cheaper money, is capital—the capital which can be loaned. The legal-tender notes, when in the United States Treasury, are only pieces of printed paper. When issued, they represent capital forcibly borrowed from the people. In the hands of the people they have cost their nominal amount, in service or other value, and thenceforward, until redeemed by the Treasury, they are certificates of the people's deposit or loan of capital in the Treasury, and as such serve as currency.

What, then, would be the effect of an issue of four per cent bonds wherewith to retire and cancel the legal tenders? It would not increase the debt of the Nation, but it would subject this amount to interest, some few millions annually, and would leave the capital fixed in these bonds without its currency representatives now in use. And what next might we expect? These bonds could not remain in this country where the use of capital is worth more than 4 per cent, except in periods of great business depression and low interest. Besides, the process of funding would itself be regarded in Europe as so wholesome, such evidence of sound policy and economy on the part of Congress and the people of the United States, that the 4 per cent bonds would then be better worth par in gold than are 5 per cents now. It may therefore be held, as a moral certainty, that the greater part of these bonds would go abroad. If so, they would bring to this country capital for the full amount so taken, which we should thus borrow in the name of the Nation at 4 per cent; and this capital, received in exchange for our bonds, would be free capital, loanable for business uses, replacing the capital fixed by funding the legal tenders. Nothing need be said of the effect of this measure on our National finances, in helping us to re-fund, at a low rate of interest, the portion of the public bonded debt now payable at will, nor of its effect in reducing other National expenditure. The point we now wish to enforce is the importation of foreign capital at 4 per cent. per annum. Our Government, at present, has the use of that capital, borrowed from the people without interest. By this change the capital would be borrowed from abroad, and the debt be paid to the people—paid in gold worth now, compared with greenbacks, more than the difference of the gold premium, by reason of its higher purchasing power.

These facts are worthy of consideration in connection with the present position of the currency question in Congress.

## IMPROVEMENT OF THE ERIE CANAL.

The Chamber of Commerce did well in seconding the move of Governor Tilden for having the unexpended canal funds appropriated to the work of giving the Erie Canal a uniform depth of seven feet; but, unless further action be taken by our people, we fear the Legislature will fail to carry out his suggestion. Let us not, therefore, under-estimate the importance of this work, and so neglect to make the necessary effort to attain the end sought.

The Governor, by his canal policy, has from the start shown himself to be chiefly concerned in securing economy of transportation. When he took hold of those pilfering contractors, a wonderful advance in that direction was made, for he thus largely decreased the cost of keeping the water-way in order. This saving to

the people of over two millions of dollars a year is in itself no trifle, but is chiefly important as it permitted a continuance of low tolls, which would otherwise have been impracticable. This is one side of, or one element in, the cost of transportation. But now, having made low tolls possible, he turns his attention in the other direction, with a similar design, and next proposes as rapidly as it can be done to improve the water-way. And here is the real secret of cheap transportation; an enlargement of the locks looks simply to increased capacity, but the improvement of the water-way to economy.

Mr. Tilden himself illustrated this very forcibly in a speech he made before the Constitutional convention in 1867. He there showed that ninety-five per cent of all the time consumed in the transit on the Erie Canal—assuming that the water-way and the locks are in equally good relative condition—is consumed in passing over the water-way; hence, economy of transportation is obtained by making the water-way the best the circumstances permit. This is evident when we remember that the cost of carrying freight is made up of (1) the cost of the boat, (2) the cost of towing, and (3) the cost of other labor employed. If, therefore, you can quicken the transit, you lessen all these expenses.

Much of the water-way is now not more than six feet. Extravagant, wasteful repairs have been in progress, but this vital point has been neglected. It was too simple a thing for the large ideas of the modern contractor. Our locks and our boats are all made on the expectation of seven feet at least. Experience has taught us that to get the most speed a certain proportion has to be observed between the cross section of the boat and the cross section of the water-way. If you narrow the channel or lessen its depth, without decreasing the size of the boat, its movement must be lsss rapid. This has been clearly proven by experience. But, in the present case, the evil has grown to such an extent that at points the middle line of the canal has to be followed to find even floating room. How important is it, therefore, in every view, that the suggestion made by the Governor be heeded. Have a proper survey made and the present condition shown, and let us do this spring what can be accomplished towards removing the evil. The benefits of an immediate prosecution of this work are thus summarized by the Governor :

> In my judgment, a far more important improvement of the Erie Canal would be effected by a thorough system of ordinary repairs, which should give the water-way its proper and lawful dimensions; and by progressively deepening it, wherever reasonably practicable, from seven to eight feet, as the object would be merely to enable the submerged section of the boat to move in a larger area of water, so that the displaced fluid could pass the boat in a larger space. It would not be necessary to alter the culverts or other structures, or to carry the walls of the canal below the present bottom, and the benefit would be realized in each portion of the canal improved, without reference to any other part of the channel which should remain unchanged, in facilitating the movement of the boat and quickening its speed. It would increase the amount of service rendered in a given time, and would thereby diminish every element of the cost of transportation. It would benefit the boatmen and carriers more, even, than one cent a bushel remission of tolls. It would be of more real utility to navigation than five or ten times its cost expended in the average manner of so-called improvements on the public works. These opinions are deduced from the best engineering science as applied to canal navigation, and are confirmed by practical experience. In the present depressed state of business is found an increased necessity and a favorable opportunity for going on with this measure. The interests of the consumers in cheap navigation, of the boatmen and forwarders for every facility in their business, the low prices of material, and the scanty employment of labor, are all circumstances which conspire to demand attention to this subject, and to make the present a fit and advantageous time in which to begin the work.

We fear that the very simplicity of this remedy may result in its being little thought of. It is the large, extravagant and improvident plan which arrests the popular attention. We want to see "millions in it" before we are willing to be much interested. But, perhaps the experience we have had of late years in this wasteful policy may lead us to look with more favor upon the unpretentious plan. We must remember that it contemplates, not only the restoration of the old seven feet, but a subsequent gradual enlargement throughout the whole line to eight feet.

## THE NEED OF THE WEST.

The story is familiar of the man who, far from human habitation and weak from lack of food, found a mass of gold too heavy for him in his weak condition to carry away. Here was wealth. To retain it was to die; to live was to abandon it. A man will give all that he hath for his life.

In the early days of gold-getting in California, gold was abundant in the hands of every able-bodied industrious man; but labor and all the products of labor except gold, were exceedingly dear. Why? Because labor was so richly rewarded. Labor was scarce; therefore dear. The objects of labor or employment many times exceeded the labor obtainable. Here was capital taken from the ground and accumulating rapidly, but not well distributed until the social law had time to work its inequalities. There was very little coin or money, grains of gold furnishing a ready substitute. The agent in making labor dear was excessive capital in the form of gold not readily convertible into other forms nor reproductive until the appliances of modern civilized life could be brought to its aid; and with them came the required labor drawn by the power of that capital.

In our new Western States are found, in an extraordinary degree, these conditions—great fertility of soil that "only needs to be tickled with a hoe to laugh with a harvest;" the minerals most valuable to industrious man, iron and coal in abounding quantity, with a stinted portion of lead, silver, gold and other less important treasures of the mine; and a temperate climate suited to man's best physical development. It is that portion of the earth's surface where Providence has prepared to offer to man the richest reward for the smallest labor. The people of these States see the natural wealth around them. Obedient to a natural and wholesome instinct, each seeks to bring the largest portion of this wealth into individual possession, in one of two forms, money or reproductive power. The ease with which the earliest conversion is accomplished stimulates the desire for more, and for those instrumentalities which would hasten or promote it. The great want is manual labor and the modern substitutes for human labor, the machinery which reduces that labor to its minimum of exertion, yet demands man to direct and work it. All have discovered that the possessor of capital can command labor and all other needed power. Every dollar of capital accumulated being invested (as fixed) in reproductive works, as acquired, no capital remains free with which the great want can be supplied. To some extent this deficiency of free capital has been supplied by borrowing from distant sources of accumulated wealth, at high rates of interest, upon pledge or mortgage of the local fixed investment. But every good use of the borrowed capital has shown the need for more, and the want grows by what it feeds upon. So far all is well. Excess is hardly possible, or is but transient, for there is a remainder of profit on all the costly use of capital, and a benefit perhaps still greater in the development to which it leads.

But when it is proposed to substitute the shadow or semblance of capital, mere paper currency, in the place of its substance, a most hurtful delusion takes the lead. Its creation absorbs capital previously free. Only labor is really wanted in the West. Only capital can command labor. Currency is not capital, but requires capital to get it. The more National currency there is in the United States, the less free capital will there be for the procuring of what is most wanted—labor, labor working for hire or for itself.

The citizens in our new and rich States are in the same condition as the man who was compelled to leave his wealth to save his life; the same as that in the early mining days of California—the same in kind, differing only in degree. The solitary man, compelled to abandon his gold, lacked only labor or its results—transportation and facilities of trade. That, in less degree, was the want of the early Californians, and, in still less degree, it is the want of the sparsely settled States, rich in the bountiful gifts of Nature, beyond existing capacity to convert them.

No financial expedient can wholly supply that which must wait on the progress of population and local improvement. In this generation we see tempting inducements for the movement of population from the older States and from Europe, and even from Asia, greater than the world ever before offered, and we see its effects in the moving crowd of immigrants. The field is large; the reward of labor upon one's own homestead is rich; the competition for hired labor is great; and millions more of laborers must come before their hire can be cheapened, to be within the means of the small proprietor competing with the profit of working for one's self upon a rich and almost gratuitous homestead. The sore need of the man with the lump of gold brought him no aid; the wealth of California attracted hundreds of thousands of workers, yet many years passed before that fertile State could afford to produce her people's food; and the impatient West, gaining, unaided, more increase of wealth in a decade than the Eastern colonies gained in a century, borrowing capital to the extent of her credit, as is right, if well used, must wait for the rest upon her own accumulations and on immigration.

## WASTE.

How far has waste borne, and how far does it still bear, a part in our national sufferings? How far, for example, did it contribute to produce the present financial trouble, which is, *per se*, itself an enormous and deplorable waste? There is not very much thought bestowed upon such questions as these, unless by the "theorists," but there is an unsuspected significance hidden in them. When the crib is low the animals quarrel, says a proverb. Adversity sharpens wit and stimulates inquiry into the reason of things. While we are industrially and commercially in the slough, we shall be foolish indeed if we omit to improve the opportunity of leisure by earnest study after the causes which overthrew us. A little of the attention formerly bestowed upon the pursuit of the dollar now turned to Political Economy may be useful; without it we have gotten on stumblingly, and on the whole not quite well; with it we may build more stably. What is it; what does it teach; what will its teaching do; will it increase production; will it facilitate exchanges; will it diminish waste and loss; will it help us in any of these particulars, so as to prove worth knowing? The sufficient answer is that it teaches on a broad scale the rules which everybody tries to practice for his own benefit on a small one.

Consider one of these questions. We are in the habit of saying that Americans are a wasteful people; that a French cook would feed a family on what the average American couple reject as useless food material; that the American dwelling burns or is pulled down, but never decays; that American thrift never saves the pieces. Of course this is partly hyperbole, but as applied to types and habits it is very closely true. The domestic habits in this country are destructive; we do not by precautionary care get the most service out of things; we are too changeful ourselves to expect much durability; the son pulls down his father's house and builds anew, and often rebuilds his own once or twice to satisfy whim or the imaginary demands of increasing fortune. We put the discounted profits of the store on the store cornice and show windows before beginning. We are so sure of the future that it is necessary to be "palatial" because others are, and prudence comes in late. We give credit easily, fail for large amounts while we are about it, and let off the debtor easily, thinking it not worth while to bother about by-gones. We burn up cities occasionally because we prefer to take the risks of building shells, ironically called fire-proof, and filling them with combustible goods; and oncein a while fire gets the start of our elaborate means of extinguishing it, provided in the ratio of one hundred for extinguishment to one for prevention. The only thing of which we are not lavish is time. Of *that* we try to be careful, and our inventions all aim to economize it by multiplying the effectiveness of each laborer; to do this is the quality of machinery generally, but it is peculiarly that of some of our distinctive inventions, notably the reaper and the sewing-machine. Of course, waste of fragments is not intended; it is a consequence of our habits of work. Haste makes waste; the more haste the worse speed; these twin proverbs, equivalent each to the other, are expressive of the American way. We make pieces because we go at high pressure and speed, and leave them because we cannot stop to pick them up; and we go on too large a scale to be concerned about trifles. The large-handed West is indifferent about small change. Saw dust, coal dust, the chips and bits thrown out by the multiform processes of manufacturing, and all little things, are overlooked in our national habit. But, of course, the proverbs compel even us to prove them true. That is not the fastest train whose speed runs it off the track. And if we go so fast that we do not go firmly but become top-heavy and tumble over in a financial crisis every fifteen years or so, we might go faster by going slower; more than that, our pressure to avoid wasting time, by forcing it to an unnatural productiveness, really wastes and loses time by the delays of re-action it produces, as when a wagoner undertakes to carry too much and breaks down his wagon. We need not ponder long to see the false economy in such a habit. But will seeing be convincing, and will conviction make improvement?

The hardest lesson for Americans to practically learn seems to be that waste is really impoverishment. Nobody will fail to see readily that if the entire wealth of the country were suddenly destroyed in an hour, all mankind would be the poorer thereby; but when the destruction is trivial, as when a pitcher is broken, it is not so easy to see that the rule still applies, and that the loss is heaviest on the individual, but is really on all mankind. The artisan has a demand for another pitcher and is benefitted; but he would be as much benefitted

by making a second pitcher without the breaking, in which case mankind would have two pitchers instead of one. The trivial illustration is as close to the truth as the imaginary larger case would be. But that larger case is imaginary only in the one particular of suddenness, for all the wealth does perish; but it does so gradually and as new wealth is developed to take its place. Set an apple on a gate post and oxygen will soon destroy it; is is thus of the least possible use in reproduction, but if it is eaten it is of the greatest use. As nothing lasts very long, the best use to which things of utility can be put is one which contributes not only to enjoyment but to replacement, and we have always to choose between profitable and unprofitable consumption.

The general rule is, of course, that all consumption which is not in some way contributory to production is unprofitable. The cases or questions which may arise for settlement under this rule are various; but it is unnecessary to try to answer them here. The general rule stands, that *destructive* consumption—as by breakage, decay, shipwreck and fire—is actually to the loss and impoverishment of mankind; of course mankind continues to increase in wealth, but the increment is only the excess remaining after these pull-backs are deducted. Waste is also a burden which makes a nation poor to carry it, whether it consists in careless handling of trivial property, in preventable fires, shipwrecks, and kindred disasters, in building useless railroads, in financial mismanagement, or in the overhaste which trips up in financial crises. We destroyed property in Chicago and Boston, for example, but the debts all remained; buildings and goods are there now, but there might have been, instead, more buildings and goods. How large that general impoverishment was a factor in the present troubles is hard to say, but that it was a factor is unquestionable.

A principal cause of our wasteful haste has been the very richness of our national resources. When soil is so very fertile it is only natural to increase crops by increasing the area rather than by using thorough methods. We have had so much of everything that in our possession of abundance the habit of despising fragments has grown on us unconsciously; the land has been nearly smothered in its own richness, and we learned to think that it was useless to go down deep when it was so much easier to skin the surface. Looking back soberly, it is not wonderful that the financial absurdities of demi-lunatics, who deny that any laws but those of Congress are powerful, get a hearing, as the country has been so bewilderingly unprecedented in its richness and its material development. But we have an opportunity now for sober thinking in our present reverses, and it ought to be wisely improved. It is a blessing in disguise to the extent that we penetrate and remove the disguise and get at and profit by the lesson. Whether we do or not, and whether we build more slowly and solidly and thoroughly hereafter or not, we pay the heavy cost of the schooling all the same.

## FINANCIAL REVIEW OF MARCH.

Business was rather dull in March, and neither in commercial or financial circles was there a favorable report of healthy activity. In addition to the unfavorable influences arising from the long-continued depression in business, comes now the uncertainty which hangs over the deliberations of Congress, and the impossibility of foretelling what bills will ultimately get through both houses and obtain the signature of the President. Measures are pending which have an important bearing upon the currency, the gold premium, government bonds and the tariff, and so long as these remain unsettled there is necessarily an uncertainty as to the future, which puts a check on business transactions extending beyond the present moment.

There was a slight hardening in the rates of money in March, in anticipation of the usual movement of currency towards the country about April 1, but the supply of money on government collateral was always sufficient, and it was found impracticable on the part of money lenders to advance materially the price of money. For prime mercantile paper there was a good demand at 5@6 per cent., but after the failure of the Bank of the State of New York, which occurred on the 15th, there was a good deal of discrimination as to names. The failure of this bank appeared however, to be an isolated case, disconnected with the transaction of any other bank; but as the failure occurred, so far as ye known, through the mismanagement of the Vice-President of the bank, and apparently with little knowledge on the part of the Board of Directors, it was calculated to shake confidence among bank customers.

Government bonds, though not active in the latter part of the month, maintained their prices well, and there was a feeling among the dealers that there is likely to be a steady demand for these securities from corporations. The report of the U. S Treasury showed that banks had deposited at Washington during March $5,304,000 of legal-tenders, for the purpose of surrendering their circulating notes and withdrawing their bonds to sell.

Investment securities, other than governments, were generally well maintained, though less active than in the previous months of the year. Railroad and miscellaneous speculative stocks were in most cases depressed, and there was a decided reaction from the buoyancy of the early part of the year. There was little to affect the real value of stocks unfavorably, except in a few instances, and the change in tone was most reasonably accounted for by the theory that there had been too much of an advance in non-dividend paying stocks, and that many parties had become sellers who had carried stocks for a long time. Railroad earnings were good in the early part of the month, but fell off in the last two weeks, as compared with the same weeks of 1875.

The following table will show the opening, highest, lowest

and closing prices of railway and miscellaneous stocks at the New York Stock Exchange during the months of February and March:

Foreign exchange was left to take its natural course, as governed by trade influences, and ruled pretty firm; the rates for sterling admitted of coin exports at a profit during most of the month, and this result was partly in consequence of a moderate import of United States bonds from the foreign markets.

## THE DEBT STATEMENT FOR MARCH, 1876.

The following is the official statement of the public debt as appears from the books and Treasurer's returns at the close of business on the last day of March, 1876:

**Debt bearing Interest in Coin.**

| Character of Issue. | Auth'rizing Act. | When Payable | Interest Periods. | Size. | Bonds Outstanding. Registered. | Coupon. |
|---|---|---|---|---|---|---|
| 5s of 1858..... | June 14, '58 | 1874 | J. & J. | a | $260,000 | $..... |
| 6s of 1881..... | Feb. 8, '61 | 1880 | J. & J. | b | 13,794,000 | 4,621,000 |
| 6s, Oregon War..... | March 2, '61 | 1-81 | J. & J. | c | ..... | 945,000 |
| 6s of 1881..... | July&A.,'61 | 1881 | J. & J. | d | 126,042,700 | 63,278,650 |
| 6s of 1881..... | March 3, '63 | 1881 | J. & J. | d | 53,706,550 | 21,293,850 |
| 6s, 10-40's..... | March 3, '64 | 1904 | M. & S.* | d | 141,761,100 | 52,805,200 |
| 6s, 5-20s of 1865..... | March 3, '65 | 1885 | M. & N. | d | 33,939,450 | 116,628,200 |
| 6s, 5-20s of 1865, new. | March 3, '65 | 1885 | J. & J. | d | 60,056,400 | 142,606,700 |
| 6s, 5-20s of 1867..... | March 3, '65 | 1887 | J. & J. | d | 91,487,400 | 219,135,250 |
| 6s, 5-20s of 1868. ..... | March 3, '65 | 1888 | J. & J. | d | 14,747,000 | 22,726,800 |
| 6s, Funded Loan, 1881 | July 14, '70 | 1881 | Q.—F. | d | 221,928,200 | 293,283,100 |
| Aggregate of debt bearing interest in coin..... | | | | | $737,713,400 | $937,323,850 |

The sizes or denominations of each issue of bonds are as follows: (a) Conpon $1,000, registered $5,000. (b) coupon $1,000, registered $1,000, $5,000, $10,000. (c) $50, $100 and $500. (d) coupon, $50, $100, $500 and $1,000, registered, same and also $5,000 and $10,000.

* Coupons of $50 and $100 bonds are paid annually in March.

* On the above issues of bonds, there is a total of $4,638,788 of interest over-due and not yet called for. The total current accrued interest to date is $21,387,951.

**Debt Bearing Interest in Lawful Money.**

| | Principal. | Interest |
|---|---|---|
| 3s, Navy pension, Act July 24,'68, Int. appl'd only to pens'ns | $14,000,000 | $105,000 |

**Debt on Which Interest Has Ceased Since Maturity.**

There is a total amount of overdue debt yet outstanding, which has never been presented for payment, of $9,183,360 principal and $302,921 interest. Of this amount $8,319,200 is on the "called" five-twenties.

**Debt Bearing no Interest.**

| Character of Issue. | Authorizing Acts. | Outstand'g. |
|---|---|---|
| Old demand notes... .... | July 17, 1861, and Feb. 12, 1862..... | $63,897 |
| U. S. legal-tender notes .. | Feb. 25 and July 11, '62, and Mar. 3, 1863 | 370,755,248 |
| Certificates of deposit.... | June 8, 1872 ..... | 34,240,000 |
| Fractional currency..... | July 17, 1862, Mar. 3, 1863 & June 30, 1864 | 42,604,893 |
| Certifs. for gold deposited | Mar. 3, '63 (In $20, 50, 100, 500, 1,000, 5,000) | 32,337,600 |
| Aggregate of debt bearing no interest..... | | $479,996,139 |

**Recapitulation.**

| | Amount Outstanding. | Interest. |
|---|---|---|
| DEBT BEARING INTEREST IN COIN— | | |
| Bonds at 6 per cent..... | $934,939,550 | |
| Bonds at 5 per cent..... | 710,037,600 | |
| Total debt bearing interest in coin... ..... | $1,693,037,250 | $26,026,740 |

[From our own correspondent.]

LONDON, Saturday, March 25, 1876.

The directors of the Bank of England have this week somewhat unexpectedly reduced their *minimum* rate of discount to 3½ per cent. The supply of money is increasing, and as there is scarcely any demand for gold for export, the belief is receiving confirmation that great difficulty will be experienced in maintaining the existing rates of discount. During the present week a considerable supply of gold has been received from Australia, the bulk of which has been sent into the Bank, and there is reason for expecting that further amounts will follow. The supply of gold afloat to London is just now much larger than for some time past, and, owing to the restricted export inquiry, it is anticipated that there will be a moderate accumulation at the Bank. It is scarcely necessary to observe that there is an almost complete absence of commercial and financial enterprise, and that there is also scarcely any hope of a revival of it. As long as this is wanting, it is evident that money cannot become dear. On the contrary, as the Continental exchanges are mostly in our favor, and gold is accumulating in this market, a decline in the rate is more likely. It is well known that the course of the exchanges is now largely regulated by Stock Exchange operations. Latterly, the French have been buyers of certain—notably Egyptian—stocks, in this market, and are indebted to us in consequence, but, as regards other Continental countries, the quotations are also favorable to us, which is the result of commercial transactions. Taken as a whole, the situation may be regarded as favorable, though of course an increased degree of animation in commercial circles is considered to be desirable. It is evident that all classes are still trading with extreme caution, and that there is very little speculation in any department. Failures continue to take place, but they are not of serious importance, and perhaps we may be congratulated upon the fact that there is not likely to be any grave crisis this year. Since the Franco-German war, there has been much perturbation in commercial and financial circles, and it is to be hoped that the coming spring, instead of inaugurating a period of disaster as in 1866, will introduce the community to an era of commercial and financial successes. That the process of change will be rapid is certainly not to be expected. Merchants have not yet surmounted the effects of the recent failures, while those who have of late years been engaged in financial enterprise know full well that it is useless to introduce new schemes to public notice. That the public will hold aloof from the latter for a long time to come may be regarded as certain; but there is a better hope for trade, which cannot be very unsound after the severe weeding out of doubtful and speculative firms which has been experienced during the last two years. Prices in most instances were low, and, being under the average, it can scarcely be thought that speculators run much risk. There are, however, great changes in progress, and our rivals in manufactured goods are annually increasing. This is a circumstance which has, no doubt, a material influence, and is strongly calculated to check any speedy return of activity.

The demand for money during the week has been only moderate. The supply of floating capital is tolerably extensive, and the rates of discount are as follow:

| | Per cent. | | Per cent. |
|---|---|---|---|
| Bank rate..... | 3½ | 4 months' bank bills..... | 3½@3½ |
| Open-market rates: | | 6 months' bank bills..... | 3½@3⅝ |
| 30 and 60 days' bills..... | 3½@3⅝ | 4 and 6 months' trade bills. | 3½@4 |
| 3 months' bills..... | 3½@3⅝ | | |

The rates of interest allowed by the Joint-stock banks and discount houses for deposits are subjoined:

| | Per cent. |
|---|---|
| Joint-stock banks..... ..... ... ..... | 2½@... |
| Discount houses at call ..... ..... | 2½@... |
| Discount houses with 7 days' notice..... | 2¾@... |
| Discount houses with 14 days' notice... ..... ..... | 2¾@... |

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland cotton, of No. 40's Mule twist, fair second quality, and the Bankers' Clearing House return, compared with the four previous years:

| | 1872. | 1873. | 1874. | 1875. | 1876. |

* Prices March 16.

The proportion of reserve to liabilities at the Bank now amounts to 46¼ per cent.

The following are the rates of discount at the leading cities abroad:

| | Bank rate. | Open market. | | Bank rate. | Open market. |
|---|---|---|---|---|---|
| | per cent. | per cent. | | per cent. | per cent. |
| Paris | 4 | 2½@2¾ | Brussels | 3 | 3 |
| Amsterdam | 3 | 2¾@3 | Turin, Florence and Rome | 5 | 4½ |
| Hamburg | ... | 2½@3 | Leipzig | 4 | 4 |
| Berlin | 4 | 2¾@3 | Genoa | 5 | 4½ |
| Frankfort | 4 | 2¾@3 | Geneva | .. . | 3½ |
| Vienna and Trieste | 4½ | 4 | New York | .... | 5@6 |
| Madrid, Cadiz and Barcelona | 6 | 6@8 | Calcutta | 9 | ... |
| Lisbon and Oporto | 4 | 3½ | Copenhagen | 6 | 5 |
| St Petersburg | 5½ | 5¾@6¼ | Constantinople | .... | . .. |

The supply of gold in the market has increased, and in the absence of an export inquiry, a considerable quantity has been sent into the Bank. Silver, which was last week rather firm, is now dull, and fine bars have been sold at as low a figure as 52½d. per ounce, being the lowest quotation on record.

After the recent failures, it is but natural to expect that business in the Stock Exchange should rule quiet. The public, more from necessity than from choice, are not taking up stocks at the reduced prices current, and hence the quotations experience a substantial improvement. The tone has, throughout the week, been decidedly unsettled, speculative cliques having, at certain intervals, exerted considerable influence. The closing prices of consols and the principal American securities at to-day's market, compared with those of Saturday last, were as follows:

| | Redm. | March 18. | March 25. |

* Ex 6 coupons, January, 1872, to July, 1874, inclusive.

The supplies of wheat and flour, actual and prospective, being relatively very moderate, a firm tone has pervaded the wheat trade, and an advance of about 1s. per quarter has been established in the value both of English and foreign grain. It is estimated that the supply of foreign wheat afloat to the United Kingdom now amounts to about 1,000,000 quarters. This is not a small amount, but when we consider that our requirements are unusually great, owing to the deficient English crop last harvest, it is certainly below, rather than above, our requirements. It is true that we have considerable stocks of wheat in granary, which form an excellent reserve, but a rapid inroad is being made into them, as the deliveries of home grown produce are still falling off. During the next few months we shall require large supplies from abroad, and as there is now some disposition evinced to hold, a higher range of prices is anticipated for the better qualities of produce. The future course of the trade is doubtful, but the indications are certainly favorable to an improvement. Spring sowing continues backward, especially upon the heavy lands, which require a long period of dry weather to render them fit for successful sowing.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest—viz., from September 1 to the close of the week, compared with the corresponding periods in the three previous years:

| | 1875-6. | 1874-5. | 1873-4. | 1872-3. |

The last official return shows that, during the week ending March 18, the deliveries of home-grown wheat were only 45,047 quarters, against 67,153 quarters last year. In the whole Kingdom they were 180,188 quarters, against 268,612 quarters in 1875. Since the commencement of September, the sales in the 150 principal markets of the Kingdom have amounted to 1,327,574 qrs., against 1,758,065 quarters; and in the whole Kingdom to 5,310,300 quarters, against 7,032,300 quarters in 1874-5. The following quantities of wheat and flour have now been placed upon the British markets since harvest:

| | 1875-6. | 1874-5. | 1873-4. | 1872-3. |

# Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show an increase in both dry goods and general merchandise. The total imports amount to $7,447,171 this week, against $5,610,582 last week, and $8,314,247 the previous week. The exports amount to $4,801,300 this week, against $4,449,173 last week and $4,410,423 the previous week. The exports of cotton the past week were 7,557 bales, against 6,164 bales last week. The following are the imports at New York for week ending (for dry goods) Mch. 30, and for the week ending (for general merchandise) March 31:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

| | 1873. | 1874. | 1875. | 1876. |
|---|---|---|---|---|
| Dry goods..... | $2,104,060 | $1,812,032 | $3,493,426 | $2,206,005 |
| General merchandise... | 5,475,013 | 8,009,795 | 5,372,849 | 5,241,166 |
| Total for the week.. | $7,576,073 | $9,851,827 | $8 866,275 | $7.447,171 |
| Previously reported.... | 113,332,540 | 100,544,587 | 89,131,700 | 79,798,214 |
| Since Jan. 1.... ... | $120,908,613 | $110,396,414 | $97,997,975 | $87,245,385 |

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports, for the week ending April 4:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1873. | 1874. | 1875. | 1873. |
|---|---|---|---|---|
| For the week..... | $5,010,645 | $4,742,056 | $4,596,059 | $4,801,300 |
| Previously reported..... | 64,387,898 | 63,962,950 | 58,005,090 | 60,070,919 |
| Since Jan. 1..... | $69,398,543 | $73,705,006 | $62,601,149 | $64,872,249 |

The following will show the exports of specie from the port of New York for the week ending April 1, 1876, and since the beginning of the year, with a comparison for the corresponding date in previous years:

**Brooklyn City Bonds.**—Controller Powell opened the bids received at his office for $750,000 worth of assessment and sewerage fund bonds, to run three years, at seven per cent interest. The highest premium offered was 5 1-20 per cent, and the lowest at par. The total amount of bids was $4,500,000.

**Cincinnati City Bonds.**—The Board of Trustees of Southern Railroad, at Cincinnati, will receive proposals until April 11, for $3,000,000 coupon bonds, 6 per cent gold dollar and sterling, or 7 per cent currency.

**New Orleans City Bonds.**—Judge Woods, of the Circuit Court, rendered a decision in New Orleans, March 30, in the case of Morris Ranger vs. the City of New Orleans in favor of the city and declined to interfere with the premium-bond plan by enjoining the city from paying its debts as it chooses.

—A banker furnishes the following schedule of the requirements in converting the several issues of old city bonds into premiums. The interest on old bonds ceased July 1st, 1875:
Good bonds, both series, must have October '75 coupon on.
RR. issues, past due, half interest due, to July 1875, will be paid in cash; balance to be ordinanced for.
RR. issues, extended, one-half interest due, from last coupon to July, 187[illegible] will be paid in cash, balance to be ordinanced for.
RR. issues, Ponchartrain, must have January, 1876, coupon on.
Waterworks, must have January, 1876, coupon on
Old 7 per cent., 1869, must have September, 1875, coupon on; and, if ha[illegible] paid, will receive $5 83 cash per $1,000.
New 7 per cent., 1870, must have December, 1875, coupon on; and will r[illegible] ceive $5 83 cash per $1,000.
Ten per cent, must return October, 1875, coupon, one-half paid or cash.
Seven-thirty street improvement will have August, 1875, coupon stamp[illegible] "half paid" and returned, and receive $12 16 cash per $1,000.
Jefferson City, 1857 and 1870, must have January, 1876, coupon on.
Jefferson City, 1867, must have December, 1875, coupon on, and will recei[illegible] $6 65 cash per $1,000.
Carrollton, must have November, 1875, coupon on, and will receive $13 [illegible] cash per $1,000.

**Virginia Finances.**—The Richmond *Dispatch* explains the reported deficiency in the State Treasury and says: General Johnson has made an investigation and an explanation as to the report of the Auditor of Public Accounts, concerning a deficiency of $409,000, collected from direct taxes for the years 1871, '72, '73, '74, and which ought to have been paid to the school fund, but which has been used for other purposes of government. The impression made by this report was that this money had been spent in such a manner in the general expenditure, that, in point of fact, our expenses had actually exceeded our receipts, during the time named by the sum of $409,000.

On examining the matter, it is said that this is not so. It is true that $409,000 is due the school fund for the years 1871–'74, but it is also the fact that every dollar of this money, and more too, is still in the possession and control of the State in the sinking fund, or is due the State in solvent debts. In other words, while we have failed to pay $409,000 to the school fund, we have paid that money into the sinking fund, or it is still due the State.

**Peoria & Rock Island.**—J. R. Hilliard, the receiver, filed his report for the month of February, setting forth the following exhibits:

RECEIPTS.

| | |
|---|---|
| From local agents and conductors..... | $20,55 |
| From foreign roads..... | 15,79 |
| From sundries..... | 1,39 |
| Cash on hand Feb. 1..... | 17,55 |
| Total..... | $55,81 |
| Disbursements..... | $35,54 |
| Cash on hand March 1..... | 19,77 |
| Total..... | $55,31 |

**Quincy Alton & St. Louis.**—The Chicago Burlington & Quincy Railroad Company has assumed the management of this road, which will hereafter be known as the Hannibal Division of the Chicago Burlington & Quincy Railroad.

**Toledo Wabash & Western.**—A meeting of the stockholders is called, to be held in Toledo, O., May 31, for the purpose of considering the financial condition of the company, and to see if anything can be done to prevent the sale of the road under foreclosure. General J. D. Cox, Receiver, has been appointed Special Master Commissioner to sell the road, and gives notice that, under decrees of foreclosure of the consolidated mortgage, and orders of sale issued by the courts in Ohio, Indiana and Illinois, he will offer the road at public sale in Toledo, O., June 10. The sale will include the road and its branches extending from Toledo to Camp Point, Hamilton, Naples and East St. Louis, Ill., 601 miles in all, with the buildings, franchises, equipment and all other property pertaining to it. The property will be sold as a unit and subject to all the liens prior to the consolidated mortgage and enumerated in the decree. The minimum price allowed is $1,000,000, payable in cash or in consolidated bonds, to be taken at their *pro rata* value, to be fixed by the Court. The sale is to be without redemption, but subject to confirmation by the Courts.

**Wabash & Erie Canal.**—Mr. J. K. Gapen, who bought the greater part of this canal at the late sale, has sold the section between Lafayette, Ind., and the Ohio line to a number of gentlemen from Fort Wayne and Logansport, for $103,000.

— We call the attention of country banks and bankers to the advertisement, in our to-day's issue of the CHRONICLE, of Messrs. Trask & Stone, of No. 7 New street, New York. Their firm has been long and favorably known on the "street" and makes a specialty of attending to the business of out-of-town banks. Both members of the house have had long experience in banking matters, and any business entrusted to their care will, undoubtedly, be carefully looked after.

—Holders of Southern securities are requested to notice the advertisement of Messrs. Arents & Young in to-day's CHRONICLE, offering to purchase New Orleans City bonds; also bonds of Mobile and Memphis, Louisiana Levee bonds, New Orleans and Jackson Railroad Company first and second mortgage bonds, and Greenville and Columbia Guaranteed bonds.

# The Bankers' Gazette.

## NATIONAL BANKS ORGANIZED.

The United States Comptroller of the Currency furnishes the following statement of National Banks organized the past week:

2,328—First National Bank of Jerseyville, Ill. Authorized capital, $50,000; paid-in capital, $36,000. Hugh N. Cross, President; Walter E. Carlin, Cashier. Authorized to commence business March 30, 1876.

## DIVIDENDS.

The following Dividends have recently been announced:

| Company. | Per Cent. | When P'able. | Books Closed. (Days inclusive.) |
|---|---|---|---|
| **Insurance.** | | | |
| North River Insurance Co. | 6 | April 10 | April 5 to April 9 |

## FRIDAY, APRIL 7, 1876—6 P. M.

**The Money Market and Financial Situation.**—Financial circles have been unusually quiet this week, and there is hardly a point worthy of special mention, unless it be the weakness in gold and in some of the speculative stocks. As partly accounting for the decrease in legal tenders in the New York banks during March, it appears that there was $5,304,000 in greenbacks deposited during that month with the Treasurer of the United States by National banks desiring to retire their circulation and sell their bonds heretofore deposited as security; this is reported to be the largest amount yet deposited in any one month. A single instance which has recently come under our notice shows the profit realized by banks in thus withdrawing their bonds for sale. A bank in Massachusetts, of $150,000 capital, had $100,000 sixes of 1881 on deposit as security for its $90,000 circulation; withdrawing these, they sold them at 123¾, and realized an increase of nearly $34,000 above their $90,000 of circulation turned in.

The reorganization of the Bank of the State of New York, with a capital reduced to $800,000, and with Mr. August Belmont as President, is one of the hopefnl events of the week.

Our local money market shows little change, the rates on call being 3 @ 5 per cent., and on prime commercial paper 5 @ 6 per cent., with some transactions in exceptionally choice paper at 4½ per cent.

The weekly statement of the New York City Clearing-House banks, issued April 1, showed a decrease of $1,733,175 in the excess above their 25 per cent. legal reserve, the whole of auch excess being $9,999,225, against $11,732,500 the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

| | 1876. | | | 1875. | 1874. |
|---|---|---|---|---|---|
| | Mch. 25. | Apr. 1. | Differences. | Apr 3. | Apr. 4. |

**United States Bonds.**—Government securities were exceedingly dull in the early part of the week, and prices yielded from the very inactivity of business. Yesterday and to-day there was a decided improvement in the demand, and a recovery in prices. The most active transactions have been in old 65s, on which 3 per cent gold interest falls due in May, and which are therefore a good purchase even if they should be called in within the year; we heard of the sale of about $750,000 of these by a foreign banking house. To-day, there was quito a sharp inquiry for governments, both from city and country purchasers.

Closing prices daily have been as follows:

| | Int. period. | April 1. | April 3. | April 4. | April 5. | April 6. | April 7. |

**State and Railroad Bonds.**—Tennessee bonds were more in demand to-day, and the new series sold at 41. There is little of interest as to other State bonds; parties in Alabama have still been purchasing the old bonds of that State. There were $750,000 of abort bonds sold by the city of Brooklyn this week, and Cincinnati invites proposals for $3,000,000 more of her Southern railroad bonds, either 6 per cent. in gold or 7 in currency.

Railroad bonds have met with a fair demand, and prices remain about steady. There have been hardly any new defaults in interest since those noticed on the first of January, and the opinion that the weak railroad companies had been pretty thoroughly shown up in the years 1873–1875, is thus far confirmed. A small loan in London, of £200,000, for the Illinois Central Railroad is the only foreign loan that has recently been reported. The Toledo Wabash & Western road is noticed for sale in June under the consolidated mortgage, and unless the stockholders take measures, at the meeting called in May, to protect their interests it may be presumed that holders of the above mortgage will bid the road in, subject to the prior liens. Cable dispatches have reported the arrival out of the English bondholders' committee, but nothing has yet been heard as to their proposals.

The following securities were sold at auction:

| Shares. | Bonds. | |
|---|---|---|
| 200 Citizens' Fire Ins. Co. | $20,000 Receiver's Certificates | 7s |
| 60 Kings Co. Fire Ins. Co. | N.Y. & Osw. Mid. RR. | 43½ |
| 100 Philadelphia & Reading RR. | $145,000 Louisv. New Albany & St. Louis Air-Line Rit. 1st mort., 7s | 5 |
| 20 Metropolitan Gaslight | $17,000 Che ter & Tamaroa Coal & RR., 1st mort., 7s gold | 10 |
| 115 Manhattan Gaslight | $800 Metropolitan Gas., scrip. | 102¾ |
| 16 Metropolitan Gaslight | | |
| 400 People's Gaslight of Brooklyn | | |

Albert H. Nicolay & Co. sold at auction $17,000 Rising Fawn Iron Company, Dade county, Ga., reg. bonds, 7s, $25 the lot; $1,000 Kalamazoo & White Pigeon RR Co. 1st mort, 7s, 85.

Closing prices of leading State and Railroad Bonds for three weeks past, and the range since Jan. 1, have been as follows:

* This is the price bid; no *sale* was made at the Board.

**Railroad and Miscellaneous Stocks.**—The stock market has been inactive most of the week, with prices generally lower, though to-day there was rather more doing and a recovery in tone. The extreme weakness in Pacific Mail has been the most notable feature, and the company's affairs appear to be in so bad a condition, and its prospects for continued business so poor, that the public have lost all confidence in it. There is very little new in other stocks affecting their actual value; railroad earnings were not relatively as good in the last two weeks of March as in the early part of that month, though the statements for the whole four weeks compare favorably with the same period last year. The agreements among railroad officials, so far as known, have been well maintained, and any renewal of the war in rates has been avoided. The fact is apparent that the tone of the market for the past few weeks has been decidedly bearish, and there has not yet been a recovery from the movement which commenced with the break in Pacific Mail from 39, and the attack on Western Union Telegraph at 76 to 80. Whether there will be a change in tone soon, it is impossible now to say; to-day, there was more firmness in prices and a better tone of feeling.

Total sales of the week in leading stocks were as follows:

| | Pacific Mail. | Lake Shore. | West'n Union. | Chic. & N'west. | Erie. | Ohio & Miss. | St. Paul | St. Paul pref. |
|---|---|---|---|---|---|---|---|---|

**The Gold Market.**—Gold has been weak, and the failure of a broker on the bull side, who had been carrying a moderate amount of gold, had the effect of helping the downward tendency; to-day, there was more strength and an advance to 113¼. There has been no large export of coin, and we are unable to find that any considerable fluctuation in gold is looked for in the immediate future. On gold loans the terms to-day were 1½ and 2 per cent for carrying, and flat. Customs receipts of the week were $2,009,000.

The following table will show the course of gold and operations of the Gold Exchange Bank each day of the past week:

| | Quotations | | | | Total Clearings. | Balances. | |

| Dimes and half dimes.. | — 87 | @ — 90 | Trade Dollars..... | — 91 | @ — 94 |

**Exchange.**—Foreign exchange has been dull and irregular, with out a healthy demand from any one class of purchasers. There was a little more activity on Thursday and this afternoon, in consequence of an inquiry from foreign bankers who have sold United States bonds here, but the best bills could be purchased at ¼ to ¾ lower than the asking rates quoted below. Domestic exchange on New York to-day was as follows: Savannah, unchanged; Charleston, ⅛@¼ premium; Cincinnati firm, 75c.@$1 premium; Chicago, 25c. premium; New Orleans, commercial, par@1-32, bank ½c.; and St. Louis, 75c. premium.

The quotations for foreign exchange are as follows:

| | April 7 — | |

The "Investors' Supplement" is published on the last Saturday of each month, and furnished to all regular subscribers of the CHRONICLE. No single copies of the Supplement are sold at the office, as only a sufficient number is printed to supply regular subscribers.

## ANNUAL REPORTS.

### Maine Central Railroad.

(*For the year ending December* 31, 1875.)

The report has the following: The total earnings for the year 1875 have been $1,786,076 47. Operating expenses, $1,147,066 82. Net earnings, $639,009 65—sufficient to pay all operating expenses, interest, coupons and rents, and leave a small balance. In 1874 the total receipts were $2,094,080 55, and operating expenses $1,281,681 25. Net, $812,399 30. Showing a diminution this year, as compared with last, in gross receipts, $308,004 08; in operating expenses of $134,614 43; and in net receipts of $173,389 65.

Of this reduction in our gross receipts the past year, $77,322 56 was occasioned by the modification of former contracts, for the purpose of producing uniform and harmonious action between the Eastern and Boston Maine roads, which will result, as we trust, to the benefit and in the general convenience of our patrons who have occasion to do business over the railroads west of Portland. The balance of the diminution in our gross receipts, $230,681 62, must be attributed to the general depression of the business of the country, and "reduction of tariff by special rates."

Receipts, operating expenses, interest, rentals, &c., in the past two years were as follows:

RECEIPTS.

| | 1874. | 1875. |
|---|---|---|
| From passenger transportation | $910,391 | $797,767 |
| From freight transportation | 1,028,965 | 866,241 |
| From United States mail | 53,427 | 52,427 |
| From express | 37,712 | 37,500 |

| Total earnings | $2,094,080 | $1,786,076 |
| Less operating expenses | 1,281,681 | 1,147,066 |
| Earnings after paying expenses | $812,399 | $639,009 |

EXPENDITURES.

| | | |
|---|---|---|
| Interest on bonded debt | $386,723 | $418,701 |
| Interest on floating debt | 106,096 | 67,054 |
| Dividends on Portland & Kennebec RR. stock | 44,481 | 44,484 |
| Dividends on Yarmouth stock | 2,016 | 306 |
| Dividends on interest scrip | 29,814 | 29,814 |
| Total interest and dividends | $569,138 | $560,359 |
| Rent of Dexter & Newport RR. | 18,000 | 18,000 |
| Rent of Belfast & Moosehead Lake RR. | 36,000 | 36,000 |
| | $623,138 | $614,359 |
| Balance of earnings | $189,260 | $24,650 |

During the present year (1876), the 2d mortgage bonds of the Somerset & Kennebec Railroad Company, amounting to $260,000, will mature. Bonds of this company have been provided and appropriated for their redemption. It is also advisable to use the bonds provided for that purpose to liquidate a portion of all the floating debt of this company at an early day.

### Columbus & Hocking Valley Railroad.

(*For the year ending December* 31, 1875.)

From the annual report we have the following:

"Having passed through a year of continued financial depression, we should feel satisfied with the result of our business, as compared with that of railroads generally, throughout the country. The net earnings of the road were about 9½ per cent, from which were paid the sums required for the sinking funds on the mortgage bonds of the company, and dividends amounting to eight per cent on the capital stock."

The increased ratio of expenses to earnings, as compared with 1874, was caused by the fact, that, during the year 1874, but little renewal was made on the road, while during the year 1875, the track was renewed to the extent of 1,500 tons of steel rails (replacing iron), 54,000 ties and 20,000 yards of rock ballast; all of which was charged to expense account. The equipment and motive power have, also, been brought up to, and are now in, a first-class condition.

EARNINGS AND EXPENSES:

| *Earnings.* | | *Expenses.* | |
|---|---|---|---|
| Passenger earnings | $108,178 | Road expense | $187,420 |
| Freight earnings | 756,482 | Locomotive expense | 41,759 |
| Express and mail earnings | 10,911 | Transportation expense | 177,342 |
| Telegraph earnings | 891 | Car expense | 41,611 |
| Miscellaneous earnings | 1,127 | General operating expense | 67,295 |
| | | Loss and damage | 3,785 |
| | $877,590 | | $519,214 |
| Net earnings for 1875 | | | 358,376 |

Ratio of expenses to earnings, 59 28-100 per cent.

The President says: "I congratulate you upon the fact that the long-contemplated Columbus & Toledo Railroad is now under contract. With nothing special preventing, it will be completed by November, 1876. The Columbus & Toledo Railroad being, practically, an extension of this road to the lakes, will greatly increase the value of our property."

INCOME ACCOUNT FOR 1875:

| | | |
|---|---|---|
| Balance from 1874 | | $367,512 30 |
| Less dividend of Feb. 12, 1875, on account of business for 1874 | 148,416 00 | |
| Leaving net balance from 1874 | 219,096 30 | |
| Add net earnings for 1875 | 358,376 08 | |
| Total credit | | $577,472 38 |
| Dividend No. 6 (payable Aug. 10, 1875) | 76,838 00 | |
| Interest on funded debt | 174,947 50 | |
| Interest on floating debt | 1,625 74 | |
| | | $253,411 24 |
| Balance December 31, 1875 | | $324,061 14 |
| Less dividend of Feb. 10, 1876, on account of business for last half of 1875 | | 76,828 00 |
| Leaving net balance from 1875 | | $247,233 14 |
| Net balance contingent account 1874 | $219,096 30 | |
| Net balance contingent account 1875 | 247,233 14 | |
| Increase in 1875 | $28,136 84 | |

GENERAL ACCOUNT DECEMBER 31, 1875:

| *Dr.* | |
|---|---|
| Capital stock | $1,921,000 |
| Bonds | 2,489,000 |
| Due connecting roads | 697 |
| Bills payable | 47,505 |

| | $4,795,444 |

### Cleveland Mount Vernon & Delaware.

(*For the year ending Dec.* 31, 1875.)

The earnings of the main line and Massillon branch during the year 1875, compared with 1874, have been as follows:

| | 1875. | 1874. | Inc. or Dec. | P.ct. |
|---|---|---|---|---|
| Freight | $254,068 99 | $265,097 64 | Dec $11,028 65 | 4·16 |
| Passengers | 138,540 57 | 149,095 73 | Dec. 10,555 16 | 7·08 |
| Express | 12,520 00 | 12,520 00 | | |
| Mails | 17,561 43 | 17,561 40 | Inc. 03 | |
| Miscellaneous | 3,036 08 | 1,224 95 | Inc. 1,811 13 | 147·84 |
| Totals | $426,027 07 | $445,799 72 | Dec. $19,772 65 | 4·44 |

The expenses have been as follows:

| | 1875. | 1874. | Inc. or Dec. | P.ct. |
|---|---|---|---|---|
| Conducting transportation | $63,813 48 | $57,984 73 | Inc. $5,828 75 | 10.05 |
| Motive power | 85,070 23 | 76,969 86 | Inc. 8,100 37 | 10·52 |
| Maintenance of way | 93,230 39 | 103,611 78 | Dec. 10,381 39 | 10·00 |
| Maintenance of cars | 37,843 30 | 25,406 78 | Inc. 12,436 52 | 48·94 |
| Gen'l expenses (incl. taxes) | 49,403 15 | 45,872 76 | Inc. 3,530 39 | 7·61 |
| Totals | $329,360 55 | $309,845 91 | Inc. $19,514 64 | 6·29 |

The proportion of earnings absorbed by expenses in 1875 was 77·31 per cent, as against 69½ per cent in 1874.

There was a decrease in the freight earnings of $11,028 65, or 4·16 per cent; and in the passenger earnings of $10,555 18, or 7·08 per cent. The decrease in the freight earnings is the result almost wholly of a reduction in the rates. There was a difference of only 0·64 per cent in the tons carried, the tonnage of 1875 having been 238,899 tons, and in 1874 237,368 tons, an increase of 1,531 tons. There was an increase of 14·32 per cent in the ton mileage, the mileage for 1875 having been 10,913,571 miles, and in 1874, 9,546,438 miles.

Reference was made in the last annual report to the stagnation in the coal business of the Massillon branch. It is exceedingly doubtful if, under the present rental imposed on this company for the use of that road, it will ever be less than a burden to the main line. The minimum rent—$20,000—was almost equal to the entire gross earnings for 1875. This rent exacted is out of all proportion to the value of the road, and should be reduced.

The result for 1875 is as follows:

| | |
|---|---|
| The net earnings of the main line and branch during the year 1875 were | $96,656 52 |
| Against which are the following charges: | |
| One year's rent of Massillon branch | $20,000 00 |
| One year's interest on so-called Cass and Marvin bonds | 560 00 |

| | | |
|---|---|---|
| One-half year's interest on first mortgage bonds, including premium on gold, according to contract with bondholders | 90,884 79 | |
| One year's interest on coupons funded | 8,452 50 | —119,347 29 |
| Deficiency | | $22,680 77 |

The agreement with bondholders, dated Dec. 17, 1874, provided for the funding for ten years, from Jan. 1, 1875, of the coupons due July 1, 1874, and one-half of those maturing Jan. 1, 1875, to and including those of July 1, 1877; also, that the remaining one-half of the foregoing coupons, together with annual interest on those funded, should be paid in cash at maturity. Thus far the following is the amount of bonds assented:

| | | |
|---|---|---|
| From 1st mortgage bonds | $1,203,000 | |
| Amount yet to be assented | 47,000— | $1,350,000 |
| From 1st mortgage bonds, Columbus extension | 937,800 | |
| Amount yet to be assented | 12,200— | 950,000 |
| Total | | $2,300,000 |

Within a very short time after the exchange of the contract between the parties, and in accordance therewith, the Pennsylvania Railroad Company surrendered to your company the coupons due January 1, 1874, which they had purchased, amounting in currency to $88,826 72; also, the receipt to that company for cash advances, $580,173 28—total, $669,000; and received in payment therefor a like amount of income bonds, authorized by the stockholders, to be issued January 20, 1875.

These transactions relieved the company of the embarrassing debt that was then pressing on it for payment, and prevented a foreclosure of the mortgages, and consequent expensive litigation and possible sacrifice of your interests.

No change has occurred as to the state of the work on the Dresden branch since the last annual report. The judgment of your directors is, however, unchanged with reference to the great importance of urging this work forward at the earliest day possible.

## St. Louis Alton & Terre Haute Railroad.

*(For the year ending December 31, 1875.)*

The report shows the following:

MAIN LINE AND ALTON BRANCH.

The statements furnished by the Indianapolis & St. Louis Railroad Company, lessees of the Main Line and Alton Branch, show the earnings of that portion of your road for the period mentioned to have been as follows:

| | |
|---|---|
| From freight | $530,454 |
| From local passengers | 189,232 |
| From foreign passengers | 104,187 |
| From express | 21,734 |
| From U. S. mail | 40,635 |
| From rents and other sources | 33,574 |
| Total | $1,019,837 |

As compared with the preceding year, this shows a loss in gross earnings of $234,299 15. We have received our minimum rental with the usual promptness during the year, and we continue to sustain the most cordial relations to the Lessee Company. During the past year that company and the Vandalia Route (their competitors to St. Louis), have made a contract to pool and divide net earnings, and to consolidate the management of the two companies. This arrangement reduces largely the expenses of operating, and obviates, to a great extent, the necessity for the cutting of rates that previously existed. The plan went into practical operation on the 1st of December, and the handsome increase of earnings, reported weekly by our lessees since that date, leads us to believe that the arrangement is very advantageous to them, and will materially swell their net earnings for the future.

BELLEVILLE BRANCH AND EXTENSION.

GROSS RECEIPTS AND EXPENSES:

| *Receipts.* | | *Expenditures.* | |
|---|---|---|---|
| From coal | $233,218 | Conducting transportation | $115,293 |
| Miscellaneous freight | 193,517 | Motive power | 77,619 |
| Passengers | 115,858 | Maintenance of way | 94,395 |
| Express | 4,687 | Maintenance of cars | 21,444 |
| Mail | 7,179 | General expenses | 23,927 |
| Rent of coal mine | 665 | | |
| Miscellaneous | 1,802 | Total | $332,679 |
| Total | $561,869 | Construction and equipment | 13,792 |
| | | | $346,472 |

Of the above operating expenses, $7,600 should be deducted and added to construction and equipment (that being the value of new steel rail over new iron rail), which would reduce the operating expenses to $325,079 93, or 57 8-10 per cent.

The increased ratio of expenses to earnings for the year is due mainly to the floods in the spring of 1875, and to the low rates for freight. In spite of these adverse circumstances, the company makes the favorable statement following, of the result to its Main Line of the operation of the Branch and Extension:

| | | |
|---|---|---|
| Earnings of Branch and Extension | | $561,869 18 |
| Less expenses | $346,472 62 | |
| Less B. & S. I. rental | 111,735 01 | |
| | | 458,207 63 |
| | | $103,661 55 |

The physical condition of the road and equipment has been well maintained, if not improved, during the year. The coal business has shown a gratifying increase during the year, notwithstanding the continued stagnation of affairs, and the unprecedented warm weather of the fall and winter. The following table shows the comparative result, viz:

| | 1874. | 1875. | Increase. |
|---|---|---|---|
| Car loads | 27,319 | 28,855 | 1,536 |
| Tons | 312,443 | 352,640 | 40,197 |
| Tons one mile | 8,009,364 | 8,737,103 | 747,140 |
| Receipts | $211,903 71 | $233,118 07 | $21,214 36 |

INCOME ACCOUNT.

The following statement shows the financial result to the company for 1875, viz:

RECEIPTS.

| | |
|---|---|
| Minimum rental, Main line | $450,000 |
| Net earnings, Branch and Extension | 103,661 |
| Interest account | 7,273 |
| Land sold | 700 |
| | $561,635 |

DISBURSEMENTS.

| | | |
|---|---|---|
| Interest on funded debt | $499,000 | |
| Sinking-fund payment | 25,000 | |
| Real estate and right of way claims | 1,075 | |
| Main line expenses, (including legal) | 8,986 | |
| Taxes paid U. S. on net earnings from July 1, 1864, to Dec. 31, 1871 | 25,225 | |
| | | 559,287 |
| Surplus for 1875 | | $2,348 |

The tax on net earnings, above referred to, was originally levied at over $55,000, and after a protracted litigation, has been entirely settled for the amount stated ($25,225 31), which was paid out of net earnings for the year.

## Burlington Cedar Rapids & Minnesota.

*(For the year ending Dec. 31, 1875.)*

The report of the receiver and general manager has the following:

So far as the statements cover the period during which the property has been in my charge, they are correct; but when relating to the time prior to July 21, are made up from such data as could be obtained, and in all respects may not be accurate, though I doubt not they are approximately so. At the date of a former report (Oct. 1, 1875), I estimated that the gross earnings, from July 21 to December 31, 1875, would be $615,000, and the net earnings, without deducting certain extraordinary expenses, necessary to properly conduct the business of the railway, would be $267,000. The actual gross earnings were $655,092 62, and the net result upon the foregoing basis is $323,703 94. I hope to make good the estimates then made for the present year, and to have the property, should I remain in charge of it, so greatly improved in condition that its value will be considerably enhanced. During the past five months a large quantity of work, required by the depreciated condition of the railway and its equipment, has been done and charged in the accounts to operating expenses for that period, although it does not attach to the months in which it was performed and paid for. The same condition of affairs will exist for the current year.

EARNINGS AND OPERATING EXPENSES FOR THE YEAR 1875.

| | Earnings. | Expenses. | Net Earnings. | Net Ear'gs per mile. |
|---|---|---|---|---|
| Main line | $992,291 | $660,776 | $331,087 | $153 |
| Milwaukee division | 208,301 | 121,352 | 84,039 | 89 |
| Muscatine Division | 45,508 | 33,929 | 12,310 | 39 |
| Pacific division | 63,274 | 30,428 | 34,652 | 138 |
| Total | $1,311,577 | $846,287 | $465,090 | $115 |

The following is a statement of net earnings from July 21, 1875, to December 31, 1875, inclusive; also showing amounts expended during that period on account of the depreciated condition of the railway when the receiver took control:

| | Net Earnings. | Extraordinary Expenses. | Total. |
|---|---|---|---|
| July (21 to 31) | $36,742 32 | $3,674 86 | $40,400 18 |
| August | 21,376 48 | 31,461 67 | 52,838 15 |
| September | 57,492 13 | 1,793 06 | 59,285 19 |
| October | 55,709 73 | 16,084 81 | 71,794 59 |
| November | 42,315 64 | 16,726 86 | 59,042 50 |
| December | 40,381 07 | 9,962 26 | 50,343 33 |
| Totals | $244,600 39 | $79,703 55 | $323,703 94 |

The column "Extraordinary Expenses," embraces only amounts paid for steel rails, cross ties and fastenings; in addition thereto the receiver paid the further amount of $19,399 49 for account of bridging, which should have been done before he took control; and hence the net earnings from July 21, 1875, to December 31, 1875, were $343,103 43.

GENERAL ACCOUNT FOR FIVE AND ONE-THIRD MONTHS, FROM JULY 21 TO DECEMBER 31, 1875.

## GENERAL INVESTMENT NEWS.

**Atlantic & Great Western.**—Up to March 7 there had been deposited with the trustees of the Atlantic & Great Western, in London, under the reorganization agreement, $6,349,884 first, $3,412,662 second, and $6,714,042 third mortgage bonds, being $16,476,588 in all.

Notice appeared in London papers that meetings of the bondholders in the several trusts following, connected with the above named company, viz., the leased lines, 1872, the leased lines, 1873, the Western Extension eight per cent trust, and the Western Extension seven per cent trust, for the purposes following: 1. To express the opinion of the bondholders as to the continuance in office of the present trustees of the above-mentioned several trusts, or either of them. 2. To receive reports from the committees of the leased lines bondholders, 1872 and 1873, as to the communications which have passed between the committee and the present trustees, with reference to their resignation of the trusteeship, and to pass such resolution as may be considered advisable. 3. To decide what, if any, steps should be taken with reference to the past accounts of the respective trustees, and especially as to the accounts received by the trustees for their remuneration.

**Atlantic & Pacific—Pacific of Missouri.**—In the United States Circuit Court at St. Louis, April 3, a separation of the Atlantic & Pacific and Missouri Pacific Railroads was ordered, and D. R. Garrison, John H. Beach and John L. Stephens appointed receivers for the Missouri Pacific, and T. T. Buckley, New York, and D. H. Armstrong, St. Louis, for the Atlantic & Pacific.

**Cairo & St. Louis.**—The operations for the month of February are reported as follows:

| | | |
|---|---|---|
| Gross earnings | | $20,034 54 |
| Ordinary expenses (90.11 per cent) | $18,033 65 | |
| Extraordinary expenses | 2,556 16 | |
| Total expenses (102.77 per cent) | | 20,589 81 |
| Deficit for the month | | $555 27 |
| Construction | | 1,011 90 |
| Total deficit | | $1,567 17 |

**Central Pacific Railroad.**—A communication has been addressed by Vice-President C. P. Huntington, of the Central Pacific Railroad, to Senator Edmunds, regarding a final settlement of the company with the U. S. Government. Mr. Huntington says that the Pacific Railroad Company does not expect to escape the re-payment of the entire indebtedness to the Government when the subsidy bonds mature, although the sum will then be from $50,000,000 to $70,000,000.

Senator Edmunds introduced a bill to create a sinking fund for the liquidation of Government bonds advanced to the Central Pacific Railroad. It embodies a proposition submitted by Vice-President Huntington, in behalf of his company, and is reported in the *Tribune* to be substantially as follows: The company is to return to the United States all the unsold lands hitherto granted to it in Nevada and Utah; the Secretary of the Treasury is thereupon to place to the credit of a sinking fund for the company, the value of these lands, computed at $2 50 per acre; the company will also pay into the Treasury, for account of this fund, whatever it may have received for lands sold over, and above $2 50 per acre and the costs of surveying. Further, the Secretary of the Treasury shall carry to the credit of the sinking fund all amounts due the company for Government transportation up to the first day of January last, which, if not amounting at said date to $1,000,000, shall be made up to that sum by the company. The company is to pay semi-annually into the Treasury, a sum in money or in any United States bonds or securities at par, which, with interest thereon, shall be sufficient, when added to the rest of the sinking fund, to pay off the Government subsidy bonds, with 6 per cent. interest thereon at maturity.

**Cleveland Tuscarawas Valley & Wheeling.**—This road was formerly the Lake Shore & Tuscarawas Valley, but was sold under foreclosure of mortgage and re-organized under the present name early in 1875. The equipment consists of 15 engines, 8 passenger train cars, 20 box and 430 coal cars, and 100 more coal cars are under contract. There are also on the road 225 coal cars belonging to private parties.

The capital account is as follows:

| | | |
|---|---|---|
| Stock ($10,441 per mile) | | $1,055,950 |
| First mortgage bonds | $2,180,000 | |
| Second mortgage bonds | 988,921 | |
| Total bonded debt ($31,332 per mile) | | 3,168,921 |
| Total ($41,773 per mile) | | $4,224,871 |

The total amount authorized is, of stock, $1,250,000; second mortgage bonds, $1,250,000.

For the eleven months ending Dec. 31, the earnings were as follows:

| | | |
|---|---|---|
| Freight | | $329,475 30 |
| Passengers | | 76,110 11 |
| Mails and express | | 5,924 70 |
| Miscellaneous | | 1,251 07 |
| Total | | $414,761 18 |
| Working expenses (53 per cent) | | 219,841 07 |
| Net earnings | | $194,920 11 |
| Interest on debt | | 155,112 48 |
| Balance, net profit | | $39,807 63 |

**Clark County, Mo.**—The bonds issued by Clark county, Mo., in 1870, in aid of the Missouri & Mississippi Railroad, and mostly held at the East, have been practically repudiated, the county authorities claiming that, under the charter of the road, the county court has no authority to levy a tax of more than one-twentieth of one per cent on the taxable wealth of the county to pay the same, which would produce only $1,750, when the amount of interest payable is $16,000. The United States Circuit Court, Judge Dillon, has decided in favor of this contention, but the case is to be carried up. The bonds issued by Knox, Chanton and Macon counties, in aid of the same road, occupy the same position.—*N. Y. Journal of Commerce.*

**Columbus Chicago & Indiana Central.**—The trustees and receivers pay the coupons due Oct. 1, 1875, on the 7 per cent bonds of the Union & Logansport Company, and those due Jan. 1, 1876, on the 10 per cent bonds of the Indiana Central company.

**Evansville Owensboro & Nashville.**—The United States Circuit Court has granted a decree of foreclosure and sale of this road, and the date of sale will shortly be fixed. The liabilities of the company are about $1,600,000, of which $1,510,000 are for bonds and accrued interest.

**Ft. Wayne Jackson & Saginaw.**—It is noticed that holders of the first mortgage coupons, due January 1, will obtain the balance due upon them on or after April 1.

**Houston (Tex.) City Bonds.**—Mr. J. C. Chew, financial agent in New York, issues a circular in which he says that in pursuance of the terms of the settlement arranged between the city of Houston and the holders of its bonds, as set forth in the ordinance of said city of December 10, 1875, he has had engraved and officially executed, $1,250,000 of six per cent consolidated bonds, which he will be prepared to exchange for all of the outstanding bonds of said city, except the market house and ship channel issues, so soon as the Legislature of the State of Texas, in conformity with the requirements of section 8 of said ordinance, shall have ratified and confirmed the provisions of the same. The Legislature convenes on the 18th inst. The old bonds and the past-due and July proximo coupons will be funded at par into the new bonds. He will give notice to bondholders, when ready to commence the exchange.

**Illinois Central.**—A London dispatch states that Messrs. Morton, Rose & Co. have negotiated a five per cent sterling loan for £200,000, for the Illinois Central Railroad, at 96.

**Kansas Pacific.**—The officials of the Kansas Pacific Railroad Company announce that it will be consolidated with the Colorado Central Railroad Company, under the name of Kansas Pacific Railway Company. The capital stock of the Kansas Pacific Company, which now consists of 200,000 shares of the par value of $50 each, will have the par value advanced to $100 a share, thus making the aggregate par value $20,000,000 instead of $10,000,000.

**Louisville Cincinnati & Lexington.**—The auditor reports for the month of February as follows:

| | | |
|---|---|---|
| Passenger receipts | | $35,286 35 |
| Freight receipts | | 37,875 93 |
| Express, mail, telegraph, and miscellaneous | | 6,548 40 |
| Total earnings | | $79,746 68 |
| Operating expenses, ordinary | $52,379 57 | |
| Operating expenses, renewal of ties and rails | 7,131 80 | $59,511 37 |
| Net earnings | | $20,235 31 |
| Other expenses | | 7,322 54 |
| Net profits, subject to order of court | | $12,912 77 |

**Louisville New Albany & St. Louis.**—Under a decree of foreclosure of the first mortgage, this road will be sold at New Albany, on the 18th of May.

**New Jersey West Line.**—The Court of Appeals of New Jersey has finally decided to set aside the order of the Chancellor, directing the receiver, who was appointed on motion of the general creditors, to sell the road. The Court sustains the appeal taken by the trustees under the first mortgage, and orders that the road be sold under foreclosure and under the direction of the trustees.

**N. O. Mobile & Texas.**—Holders of first mortgage bonds, who desire to join the reorganization, are requested to send in their bonds, with the amount of the assessment, to the office of Morton, Bliss & Co., New York, on or before the 20th day of April. Holders who do not join by that date will be entitled to receive their *pro rata* proportion of the proceeds of the sale of the road.

**New York & Oswego Midland.**—The sale under foreclosure of first mortgage bonds of the New York & Oswego Midland Railroad Company, Western Extension, is postponed to April 25, 1876. D. Ira Baker, referee.

**Panama Railroad.**—The new Board of Directors of the Panama Company organized by electing Trenor W. Park, President J. G. McCullough, Vice President; W. J. Emmet, Secretary and Treasurer. The board decided to take measures against the Pacific Mail to recover moneys due the company, and adopted the following resolutions:

*Whereas*, The Pacific Mail Steamship Company, as appears by the Treasurer's statement, is indebted to this company for moneys collected by them on traffic account, in an amount exceeding $400,000, which thus far every effort has failed to collect; and

*Whereas*, This company is thus left without sufficient funds in hand to pay the usual quarterly dividend of 3 per cent., amounting to $210,000; therefore

*Resolved*, That it is the judgment of this board that the current quarterly dividend on the 15th inst he passed.

*Resolved, further*, That the board, in view of the fact of the establishment of the new and additional through line of the Panama Transit Steamship Company, feel confident that the receipts of the road will be greatly augmented in the future by reason of the increased number of steamers per month running to and from the Isthmus, and the favorable terms of the contract made and existing between this company and the new steamship line.

A notice was sent to the Pacific Mail Company that its freight and passengers for transportation across the Isthmus will be charged for at local tariff rates; and, further, in view of the fact that the Pacific Mail Company is so largely in arrears to this company for service in the past, that payment in advance will be demanded on the Isthmus.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, April 7, 1876.

Trade continnes comparatively quiet. The weather has been unfavorable, and the interruption to transportation by floods in various parts of the country has been an obstacle to business. But there is gradually returning confidence in the early future, to which a few days of spring weather has latterly contributed.

The following is a statement of the stocks of leading articles of domestic and foreign merchandise, at dates given:

| | 1876. April 1. | 1876. Mar. 1. | 1875. April 1. |
|---|---|---|---|
| Beef.....tcs. and bbls. | 8,785 | 9,768 | 13,288 |
| Pork.....bbls. | 31,362 | 27,645 | 68,424 |
| Tobacco, foreign.....bales. | 13,250 | 12,101 | 8,769 |
| Tobacco, domestic.....hhds. | 22,481 | 20,530 | 40,661 |
| Coffee, Rio.....bags. | 151,837 | 106,289 | 55,014 |
| Coffee, other.....bags. | 25,887 | 39,312 | 15,608 |
| Coffee, Java, &c.....mats. | 186,922 | 133,452 | .... |
| Cocoa.....bags. | 548 | 275 | 1,580 |
| Sugar.....hhds. | 43,905 | 15,784 | 55,267 |
| Sugar.....boxes. | 22,373 | 6,364 | 30,106 |
| Sugar.....bags, etc. | 153,344 | 55,479 | 116,827 |
| Melado.....hhds. | 3,011 | 1,737 | .... |
| Molasses, foreign.....hhds. | 9,140 | 6,872 | 723 |
| Molasses, domestic.....bbls. | 14,420 | 14,000 | 3,000 |
| Hides.....No. | 141,100 | 115,200 | 178,500 |
| Cotton.....bales. | 175,513 | 168,500 | 203,106 |
| Rosin.....bbls. | 71,213 | 80,315 | 78,021 |
| Spirits turpentine.....bbls. | 2,112 | 3,713 | 5,758 |
| Tar.....bbls. | 2,587 | 2,420 | 3,273 |
| Rice, E. I.....bags. | 4,700 | 8,500 | 8,200 |
| Rice, domestic.....bbls. and tcs. | 3,460 | 2,750 | 600 |
| Gunny cloth (E. I.).....bales. | 4,900 | 4,900 | 9,100 |
| Gunny bags.....balee. | 1,700 | 1,700 | 2,331 |
| Linseed.....bags. | 212,049 | 257,600 | 35,719 |
| Saltpetre.....bags. | 13,500 | 14,000 | 15,500 |
| Jute.....bales. | 13,231 | 14,700 | 18,700 |
| Jute butts.....bales. | 3,800 | 3,200 | 26 600 |
| Manila hemp.....bales. | 75,672 | 63,053 | 106,210 |
| Ashes.....bbls. | .... | 1,393 | 1,239 |

Provisions have been almost uniformly depressed, and in some particulars the decline is important. The quantity going out of market recently, whether for consumption or export, has been disappointing to holders, with the natural consequence of an increased anxiety to sell and a disposition to stimulate business by naming lower prices. The decline in pork has been in most part nominal, and business has not increased materially. For future delivery, the closing bids for mess to-day were: for April, $22 80; for May, $22 90; for June, $23 10; and for July, $23 20. Lard has receded 15c. on the spot and 20@25c. per 100 lbs. for future delivery, and even this decline has not stimulated to any great extent the movement except in speculative operations. The latest bids for prime Western steam to-day for future delivery were: for April, $13 97½; for May, $14 10; for June, $14 22½; and for July, $14 35. Bacon ruled dull and nearly nominal. Pickled meats have been more freely offered, and at a slight decline moved off quite freely, especially bellies in bulk at 12½@13½c. Beef and beef hams have rather favored buyers. Butter has been in better supply and drooping. Cheese less active, at 10½@13½c. for fair to prime State factories. Tallow is quiet at 8¼@8¾c. for prime. Stearine has ruled dull at 15½@15¾c. for prime. The exports have been as follows from New York, Nov. 1 to April 3, inclusive, for four years:

| | 1875-6. | 1874-5. | 1873-4. | 1872-3. |
|---|---|---|---|---|
| Pork, bbls. | 85,777 | 86,790 | 119,222 | 77,854 |
| Beef, bbls. and tcs. | 65,569 | 61,299 | 67,770 | 52,797 |
| Lard, lbs. | 57,077,662 | 79,903,856 | 84,245,327 | 134,934,260 |
| Bacon, lbs. | 112,626,977 | 111,151,213 | 155,195,779 | 193,654,948 |
| Butter, lbs. | 1,635,401 | 1,700,166 | 916,016 | 1,680,278 |
| Cheese, lbs. | 22,560,932 | 13,558,124 | 15,643,879 | 18,383,536 |
| Tallow, lbs. | 20,206,952 | 17,169,415 | 25,979,103 | 22,744,759 |

Rio coffee has been fairly active, and in the absence of receipts the stock has been reduced to 129,000 bags here and 285,000 bags as the visible supply for the United States; fair to good cargoes, 17¾@19c. gold. But of mild coffees the supply continues large, notwithstanding a better business done: Java, 22@25c.; Maracaibo, 16@18½c. gold. Rice has been quiet and unchanged. Teas are firmer, with more demand. Foreign dried fruits are more active, with some advance in raisins and prunes. Molasses has been in good demand, at 32½@33c. for 50 test. Sugars have been fairly active and prices about steady; fair to prime refining Cuba 7½@7¾c.; standard crushed refined, 10⅝c.

Kentucky tobacco has been less active and ruled a shade lower at 5@7½c. for lugs and 8½@15c. for leaf; the sales for the week embraced 450 hhds., of which 350 were for export, and 100 hhds. for consumption. Seed leaf has continued in fair demand and almost steady; the sales embrace—crop of 1873, 54 cases New England at 21c.; crop of 1874, 343 cases do., at 7@20c., 128 cases Pennsylvania on private terms; crop of 1874 and 1875, 85 cases Ohio; and crop of 1875, 400 cases Pennsylvania on private terms; also 200 cases sundry kinds at 7@25c. Spanish tobacco has been in moderate request and unchanged; the sales were 600 bales Havana at 88c.@$1.15, and 85 bales Yara on private terms.

During the past week, in ocean freights, the rates declined materially, but still no business of any importance could be effected; the exporters of any class of merchandise do not seem disposed to take hold liberally at any rates. To-day, there was a continued dulness, but the more reduced offerings of berth room imparted a more regular tone; charter room was still quiet and weak.

In rosins, notwithstanding a dull market, holders, under the concentrated stocks, maintain firm prices and quote, at the close, strained to good strained $1 80@1 90. Spirits turpentine, on the contrary, has been dull and declining, closing at 40c. In petroleum little or nothing has been done, and figures show some weakness, closing at 8⅛c. for crude in bulk, and 14½@15c. for refined in bbls.

## COTTON.

FRIDAY, P. M., April 7, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (April 7) the total receipts have reached 55,804 bales, against 59,912 bales last week, 62,033 bales the previous week, and 65,441 bales three weeks since, making the total receipts since the 1st of September, 1875, 3,813,486 bales, against 3,236,887 bales for the same period of 1874–5, showing an increase since Sept. 1, 1875, of 576,599 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

| Receipts this week at— | 1876. | 1875. | 1874. | 1873. | 1872. | 1871. |
|---|---|---|---|---|---|---|
| New Orleans | 24,369 | 7,247 | 13,921 | 20,090 | 13,378 | 29,203 |
| Mobile | 3,860 | 1,007 | 3,177 | 4,186 | 2,491 | 5,101 |
| Charleston | 3,460 | 3,706 | 5,292 | 3,269 | 3,035 | 4,101 |
| Port Royal, &c. | .... | 217 | 16 | | | |
| Savannah | 3,580 | 5,185 | 5,721 | 5,143 | 5,071 | 9,224 |
| Galveston | 4,673 | 4,508 | 4,250 | 4,629 | 1,632 | 6,689 |
| Indianola, &c. | 151 | 269 | 525 | | | |
| Tennessee, &c. | 4,975 | 8,848 | 9,079 | 5,018 | 8,593 | 7,701 |
| Florida | 126 | 47 | 167 | 30 | 262 | 202 |
| North Carolina | 2,092 | 1,522 | 1,351 | 569 | 609 | 603 |
| Norfolk | 8,082 | 8,331 | 6,874 | 5,707 | 2,666 | 6,918 |
| City Point, &c. | 436 | 269 | 411 | 304 | 415 | |
| Total this week | 55,804 | 41,156 | 50,584 | 43,945 | 36,062 | 69,832 |
| Total since Sept. 1 | 3,813,486 | 3,236,887 | 3,471,945 | 3,107,320 | 2,464,228 | 3,383,081 |

The exports for the week ending this evening reach a total of 68,392 bales, of which 46,160 were to Great Britain, 5,604 to France, and 16,628 to rest of the Continent, while the stocks as made up this evening are now 607,268 bales. Below are the stocks and exports for the week, and also for the corresponding week of last season:

| Week ending April 7. | Exported to | | | Total this week. | Same week 1875. | Stock. | |
|---|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | France | | | 1876. | 1875. |
| New Orleans* | 23,892 | 4,476 | 9,476 | 37,844 | 26,277 | 240,907 | 164,110 |
| Mobile | .... | .... | 2,920 | 2,920 | 4,047 | 43,714 | 29,399 |
| Charleston | 4,050 | 1,128 | 1,200 | 6,378 | 7,218 | 19,754 | 22,513 |
| Savannah | 3,256 | | 1,265 | 4,521 | 3,226 | 25,680 | 39,022 |
| Galveston† | 1,217 | | 1,446 | 2,663 | 721 | 85,062 | 57,329 |
| New York | 7,542 | | 15 | 7,557 | 6,692 | 185,515 | 187,191 |
| Norfolk | 3,650 | | .... | 3,650 | .... | 13,606 | 7,546 |
| Other ports‡ | 2,553 | | 306 | 2,859 | 822 | 43,000 | 45,434 |
| Total this week | 46,160 | 5,604 | 16,628 | 68,392 | 49,023 | 607,268 | 552,569 |
| Tot. since Sept. 1 § | 1,668,756 | 350,874 | 624,618 | 2,643,248 | 2,153,681 | .... | .... |

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 45,000 bales; for Havre, 26,000 bales; for Continent, 13,000 bales; for coastwise ports, 1,500 bales; which, if deducted from the stock, would leave 155,500 bales representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on ship board at that port, not cleared: For Liverpool, 4,131 bales; for other foreign, 2,647 bales; for coastwise ports, 1,249 bales; which, if deducted from the stock, would leave remaining 27,032 bales.

‡ The exports this week under the head of "other ports" include from Baltimore 306 bales to Bremen; from Boston 1,853 bales to Liverpool; from Philadelphia 700 bales to Liverpool.

§ Exports of 31st March, 1876, from New Orleans and Mobile not included, as our mails for that date have not been received.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 19,369 bales, while the stocks to-night are 54,699 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to March 31, the latest mail dates:

| PORTS. | RECEIPTS SINCE SEPT. 1. | | EXPORTED SINCE SEPT. 1 TO— | | | | Coastwise Ports. | Stock. |
|---|---|---|---|---|---|---|---|---|
| | 1875. | 1874. | Great Britain | France | Other forel'n | Total. | | |

| New York | 178,392 | 115,203 | 275,388 | 1,915 | 56,657 | 333,940 | .... | 179,274 |
| Florida | 11,713 | 12,232 | .... | .... | .... | .... | 11,713 | .... |
| N. Carolina | 91,505 | 93,142 | 23,470 | .... | 2,301 | 25,771 | 69,000 | 2,110 |
| Norfolk* | 447,114 | 366,741 | 99,101 | 1,817 | .... | 100,918 | 336,456 | 21,369 |
| Other ports | 88,318 | 63,270 | 69,012 | .... | 12,674 | 81,686 | ... | 36,600 |
| Tot. this yr. | 3,757,682 | ..... | 1822,596 | 345,270 | 606,990 | 2574,856 | 1103,479 | 619,385 |
| Tot. last yr. | ..... | 3,195,731 | 1453,257 | 262,198 | 388,203 | 2104,658 | 1107,286 | 608,637 |

* Under the head of *Charleston* is included Port Royal, &c.; under the head of *Galveston* is included Indianola, &c.; under the head of *Norfolk* is included City Point, &c.

† The exports for Friday, 31st ult., are not included, as our mail from New Orleans and Mobile of 1st inst. has not been received.

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market this week for cotton on the spot has been quiet and unchanged, not sharing to any appreciable extent in the sharp fluctuations which have occurred in futures. Offerings have been limited, and there has been very little inquiry from any quarter. Deliveries on contracts have to a large extent supplied current wants. The close to-day was quiet and prices nearly nomical. For future delivery there have been wide fluctuations, the effect, to a considerable extent, of speculative manipulation. On Saturday last there was a small advance; but on Monday prices took a sharp downward turn, and at the close of Wednesday's business the decline from Saturday amounted to ⅛@3-16c. All this time Liverpool was reported dull and weak, and the depression was assisted by a decline in gold, and a disposition in some speculative circles to "let go to get a better hold." Much interest was felt in the flood accounts from the Mississippi River, but they had little effect. The irregularity between the course of prices for this and the next crop also disappeared. But yesterday there was a sharp reaction. Accounts were received that the water in the Mississippi was one inch higher than the high water of the almost unprecedented flood of 1867, and still rising, giving strength to the fears that the most extensive flood of recent years is inevitable, thus endangering the prospect of a favorable planting season in a vast cotton region. The decline of the previous three days was fully recovered, the advance being stimulated to some extent by slightly improved advices from Liverpool, small receipts at the ports and at interior towns, and by some recovery in the premium on gold. To day, the opening was at ⅛c. decline, as Liverpool failed to respond to this market, but the close was rather less depressed.

The total sales for forward delivery for the week are 161,800 bales, including —— free on board. For immediate delivery the total sales foot up this week 3,915 bales, including 634 for export, 2,553 for consumption, 723 for speculation, and —— in transit. Of the above, —— bales were to arrive. The following are the closing quotations:

THE VISIBLE SUPPLY OF COTTON, as made up by cable and telegraph, is as follows. The continental stocks are the figures of last Saturday, but the totals for Great Britain and the afloat for the Continent are this week's returns, and consequently brought down to Thursday evening; hence, to make the totals the complete figures for to-night (Apr. 7), we add the item of exports from the United States, including in it the exports of Friday only:

| | 1876. | 1875. | 1874. | 1873. |
|---|---|---|---|---|
| Stock at Liverpool..... | 851,000 | 803,000 | 838.000 | 681,000 |

These figures indicate an *increase* in the cotton in sight to-night of 82,609 bales as compared with the same date of 1875, a *decrease* of 88,591 bales as compared with the corresponding date of 1874, and an *increase* of 162,527 bales as compared with 1873.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week and stock to-night, and for the corresponding week of 1875—is set out in detail in the following statement:

| | Week ending Apr. 7, 1876. | | | Week ending April 9, 1875 | | |
|---|---|---|---|---|---|---|
| | Receipts. | Shipments. | Stock. | Receipts. | Shipments. | Stock. |

| Total, all..... | 25,446 | 34 861 | 132,495 | 14,929 | 24,933 | 133,421 |

* Actual count.

The above totals show that the old interior stocks have *decreased* during the week 10,859 bales, and are to-night 1,590 bales *less* than at the same period last year. The receipts at same towns have been 1,392 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 11,000 bales shipped from Bombay to Great Britain the past week, and 32,000 bales to the Continent; while the receipts at Bombay during this week have been 56,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, April 6:

| | Shipments this week | | | Shipments since Jan. 1 | | | Receipts. | |
|---|---|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | Total. | Great Britain. | Continent. | Total. | This week. | Since Jan. 1. |
| 1876..... | 11,000 | 32,000 | 43,000 | 139,000 | 121 000 | 260.000 | 56.000 | 413,000 |
| 1875..... | 46,000 | 39,000 | 85,000 | 312,000 | 192,000 | 504,000 | 53,000 | 635 000 |
| 1874..... | 45,000 | 15,000 | 60,000 | 255,000 | 160,000 | 415,000 | 75,000 | 595,000 |

From the foregoing it would appear that, compared with last year, there is a *decrease* of 42,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 244,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—The past week has been notable for the excessive rains which have fallen in many parts of the country, especially in the West and Northwest, and also in Alabama and parts of Georgia. Coming, as they have, upon land thoroughly soaked, and with high water everywhere, the result has been floods, not only in the Mississippi Valley, but also in other sections. The overflow of the Mississippi threatens to be more extensive than any previous overflow. What harm it will do the next cotton crop must entirely depend upon the length of time it continues. Should it subside within three weeks, we do not suppose it would materially affect it, though it would delay corn planting. Any speculation with regard to the length of time it may last is of little avail, as it must depend upon circumstances which cannot be known in advance. Our telegrams below indicate all the facts which we have been able to obtain up to the present time. It will be noticed that the rain has not been very excessive this week in the Southwestern States, though complaints are made that the weather has been unsatisfactorily cold, and in Texas more rain than desirable.

*Galveston, Texas.*—We have had rain on four days, the rainfall reaching seventy-three hundredths of an inch. The weather is generally too cold and too wet, delaying planting, and much remains to be done in both corn and cotton. The thermometer has averaged 67, the highest being 76 and the lowest 55.

*Indianola, Texas.*—It has been showery on two days this week, with a rainfall of fifty nine hundredths of an inch. The weather has been so unfavorable that much of the seed planted has failed to come up, and ploughing is delayed. Recently the rains have not been hard, but the soil has had no chance to dry. The thermometer has averaged 65, the highest being 83 and the lowest 51.

*Corsicana, Texas.*— There has been rain here on three days, with a rainfall of seventy-four hundredths of an inch. The weather is unfavorable for farm work, and planting is being retarded. The thermometer has averaged 62, the highest being 85 and the lowest 43.

*Dallas, Texas.*—It was showery on two days, with a rainfall of fifteen hundredths of an inch. Planting is progressing slowly, and much is unfinished. Wheat was unhurt by recent frost and is very promising. The thermometer has averaged 72, the highest being 87 and the lowest 42.

*New Orleans, Louisiana.*—We have had slight rain on two days this week, the total rainfall reaching fifteen hundredths of an inch. The thermometer has averaged 65.

*Shreveport, Louisiana.*—There is little doing just now in cotton. Corn is coming up finely, and some which was supposed to have been killed by the frost is now said to be in good condition. We had rain on Friday, Saturday and Wednesday last, to a depth of one inch and seventy-three hundredths. Average thermometer during the week 62, highest 84 and lowest 47.

*Vicksburg, Mississippi.*—Rain fell on three days of the week to the extent of fifty-one hundredths of an inch. The average thermometer is 62, the highest 79 and the lowest 49.

*Columbus, Mississippi.*—The early part of this week we had rain, the rainfall reaching two inches and twenty-five hundredths, but the latter part of the week has been clear and pleasant. The thermometer has averaged 56, the extremes being 49 and 66. Planting is progressing finely.

*Little Rock, Arkansas.*—The weather this week is quite an improvement on last. It has been dry every day except Saturday, when we had a rainfall of one inch and seventy-five hundredths. The average thermometer is 57, the highest being 75 and the lowest 42. Another telegram from Little Rock states that the river is 23 feet above low water, and at a stand.

*Nashville, Tennessee.*—It was rainy here two days, but the rest of the week has been pleasant. Total rainfall, eighty-six hundredths of an inch. Average thermometer 53; highest 61 and lowest 45.

*Memphis, Tennessee.*—Rain fell on two days of the week to the extent of one inch and eighty one hundredths. The rest of the week has been pleasant. Average thermometer, 56; highest, 64, and lowest 49. There has been little ploughing done, and very little corn and no cotton planted. The river is two inches higher than sixty-seven, and, although overflowing badly, is still rising. Another telegram from Memphis states that the river has risen one-half inch in the last 24 hours, and five inches at Cairo. As bearing on the same subject, we have a telegram from *Omaha*, on the Upper Missouri, dated yesterday, that the river there was rising slowly; no ice; weather clear. Also a telegram, same date, from *St. Joseph*, on the Missouri—river 7 feet 4 inches above low water mark, but falling; clear. Also a telegram of same date from *Jefferson City*, on the Missouri—river at a standstill; weather clear and cool.

*Mobile, Alabama.*—We are having too much rain, from which much damage is feared. This week it rained here severely two days, was showery one day, and is threatening rain to-day; the rest of the week, however, has been pleasant. Crop accounts are less favorable, and it will be necessary to delay re-ploughing in some districts. The frost we have had will make some replanting necessary. The tributary rivers are higher, and there have been damaging overflows. Total rainfall this week, one inch and eighteen hundredths. Average thermometer, 77; highest, 81, and lowest, 64. Rainfall for the month of March, eight inches and one hundredth.

*Montgomery, Alabama.*—We have not received our regular telegram from Montgomery to-night, but one received from our correspondent on the 3d instant says: "We have had an unusually severe storm this week, and much damage is feared. The rivers have overflowed. It has rained constantly every day this week; the rainfall is unprecedented. Rainfall since Saturday, eight inches and six hundredths. Rainfall for the month of March, seven inches and thirty-three hundredths."

*Selma, Alabama.*—We have had an unusually severe storm this week, overflowing the Alabama River and smaller streams, and interrupting plantation work. There were three rainy days. The rainfall has been five inches and ten hundredths. The thermometer has averaged 61.

*Madison, Florida.*—We have had rain on two days this week, the rainfall reaching four and five hundredths inches. The thermometer has averaged 57, ranging from 40 to 74.

*Macon, Georgia.*—Telegram not received.

*Atlanta, Georgia.*—It rained constantly two days and was showery one day, the rainfall reaching four and seventy-five hundredths inches. The weather this week has been too cold. The thermometer has averaged 50, the highest being 77 and the lowest 42.

*Columbus, Georgia.*—We have had an unusually severe rain storm this week, but as the week closes there is a favorable change in the weather. There were three rainy days, the rainfall reaching six inches and fifty hundredths. Total rainfall for the month of March, eight and eighty-seven hundredths inches. Average thermometer during the week 60, highest 72 and lowest 48. Another telegram states that the bottom lands are all overflowed.

*Albany, Georgia.*—The weather has been very unfavorable for planting purposes. In thirty-six hours, on April 2d and 3d, the rainfall reached three inches and three-quarters. The wet weather will delay planting.

*Savannah, Georgia.*—There have been three rainy days this week, but the rest was pleasant. The thermometer has averaged 63, the highest being 72 and the lowest 53 Total rainfall, four inches and fifty-four hundredths. Much damage to early planting by the recent floods is reported from the interior.

*Augusta, Georgia.*—The weather during the week has been generally pleasant. We had two rainy days (showery) the early part, but the latter part has been clear and pleasant. Total rainfall for the week, thirty-seven hundredths of an inch. Average thermometer 57, highest 81 and lowest 44.

*Charleston, South Carolina.*—There have been four rainy days here during the week, the rainfall reaching three and forty-five hundredths inches. The thermometer has averaged 49, the highest being 75 and the lowest 26.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock April 6. We give last year's figures (April 9, 1875) for comparison.

| | April 6, '76. | | April 9, '75. | |
|---|---|---|---|---|
| | Feet. | Inch. | Feet. | Inch. |
| New Orleans..Below high-water mark..... | 3 | 11 | 4 | 2 |
| Memphis.....Above low-water mark..... | 34 | 11 | 33 | 0 |
| Nashville.....Above low-water mark..... | 16 | 9 | 20 | 7 |
| Shreveport....Above low-water mark..... | 27 | 8 | Missing. | |
| Vicksburg....Above low-water mark..... | 42 | 7 | 42 | 6 |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

THE MISSISSIPI OVERFLOW.—In addition to our telegraphic news with regard to the overflow, we have the following from the Memphis *Avalanche* of April 4:

The water level in the river at the foot of Jefferson street, last night, was within eleven inches of the highest on record; and one inch below the high water of May, 1874, at which time the Council Bend cut-off was made, fifty miles below this city. At the present writing the prospects are that the rise here will continue for two weeks or more to come, and that it will reach a level equal to that of 1867 and also of 1862. The rise at this point has doubtless been increased by the recent cut-off at the Devil's Elbow, which precipitated a heavy volume of water upon the swollen torrent below, and increased the velocity of the current. In the Devil's Elbow Bend, or the old river, the water has fallen between three and four feet. In the next bend above, or bend of 37, it has fallen over two feet, and in the bend of 34 and 33, fifty miles above this and twenty-five miles above the cut-off, planters report the water to have fallen fully one foot. Of course, this being the case, the height of the water below the cut-off is necessarily increased.

No relief from the flood can be hoped for, from present appearances, for some time to come. All the lower tributaries of the Ohio are full to overflowing; the Wabash, Cumberland and Tennessee especially so, while the Illinois has so flooded its banks that at the town of Havana it is six miles wide and fourteen feet above high water mark. All other upper rivers display mammoth proportions, while the tributaries of the South are full. White River has run out of its banks. Arkansas river is high, though so far has done no harm as far as known, and the people along the streams of the lower river, especially at New Orleans and above are strengthening their levees in anticipation of the freshet pouring down upon them. A heavy rain fell at St. Louis on Sunday, and the river was rising at the rate of half an inch per hour. Heavy rains also fell at Evansville and Cairo. The water is all over the country above Hopefield to Mound City, and skiffs are now running in place of hacks between Marion and Mound City, carrying freight and passengers, the latter at fifty cents each. Many houses along the river and in the swamps have been abandoned by their owners and late occupants.

GUNNY BAGS, BAGGING, &c.—Bagging has continued quiet during the past week, and but few parcels have changed hands; prices are still held at 12¼@13c., closing at these figures. Bags are also quiet and nominally unchanged. Bales quiet at previous figures. In jute butts there is little doing at the close, but prices rule firm, with holders not anxious to shade quotations. Spot lots are held at 3c. currency, with some holders quoting 3¼c.

WEEKLY RECEIPTS OF COTTON.—Below we give a table showing the receipts of cotton each week at all the ports of the United States for several seasons, indicating, also, the total crop each year. Our figures are given in thousands of bales.

| Date. | 1875-76. Week. | 1875-76. Month. | 1874-75. Week. | 1874-75. Month. | 1873-74. Week. | 1873-74. Month. | 1872-73. Week. | 1872-73. Month. | 1871-72. Week. | 1871-72. Month. | 1870-71. Week. | 1870-71. Month. |

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 67,295 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

| | Total bales. |
|---|---|
| NEW YORK—To Liverpool, per steamers Egypt, 2,468....Algeria, 500....Baltic, 355....City of Chester, 1,185....Wyoming, 3,024 | 7,542 |
| To Bremen, per steamer Habsburg, 15 | 15 |
| NEW ORLEANS*—To Liverpool, per steamer Alice, 2,180....per ships Adriana, 4,104....St. Patrick, 2,900....St. Bernardo, 5,400....per barks Oriana, 1,353 ....Olive Mount, 2,006.....Ellen, 2,640....Madge Wildfire, 2,625 | 23,208 |
| To Havre, per ship Mary Durkee, 2,659 | 2,659 |
| To Bremen, per barks Veronica, 2,019....Alexander, 2,281 | 4,300 |
| To Cronstadt, per ship Loreley, 1,700 | 1,700 |

| Total | 46,895 | 1,560 | 4,623 | 970 | 7,939 | 3,236 | 840 | 812 | 67,295 |

Included in the above totals are, from New Orleans, 420 bales to Vera Cruz.
* A portion of the shipments from New Orleans and Mobile has necessarily been omitted this week, as our mail from those places of Saturday last has failed to reach us.

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

BOTHNIA.—A burning steamer was passed Feb. 19, in lat. 38 N., lon. 51 W. Doubtless the Bothnia (Br.), from New Orleans for Liverpool, before reported.

KNICKERBOCKER, str., for New York, which put back to New Orleans, March 25, with machinery disabled, having repaired, resumed her voyage April 1.

TURKESTAN.—There were landed, March 15 and 16, 8 casks tallow, 170 packages and about 30 tons of wet wheat from ship Turkestan, ashore at Portmadoc, Wales. A diver had been down on the 17th, examined the vessel and stated that the keel had been carried away for 12 feet from aft. No damage apparent forward, but vessel much strained about the bilges. Attempts were being made to close up the hole aft and the bilges, and to pump the ship out, with a view to moving her out of her bed.

FRITZ, bark (Hollander), Isaachsen, from New Orleans, March 17, with cotton for Havre, was towed into Brunswick, Ga., April 4, by steamer Dictator, with bows stove and seven feet of water in her hold.

JOHN GENNIE.—All the cargo of cotton of the bark John Geddie (Br.), for Havre, before reported as on fire at Charleston, had been discharged at Charleston, March 24, and found to be as follows: 11 bales under ship's receipt at cotton press, 89 bales dry cotton on deck and alongside, 2,143 bales wet cotton, 110 bales landed and scorched, 4 bales broken up and loose on the dock—total, 2,357 bales under ship's receipt when the fire broke out. The vessel's deck from main hatch, four deck beams, carline, knees, mainmast, mainmast partners and knees are burned, and have to be replaced; mainmast charred, but not much burned. The repairs were progressing satisfactorily on the 27th.

LISBON, bark, Dunning, from New Orleans for Havre, slipped an anchor and 90 fathoms of chain the Downs, A. M., March 18. They were replaced from Deal.

VANGUARD, bark, Michel, from New Orleans for Queenstown, which put into Key West, March 7, in distress, had partially discharged and was waiting instructions March 27.

ERMINIA P., brig (Ital.), from New Orleans for Rotterdam, which was towed back to Ramsgate March 18 (not 20th), lost both anchors and chains off the North Foreland, windlass upset and sails blown away.

OSSEO, brig, Lowry, from Mobile, Feb. 15, with 1,200 bales cotton for Havre (before reported dismasted), put into St. Georges, Bermuda, March 28, and reports: Feb. 28, lat. 34, lon. 68, was struck by a whirlwind, jibed mainboom and shipped a heavy sea, which took off the skylight and filled the cabin with water. March 1, in lat. 41, lon. 53, a heavy gale from N.E., vessel under short canvas, tripped on a sea, and in a moment everything above deck was taken overboard, leaving only about 30 feet of the mainmast; the wreck was cut adrift for the safety of the vessel, cargo and lives; vessel not making any water. On the 3d, rigged jury spare and bore up for the nearest port. On the 15th, in a N. N. W. gale, shipped a sea, which started the forward house and broke every movable thing on deck from their fastenings. On the 17th pooped a sea, which stove in after house, binnacle, filled the cabin with water, carried away rail on the poop, and injured the man at the wheel. The gale continued until the 18th; another gale from S.W. was encountered on 23d; decks continually flooded, and vessel lying in the trough of the sea and rolling badly. She anchored in Five Fathom Hole, Bermuda, on the 28th, and was towed into St. Georges on the same day. Captain Lowry arrived at New York April 4 to consult owners.

MARGARET AND LUCY, schr., of Middletown, Conn., from New Orleans for Bath, Me., with 1,100 bales cotton, mis-stayed in beating up the river and went ashore at Beal's Point, six miles below Bath, afternoon of March 31. A tug was despatched to her assistance, and she was towed off the same day.

Cotton freights the past week have been as follows:

| | Liverpool. Steam. | Liverpool. Sail. | Havre. Steam. | Havre. Sail. | Bremen. Steam. | Bremen. Sail. | Hamburg. Steam. | Hamburg. Sail. |

# BREADSTUFFS.

FRIDAY, P. M., April 7, 1876.

The market has been less active for flour, and prices have declined slightly. Speculation in lines of shipping extras for arrival has wholly subsided, and the demand has fallen off from shippers for lines on the spot. In these and the lower grades there is consequently some depression, with a tendency still downward. Supplies at the West have considerably increased. We notice, again, a pretty full supply of unsound extras from winter wheat, which may be quoted as ranging from $4 75 @ $5 75. Extreme low grades from spring wheat have been more salable at some decline. Medium and better grades, including bakers' and family brands, have not been plenty, and have ruled very firm, though not in active demand. Rye flour has ruled firm, and corn meal slightly advanced. To-day, the market continued quiet and drooping.

The wheat market has also been depressed, and prices show a slight decline, especially for the poorer qualities of spring growths. The reports received of stocks in Liverpool had a very depressing influence, and caused an increase in the pressure to sell. There has been a material decline in ocean freights, which has more than compensated for the decline in gold, and bad weather for sowing at the West has served in some degree to restore the waning confidence of holders. Still, some decline has taken place, and the close yesterday was spiritless and depressed, in view of the large stocks at all points, and the approach of the season when a more general movement must take place. To-day, the market was dull, depressed and unsettled. There was very little demand and the close quite flat.

Indian corn has been in very limited supply, and prices have advanced three or four cents per bushel. The demand has been more urgent than active, and the temporary scarcity has been uniformly cited as the cause of the advance. Supplies at the West have somewhat increased, and there is not much confidence in the future of prices; still, prime new mixed for April delivery has advanced from 65½c., early in the week, to 66½c. paid yesterday. The market was, to-day, again higher, at 70c. for good new mixed on the spot, but offered at 66½c. for all April, and 65c. for May.

Rye has been doing better, with sales of prime Eastern at 90c., and Western at 86c. in store. Barley, at some decline, has been quite active—No. 2 Canada selling at $1@1 02, and No. 1 Bay at $1 08@1 10. Barley malt is nearly nominal. Canada peas have been quiet. Medium white beans have been taken for export at $1@1 10 per bushel.

Oats have been dull, and have lost part of the speculative advance of last week. The close was firm, with a fair inquiry.

The following are closing quotations:

| FLOUR. | | GRAIN. | |
|---|---|---|---|
| No. 2 | $ bbl. $3 25@3 85 | Wheat—No. 3 spring, bush. | $1 12@1 16 |

## THE DRY GOODS TRADE.

FRIDAY, P. M., April 7, 1876.

Business was very quiet in the early part of the week, owing to unfavorable weather, but has since then shown a gradual improvement in nearly all departments. Manufacturers' agents representing staple domestics, prints, &c., have been more actively employed than for some time past, and their transactions have reached a fair aggregate amount. The woolen goods houses have not shared in the general improvement, nor has much animation been noticed in foreign goods outside of the auction rooms, where very heavy sales were made. The jobbing trade has been spasmodic, but better, on the whole, and the outlook is less discouraging than was the case a few weeks ago. Buyers are still pursuing the same cautious hand-to-mouth policy which has marked their course of action for some time past, but this is not to be wondered at in the present unsettled condition of the market, when goods which are apparently cheap to-day may be otherwise within a week. Jobbing prices have been very irregular, and the keen competition of Western jobbers (who are making vigorous efforts to secure the Western trade) has necessitated extremely low prices on many descriptions of both domestic and foreign goods, which are selling below ante-war prices. The print market continued in a demoralized condition, and several makes of standard prints were offered by jobbers at lower rates than ever before known.

DOMESTIC COTTON GOODS.—The export trade in staple cotton goods, print cloths, &c., continues to improve, and during the week 1,813 packages were shipped to foreign ports from this city of which 1,439 packages were sent to Liverpool and London. Brown sheetings were in steady demand, but not very strong, and some makes of Atlantics were reduced ¼c. by agents. Fine bleached shirtings were taken freely by the trade, and because of their comparative scarcity are firmly held. Dyed ducks were in better demand, but denims, tickings, checks and stripes moved slowly and in small lots. Cheviots lacked animation, and cottonades were quiet, except when offered at a concession from previous holding rates, which induced some fair transactions. Corset jeans were in steady request and firm. Rolled jacconets were more active, on account of a reduction in price on Masonville, Manville, &c., which are now jobbing at the low figure of 5¼c. Print cloths were dull, with a weakening tendency, closing at 3¾@3¾c. cash for extra 64's. Prints were quiet and weak in the regular way, but heavy sales were made by several agents at prices which enabled jobbers to offer standard prints in fair styles at 5¼@5¾c. Bristol and Richmond fancy prints were reduced by agents to 6¼c., and Amoskeag and Freeman's prints declined to 5¾c. The entire stock of Conestoga prints was purchased by a large jobbing house, and sold at 5¾c. Ginghams were in steady demand, but cotton dress goods were less active.

DOMESTIC WOOLEN GOODS.—There has been a very light demand for men's-wear woolens from agents' hands, and jobbers' sales have not been up to expectations. Fair deliveries of overcoatings have been made to the early clothing trade on account of previous orders, but few new transactions occurred. Cloths and doeskins were taken in small lots for keeping up assortments, but sales were light in the aggregate. Cassimeres and suitings moved slowly and at unsatisfactory prices, and worsted coatings were comparatively quiet. Satinets were dull apart from low printing grades, which changed hands in moderate amounts, and Kentucky jeans ruled quiet. Low grade ingrain carpets were in moderate request, but all-wool makes dragged heavily. Flannels were taken in single package lots for keeping up assortments, but sales were small in the aggregate. Worsted dress goods were in steady demand, and the best makes are firmly held by agents at current quotations.

FOREIGN DRY GOODS.—There has been a sluggish movement in imported goods, and prices have been less firm on fabrics of some descriptions. Black silks were in steady demand and tolerably firm, as were the most fashionable colors, but fancy silks, which are in excessive supply, were pressed to sale privately and through the auction rooms at a material concession from opening rates. Cashmeres, *drap d'ete* and other staple dress fabrics were in moderate demand, but fancy dress goods moved slowly and at lower prices. Linen goods were less active, but some makes of white goods showed a slight improvement in the demand. Hamburg embroideries continued to sell at low and unremunerative prices. The auction rooms distributed large quantities of silks, dress goods, linens, ribbons and millinery goods, embroideries, etc., at prices which in some cases showed a decline from those obtainable earlier in the season, and which left no margin of profit to importers.

We annex prices of a few articles of domestic manufacture:

**Bags.**

## Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since Jan. 1, 1876, to all the principal foreign countries, and also the totals for the last week, and since Jan. 1. The last two lines show *total values*, including the value of all other articles besides those mentioned in the table.

EXPORTS SINCE JANUARY 1 TO

| Articles. | Great Britain. | France. | Holland & Belg. | Germany. | Other N. Europe. | Spain. | Other S. Europe. | China & Japan. | Australia. | Br. N. A. Colonies. | Cuba. | Hayti. | Other W. Indies. | Mexico. | British Guiana. | Brazil. | Other S. American. | All oth. Ports | Total this week. | Total since January 1, 1876. | Same time 1875. |

CITY BANK, Threadneedle Street.

THE NEW ENGLAND
Mortgage Security Co.
OFFERS FOR SALE, AT PAR,
SEVEN PER CENT TEN-YEAR BONDS
SECURED BY
FIRST MORTGAGES of IMPROVED REAL ESTATE.
GUARANTEED, PRINCIPAL AND INTEREST,
BY ITS
CAPITAL STOCK OF $500,000.
Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next-due Coupon being stamped so as to denote that Interest begins at the date of purchase.
A Pamphlet with full information will be sent on application to the Company's Office,
43 Milk Street, Boston.
These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.
The security of each Bond is not confined a to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by Individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactory investment. The Loans are all upon improved Farms in some of the most fertile Western states, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well-selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revolutions; Principal and Interest are more promptly paid; and upon the success of Agriculture depends that of almost every Industrial Investment.
HENRY SALTONSTALL, President.
FRANCIS A. OSBORN, Treasurer.
VICE-PRESIDENTS:
Amos A. Lawrence, Geo. C. Richardson,
James L. Little, Thomas Wigglesworth
Geo. P. Upham.

## Insurance.

**"Pay as you go, get what you buy, stop when you choose."**

**COMMON SENSE AND FAIR PLAY IN LIFE ASSURANCE!**

*Do not Assure your Life* till you have examined the NEW PLANS devised by SHEPPARD HOMANS Actuary, for

THE

# Provident Savings Life Assurance Society,

**WESTERN UNION BUILDING,**

NEW YORK.

**Guaranty Cash Capital, $125,000,**

Invested in U. S. Five-Twenty Bonds.

*This Society separates the Insurance Part of the Premium from the Reserve or Deposit Part*, which latter is held merely for accumulation.

*This Society recognizes the Policy-holder as owner of the Reserve.*

This Society, therefore, will either issue policies on the payment of uniform annual premiums, *guaranteeing a specified surrender value for every year in cash;* or it will furnish the PROTECTION OF LIFE ASSURANCE *at actual current cost for death claims and expenses of management, each year by itself, renewable at the close of any year without further medical examination.*

These Plans are indorsed by leading Actuaries and State Commissioners, and also by the "*Society for the Promotion of Life Insurance among Clergymen,*" James Brown, *President;* Howard Potter, *Treasurer.*

For Plans, Rates, and Full Particulars apply to

**THE PROVIDENT SAVINGS LIFE ASSURANCE SOCIETY,**

WESTERN UNION BUILDING, NEW YORK.

GEORGE WALKER, President. SHEPPARD HOMANS, Vice-Pres't and Actuary

# The North British and Mercantile Ins. Co.,

OF

**LONDON AND EDINBURGH.**

UNITED STATES BRANCH,

**54 William, Cor. Pine St., New York.**

—o—

| | |
|---|---|
| **Capital paid up** | **$10,000,000** |
| **Gross Fire Reserve** | **3,700,000** |
| **Net Life Assets** | **13,300,000** |
| **Total** | **$27,000,000** |

Gross Assets held by Board of Management in New York, $1,600,000.

The Company's actual losses by Chicago conflagration in 1871 were $1,743,457 81.

The Company's actual losses by Boston conflagration in 1872 were $503,690 46.

Yet the Company paid these losses at sight without borrowing or selling a single dollar of permanent investments, continued regular dividends to their stockholders, and at the end of 1873 had entirely made up (not in this country, however), the losses of these two conflagrations and all others, commencing 1874 with a surplus over $100,000 larger than ever before.

Annual Income of Fire Department alone over $4,000,000.

Fire and Life Assets entirely distinct—the one not liable for the other.

The Company organized A. D. 1809. Commenced business in this country A. D. 1867.

Agencies in most of the principal cities and towns in the United States.

# REAL ESTATE MORTGAGE BONDS

GUARANTEED BY THE

# Equitable Trust Co.,

**$1,000,000 CAPITAL.**

THESE REAL ESTATE MORTGAGE BONDS ARE COMMENDED TO THE ATTENTION OF THE MOST

**CONSERVATIVE INVESTORS.**

*First*—They have the individual liability of the maker.
*Second*—Each bond is secured by a first mortgage of real estate of not less than double its value.
*Third*—The prompt payment of both principal and interest of every bond is guaranteed by this Company.
The Company guaranteeing these Bonds receives no deposits, owes no money, and incurs no obligations of any character except those arising from such guaranty thereby keeping its whole capital of One Million Dollars unimpaired, TO MEET AT ALL TIMES the prompt payment of both principal and interest of these Bonds.
All mortgages securing the Bonds are formally approved by the following Executive Board:

| | |
|---|---|
| ROBERT L. KENNEDY, | ADRIAN ISELIN, |
| SAMUEL WILLETS, | JAMES A. ROOSEVELT, |
| WM. REMSEN, | EUGENE KELLY, |
| CHAS. BUTLER, | JOHN D. MAXWELL, |
| HENRY P. HAVEN, | GUSTAV H. KISSELL. |

These Securities bear Seven Per Cent Interest payable semi annually, and are offered for sale at one hundred and two and interest at the office of the Equitable Trust Company, Nos. 52 & 54 William street.

### CITY OF VINCENNES, INDIANA,
**SIX PER CENT BONDS.**

ISSUED IN 1873. DUE IN 1893.

(The city reserves the option to pay these Bonds, with the accrued interest thereon, at any time before they are due.)

INTEREST PAYABLE JANUARY AND JULY, AND PROMPTLY PAID.

| | |
|---|---|
| Assessed value of property, 1875 | $3,644,554 |
| Entire bonded debt | 91,000 |
| Floating debt (which will be paid this year) | 23,000 |
| Population about | 8,000 |

☞The city has anticipated the maturity of many of its bonds heretofore issued, and paid them long before they were due.

I have an official statement from the City Treasurer made up to 1st February, 1876, giving the above figures. The above bonds *were not issued* until all the provisions of the law and ordinances were complied with, as I have the official documents to show to that effect. There can be no safer security made than these bonds. Only 2¼ per cent. on its taxable property. Send for official statement.

A limited amount for sale by

**WM. H. UTLEY,**
**4 Wall Street, N. Y.**

## The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE *is issued on Saturday morning, with the latest news up to midnight of Friday.*

**TERMS OF SUBSCRIPTION—PAYABLE IN ADVANCE.**

THE COMMERCIAL AND FINANCIAL CHRONICLE,

For One Year (including postage)..... $10 20
For Six Months..... 6 10

Subscriptions will be continued until ordered stopped *by a written order or at the publication office.* The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders.

**Advertisements.**

Transient advertisements are published at 25 cents per line for each insertion, but when definite orders are given for five, or more, insertions, a liberal discount is made. No promise of continuous publication in the best place can be given, as all advertisers must have equal opportunities. Special Notices in Banking and Financial column 60 cents per line, each insertion.

**London Office.**

The London office of the CHRONICLE is at No. 5 Austin Friars, Old Broad street, where subscriptions are taken at the following rates:

Annual Subscription to the Chronicle (including postage)..... £2 2s.
Six months' subscription..... 1 3s.

WILLIAM B. DANA, JOHN G. FLOYD, JR. } WILLIAM B. DANA & CO., Publishers, 79 and 81 William Street, NEW YORK. POST OFFICE BOX 4 592.

☞ A neat file-cover is furnished at 50 cents; postage on the same is 17 cents. Volumes bound for subscribers at $1 50.

☞ A complete set of the COMMERCIAL AND FINANCIAL CHRONICLE—July 1865, to date—is for sale at the office. Also one set of HUNT'S MERCHANTS MAGAZINE, 1839 to 1871, sixty-three volumes.

☞ The Business Department of the CHRONICLE is represented among Financial Interests in New York City by Mr. Fred. W. Jones.

## ECONOMY AND PURITY VS. THE INDIAN BUREAU.

Mr. Cox has given us a very interesting speech in opposition to the transfer of the Indian Bureau to the war department; but we are not able to feel that the arguments advanced are conclusive. His chief, if not only, point appears to be that the transfer means war with the Indians; an abandonment of all attempts to pacify, enlighten, civilize, Christianize them; and the adoption of a brutal exterminating policy instead. If this is what the change implies, the united voice of the community would be raised in opposition. It is unfortunately, at times, necessary to do what seems cruel, in punishment of worse cruelty; but, aside from that, the "peace policy" has very few opposers.

What proof then is offered that this change means war? Certainly, the heads of the War Department and of the Indian Bureau are, and always will be, civilians; so in that particular the transfer can make no difference. Back of them both would be the same Congress and the same President; and hence one authority would necessarily govern and control them. If the legislative branch of the Government and its head intended war and extermination, a separate Indian Bureau would be as pliant a tool as the War Department; or, if peace and conciliation were the policy adopted, either would find it necessary to be in accord with, and to execute the will of, the administration. Certainly, then, there is nothing in the Department itself to justify or encourage the idea which seems to pervade the speech of Mr. Cox.

Nor can we see the force of the objection urged when we go one step further,—to the army. Certainly, if the President and the Department are in accord as to the policy to be pursued, a subordinate officer will not so far forget his duty as to go counter to his instructions. We have always been led to suppose that no body of men would execute orders more implicitly than the army. And if they were inclined to do otherwise, they have every opportunity now. In fact, the change would place them no nearer the Indians than they now are. They would hold the same military positions and no others. The only difference would be that officers detailed for the duty would act in the place of the present agents at the agencies. The army, as a military force, would do nothing that it does not already do. We cannot see, therefore, how, even on Mr. Cox's theory, there would be any greater probability than at present of severe or cruel measures being used, while the superior education of the West Point graduate, and the greater refinement and delicacy which are natural accompaniments of culture, ought especially to fit them for all the arts of diplomacy.

Then, again, we do not see the force of the illustrations used; in fact, they seem to be a little unfortunate. For instance, much is made of the Piegan and also of the Black Kettle campaigns. Suppose we grant that they were precisely as unjustifiable and cruel as is claimed—what does that prove? Remember, those acts were all done while the Indian Bureau exists, and consequently under its jurisdiction and, probably, with its approval and direction; as Mr. Cox says, we hear of "no remonstance "against these outrages on the part of the board of "Indian peace commissioners, or of the mission boards "of the various churches to whom the selection of agents "was remitted, or even the Indian Bureau itself." It would seem, therefore, that these cases furnish us no

proof of what is to happen when the War Department is in control, but simply, if his version of them is true, of the inefficiency of the Indian Bureau. We cannot understand how a system not yet tried is to be blamed for the shortcomings of the existing system which it is proposed to displace. And even less fair is it to charge on the whole army the shortcomings (if such they be) of a leading officer of that army. The facts stated, if accurately stated, would be a very good argument to show that some other officer should be put in command; but they come very far short of proving that every graduate of West Point is cruel, heartless, brutish. In fact, the country has not the highest opinion of the discretion of the officer in charge of that department. His course at New Orleans and his "banditti" proclamation were enough to convince any one that he would not be a wise or prudent person for any delicate mission. This does not establish a rule, however, but is simply an exception. And at a time like the present, when so many civil officials are proving untrue and untrustworthy, it will hardly do for us to say of the whole body of army officers, stand off, for we are holier than thou.

But this is all preliminary to the real questions, and they are, first, how can we decrease government expenses and, second, how can we arrange it so that politics will have no influence in appointing officials. The care of the Indians is a far more expensive business now than it was before the war, and the whole system has become offensively corrupt. Our people are weighed down and oppressed by the excessive taxation and heartily ashamed of the roguery being exposed. Here is a place for a partial relief. It is, of all others, the most sensible way of reaching economy and honesty of administration. This multiplying of Bureaus has been one prominent cause for increased expenses. We want the Government simplified in every way it can be. But in this case there is a still greater recommendation for the step, and that is that politics will have nothing to do with the disbursing of the money or the appointing of the agents. An officer can be detailed for that duty because he is fitted for it, not because he has votes at his command. We think there is, therefore, in the proposed transfer, promise of a purer administration of this service than we have had, and also of a considerable decrease of our burdensome taxation.

## MERCANTILE FAILURES.

The cause of failures in commercial enterprises can in all cases be traced either to the fault of the individual or to the financial system of the country in which they occur. A man who disregards every teaching of experience and sails his craft with only the prudence and appliances needed in fair weather is sure to come to grief. Nor can he charge his disaster upon any cause other than his own heedlessness. But it calls for more than ordinary sagacity to have been able to foresee and to prepare for such a prolonged stagnation in all industrial enterprises as that which our country is now passing through. This paralysis is the result of no ordinary cause, but may be traced back to our false financial system. The panic we could, under ordinary circumstances, have soon recovered from. But in this case there was no true basis to build upon, no starting point; and hence we have drifted and are still drifting, with a result which is marked by the many wrecks left along the shore. Messrs. Dun, Barlow & Co. give us this week their usual quarterly statement, which illustrates how these present surroundings are affecting individuals.

| States and Territories. | —1st Quarter in '76— No. of Failures. | Amount of Liabilities. | —1st Quarter in '75— No. of Failures. | Amount of Liabilities. |

| Total | 2,806 | $64,644,156 | 1,733 | $38,873,222 |
| Dominion of Canada | 477 | 7,418,030 | 396 | 4,141,340 |

* Included last year in statement from Massachusetts.

According to the last annual returns, the total number of persons engaged in industrial enterprises, as reported by this firm, was 680,072. We have here, therefore, a little more than four-tenths of one per cent. who have failed during the first three months of 1876, against about two and one-half tenths per cent. during the same three months of 1875. The total liabilities also show a corresponding increase, so that the average liabilities to each individual are a little over $23,000 this year, and a little less than that amount last year. We have a more complete comparison in the following statement of returns for each quarter of 1875 :

| | No. of Failures. | Amount of Liabilities. | No. of Failures. | Amount of Liabilities. |
|---|---|---|---|---|
| First quarter, 1876 | 2,806 | $64,000,000 | | |
| | | | As compared with 1st qr. '76. | |
| First quarter, 1875 | 1,733 | $38,000,000 | Inc. 1,073 | Inc. $26,000,000 |
| Second quarter, 1875 | 1,681 | 33,000,000 | Inc. 1,125 | Inc. 31,000,000 |
| Third quarter, 1875 | 1,771 | 54,000,000 | Inc. 1,035 | Inc. 10,000,000 |
| Fourth quarter, 1875 | 2,405 | 70,000,000 | Inc. 401 | Dec. 6,000,000 |

It will be noticed that, during the six months ending March 31, the failures have reached 4,176 in number, (the number for the last quarter of 1875 being 2,405, and for the first quarter of 1876 being 2,806), while the gross liabilities for the same period were $134,000,000. This is a surprising result, the full force of which may be better seen with the help of the annual figures for a series of years:

FAILURES IN THE UNITED STATES, 1857 TO 1875.

| | New York. | | Boston. | | Philadelphia. | | United States. | |
|---|---|---|---|---|---|---|---|---|
| | No. | Amount. | No. | Amount. | No. | Amount. | No. | Amount. |

* Six months, from October 1, 1875, to March 31, 1876.

We are sorry not to be able to give, in the above, some of the cities, other than New York, separately; but, as Messrs. Dun, Barlow & Co., with this year, have begun again to return several of the larger cities by themselves, we shall hereafter be able to make a more useful comparison. It appears from the foregoing that, during the last *six* months, the total failures are in excess of any previous *twelve* months in our record, except the years 1857, 1861 and 1875.

Such a record as this challenges the attention of our law makers. Of course, to some extent, failures must always occur, for many men will ever be reckless. But, clearly, the facts here presented prove that our monetary system is all wrong. A large class will, of course, tell us to repeal the resumption act, and that will right it. They have studied the disease and its progress to no purpose who fancy relief is to come by a little more indulgence. We would say, first of all, stop corruption; next, decrease immediately and materially all government expenses, by every conceivable economy; and, finally, with largely reduced taxation made possible through these savings, let us bring ourselves up to specie payments with all the speed the circumstances will permit. A revival of enterprise while hampered with our present uncertainties seems out of the question.

## THE POSITION OF THE WHEAT AND CORN MARKETS.

A critical period has been reached in the principal grain markets of the world, and the contingencies or circumstances which may affect the future of prices, are scrutinized with more than the usual anxiety and interest. The influences which now and for some time past have been at work, are of the most contradictory nature; and, yielding in turn to each other, have produced frequent and apparently causeless fluctuations. Speculation has become exceedingly precarious, making the position of commission houses and dealers quite unsatisfactory.

Wheat, very naturally, is the chief object of interest, as it is indeed the centre of speculative action. Its future, however, is a problem by no means admitting of an easy solution. Stocks now are much in excess of the corresponding date last year, but they were comparatively small at the principal European markets last April. In the United States, alone, were any considerable supplies then available. Still, stocks now are, in the aggregate, considerably in excess of any recent year, at this stage of the season; and, besides the great quantity in store—the burdensome accumulations at New York and Liverpool—the condition of much of it is such as to expose it to serious damage from the warm weather which is rapidly approaching. Prices are not high, but they are higher than last April, when stocks were much smaller, and when the condition of the wheat in store was more satisfactory to holders.

With regard to the present season for spring sowing and the early development of the plant, the surroundings have been unfavorable. The whole of the West of Europe was visited by storms and floods of extraordinary severity. Farm work was rendered impossible at a time when it should have been prosecuted with the utmost activity. The Northwestern section of the United States—where our great crops of spring wheat are grown—has also suffered much from bad weather. The temperature has been low, and as late as the 4th inst. a severe snow storm prevailed over a large portion of it. Winter wheat in many parts of the United States has suffered from exposure to severe cold, being uncovered by snow the most of the winter; but for some days past the weather has been good, and it is sufficiently early for all the injury done during the fortnight following the 21st of March to be fully recovered.

We have already noted the fact that prices are now higher than last April, but it is also true that they are much below the average of the past five years. The price of English wheat at Mark Lane at a recent date was 43s. per quarter, while the average for five years was 51s. It is possible, however, that the present relatively low price may be caused, to some extent, by the comparatively poor condition of the samples offering. The large stocks in the English markets are deprived of a portion of their significance by the fact that at a late date the quantity at sea for British ports was only about two-thirds as large as last year. With reference more directly to American wheat, it is asserted, with many circumstances in corroboration, that the inferior qualities are pretty well closed out, and that present stocks are made up largely of prime qualities and regular grades. This, with cheap money, is encouraging to holders.

Much depends, however, upon the weather in the West of Europe, and in the Northwestern section of the United States, during the next two or three weeks. A repetition, even in a modified degree, of what was experienced in March, could hardly fail to impair seriously the prospects for the next crop, and stimulate the renewal of active speculation, while good weather will no doubt so far improve crop prospects as to make very difficult the support of prices for some time following the general resumption of inland navigation. The situation must, therefore, be regarded as surrounded with many uncertainties, which time alone can remove. It may be added, as supplementary to the above, that war rumors from Europe have latterly exerted some influence upon prices.

Indian corn has been growing in speculative interest. The recent advance which has taken place in parcels immediately available arose from a temporary scarcity, and did not give much strength to the market for futures. The stocks are small in Great Britain, and the orders for shipments, though moderate in extent, are of that steady character which is the best assurance that prices will be supported. It is to be noted, that while the stock in this market and the visible supply at the principal points of accumulation are much smaller than last April, prices are at the same time much lower. This discrepancy is caused by the general impression that the quantity remaining in the hands of farmers is greatly in excess of last year, which, when brought out, will over-burden the market; and the disastrous decline which took place last June has not been forgotten. It is also believed that much of the present crop will come forward in such poor con

dition that forced sales will be necessary, with the usual effect upon prices. But, on the other hand, it must be borne in mind that farmers have now, in the high prices of swine, an inducement to use corn largely for feeding purposes, by which that not in shipping condition may be wholly absorbed. The renewal of the export of highwines will also cause some increase in the consumption of corn for distilling. Nor can the present price of corn be called high; and yet it is the result of two temporary influences—an unusual scarcity and extremely low ocean freights. Within a short time the advance has been, for leading qualities, about ten cents a bushel; and it is reasonable to conclude that, with fuller supplies and the higher ocean freights which may be expected at no distant day, this advance may be lost. Still, there is danger that the market may be over-sold, and speculative operations for a decline exposed to the dangers of a "corner." Nothing can be said, as yet, of crop prospects, except that some injury has been done in the extreme South by frost, but not to an extent giving it any commercial importance.

## ALEXANDER T. STEWART.

In the death of Mr. Stewart, our city has lost a merchant of pre-eminent sagacity and enterprise and unimpeachable integrity, whose career is one of the most remarkable that is recorded in the history of trade. His undertakings have been so numerous and extensive, and are even now so unfinished, that some years must elapse before his life can be effectively written, and then only in the light of results. The lines of demarkation which bounded the various grades of business with which he had relations, and which until his time had been faithfully respected, were as nothing to him. He combined the pursuits of manufacturing, importing, wholesaling, retailing and "custom work" in one grand system, remorselessly attacking and overthrowing old business ideas and practices. It remains to be seen whether he effected a reform, or whether, at his death, his enterprises shall be found impracticable in other hands, and his grand combinations shall fall in pieces.

In some important respects, Mr. Stewart was a worthy example for others possessed of large fortunes. He was classically educated, and always maintained his early love for literature and the arts, being happy in the possession of a fine library, and one of the most extensive and valuable galleries of paintings to be found in the whole world. His great wealth became in this direction a positive good. Mr. Stewart was not one of those men who wholly forget the maxim that "wealth has its duties as well as its rights."

It is much to be regretted, however, that he did not retire from active business ten years ago, and that the accession of General Grant to the Presidency in 1869 did not find him in position to accept the office of the Treasury, which was then tendered him. It would have given him a wider fame, with opportunities for using his talents in a new field where he could have rendered services to his country, of which it has stood in the greatest need. His thorough knowledge of affairs, his capacity as an organizer, and his invincible integrity would have prevented much that has occurred to humiliate and impoverish the American people. The mistake which he made, in continuing in the active participation in the details of business to the close of life, should not be lost upon his contemporaries. An especial need of our country at this time is a class of retired business men, upon whose time and experience the whole community may rely in guiding public affairs.

Mr. Stewart desired to be of service to his fellow-creatures, and contributed liberally to public and private charities. But his two conspicuous efforts in that direction, it is feared, are not likely to be attended with a degree of success commensurate with their cost, because they partake too much in their nature of his own exact and somewhat arbitrary character. We refer to his hotel for women on Fourth avenue, and his Garden City on Long Island. "You may lead a horse to water, but you cannot make him drink." These enterprises may be of the very best sort, to afford relief to the classes they were designed to aid, and yet, such is the perversity of human nature, may repel instead of attract them. We trust this may not prove to be the case, for, if it should, these monuments to his liberality will disappear.

## RAILROAD EARNINGS IN MARCH AND FROM JANUARY 1 TO APRIL 1.

The growing sentiment in favor of more light on the subject of current railroad earnings, together with the fact that the receipts of the past three months compare favorably with the same period of last year, have operated to induce more companies than usual to furnish reports of their earnings. There has seldom or never been a time when our list embraced a larger number of companies than at present; and still a majority of those whose stocks are most prominent at the Board are not yet included.

There are several points to be kept in mind in considering the current reports of earnings. In the first place, the latest returns are all of *gross* earnings, and the *net* receipts of the respective roads can only be estimated by assuming a certain percentage of operating expenses, and calculating the balance as net profits. In assuming a percentage of operating expenses for the current year, it would seem to be on the safe side to take the percentage as shown in the last annual report of each company, as the cost of material, wages, &c., is, if anything, lower than at any previous time. A number of companies have wisely furnished a statement of their operating expenses and net earnings up to the first of March, and those will be found in a table below. A second point of importance is the circumstance that all the current reports of earnings are compared with the "same time last year," and are deemed favorable or otherwise, as the comparison shows an increase or decrease. This practice, though the best that can be adopted, is evidently liable at times to represent the earnings of any given road quite unfairly, as the increase or decrease may occur from an exceptionally good or bad month last year, and not from an improvement or deficiency in the present. Thus, in the month just passed, we find that at least two of the leading roads—the Michigan Central and the Ohio & Mississippi—made the largest earnings in March, 1875, of any month in the first half of that year, and their comparison for March, 1876, appears, therefore, in a less advantageous light than it otherwise would. In the case of the last-named road there was also a payment from the Government of some $28,000 in March, 1875, which made the earnings appear large. Pursuing the same inquiry as to other companies in the same or different months, we should find results of a similar character on one side or the other. These exceptional influences governing the traffic of a single month, however, are to a great extent leveled down in the comparison from January 1 to latest dates.

The mileage of road operated is frequently made more of than is really worth while, from a financial point of view; although it is undoubtedly a matter of interest to those who have to do with the practical operation of railroads. The earnings on new and old lines of the same road are often so widely different as to make a comparison of mileage this year with last, rather misleading than otherwise to the average reader. Nearly all the roads in our list are working the same mileage as last year. The Atchison Topeka & Santa Fe has increased 202 miles, Cairo & St. Louis 30 miles, Chic. Bur. & Quincy 33 miles; the Ohio & Mississippi took possession of its Springfield line in March, 1875, and therefore worked the same number of miles this year as last. It seems to be necessary to refer to these changes in mileage, as a statement recently published gave the mileage of the Ohio & Miss. as 222 miles more this year than last, and the mileage of Kansas Pacific as 88 miles more, and Central Pacific 102 miles more than

they should be. But the key to the financial situation of a railroad is not in the amount of gross or net earnings per mile, but in the actual excess of net earnings per month above the interest charges, rentals, &c.

As to present and prospective earnings, we should classify the roads named below into four principal groups. 1. The Central Pacific and Union Pacific on the main line to the Pacific. 2. The granger roads—chiefly the Chicago & Northwest and Chicago Mil. & St. Paul. 3. The other western and southwestern roads. 4. The roads forming parts of trunk lines from the Atlantic Coast westward.

The earnings of the Pacific roads are well maintained, but they would do a good business if only up to that of last year. The Union Pacific reports for the first three weeks in March an increase of $30,000 over the same weeks in 1875. The "granger" roads expect to be benefitted materially by the advance in rates which took place on their lines in Wisconsin, early in the present month. The gain from this advance is variously estimated, and may perhaps be placed at an average of 12 to 15 per cent on local business within that State, a good part of which ought to be net profit. The third class named above embraces all the other roads except those mentioned just below, and their business depends mainly on the prosperity of the country and the maintenance of fair rates among competing roads. In the fourth class only three roads can properly be placed—these are the Michigan Central, Canada Southern and Ohio & Mississippi. Their earnings depend largely upon the maintenance of rates among the rival trunk lines, and so far this year they have been favored by harmony. The opening rates on Lake freights are very low, being 4¼ cents per bushel on wheat from Chicago to Buffalo, and eastward bound freights have just been reduced as follows, on the "pool" railroad lines from Chicago, viz: Rates on grain to New York to 35 cents, on flour to 70 cents per barrel, and on fourth class freight to 40 cents—a reduction of 5 cents per cwt. The rates to other Eastern points are correspondingly reduced. But it is to be remarked that this class of business is one that the railroads do not look to for profit in summer. The Baltimore & Ohio does not publish its earnings regularly, but a statement is made that in February there was an increase of $228,871 over the same month of 1875.

The Houston & Texas Central shows the following, for six months ending February: Gross earnings 1874–75, $1,647,698; 1875–76, $2,080,080; expenses, $941,606, against $971,125; net earnings, $706,092, against $1,108,855 in 1875–76.

**Railroad Tax Suits in Missouri.**—In the tax cases of the several railroads which resisted taxation in 1873 under the valuations of the State Board of Equalization, Judge Dillon of the U. S. Circuit Court has decided in favor of the companies. He holds that the Board of Equalization was not authorized to act, as a Board of Assessors and increase the valuation of railroad property, but that the railroads are liable to taxation on the county valuation, and orders the taxes on that basis to be paid, with ten per cent. interest on what has not been paid. Most of the companies have already paid 60 per cent., and the amount due from them is not very large.

[From our own correspondent.]

LONDON, Saturday, April 1, 1876.

There has been a slightly increased demand for money this week, in connection with the settlement in the Stock Exchange, but the actual commercial inquiry has been upon a restricted scale. The supply seeking employment has been moderate, and, in the open market, the rates of discount have had a drooping tendency. The impression is very general that even the present very moderate charges for accommodation cannot be maintained, as neither commercial nor financial enterprise is calculated to absorb our supplies of unemployed money. There is just now scarcely any demand for gold for export. On the contrary, during the last few days, the accumulation at the Bank has been considerable, and there appear to be indications that the supply held will be further augmented. The number of commercial bills in circulation is very moderate, and as trade remains extremely quiet, there is no prospect of any increase. The spring trade is remarkably inactive. The heavy losses which the public have sustained, are producing great, if not increasing, economies, and it will, no doubt, be long before the position of affairs has been completely rectified. A few failures continue to take place, but there appear to be no serious apprehensions, while there is reason to believe that the more judicious system of trading will eventually establish our commerce upon a sound basis. The quotations for money are now as follows:

| | Per cent. | Open-market rates: | Per cent. |
|---|---|---|---|
| Bank rate | 3½ | 4 months' bank bills | 3 @3½ |
| Open-market rates: | | 6 months' bank bills | 3½@3¾ |
| 30 and 60 days' bills | 2½@3 | 4 and 6 months' trade bills | 3½@4 |
| 3 months' bills | 2½@3 | | |

The rates of interest allowed by the Joint-stock banks and discount houses for deposits are subjoined:

| | Per cent. |
|---|---|
| Joint-stock banks | 2½@... |
| Discount houses at call | 2½@... |
| Discount houses with 7 days' notice | 2½@... |
| Discount houses with 14 days' notice | 2½@... |

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland cotton, of No. 40's Mule twist, fair second quality, and the Bankers' Clearing House return, compared with the previous four years:

| | 1872. | 1873. | 1874. | 1875. | 1876. |

The demand for gold for export has been upon a very moderate scale, and a moderate supply has recently been sent into the Bank. The silver market is decidedly firmer, and the price of fine bars is now 53½d. to 53½d. per ounce. The steamer for the East took out this week £122,000. The prices of bullion are as follows:

| GOLD. | s. | d. | | s. | d. |
|---|---|---|---|---|---|
| Bar Gold, per oz. standard. | 77 | 9 | @ | .... | |
| Bar Gold, fine, per oz. standard. | 77 | 9 | @ | .... | |

Quicksilver, £10 per bottle. Discount, 3 per cent.

The supply of bullion held by the Bank of France now amounts to as much as £75,425,000.

Another fortnightly account in shares and foreign stocks has been completed this week, but only one failure has been made public. The fluctuations in foreign stocks had been severe, but the weaker operators had been weeded out during the previous account, and the difficulties which had then arisen had produced much caution. In foreign stocks the public are operating to a very limited extent. They are certainly not buyers, and hence, with the large supplies of stock in existence, the market is very sensitive to speculative influences. The delay in the publication of Mr. Cave's report regarding Egyptian finance, has produced a certain amount of distrust in Egyptian securities, and the result has been that speculators have forced down their value to a considerable extent. The Chancellor of the Exchequer assured the country that, with judicious management, there is much hope for Egypt, but the refusal to publish the report, and allow bondholders to judge for themselves, naturally had an adverse effect, and enabled speculators for the fall to take advantage of the distrust which prevails. The fall in foreign stocks extended to Russian, Brazilian, Argentine, Chilian, Urugnay, Entre Rios and Santa Fe; but French and Italian government bonds have been steady, and the value of United States descriptions has had an upward tendency. American railroad first mortgage bonds have slightly improved in value; but in other respects the stock markets have been quiet and dull in tone.

Since writing the above I have learned that the Chancellor of the Exchequer made the announcement at the close of yesterday's sitting in Parliament that the Khedive of Egypt had consented to the publication of Mr. Cave's report upon Egyptian Finance. The report was, therefore, laid upon the table of the House, and will be printed forthwith.

The closing prices of consols and the principal American securities at to-day's market, compared with those of last week, are subjoined:

* Ex 6 coupons, January, 1873, to July, 1874, inclusive.

The revenue returns for the past financial year have been published, and they are more satisfactory than had been anticipated. There is an increase for the year of £731,000 in the receipts from customs duties, of £231,000 from excise, £462,000 from stamps, £280,000 from the Post Office, £125,000 from the Telegraph Service, and of £577,820 from other sources. On the other hand, the receipts from income tax show a decrease of £197,000. The statement is as follows:

| | Quarters ended June 30, 1875. | Sept. 30, 1875. | Dec. 31, 1875. | March 31, 1876. | Year ended March 31, 1876. |

The public sales of colonial wool were commenced on Tuesday last. The arrivals amount to 231,171 bales, comprising 32,155 bales from Sydney; 115,158 Port Phillip; 51,961 Adelaide; 1,525 Swan River; 204 Van Diemen's Land; 13,220 New Zealand; and 17,002 bales from the Cape of Good Hope. There has been a large attendance, both of home and foreign buyers. The biddings have been spirited, and prices show no material change from those current in February.

There has been no important movement in the wheat trade during the past week. A firm tone, however, has continued to prevail, and higher prices have been demanded. Millers, however, have been buying with caution, and no general improvement has taken place. The ample stocks of foreign wheat here, the large visible supply in the United States, and the prospect of an early reopening of the navigation of ice-bound ports and canals, naturally induce millers to buy largely from hand-to-mouth. The weather has lately been more favorable for spring sowing, which is decidedly backward.

The return for the week ending March 25 shows that in the 150 principal markets of England and Wales the deliveries of English wheat were only 41,445 quarters, against 57,479 quarters last year. In the whole Kingdom it is estimated that they were 165,780 quarters, against 229,200 quarters in 1875. e harvest, the sales in the 150 principal markets have amounted to 1,569,019 quarters, against 1,815,544 quarters, while in the whole Kingdom it is computed that they have been 5,476,100 quarters, against 7,262,200 quarters in 1874-5. The following quantities of wheat and flour have been placed upon the British markets since the commencement of last September:

| | 1875-6. cwt. | 1874-5. cwt. | 1873-4. cwt. | 1872-3. cwt. |
|---|---|---|---|---|
| Imports of wheat since harvest | 33,195,739 | 21,056,109 | 26,086,917 | 28,388,151 |
| Imports of flour since harvest | 3,884,376 | 4,209,242 | 3,996,651 | 4,295,040 |
| Sales of English wheat | 24,642,400 | 32,680,000 | 28,075,300 | 28,080,000 |
| Total | 61,721,565 | 57,945,351 | 58,158,868 | 60,763,191 |
| Deduct exports of wheat and flour | 160,047 | 209,955 | 1,614,473 | 148,067 |
| Result | 61,564,518 | 57,735,396 | 56,544,395 | 60,615,124 |
| Average price of English wheat for the season | 45s. 10d. | 41s. 0d. | 62s. 0d. | 60s. 10d. |

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest—viz., from September 1 to the close of last week, compared with the corresponding periods in the three previous years:

IMPORTS.

| | 1875-6. | 1874-5. | 1873-4. | 1872-3. |
|---|---|---|---|---|
| Wheat cwt. | 33,195,789 | 21,056,109 | 26,086,917 | 28,388,151 |
| Barley | 5,692,869 | 9,258,278 | 5,493,757 | 10,233,011 |

# Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a decrease in dry goods and an increase in general merchandise. The total imports amount to $7,369,522 this week, against $7,447,171 last week, and $5,610,582 the previous week. The exports amount to $4,523,403 this week, against $4,801,300 last week and $4,449,173 the previous week. The exports of cotton the past week were 7,376 bales, against 7,557 bales last week. The following are the imports at New York for week ending (for dry goods) April 6, and for the week ending (for general merchandise) April 7:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

| | 1873. | 1874. | 1875. | 1876. |
|---|---|---|---|---|
| Dry goods | $1,483,756 | $3,060,909 | $2,171,498 | $2,052,277 |
| General merchandise | 4,787,702 | 8,317,169 | 6,706,818 | 5,317,245 |
| Total for the week | $6,271,353 | $11,378,078 | $8,878,316 | $7,369,522 |
| Previously reported | 120,908,613 | 110,996,414 | 97,997,975 | 87,245,385 |
| Since Jan. 1 | $127,179,971 | $121,674,492 | $106,876,291 | $94,614,907 |

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports, for the week ending April 11:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1873. | 1874. | 1875. | 1876. |
|---|---|---|---|---|
| For the week | $5,421,753 | $5,199,462 | $4,151,269 | $4,523,403 |
| Previously reported | 69,398,513 | 73,705,006 | 62,601,149 | 64,872,249 |
| Since Jan. 1 | $74,820,296 | $78,904,463 | $66,752,418 | $69,395,65 |

The following will show the exports of specie from the port of New York for the week ending April 8, 1876, and since the beginning of the year, with a comparison for the corresponding date in previous years:

| | | | |
|---|---|---|---|
| Apr. 4—Str. Labradore | Havre | Gold bars | $40,000 |
| | | Silver bars | 11,400 |
| Apr. 5—Str. Algeria | Liverpool | American gold coin | 300,000 |
| | | Mexican dollars | 20,000 |
| Apr. 6—Str. Columbus | Havana | American gold coin | 105,000 |
| | | Spanish gold | 200,450 |
| Apr. 7—Schr. Minnehaha | Porto Cabello | American gold coin | 9,900 |
| Apr. 7—Str. Pottsville | Havana | Spanish gold | 100 000 |
| Apr. 8—Str. Republic | Liverpool | Silver bars | 90,000 |
| | | Gold bars | 15,000 |
| Apr. 8—Str City of New York | Liverpool | Gold coin | 39,056 |
| | | American gold coin | 50,000 |
| Total for the week | | | $979,936 |
| Previously reported | | | 12,833,837 |
| Total since January 1, 1876 | | | $13,813,743 |

| Same time in— | | Same time in— | |
|---|---|---|---|
| 1875 | $17,416,273 | 1870 | $7,054,952 |
| 1874 | 9,454,084 | 1869 | 9,581,952 |
| 1873 | 16,510,818 | 1868 | 16 837,258 |
| 1872 | 6.6 0,078 | 1867 | 7,060,022 |
| 1871 | 16,588,830 | 1866 | 5,697,744 |

The imports of specie at this port during the past week have been as follows:

| | | | |
|---|---|---|---|
| Apr. 3—Str. City of Merida | Vera Cruz | Silver coin | $26,699 |
| | | Gold coin | 1,000 |
| Apr. 4—Str. Alps | Panama | Silver coin | 800 |
| | | Gold coin | 1,000 |
| | | Gold bars | 3,635 |
| Apr. 4—Str. Geo Washington | Halifax | Silver coin | 55 |
| Apr. 7—S.r. Nellie Martin | St. John, P. R. | Gold coin | 15,000 |
| Total for the week | | | $48,190 |
| Previously reported | | | 1,403,969 |
| Total since Jan. 1, 1876 | | | $1,452,159 |

| Same time in— | | Same time in— | |
|---|---|---|---|
| 1875 | $5 031,218 | 1870 | $6,102,689 |
| 1874 | 1,115,031 | 1869 | 7,187,685 |
| 1873 | 1,059,688 | 1868 | 2,589,164 |
| 1872 | 578,725 | 1867 | 665,678 |
| 1871 | 2,907,667 | | |

**Arizona and New Mexico Express Co.**—This is the name of a new enterprise in the express business, intended to do business in the Territories of Oregon and New Mexico, connecting with Wells Fargo at San Bernardino, California, the terminus of the Southern Pacific Railroad. The capital stock of the company is $500,000, and Mr. Wells, the originator of Wells, Fargo & Co., is the projector.

**California Railroad Law.**—The California State Senate finally passed the bill known as the O'Connor bill, which provides for a board of three railroad commissioners to have general supervisory and advisory powers, to collect, statistics, and report annually. The bill also contains provisions against discrimination, and fixes as the maximum rates allowed to be charged the rates in force January 1, 1876. The bill finally passed the Assembly without change, and went to the Governor for his signature.

**Osage Ceded Lands.**—The United States Supreme Court has affirmed the decision of the Circuit Court in these cases, and the rights of the settlers on these lands are now fully confirmed, to the exclusion of the Missouri Kansas & Texas and the Leavenworth Lawrence & Galveston companies, which claimed the lands as part of their grants.

**Pacific Mail and Panama.**—The Sheriff of San Francisco refused to attach any more of the Pacific Mail steamers unless the Panama Railroad Company would furnish him with additional bonds for $600,000, in consequence of the attitude of the trustees of the $2,000,000 mortgage of the Pacific Mail Company, who claim that the vessels are subject to their control.

Suit has been brought in San Francisco by the Panama Railroad Company against the Pacific Mail Steamship Company to recover $338,049 due for transportation across the Isthmus.

**Western Union Telegraph.**—The New York Superior Court has granted a temporary injunction, restraining the Western Union Telegraph Company, George B. Prescott, and others, from prosecuting or withdrawing the applications for the duplex and quadruplex patents, and from receiving letters patent for the same, pending adjudication of the Atlantic & Pacific Telegraph Company thereto.

—The following is from the semi-annual statement of the Equitable Trust Company, March 1, 1876, whose business in guaranteeing real estate mortgages we have frequently noticed. It appears from this that the company up to March 1, 1876, had taken $6,530,000 of mortgages, of which it had sold with its own guaranty $5,665,000, and had on hand $865,000. The company is managed very conservatively, and any explanation desired of the details of its statement will be cheerfully furnished at the office, 52 William street.

ASSETS.

—We notice a change recently in the old and well-known firm of Cecil, Stout & Thayer by the withdrawal of Mr. John R. Cecil and the formation of a new firm by the remaining partners, Mr. Jacob Stout and Mr. Stephen H. Thayer, under the name of Stout & Thayer. The present firm will continue the general banking and stock commission business so well established by the old concern.

—Attention is called to the banking card of Messrs. Smithers & Donald, which will be found on the first page of the CHRONICLE. The firm has excellent connections, and, in addition to their transactions with customers in this vicinity, an important part of their business is with correspondents in the Dominion of Canada.

# The Bankers' Gazette.

## NATIONAL BANKS ORGANIZED.

The United States Comptroller of the Currency furnishes the following statement of National Banks organized the past week:

2,329—First National Bank of Connellsville, Pennsylvania. Authorized capital, $50,000. Paid-in capital, $37,500. John D. Frisbee, President; ——, Cashier. Authorized to commence business April 8, 1876.

2,330—Centennial National Bank of Virginia, Illinois. Authorized capital, $50,000. Paid-in capital, $35,000. John A. Peterfish, President; John N. Wood, Cashier. Authorized to commence business, April 11, 1876.

## DIVIDENDS.

The following Dividends have recently been announced:

| COMPANY. | PER CENT. | WHEN P'ABLE. | BOOKS CLOSED. (Days inclusive.) |

| Baltimore & Ohio | 5 | May 1 | Apr. 20 to Apr. 30 |
| Boston & Providence | $4 | May 15 | ..... |
| **Banks.** | | | |
| Germania | 7 | May 3 | Apr. 20 to May 1 |
| National City (quar.) | 5 | May 1 | ..... |

## FRIDAY, APRIL 14, 1876—6 P. M.

**The Money Market and Financial Situation.**—A dull week culminates to-day—Good Friday—with a pretty general cessation of business. A further decline in speculative stocks here, and the cable despatches indicating a depressed feeling in the markets of London and Continental cities, have been the principal features worthy of mention. A statement of business failures for the first quarter of 1876, just issued by the Mercantile Agency of Dun, Barlow & Co., shows that the number and amount was considerably larger than in the corresponding quarter of 1875, but a little below the quarter immediately preceding, which embraced the last three months of 1875. It is hoped from this that the tendency is toward a gradual improvement, and that the maximum of failures was reached in the last part of last year.

The Silver bill, which has passed both houses of Congress, received the President's signature, and becomes a law, is as follows:

*Be it enacted, &c.* That there be and hereby is appropriated out of any money in the Treasury, not otherwise appropriated, the sum of $163,000, to provide for engraving and printing and other expenses of making and issuing United States notes, and the further sum of $18,000 to provide for engraving and printing National bank notes, to be disbursed under the Secretary of the Treasury.

SECTION 2. That the Secretary of the Treasury is hereby directed to issue silver coins of the United States of the denomination of 10, 20, 25 and 50 cents of standard value, in redemption of an equal amount of fractional currency, whether the same be now in the Treasury awaiting redemption or wherever it may be presented for redemption; and the Secretary of the Treasury may, under regulations of the Treasury Department, provide for such redemption and issue by substitution at the regular sub-treasuries and public depositories of the United States until the whole amount of fractional currency outstanding shall be redeemed, and the fractional currency redeemed under the act shall be held to be part of the Sinking Fund provided for by the existing law, the interest to be computed thereon as in the case of bonds redeemed under the acts relating to the Sinking Fund.

Our local money market has been a little irregular and feverish in consequence of the decline in stocks and the unfavorable tone of foreign advices, but rates have not actually changed much, and the quotations for call loans are 3@5 per cent., and prime commercial paper 5@6 per cent.

The Bank of England report on Thursday showed a decrease in bullion of £4,500, and the discount rate remained unchanged at 3 per cent. The Bank of France gained 2,583,000 francs in specie.

The last statement of the New York City Clearing House banks, issued April 8, showed a decrease of $2,960,450 in the excess above their 25 per cent. legal reserve, the whole of such excess being $7 038,875, against $9,999,225 the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

| | 1876. | | | 1875. | 1874. |
|---|---|---|---|---|---|
| | Apr. 1. | Apr. 8. | Differences. | Apr 10. | Apr. 11. |

| Circulation | 16,264,000 | 16,297,600 | Dec. 66,400 | 21,505,800 | 26,797,800 |
| Net deposits.. | 211,561,100 | 207,9 3,300 | Dec. 3,567,800 | 215,893,700 | 238.6 1,700 |
| Legal tenders. | 41,718,500 | 38,70 ,400 | Dec. 3,018,100 | 48,419,900 | 55,573 800 |

At a meeting of the Board of Directors of the National Bank of the State of New York, Mr. A. Belmont and Mr. Lawrence Turnure having resigned their positions as President and Vice-President, Mr. W. H. Hays was elected President, and Mr. Henry Morgan, Vice-President.

By report of the Manager of the Boston Clearing House, it appears that the exchanges for the past year have been $2,447,279,426. The balances for the same time have been $325,306,055. The average monthly exchanges have been $204,106,619. The average monthly balances have been $27,106,838. The aggregate capital of the associated banks in that city is $51,350,000.

As the Fourth of July falls on Tuesday, the Stock Exchange has resolved that when the Board adjourns on Saturday, July 1, it will hold no session until the following Wednesday, July 5.

**United States Bonds.**—In government bonds the week shows a very moderate business, but with prices fairly maintained. The apprehension of trouble in the London and German markets, together with the fact that Good Friday is a blank day here, and both Friday and Easter Monday in London, have been among the principal reasons for a slow business just at the present time. If the experience of previous years furnishes a precedent that may be taken as a guide at all, we may look for more activity in all classes of stocks and bonds after Easter.

Closing prices of securities in London have been as follows:

| | Mch. 31. | April 7. | April 13. | Range since Jan. 1, '76. Lowest. | Highest. |
|---|---|---|---|---|---|
| U. S. 6s, 5-20s, '663, old | 105⅞ | 106¼ | 106⅛ | x106¼ Apr. 12 | 106¼ Apr. 6 |

**State and Railroad Bonds.**—There has been very little doing in State bonds. The last sales of Tennessees at the Board were $25,000 old bonds at 43, and $5,000 new series at 41, showing prices about the same as those of last week. The trustees of the Cincinnati Southern Railway have awarded $3,000,000 of the City 6 per cent. 30 year gold bonds to a banking firm there at 100.13 and accrued interest.

Railroad bonds, on a slow business, have shown a tendency toward lower prices, in sympathy with stocks. It is observed that the speculative business in bonds, which is often large and marked by the sales of round lots of $10,000 and upwards at the Board, has recently been quite limited. It is still difficult to find really first-class 7 per cent. bonds below par, and where prices have yielded at all it is generally on the less substantial securities, which hold a position among bonds analagous to the "fancies" on the speculative list of stocks.

Messrs. A. H. Muller & Son sold the following at auction:

| SHARES. | BONDS. |
|---|---|
| 85 Mechanics' Nat Bank | 128¼ | $7,000 Houston & Texas Cen. RR. 1st mort., 1st div. 7, gold bonds | 92¼@92 |
| 40 Mechanics' and Traders' B'k | 130¼ | | |
| 100 Nat. Butch. and Drovers' Bank | 130@135 | 9,000 Citizens' Gas Co. of Rochester, N. Y., 7 | 81¼ |
| 90 N. Y. Rubber Co. (hypoth) | 98 | | |
| 50 N. Y. Mutual Gas Light Co. | 108 | 5,000 City of Rahway, N. J., 7, 1885 | 99¼ |

**Railroad and Miscellaneous Stocks.**—The stock market, after considerable irregularity and a general declining tendency during the previous days, showed a decided weakness on Thursday, with a fall in prices to the lowest point yet reached in the present movement. In connection with the bear influence exerted in the market, the reports of a disagreement at the meeting of railroad managers in Chicago, had much to do with the weakness in Lake Shore and Michigan Central, which were especially conspicuous.

As to the facts of the railroad negotiations at Chicago over freight and passenger rates, it is known that a moderate reduction on grain and flour was made a few days ago, as usual about the time Lake navigation opens, but no break has yet taken place between the managers of the "pool" lines, although the telegrams indicate that Mr. Joy of the Michigan Central is dissatisfied. Against the Western Union Telegraph were urged the recent reduction of the A. & P. line on night messages, and the temporary injunction against the company's use of the duplex and quadruplex system until the right to it is settled. Pacific Mail declines in the absence of any hopeful development respecting the company's affairs, though there are undoubtedly many

who suspect that the stock will presently be picked up by some strong party—possibly "the leading operator"—and bulled again. The report of the Dundee committee on Erie affairs has been made in England, and they favor the funding of coupons and a foreclosure on the Watkin plan. The stock sold down here to 16¼.

Aside from the market influences, and the continued depression in mercantile business, including the coal trade and mining, there seems to be nothing to cause a large decline in values. Railroad earnings, as fully reported on another page, are, upon the whole, quite satisfactory; the express companies claim a larger business than usual; while telegraphing is not likely to decline, nor the receipts of Western Union to be largely diminished.

The granger stocks are also expected to reap the benefit of the higher rates in Wisconsin, which went into effect about the first of this month. The market, at present prices, offers inducements for clique purchases to start an upward movement, though no evidences of such a purpose have yet come to our notice.

Total sales of the week in leading stocks were as follows:

**The Gold Market.**—Gold, on a small business, has been a littler firmer than last week, and closed at 113¼. On gold loans the last terms were "flat," and from 1 to 4 per cent. for carrying. The silver bill has become a law by the signature of the President, though what will be done immediately is not clearly known. It is stated that the Government now owns about $20,000,000 silver, of which about $16,000,000 is coined and deposited in the vaults of the various Treasury offices, some $3,250,000 being at the Sub-Treasury here.

Customs receipts of the week were $1,875,000.

The following table will show the course of gold and operations of the Gold Exchange Bank each day of the past week:

| | Quotations Op'n | Low. | High | Clos. | Total Clearings. | Balances. Gold. | Currency. |
|---|---|---|---|---|---|---|---|
| Saturday, April 8 | 113¼ | 113 | 113¼ | 113 | $26,3 8,000 | $1,211.048 | $1,441,595 |
| Monday, " 10 | 113 | 113 | 113¼ | 113 | 27,951,000 | 803,450 | 917,784 |
| Tuesday, " 11 | 113 | 112¾ | 113 | 113 | 20,628,000 | 879 221 | 993,440 |
| Wednesday, " 12 | 113 | 113 | 113¼ | 113¼ | 19,941,000 | 974 401 | 1,419,698 |
| Thursday, " 13 | 113¼ | 113¼ | 113¼ | 113¼ | 35,530,000 | 1,069,817 | 1,229,997 |
| Friday, " 14 | .... | .... | .... | Good Friday | .... | .... | .... |
| Current week | 113¼ | 112¾ | 113¼ | 113¼ | $130,483,000 | $.... | $.... |
| Previous week | 113¾ | 112¾ | 113¾ | 113¼ | 196,730,000 | 751,2.8 | 836,405 |
| Jan. 1 to date | 113 | 112¾ | 115 | 113¼ | .... | .... | .... |

**Exchange.**—Business in foreign exchange has been dull throughout the week, and nominal rates have remained stationary at 4.87¼ and 4.90 for long and short sterling respectively. On actual business the latest rates were about ¼ below the above quotations.

At other cities exchange on New York was quoted as follows: Charleston, par, 3-16@¼; New Orleans, commercial, par@1-32; bank, ¼; Cincinnati steady—75 to 100 premium; Chicago, 75 premium; and St. Louis, 75 to 90 premium.

The transactions for the week at the Custom House and Sub-Treasury have been as follows:

| | Custom House Receipts. | Sub-Treasury. Receipts. Gold. | Receipts. Currency. | Payments. Gold. | Payments. Currency. |
|---|---|---|---|---|---|
| April 8 | $154,000 | $192,891 23 | $622,405 81 | $31,962 96 | $277,720 88 |

## ANNUAL REPORTS.

### Atlantic & Great Western.

*(Report from Dec. 10, 1874, to Dec. 31, 1875.)*

The report of the Receiver, Mr. J. H. Devereux, is an elaborate document giving the operations from 10th December, 1874, to 31st December, 1875, from which we obtain the following:

In briefly commenting upon the financial results of this period, it is remarked that the low rates on freight, and the miners' strike in the Mahoning Valley, were causes for small receipts. From December 10, 1874, to June 30, 1875, the Cleveland & Mahoning Valley road showed an actual loss in operation of $12,807 38. But, the miners resuming work during the latter part of June, the result of the following month (July) upon the Mahoning Division was a surplus earning over and above all expenses and rental, of $43,878 92.

During 1874 the rate upon local freight traffic was 1.636 cents per ton per mile, and upon through freight but .837 cents per ton per mile. And yet, mainly from the effects of a disastrous trunk line rivalry, the rate for 1875 upon through freight is seen to be .694 cents per ton per mile, and the average rate of all freight has fallen to 1·015 cents per ton per mile.

If but the exceedingly low freight rates of 1874 had prevailed, the net earnings would have been increased by $615,122 39.

It would seem fair, therefore, to regard the net revenue of the year's operations as exceptional, whilst in the thorough and faithful maintenance of the road, its equipment and appurtenances, judicious care has been given, and no needed expenditure has been withheld.

The largest portion of the equipment used on the lines is under lease, paying a rental equivalent to 15 per cent of the value of such cars and locomotive engines at their cost of some years ago, (much higher than the current value of to-day), and with such equipment maintained to standard at the expense of the lessee.

SUMMARY OF FREIGHT BUSINESS FROM DEC. 10, 1873, TO DEC. 31, 1874, AND FROM DEC. 10, 1874, TO DEC. 31, 1875.

## GENERAL INVESTMENT NEWS.

**Arkansas Central.**—At the March term of the United States Court for the Western District of Arkansas, Judge J. C. Parker appointed Mr. A. H. Johnson Receiver, on application of the first-mortgage bondholders. The road will be operated by Mr. Johnson as Receiver and General Manager. On motion of the floating-debt creditors, the Court ordered that an exhibit of the affairs of the company be made at the next term of court.

**Atlantic Mississippi & Ohio.**—The case in the United States Circuit Court, Richmond, Va., involving the application of certain bondholders for the appointment of a receiver for the Atlantic Mississippi & Ohio Railroad, was postponed, April 7, by Judges Bond and Hughes, till Tuesday, the 2d of May.

**Atlantic & Pacific—Pacific of Missouri.**—The new receivers of these railroads have qualified by giving bonds. They subsequently held a meeting and decided to separate the two roads, according to the decree of the Court. Dr. Garrison was elected General Manager of the Missouri Pacific, and Capt. C. W. Rogers was chosen General Superintendent of the Atlantic & Pacific Road.

**Baltimore & Ohio.**—The suit of the State of Maryland against the Baltimore & Ohio Railroad Company, to recover the State's one-fifth of the passenger fares of the Washington branch, since January 1, 1870, was tried in the Howard County Circuit Court, last week, and decision rendered against the company, which has taken an appeal to the Court of Appeals of Maryland. The amount involved in the pending suit is over $95,000, including accrued interest, and in all the cases the amount, with interest, aggregates over $800,000.

The Baltimore & Ohio Railroad directors, on April 12, resolved to give up the Valley road from Harrisburg to Staunton, rather than retain it on the terms demanded by the Valley Railroad Company.

A dividend of five per cent on the stock of the B. & O. main stem, payable on and after May 1st, was declared. It was voted inexpedient to declare a dividend on the stock of the Washington branch, in view of the continued claim of the State of Maryland for the 20 per cent tax.

**Bangor & Piscataquis.**—The entire issue of second mortgage bonds of this railroad was sold at auction in Bangor, April 8, by direction of the Bangor Savings Bank, for the sum of $4,000. The bonds were held as collateral security, and the balance due on the note was paid in full by the endorsers.

**Burlington Cedar Rapids & Minnesota.**—The bondholders' committee has submitted a plan of re-organization, of which the following is an outline:

The main line and each of the divisions shall be sold under the respective decrees of sale, and shall be bought at such sale by a committee to be known as the "Purchasing Committee in Trust," which committee shall consist of Fred. Taylor, Alexander Taylor, John M. Denison, and M. Shepard Bolles.

Such purchase shall be for the benefit of all holders of the first mortgage bonds of the Burlington Cedar Rapids and Minnesota Railway Company, who shall come into the purchase under this plan.

The Purchasing Committee shall transfer the property, so purchased, to a new corporation, to be organized under their direction. The capital stock of the new corporation shall be $10,000,000. Such new railway company having acquired title to the property so sold and purchased, shall issue new thirty year 6 per cent mortgage bonds, to the extent of $6,500,000, bearing interest from June 1, 1877.

The new bonds and stock shall be apportioned as follows to the present bondholders:

| | Present bonds. | New bonds. | New stock. |
|---|---|---|---|
| Main line bonds | $5,400,000 | $1,320,000 | $3,780,000 |
| Milwaukee Division | 2,200,000 | 1,100,000 | 1,100,000 |
| Muscatine | 800,000 | 240,000 | 240,000 |
| Pacific | 1,800,000 | 450,000 | 450,000 |
| Remaining in the Treasury | ..... | 390,000 | 4,430,000 |
| Total | ..... | $6,500,000 | $10,000,000 |

It is contemplated that the committee may not purchase all the divisions of the said road, owing to a possible failure on the part of the bondholders, secured on one or more of the divisions, to come into the plan; in which case the stock and bonds of the new company, which would otherwise be distributed on account of the omitted division, shall remain in the treasury. Bonds and stock remaining in the treasury of the new company, shall be used only for the legitimate purposes of the new organization, and with the authority of the Board of Directors of the new company.

**Chesapeake & Ohio.**—The tellers appointed to receive and canvass the ballots for the election of the Committee of Purchase and Reorganization of the Chesapeake & Ohio Railroad, report the result as follows: Amount of first mortgage six per cent. bonds voted, $8,904,000; amount of seven per cent. bonds voted, $10,438,000. The following gentlemen are elected as the Committee: A. A. Low, John Castree, C. P. Huntington, A. S. Hatch, and Isaac Davenport, Jr. The result shows much interest on the part of the bondholders in the plan of re-organization, and leads to the expectation of its successful accomplishment.

**Chicago & Lake Huron.**—William L. Bancroft, of Port Huron, was appointed receiver of the Chicago and Lake Huron Railroad by the United States Circuit Court at Detroit, April 3, in the suit and on the application of the Union Trust Company of New York. It is stated that since the new appointment of a receiver nothing stands in the way of the early completion of the road between Lansing and Flint, furnishing a new thoroughfare between Port Huron and Chicago.

**Erie Railway.**—A Press despatch from London, April 13, has the following: "Messrs. Fleming and Miller, the members of the Dundee Committee, who were sent to the United States to investigate the Erie Railway, have submitted their report. They say the essential conditions of a successful reorganization are, first, effective control of the management of the road by the real owners—the bondholders; second, the restoration of the equilibrium between the compulsory interest charge on the mortgage debt and the minimum net earnings; third, a provision for "narrow gauging" the line. The net floating debt is $2,800,000. If a part of the net revenue for a sufficient period could be applied to paying off the floating debt and "narrow gauging" the line, there could, with capable management, be no question as to the capability of the property to earn interest on all its mortgage debt, without the necessity for foreclosure and assessment on the shares. With certain not very important modifications, Messrs. Fleming and Miller see no reason to doubt that the committee's scheme of reorganization by foreclosure may be successfully carried out, and result in placing the road in a thoroughly sound financial position. The scheme referred to is that published heretofore by the committee, of which Sir Edward Watkin was chairman, and Messrs. Fleming and Miller recommend its re-issue, with modifications, and urge all interested to give it support. 'We must content ourselves,' they say, 'with suggesting that the committee proceed with vigor in the direction of foreclosure, at the same time inviting the stockholders to signify their willingness to vest their shares in trustees, as above mentioned. Whenever enough of them have done so, it will be right for us to consult our constituents as to the choice of plan.'"

**Galveston Harrisburg & San Antonio.**—A statement in London says of this Company that the report for the fiscal year ending October 31, 1875, made the net earnings $310,374, and the interest charges and sinking fund upon the bonded debt were about $203,000; and this result was upon the business of a bad year, and almost wholly from local traffic. The line is being pushed forward, and is now within 43 miles of the city of San Antonio. The earnings since the close of the fiscal year have been as follows: November, net, about $45,000; December, net, about $38,000; January, two weeks, $22,000—this latter being upon 168 miles, as against 158 last year. The land grant to this road amounts to 1,300,000 acres or upwards, not reckoning town sites and stations.

**Galveston Houston & Henderson.**—At the adjourned annual meeting in Galveston, Texas, March 30, resolutions were adopted directing the Executive Committee of the board to carefully consider what is required to place the road in perfect order, and to arrange the gauge so that connections with other lines may be perfect and economical, said committee to take measures necessary in the premises.

At the same meeting several changes in the board were made. Vice-President Sealy was made President in place of Mr. Peirce, who has hitherto controlled the company, and General Superintendent Hoxie, of the International & Great Northern, was chosen Vice-President and General Manager. The gauge of the road is now 5 feet 6 inches, and the resolutions adopted point to a change to 4 feet 8½ inches, now the gauge of all the leading Texas roads, except a part of the Houston & Texas Central, which is also to be changed before long.

**Gilman Clinton & Springfield.**—In the United States Court, at Springfield, Ill., a decree was made that the road shall be sold on the 8th of June for the benefit of the mortgage bondholders. The total amount of these bonds is $2,300,000, and thirty days is allowed after the sale for redemption.

**Gulf Colorado & Santa Fe.**—At a meeting of the board held in Galveston, Texas, March 27, the Finance Committee reported that they had placed at par the Galveston county bonds now on hand and the next $100,000 to be received from the County Court. Arrangements were made to resume work on the road, and the President was authorized to order at once 2,000 tons of iron, also a locomotive and cars for construction train.

**Indianapolis Bloomington & Western.**—Receiver Wright has made a report for the three months ending March 1. In that time improvements were made at a cost of $37,096 93. Mr Wright says: "We have had scarcely one week of steady cold weather and frozen ground, so open and mild has been the season. It is believed that not one-fifth of the crops of the last season have yet been moved. Notwithstanding this, the increase of earnings for the three months over the corresponding period of 1875 was $88,739 73. Had the weather been cold and the country roads solid, the increase would undoubtedly have been more than double this. The amount disbursed on back pay-rolls, up to the first of March, was $24,319 80. Since that time the weather has been so unfavorable for business that the receiver has not been able to continue the payment of a monthly dividend as was expected. The entire issue of receiver's certificates thus far is $203,200. The total amount maturing since their issue, $77,460 38, were promptly met as they fell due. The remainder of the issue will mature through this year and until March, 1877.

**Long Island Railroad.**—The election of officers and director was held this week. The following are the new officers: President, Conrad Poppenhusen; Vice-President and Treasurer, Herman C. Poppenhusen; Secretary, E. B. Hinsdale. The Board of Directors is composed of the officers and William Kevan, Herman Funke, Morris Franklin, Adolph Poppenhusen, E. B. Sutton, Alfred L. Poppenhusen, William A. Havemeyer, F. B. Wallace, E. E. Sprague and D. N. Ropes. The only old member in the present Board is F. B. Wallace.

**Mobile & Ohio.**—In the United States Circuit Court, at Mobile, Ala., April 8th, Judge Woods denied the application to remove the present trustees and receivers, holding that the applicant, Morris Ketchum, is not now, as he claimed to be, a trustee under the mortgage, but that his removal from the trusteeship in 1863 was valid. On April 10th, however, Judge Woods granted an order for the renewal of the motion.

**Oregon & California.**—Notice is given that the Frankfort Committee, for the Protection of the Bondholders, have declared a dividend of 1.45 per cent., or £2 18s. per $1,000, on account of the coupon due 1st April, 1876, payable on that date on the 7 per cent. bonds.

**Rockford Rock Island & St. Louis.**—The road was sold in August last and purchased by Herman Osterberg, for $1,320,000, in behalf of the German bondholders. There was a balance due on the payment of the purchase money of $223,347 48, and Mr. Osterberg has just paid into the hands of the master that amount due, which virtually closes this litigation.

**Southern Pacific, Cal.**—Work on the Southern Pacific Railroad continues to be pushed with an undiminished force. The unusual and long-continued rains rendered progress difficult, except in the tunnels, nine of which are now complete, and work in all the others is going on well. The long tunnel, under the San Fernando mountain, is finished for 4,408 feet, leaving 2,542 feet to be taken out. At the rate of 24 feet per day (being 4 feet on each of the 6 faces), it will require until about the first of July to complete the work. This being the measure of progress on the line between San Francisco and Los Angeles, communication by rail between the two cities may reasonably be expected in July next. On the line from and south of Los Angeles, to the crossing of the Colorado river at Fort Yuma, the grade is complete for 150 miles; the track is laid 134 miles, and is in regular operation to "Seven Palms," where a daily four-horse stage connects to Prescott, Tucson, and all points in Arizona.—*Real Estate Circular.*

**Toledo Wabash & Western.**—An informal meeting of stockholders was held this week in the office of Mr. O. D. Ashley, Chairman of the Protective Committee. The object was to secure, if possible, a full representation of the stockholders at the meeting to be held in Toledo next month. Mr. Ashley said that there were 140,000 shares of stock, on which nothing had been paid; there were 60,000 in the hands of brokers and bankers, held for other parties; and he urged the propriety of having these shares transferred to the names of the owners, and that payment be made upon them. It was necessary that measures should be taken to protect their interests, and this could not be done without pecuniary means. The following resolution was adopted:

*Resolved*, That a committee of ten stockholders be appointed by the Chairman to confer and advise with the Protective Committee, and take such steps as may seem to them advisable to insure a full representation of the stock at the special meeting called at Toledo on the 31st May, and assist the Protective Committee in measures designed to save the stockholders from the threatened extinction.

The following committee was appointed: W. J. Syms, John S. Tappan, W. K. Hamilton, W. B. Cragin, P. Notman, Chas. Dana, W. B. Scott, Robert N. Tappan, Chas. Kneeland and J. R. Powell. The committee arranged to meet on Wednesday next at 1 P. M.

## MONTHLY EARNINGS OF PRINCIPAL RAILROADS.

* In January and February only 507 miles were operated; since the 1st of March 711 miles have been operated.
† 1,264 miles were operated until 17th of November, after which time 1,297 miles were operated.
‡ In January 382 miles were operated; from February to June inclusive, 407 miles; during the rest of the year, 458 miles.
§ 395 miles only were operated in January and February; during the remainder of the year, 623 miles were operated.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, April 14, 1876.

To-day, being Good Friday, business is almost wholly suspended. The weather has become more spring like during the past week, and this has given some impulse to trade, but complaints of dulness continue to be heard on every side. Not only is business limited in volume, but results are unsatisfactory; profits are very small, and collections difficult. Congress has passed a bill designed to substitute silver for fractional currency; and the tariff bill, somewhat modified, and with the provisions for an import duty on tea and coffee stricken out, has been ordered reported to the House of Representatives by the Committee of Ways and Means. These measures, especially the tariff, may have some influence upon business, and yet probably very little for the reason that there is no expectation that the tariff will ever become a law.

Provisions have been almost uniformly declining during the past week. Mess pork has receded to $22 75@$23 85, and there have been free sales of Western prime mess at $21 37½@$21 50. On Wednesday, there were large speculative purchases of mess on Western account for August delivery at $23, but the closing bids of yesterday were $22 30 for April, $22 45 for May, $22 65 for June, $22 55 for July, and $22 90 for August. But the most important fact has been the rapid decline in lard, for both spot and future, the closing prices for prime Western steam being $13 75@$13 80 for spot and May, $13 90 for June, $14 05 for July, and $14 10 bid for August. Bacon is lower and unsettled, and cut meats have declined ¼@½c. per pound. Beef and beef hams have been without essential change. Butter and cheese have been dull and drooping, but are not essentially lower. Tallow has been salable at 8¾c. for prime. In stearine the principal movement has been 250 tierces May at 14¾c.

Rio coffee has been only moderately active, and closes a little weak, though still quoted at 17¾@19c., gold, for fair to prime cargoes. The stock here is 122,000 bags, and the visible supply for the United States is 280,000 bags. Mild grades have been dull, with stocks aggregating 27,443 bags and 187,000 mats, the latter mostly Java. Rice has been selling fairly, and prices are steady. Molasses has been in better request, the sales of the week aggregating several thousand hhds., on the basis of 33 cents for 50 test. Teas have been in more active request, and prices are rather firmer. Foreign fruits are selling more freely, with large transactions in raisins and prunes at higher prices. Sugars have been selling very fairly at full and improving figures, but still quoted at 7½@7¾c. for fair to prime refining, and 10⅝c. for standard crushed.

| | Hhds. | Boxes. | Bags. | Melado. |
|---|---|---|---|---|
| Stock April 1, 1876 | 43,906 | 22,373 | 153,314 | 3,011 |
| Receipts since April 1 | 24,524 | 6 168 | 8,942 | 100 |
| Sales since | 15,145 | 5,899 | 6,429 | .... |
| Stock April 13 1876 | 51,984 | 22,672 | 255,857 | 3,111 |
| Stock April 15, 1875 | 63,167 | 85,165 | 122,698 | 1,415 |

There are no particular changes to note in the ocean freight market; the business, in the aggregate, has been moderate, stimulated by the present low rates; the individual demands for room, however, continue small; it is thought that the action of several of the steamship companies, in withdrawing some of the regular steamers, will have a tendency toward higher rates. Late engagements and charters include: Grain to Liverpool, by steam, 4d. per standard bushel; provisions, 25@30s. per ton; cotton, ¼d.; oil cake, 15s. per ton; grain to London, by steam, 6d.; beef, 7s. per tierce; pork, 5s. per bbl.; grain to Bristol, by steam, 6¾d.; flour, 3s.; grain to Cork for orders, (re-chartered vessel), 4s. 9d.; do. same voyage, regular, 5s. 6d.; cake oil to Vigo, 25c., gold; do. from Philadelphia to Genoa, at 4s. 9d. for bbls. and 24c. for cases. To-day, there were no changes; business was small, but late rates were retained. Grain to Liverpool, by steam, 4d.; tallow, 22s. 6d. per ton; grain to London, by sail, 6d.; refined petroleum to Cork for orders, 4s. 3d.; 3d off if direct port; crude do. to Dunkirk, at 4s. 1½d.

Naval stores have been generally quiet; spirits turpentine has gradually declined until 37c. was the closing price; rosins, however, have remained steady; common to good strained quoted at $1 80@1 85. In petroleum little or nothing has been done, and figures at the close were more nominal than real; crude, in bulk, 8½c., and refined, in bbls., at 14¾c. Ingot copper closes firmer at 22¾@23c. cash for Lake, with previous sales of 250,000 lbs at 22⅝@22¾c.

The market for hides has been dull, and prices have shown weakness; dry Buenos Ayres sold at 19c. cash, less 3 per cent., gold, and city slaughter ox at 8½c. currency. Linseed oil has been in fair demand and steady at 58c.@60c. Other oils have been quiet and unchanged. Codfish have ruled lower and more active at $4 for Grand Bank, $5 25 for new Georges, and $4 50 for old do. Clover seed has been dull at 16½c.@16¾c. Whiskey has been fluctuating, and closed at $1 12.

There has been a fair demand for Kentucky tobacco during the past week, and quotations are unchanged at 5@7½c. for lugs and 8½@15c. for leaf; the sales embraced 650 hhds, of which 500 were for export and 150 were for consumption. Seed leaf has been fairly active at former prices; the sales embraced: Crop of 1873, 86 cases New England, at 40c., 54 cases Ohio, at 8½c., 86 cases Pennsylvania, at 16c.; crop of 1874, 100 cases New York, at 9½c., and 180 cases New England, on private terms; crop of 1874 and 1875, 43 cases Ohio, and crop of 1875, 200 cases Pennsylvania, both on private terms. Spanish tobacco has remained steady with a fair business; the sales were 700 bales Havana at 88c.@$1 15.

## COTTON.

FRIDAY, P. M., April 14, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (April 14) the total receipts have reached 41,620 bales, against 55,804 bales last week, 59,912 bales the previous week, and 62,933 bales three weeks since, making the total receipts since the 1st of September, 1875, 3,855,106 bales, against 3,274,656 bales for the same period of 1874–5, showing an increase since Sept. 1, 1875, of 580,450 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

| Receipts this week at— | 1876. | 1875. | 1874. | 1873. | 1872. | 1871. |
|---|---|---|---|---|---|---|
| New Orleans | 16,592 | 10,369 | 8,873 | 28,981 | 14,221 | 25,473 |
| Mobile | 2,461 | 1,429 | 2,338 | 3,392 | 1,722 | 4,531 |
| Charleston | 2,258 | 3,878 | 4,421 | 2,698 | 2,871 | 2,614 |
| Port Royal, &c. | .... | 291 | .... | | | |
| Savannah | 2,311 | 4,418 | 4,534 | 4,633 | 5,760 | 7,965 |
| Galveston | 8,850 | 4,015 | 8,865 | 4,467 | 269 | 7,369 |
| Indianola, &c. | 321 | 193 | 846 | | | |
| Tennessee, &c. | 5,248 | 5,563 | 9,869 | 5,187 | 5,733 | 8,824 |
| Florida | 78 | 11 | 112 | 88 | 78 | 206 |
| North Carolina | 1,955 | 957 | 581 | 503 | 638 | 1,239 |
| Norfolk | 6,187 | 6,280 | 4,923 | 5,685 | 2,888 | 5,994 |
| City Point, &c. | 231 | 430 | 313 | 256 | 349 | |
| Total this week | 41,620 | 37,769 | 40,615 | 55,830 | 33,153 | 64,156 |
| Total since Sept. 1 | 3,855,106 | 3,274,656 | 3,512,570 | 3,163,638 | 2,499,274 | 3,448,720 |

The exports for the week ending this evening reach a total of 60,790 bales, of which 46,174 were to Great Britain, 9,475 to France, and 5,141 to rest of the Continent, while the stocks as made up this evening are now 580,459 bales. Below are the stocks and exports for the week, and also for the corresponding week of last season:

| Week ending April 14. | Exported to | | | Total this week. | Same week 1875. | Stock. | |
|---|---|---|---|---|---|---|---|
| | Great Britain. | France | Continent. | | | 1876. | 1875. |
| New Orleans* | 19,991 | 9,475 | 3,226 | 32,695 | 19,042 | 222,998 | 154,225 |
| Mobile | 8,025 | .... | .... | 8,025 | .... | 87,600 | 25,568 |
| Charleston | .... | .... | .... | .... | 1,870 | 16,688 | 21,329 |
| Savannah | 3,818 | .... | .... | 3,818 | .... | 22,462 | 39,599 |
| Galveston† | 509 | ... | 1,325 | 1,834 | 2,918 | 32,619 | 52,348 |
| New York | 6,786 | .... | 590 | 7,376 | 8,964 | 192,015 | 192,512 |
| Norfolk | 3,315 | .... | .... | 3,315 | 1,035 | 14,097 | 6,916 |
| Other ports‡ | 3,727 | .... | .... | 3,727 | 1,036 | 42,000 | 45,084 |
| Total this week | 46,174 | 9,475 | 5,141 | 60,790 | 29,865 | 580,459 | 537,491 |
| Total since Sept. 1 | 1,716,066 | 366,316 | 635,869 | 2,718,251 | 2,183,573 | .... | .... |

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 40,000 bales; for Havre, 21,000 bales; for Continent, 10,000 bales; for coastwise ports, 2,233 bales; which, if deducted from the stock, would leave 149,750 bales representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on shipboard at that port, not cleared: For Liverpool, 4,234 bales; for other foreign, 1,883 bales; for coastwise ports, 391 bales; which, if deducted from the stock, would leave remaining 23,105 bales.

‡ The exports this week under the head of "other ports" include from Baltimore 551 bales and 134 bags Sea Island to Liverpool; from Boston 2,029 bales to Liverpool; from Philadelphia 310 bales to Liverpool; from Wilmington 700 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is an *increase* in the exports this week of 30,925 bales, while the stocks to-night are 42,968 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to April 7, the latest mail dates:

| PORTS. | RECEIPTS SINCE SEPT. 1. | | EXPORTED SINCE SEPT. 1 TO— | | | | Coastwise Ports. | Stock. |

* Under the head of *Charleston* is included Port Royal, &c.; under the head of *Galveston* is included Indianola, &c.; under the head of *Norfolk* is included City Point, &c.

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market this week has been quiet for cotton on the spot, and quotations have been reduced ⅛c. as compared with last Friday, namely, 1-16c. on Monday and 1-16c. on Tuesday. An advance in exchange, and slightly easier ocean freights, have enabled shippers to do a little business at this decline, but the close yesterday was without demand, except from home spinners who, in anticipation of a holiday, purchased rather more freely. To-day, being Good Friday, the Cotton Exchange is closed. For future delivery prices show a decline of unusual severity. The announcement that the waters of the Mississippi had begun to recede at Cairo, was regarded as putting an end to all dangers of a disastrous flood, and there was a steady decline for the first three days. On Wednesday some reaction at Liverpool was reported, with an advance for "arrivals;" the Mississippi was reported above the danger line between Vicksburg and Memphis; gold was higher; and there was the natural demand to cover contracts and secure the profits which the recent decline afforded But yesterday there was again a decline of 3-16c. for the most active months. Rumors of impending hostilities in Southeastern Europe, and the confirmation which they were supposed to receive from the depression in Egyptian and Turkish securities at London, together with dull reports from Liverpool and Manchester, were the most conspicuous influences at work. The lower prices stimulated the demand, and the close was steady at the decline.

The total sales for forward delivery for the week are 120,600 bales, including —— free on board. For immediate delivery the total sales foot up this week 4,375 bales, including 1,248 for export, 2,963 for consumption, 164 for speculation, and —— in transit. Of the above, 100 bales were to arrive. The following were the closing quotations Thursday afternoon:

| Total, new ports | 15,870 | 14,552 | 53,414 | 12,068 | 15,498 | 46,295 |
| Total, all..... | 22,826 | 25,767 | 130,164 | 16,599 | 26,475 | 122,101 |

The above totals show that the old interior stocks have *decreased* during the week 3,049 bales, and are to-night 1,945 bales *more* than at the same period last year. The receipts at same towns have been 2,435 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 54,000 bales shipped from Bombay to Great Britain the past week, and 11,000 bales to the Continent; while

the receipts at Bombay during this week have been 59,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, April 13:

| | Shipments this week. | | | Shipments since Jan. 1. | | | Receipts. | |
|---|---|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | Total. | Great Britain. | Continent. | Total. | This week. | Since Jan. 1. |
| 1876..... | 54,000 | 11,000 | 65,000 | 193,000 | 132 000 | 325,000 | 59,000 | 472,000 |
| 1875..... | 24,000 | 39,000 | 63,000 | 336,000 | 231,000 | 567,000 | 81,000 | 716,000 |
| 1874..... | 24,000 | 10,000 | 34,000 | 279,000 | 170,000 | 449,000 | 65,000 | 569,000 |

From the foregoing it would appear that, compared with last year, there is an *increase* of 2,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 242,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—There has been a decided fall in the Mississippi River the past week, so that for the present, at least, the anticipated damage from the overflow has been averted. The weather has been quite dissimilar at different points. In Texas, for instance, it has been too cold, and in all the Gulf States it has been wet, while in Arkansas the conditions have, as a general thing, been favorable. We suppose, on the average, that farm work in the South is not as well advanced as usual at this season, though in some States this is not true. Still, a short period of warm, dry weather now would make a great change.

*Galveston, Texas.*—We have had rain on three days of the week, and on one day an unusually severe storm of both rain and wind, the rainfall for the week aggregating two inches and three hundredths. We are having too much rain, and it is too cold. Planting is very backward. Average thermometer 68, highest 77 and lowest 56.

*Indianola, Texas.*—There has been rain on two days, the rainfall reaching fifty hundredths of an inch. Average thermometer for the week 68, highest 80 and lowest 55. Planting is progressing slowly. The weather is so unfavorable that much seed planted has failed to come up.

*Corsicana, Texas.*—It rained hard three days of this week, the rainfall reaching two and thirty hundredths inches. The thermometer has averaged 63, ranging from 44 to 82. Planting is hindered by the rain.

*New Orleans, Louisiana.*—We have had three rainy days here this week, the rainfall reaching seven inches and fifteen hundredths. The thermometer has averaged 70.

*Shreveport, Louisiana.*—In this vicinity high water and rains are delaying farm work. The rainfall for the week is two inches and sixty-eight hundredths. The average thermometer is 65, the highest 82 and the lowest 51.

*Vicksburg, Mississippi.*—There have been five rainy days here during the week, the rainfall reaching four inches and five hundredths. The thermometer has averaged 64, the extremes being 53 and 77. Plowing and planting are delayed by the incessant rains.

*Columbus, Mississippi.* — We have had warm, sultry, wet weather this week. Planting is much delayed by the recent rains. Total rainfall this week two inches and sixty-two hundredths. Average thermometer 59, highest 69 and lowest 58. The tributary rivers are lower.

*Little Rock, Arkansas.*—We had a slight shower Wednesday, and a hard rain with hail Thursday evening; otherwise, the past week has been very favorable to planters. The rivers have declined rapidly and continue to recede. The thermometer has averaged during the week 66, the highest being 78 and the lowest 42. The rainfall is ninety-nine hundredths of an inch.

*Nashville, Tennessee.*—Rain fell on two days of the week, with a rainfall of one inch and four hundredths. The thermometer has ranged from 51 to 73, averaging 62.

*Memphis, Tennessee.*—It rained here three days this week, the rainfall reaching two inches and ten hundredths. The thermometer has averaged 65, the highest being 73 and the lowest 57.

*Mobile, Alabama.*—There have been two rainy days here this week; there was a heavy rain last night, and it is raining steadily to-day; the rest of the week has been cloudy. Planting is interrupted by the rains, and much damage is feared. Total rainfall this week, not including last night and to-day, one inch and four hundredths. Average thermometer 67; highest 77 and lowest 55.

*Montgomery, Alabama.*—It has rained steadily three days the latter part of the past week, the early part being cloudy, and the weather has been so unfavorable that much seed planted has failed to come up. We are having too much rain, and much damage is feared. The tributary rivers are higher, overflowing again. Total rainfall this week, one inch and eighty-five hundredths. Average thermometer 65; highest 82, and lowest 53. Our telegram, which came to hand too late for publication last week, says: "The early part of the week it rained severely three days, but the latter part has been clear and pleasant. The weather is so unfavorable that much seed planted has failed to come up, the seed being drowned by the rains. Much damage is believed to have been done by the floods, and re planting is rendered necessary in many places. The tributary rivers are now higher than most people can remember having seen them before. Rainfall for the week, eight inches and thirty-eight hundredths; for the month of March, seven inches and thirty-three hundredths. Average thermometer 61; highest 79 and lowest 47."

*Selma, Alabama.*—We have had rain three days of this week to a depth of one inch and sixty-three hundredths. Average thermometer 64. We are having too much rain for plantation work.

*Madison, Florida.*—There has been one rainy day here during the week, with a rainfall of forty-five hundredths of an inch. As the week closes, there is a favorable change in the weather. Average thermometer 69; highest 80 and lowest 58. Planting is making good progress.

*Macon, Georgia.*—There has been one rainy day here this week. Average thermometer 61; highest 90 and lowest 39. Total rainfall for the week, seventy-one hundredths of an inch; for the month of March, four inches and sixty-seven hundredths. Rainfall last week, five inches and eleven hundredths. We are having too much rain, and the weather is very unfavorable for planting.

*Atlanta, Georgia.*—There was a shower on one day the early part of this week, the rainfall reaching twenty hundredths of an inch, but the remaining six days have been clear and pleasant. The thermometer has averaged 62, the highest being 77, and the lowest 48.

*Columbus, Georgia.*—There have been two rainy days this week, the rainfall reaching one inch and eighty-two hundredths, and it is now raining. The thermometer has averaged 66, ranging from 52 to 82.

*Savannah, Georgia.*—We have two rainy days to report this week, and a rainfall of forty-eight hundredths of an inch. The rest of the week has been pleasant. Average thermometer, 66; highest, 85, and lowest 51.

*Augusta, Georgia.*—It was showery two days the early part of the week, the rainfall reaching seventeen hundredths of an inch. The latter part of the week, however, has been pleasant. The thermometer has averaged 65, the highest being 81 and the lowest 47.

*Charleston, South Carolina.*—We have had one rainy day this week, the rainfall reaching one hundredth of an inch. Average thermometer 52, highest 81 and lowest 29.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock April 13. We give last year's figures (April 16, 1875) for comparison.

| | April 13, '76. | | April 16, '75. | |
|---|---|---|---|---|
| | Feet. | Inch. | Feet. | Inch. |
| New Orleans..Below high-water mark..... | 3 | 5 | 4 | 10 |
| Memphis.....Above low-water mark..... | 34 | 11 | 32 | 4 |
| Nashville.....Above low-water mark..... | 7 | 10 | 10 | 11 |
| Shreveport....Above low-water mark..... | 28 | 0 | Missing. | |
| Vicksburg....Above low-water mark..... | 43 | 5 | 42 | 10 |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

GUNNY BAGS, BAGGING, &c.—Bagging has continued very quiet during the past week, and no sales of lots have been made that we hear of. Prices are held at 12½@12¾c., the market closing dull at these figures. Bags have ruled dull and nominal at 12@13½c. for 440s. Bales continue quiet, with India quoted at 9@9¼c. Butts have been in moderate request for spot parcels, and we hear of sales of 600 bales at 2¾@3¼c. cash and time, with holders asking 3c. at the close. To arrive, a parcel of 2,500 bales has been disposed for late arrival at 2½c., gold, time.

LIVERPOOL, April 13.—3:00 P. M.—BY CABLE FROM LIVERPOOL.—Estimated sales of the day were 7,000 bales, of which 1,500 bales were for export and speculation. Of to-day's sales 4,500 bales were American. The weekly movement is given as follows:

| | Mch. 24. | Mch. 21. | April 7. | April 13. Six days. |
|---|---|---|---|---|
| Sales of the week.. .....bales. | 86,000 | 53,000 | 36,000 | 33,000 |
| Forwarded..... | 10,000 | 9,000 | 8,000 | 16,000 |
| Sales American..... | 47,000 | 29,000 | 22,000 | 21,000 |
| of which exporters took..... | 11,000 | 8,000 | 4,000 | 4,000 |
| of which speculators took..... | 16,000 | 6,500 | 2,000 | 2,000 |
| Total stock..... | 777,000 | 753,000 | 853,000 | 936,000 |
| of which American..... | 443,000 | 421,000 | 504,000 | 537,000 |
| Total import of the week..... | 50,000 | 27,000 | 147,000 | 93,000 |
| of which American..... | 26,000 | 9,000 | 109,000 | 62,000 |
| Actual export.. ..... | 6,000 | 4,000 | 7,000 | 5,000 |

| do Orl'ns. | ..@6 11-16 | ..@6¾ | ..@6¾ | ..@6¾ | ..@6¾ | Holiday. |

*Futures.*

SATURDAY.—May-June delivery, Uplands, Low Mid. clause, 6 11-32d.
June-July delivery, Uplands, Low Mid. clause, 6 7-16d.
August-Sept. delivery, Uplands, Low Mid clause, 6¾d.
April-May delivery, Uplands, Low Mid. clause, 6¾d.
April-May delivery, Uplands, Low Mid. clause, 6 9-32d.
May-June delivery, Uplands, Low Mid. clause, 6¾d.
June-July delivery, Uplands, Low Mid. clause, 6¾d.

MONDAY.—June-July delivery, Uplands, Low Mid. clause, 6 15-32d.
May-June delivery, Uplands, Low Mid. clause, 6 11-32d.
July-Aug. delivery, Uplands, Low Mid. clause, 6 17-32d.
March shipment, Uplands, Low Mid. clause, by sail, 6 13-32d.
June-July delivery, Uplands, Low Mid. clause, 6 7-16d.

TUESDAY.—June-July delivery, Uplands, Low Mid. clause, 6 13-32d.
March shipment, Uplands, Low Mid. clause, by sail 6¾d.
April-May delivery, Uplands, Low Mid. clause, 6¾d.
May-June delivery, Uplands, Low Mid. clause, 6 5-16d.
July-Aug. delivery, Uplands, Low Mid. clause, 6¾d.
March-April shipments, Uplands, Low Mid. clause, by sail, 6¾d.
April-May delivery, Mobile, Mid., regular contract, 6 3-16d.
April-May delivery, Uplands, Low Mid. clause, 6 7-32d.

WEDNESDAY.—March-April shipments, Uplands, Low Mid. clause, by sail, 6¾d.
April-May delivery, Uplands, Low Mid. clause, 6 7-32d.
June-July delivery, Uplands, Low Mid. clause, 6 13-32d.
April delivery, New Orleans, Low Mid. clause, 6 11-32d.
July-Aug delivery, Uplands, Low Mid. clause, 6½d.
April-May delivery, Uplands, Low Mid. clause, 6¾d.
May-June delivery, Uplands, Low Mid. clause, 6¾d.
June-July delivery, Uplands, Low Mid. clause, 6 7-16d.

THURSDAY.—March-April shipments, Uplands, Low Mid. clause, by sail, 6 7-16d.
June-July delivery, Uplands, Low Mid. clause, 6 15-32@6 7-16d.
July-Aug. delivery, Uplands, Low Mid. clause, 6¾d.
May-June delivery, Uplands, Low Mid. clause, 6 11-32d.
April-May delivery, Uplands, Low Mid. clause, 6¾d.

FRIDAY.—Holiday.

WEEKLY RECEIPTS OF COTTON.—Below we give a table showing the receipts of cotton each week at all the ports of the United States for several seasons, indicating, also, the total crop each year. Our figures are given in thousands of bales.

| Date. | 1875-76. Week. | 1875-76. Month. | 1874-75. Week. | 1874-75. Month. | 1873-74. Week. | 1873-74. Month. | 1872-73. Week. | 1872-73. Month. | 1871-72. Week. | 1871-72. Month. | 1870-71. Week. | 1870-71. Month. |

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 81,883 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

| | Total bales. |
|---|---|
| NEW YORK—To Liverpool, per steamers Republic, 485 ... China, 531 .... City of New York, 1,782 City of Richmond, 1,167 .... The Queen, 1,491 ... per ship Isaac Webb, 1,350 | 6,786 |
| To Bremen, per bark Farewell, 350 | 350 |
| To Antwerp, per steamer Kenilworth, 240 | 240 |
| NEW ORLEANS—(*Omitted last week*)—To Liverpool, per bark Champion, 2,507 | 2,507 |
| To Havre, per bark Jeanne Postel, 1,800 | 1,800 |
| To Malaga, per bark Imperator, 1,000 | 1,000 |
| (*Week ending April 7.*)—To Liverpool, per steamer Dhoolia, 5,900 ....per ships Adorna, 5,007 ... Evangeline, 2,912 ... Thornhill, 2,938 and 24 bags sced cotton .... Wm. Douglas, 4,375 .... per bark Siberia, 4,229 | 25,669 |
| To Havre, per ship Union, 3,161 ....per bark Reine des Anges, 2,040 | 5,201 |
| To Rouen, per bark Elios, 636 | 636 |
| To Bremen, per ship Hampton Court, 3,202 | 3,202 |
| To Amsterdam, per ships D. W. Chapman, 3,212 .... Freydis, 1,939 | 5,151 |
| To Reval, per bark Mississippi, 1,997 | 1,997 |
| To Barcelona, per bark Joven Narcisa, 1,237 | 1,237 |
| To Vera Cruz, per brig Esperanza, 65 | 65 |
| MOBILE—(*Omitted last week*)—To Havre, per schooner Edith, 1,512 | 1,512 |
| To Rotterdam, per bark E. L. Partridge, 1,402 | 1,402 |
| To Cronstadt, per schooner C. M. Newins, 1,175 | 1,175 |
| To Barcelona, per bark Virgin de Monserate, 1,240 | 1,240 |
| (*Week ending April 7.*)—To Havre, per schooner W. G. Lewis, 1,324 | 1,324 |
| To Cronstadt, per schooner B. B. Church, 1,510 | 1,510 |
| To Helsingfors, per bark P. A. Munch, 1,410 | 1,410 |
| CHARLESTON—To Liverpool, per ship Richard III., 3,825 Upland and 123 Sea Island | 3,948 |
| To Havre, per brig Valentine, 1,123 Upland | 1,123 |
| To Rotterdam, per bark Leif Eriksen, 100 Upland | 100 |
| To a port in Europe, per bark Ecling, 1,200 Upland | 1,200 |
| SAVANNAH—To Liverpool, per ship Caselda, 3,256 Upland | 3,256 |
| To Bremen, per brig Abraham, 1,265 Upland | 1,265 |
| TEXAS—To Liverpool, per brig J. W. Beard, 1,217 | 1,217 |
| To Cronstadt, per bark Nora, 1,446 | 1,446 |
| BALTIMORE—To Bremen, per steamer Leipzig, 306 | 306 |
| BOSTON—To Liverpool, per steamers Iberian, 1,500 .. Hecla, 353 | 1,853 |
| PHILADELPHIA—To Liverpool, per steamer Ohio, 700 | 700 |
| Total | 81,883 |

The particulars of these shipments, arranged in our usual form, are as follows:

| | Liverpool. | Havre. | Bremen. | Amsterdam. | Reval. | Cronstadt. | Helsingfors. | Barcelona. | Total. |
|---|---|---|---|---|---|---|---|---|---|
| New York | 6,786 | .... | 350 | .... | .... | .... | .... | .... | 7,376 |
| New Orleans | 28,176 | 7,001 | 3,202 | 5,151 | 1,997 | .... | .... | 1,237 | 48,515 |
| Mobile | .... | 2,836 | .... | .... | .... | 2,685 | 1,410 | 1,240 | 9,573 |
| Charleston | 3,948 | 1,123 | .... | .... | .... | .... | .... | .... | 5,376 |
| Savannah | 3,256 | .... | 1,265 | .... | .... | .... | .... | .... | 4,521 |
| Texas | 1,217 | .... | .... | .... | .... | 1,446 | .... | .... | 2,663 |
| Baltimore | .... | .... | 306 | .... | .... | .... | .... | .... | 306 |
| Boston | 1,853 | .... | .... | .... | .... | .... | .... | .... | 1,853 |
| Philadelphia | 700 | .... | .... | .... | .... | .... | .... | .... | 700 |
| Total | 45,936 | 10,965 | 5,123 | 5,151 | 1,997 | 4,131 | 1,410 | 2,527 | 81,823 |

Included in the above totals are, from New York, 240 bales to Antwerp; from New Orleans 633 bales to Rouen, 1,000 to Malaga, and 65 to Vera Cruz; from Mobile 1,492 bales to Rotterdam; from Charleston 100 bales to Rotterdam and 1,200 to a port in Europe.

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

ANDEAN. The cotton on board the steamer Andean, at Liverpool from New Orleans, took fire April 5, but was extinguished. The damage was slight.

FRITZ, bark, (Dutch), Isaachsen, from New Orleans for Havre, before reported taken into Brunswick, Ga., by steamer Dictator, was seen by the latter vessel, April 8, lying on the breakers to the northward of St. Simon's bar. She approached the bark as near as practicable and communicated with the captain, who stated that there was a hole in her bottom; that she had taken in 7½ feet of water and was sinking; bark thumping on the shoal at the time; wind south and ebb tide. The condition of the bark being perilous, and the prospects that she would prove a total loss, the captain of the Dictator, by request of the captian of the Fritz, took the vessel in tow and pulled upon her some 15 minutes more or less, when she began to yield. Having dragged her from the shoal, the Dictator proceeded to tow her into Brunswick. In crossing the bar the bark grounded again in 18 feet of water, parting the hawser three times. The captain of the Fritz asserted that the men on the bark were exhausted by work at the pumps, having been constantly engaged since the 1st of April, the day on which the vessel struck a piece of floating wreck or timber on starboard bow, in lat 29.23, lon 78.36 and stove a hole in her bow port. The master of the Dictator then transferred a mate and seven men to the bark Fritz, who were put to work on her and succeeded in keeping her free so that she could be taken into Brunswick. The Fritz is estimated to be worth $15,000, and the cargo $135,000. A libel has been instituted against the Fritz and cargo, and a reasonable salvage asked for.

J. B. DUFFUS bark, (Br), for Havre, which put back to New Orleans, March 14, partly dismasted, refitted and sailed for destination April 8.

UNKNOWN.—A vessel, supposed a brig or bark, painted black, apparently cotton laden, on fire fore and aft, stern burnt to water's edge, starboard bow badly burned, was passed, March 6, in lat 35 N, lon 73 W, by steamer Cordova, from New Orleans at Liverpool. There was no name on bow; wreck of foremast and yards hanging by the headstays to the bowsprit end, foreyard and lower part of top painted yellow, bowsprit charred or blackened with smoke, what appeared to be the iron bands of cotton bales could be seen the whole length of the vessel; all the iron knees were visible right aft from the fore chains.

Cotton freights the past week have been as follows:

| | Liverpool. Steam. | Liverpool. Sail. | Havre. Steam. | Havre. Sail. | Bremen. Steam. | Bremen. Sail. | Hamburg. Steam. | Hamburg. Sail. |

# BREADSTUFFS.

FRIDAY, P. M., April 14, 1876.

The flour market, in some features, is the reverse of last week. Then the low grades were dull and depressed and the medium and better grades were in demand at full prices; while this week the high grades have been neglected, the medium qualities depressed, and the low grades have met with a very good demand and been so scarce as to readily bring full prices. This is especially true of common extras, in the range of $5 10@5 30. Production of flour is quite moderate at points, and shippers are often under the necessity of giving orders for flour to be made, to secure lines suitable to their trade. Rye flour has been doing rather better, and corn meal is held for a material advance. The close yesterday was without new feature.

The wheat market has been variable from day to day, and yet in the aggregate shows very little change for the week. There has, however, been more improvement in tone. The advance in gold and exchange, and the decline in ocean freights to minimum rates, have caused some increase in the export demand, and a little strengthening of prices of regular grades. But the most notable occurrence has been the sale of choice white wheat of the crop of 1874 at $1 60@$1 70, to a considerable extent. Yesterday the market opened buoyant, on foreign advices of storms, and threatened hostilities on the Continent, but it was soon reported that recent buyers for the Continent desired to resell their stock, and the demand proved limited. Full prices were maintained, however, and Western markets were higher, with very bad weather reported.

Indian corn has continued to advance, but not so actively as last week. Old Western has been more freely offered from store, and sold quite freely at 68½@70c., as in quality. New Western and Southern, mixed and yellow descriptions, have sold in the past two days at 71@74c. For future delivery there has been a hardening tendency, and 25,000 bushels new Western mixed sold for all April at 66½@67c.

Rye has met with a much more active demand; Western sold at 86@87c, in store; and for arrival by canal, Canada at 92½c. in bond, and State at 97½c. The nature of the demand has not transpired. Barley has been fairly active at the late decline Canada peas are scarce and higher.

Oats have been in better demand, and in the course of the week prices have advanced about 1c. a bushel for all grades.

The following are closing quotations:

| FLOUR. | | GRAIN. | |

## THE DRY GOODS TRADE.

FRIDAY, P. M., April 14, 1876.

The past week has shown a slight improvement in the package trade, and the jobbing branches have been rather more active. This is due to several causes. In the first place, the weather has been more favorable for the distribution of spring goods, and in some sections of the country a fair consumptive demand has been developed. Then, again, the condition of the roads in the West has much improved, and orders for liberal amounts of merchandise have been received from jobbers in that section, while the near-by trade have also been freer buyers, and moderate sales have been made to Southern jobbers. Retail buyers have been cautious in their operations, taking smaller amounts than would probably have been the case with a steadier market for leading domestic productions. An important circular has been issued by a number of prominent commission houses, representing many of the principal New England manufacturing corporations, in which jobbers are politely requested to abandon the system of sending out postal cards, etc., giving quotations for leading makes of cotton goods, etc., at much less than their real market value—a system which has been fraught with mischief to the entire trade. Very large quantities of foreign goods were pressed to sale through the auction rooms, where they met with ready sale at low prices. The death of Mr. A. T. Stewart created a profound sensation in the trade, and on the day of his funeral business was suspended during the obsequies.

DOMESTIC COTTON GOODS.—The export trade in cotton goods presents a steady improvement, and 1,580 packages were shipped in course of the week to different countries, Great Britain taking 1,095 packages, British Honduras 244 packages, Brazil 125 packages, and various other markets the remainder. The home demand was sluggish apart from the most popular makes of four-yard brown sheetings and fine bleached shirtings, which were placed in considerable amounts by agents and jobbers. Colored cottons moved slowly—especially cottonades, which were very dull—and Conestogo tickings were subjected to a reduction of about ¼c., aside from which quotations were fairly maintained. Corset jeans were in steady demand, and there was rather more animation in quilts, piques, etc. Rolled jacconets and glazed cambrics changed hands in moderate lots, and were steady in price. Grain bags, carpet warps and twines were a trifle more active in jobbers' hands. Print cloths were quiet, although some lots were bought by speculators at 3¾c. cash and 3⅞, 60 days'—for standard 64s., at which prices the market closed. The print market continued in an unsettled and unsatisfactory condition, and further standard makes were reduced, viz. Merrimack D fancies to 6, Arnold's and Hartel's fancies to 6½, and Mallory pinks, etc., to 6¼. Jobbers continued to offer job lots of fancy and shirting standard prints of certain styles at 5¼@5¾, and made very heavy sales at these figures. Cotton dress goods were dull and weak, and ginghams were lightly dealt in.

DOMESTIC WOOLEN GOODS.—The package trade in men's wear woolens has been very quiet, and some failures occurred among cloth jobbers in this city and at Boston. The jobbing trade has been a little more active, but by no means up to expectations. Cloths continued dull and doeskins were only taken in small lots. Cassimeres, suitings and trouserings moved slowly from first hands, and selections were mainly restricted to moderate parcels of the newest and most desirable styles. Worsted coatings were quiet, and low grades showed symptoms of weakness. Overcoatings were delivered in fair amounts in execution of orders, but few new transactions occurred. Low grade Kentucky jeans were in moderate request, but fine qualities ruled quiet. Satinets were in limited demand, with most relative activity in low grades for printing and fine mixtures. Flannels were rather more active, but selections were confined to small lots of white and scarlet all-wool makes and domets. Carpets were distributed in considerable parcels by jobbers at low prices. Plain plaid and self-colored fancy dress goods were in better demand, and prices are firmly maintained. Worsted shawls moved slowly, and there was some pressure on the part of agents to sell at a concession from former holding rates.

FOREIGN DRY GOODS.—There was a sluggish movement in imported goods from first hands, and values have barely been maintained, because importers are obliged to meet the low rates which have been established in the auction rooms. The auction sales of the week were large and important. Messrs. Richard, Iselin & Co. sold through Field, Morris, Fenner & Co. a line of silks and dress goods which amounted to $225,000, and a very large sale of the same class of fabrics was made for Messrs. A. Person, Harriman & Co. by Townsend, Montant & Co. Staple dress goods realized fair auction prices, but sliks—especially fancies—sold very low. Housekeeping, shirting and dress linens were in steady demand, and there was a more active movement in plain and fancy white goods. Embroideries were sold publicly and at private sale in large amounts at low prices. Woolen goods for men's wear remained very quiet in first hands, and prices are unsatisfactory to importers. Ribbons and millinery silks were in steady but moderate demand.

We annex prices of a few articles of domestic manufacture:

### Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since Jan. 1, 1876, to all the principal foreign countries, and also the totals for the last week, and since Jan. 1. The last two lines show *total values*, including the value of all other articles besides those mentioned in the table.

| Articles. | Great Britain. | France. | Holland & Belg. | Germany. | Other Europe. | Spain. | China & Japan. | Aus'tralia. | Br. N. A. Colonies. | Cuba. | Hayti. | Other W. Indies. | Mexico. | British Guiana. | Brazil. | American. | Other S. American. | All oth. Ports | Total this week. | Total since Jan. 1. | Same time 1875. |

SEVEN PER CENT TEN-YEAR BONDS
SECURED BY
**FIRST MORTGAGES OF IMPROVED REAL ESTATE.**
GUARANTEED, PRINCIPAL AND INTEREST,
BY ITS
**CAPITAL STOCK OF $500,000.**
Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next-due Coupon being stamped so as to denote that interest begins at the date of purchase.
A Pamphlet with full information will be sent on application to the Company's Office,
**43 Milk Street, Boston.**
These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.
The security of each Bond is not confined a to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactory investment. The Loans are all upon improved Farms in some of the most fertile Western States, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well-selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and Interest are more promptly paid; and upon the success of Agriculture depends that of almost every Industrial Investment.
HENRY SALTONSTALL, President.
FRANCIS A. OSBORN, Treasurer.

## Insurance.

**"Pay as you go, get what you buy, stop when you choose."**

**COMMON SENSE AND FAIR PLAY IN LIFE ASSURANCE!**

*Do not Assure your Life* till you have examined the NEW PLANS devised by SHEPPARD HOMANS Actuary, for

THE

# Provident Savings Life Assurance Society,

**WESTERN UNION BUILDING,**

NEW YORK.

**Guaranty Cash Capital, $125,000,**

Invested in U. S. Five-Twenty Bonds.

*This Society separates the Insurance Part of the Premium from the Reserve or Deposit Part*, which latter is held merely for accumulation.

*This Society recognizes the Policy-holder as owner of the Reserve.*

This Society, therefore, will either issue policies on the payment of uniform annual premiums, *guaranteeing a specified surrender value for every year in cash;* or it will furnish the PROTECTION OF LIFE ASSURANCE *at actual current cost for death claims and expenses of management, each year by itself, renewable at the close of any year without further medical examination.*

These Plans are indorsed by leading Actuaries and State Commissioners, and also by the "*Society for the Promotion of Life Insurance among Clergymen*," James Brown, *President;* Howard Potter, *Treasurer.*

For Plans, Rates, and Full Particulars apply to

**THE PROVIDENT SAVINGS LIFE ASSURANCE SOCIETY,**

WESTERN UNION BUILDING, NEW YORK.

GEORGE WALKER, President. SHEPPARD HOMANS, Vice-Pres't and Actuary

# The North British and Mercantile Ins. Co.,

**OF**

**LONDON AND EDINBURGH.**

UNITED STATES BRANCH,

**54 William, Cor. Pine St., New York.**

—o—

| | |
|---|---|
| **Capital paid up** | **$10,000,000** |
| **Gross Fire Reserve** | **3,700,000** |
| **Net Life Assets** | **13,300,000** |
| **Total** | **$27,000,000** |

Gross Assets held by Board of Management in New York, $1,600,000.

The Company's actual losses by Chicago conflagration in 1871 were $1,743,457 81.

The Company's actual losses by Boston conflagration in 1872 were $508,680 46.

Yet the Company paid these losses at sight without borrowing or selling a single dollar of permanent investments, continued regular dividends to their stockholders, and at the end of 1873 had entirely made up (not in this country, however), the losses of these two conflagrations and all others, commencing 1874 with a surplus over $100,000 larger than ever before.

Annual Income of Fire Department alone over $4,000,000.

Fire and Life Assets entirely distinct—the one not liable for the other.

The Company organized A. D. 1809. Commenced business in this country A. D. 1867.

Agencies in most of the principal cities and towns in the United States.

EZRA WHITE, CHAS. E. WHITE, SAM. P. BLAGDEN, } Managers.

### A Solid Twelve Per Cent

While bonds and stocks are the footballs of brokers the solid Illinois and Missouri TEN PER CENTS (semi-annually at the American Exchange National Bank, New York) and our choice Kansas TWELVE PER CENTS have *never failed.* Nothing but an earthquake can impair their *absolute security;* and as to promptness, ask our New York Bank. Our paper is *always at par* in New York, because *always paid at maturity.* Have loaned millions, and not a dollar has ever been lost.—For details address ACTUARY of the Central Illinois Loan Agency, Jacksonville, Illinois. P. O. Box 657.

OFFICE OF THE NATIONAL TRUST COMPANY OF THE CITY OF NEW YORK, Nos. 261 AND 263 BROADWAY, COR. WARREN ST. NEW YORK, April 10, 1876.

**THE ANNUAL MEETING OF THE** Stockholders of this Company, for the election of ten Trustees for the third class, and three Inspectors of Election for the ensuing year, will be held at the Banking Rooms of the Company on TUESDAY, the 25th inst., between the hours of 12 M. and 1 P. M.

The Transfer Books will be closed until the 26th instant.

J. C. CRUIKSHANK, Secretary.

**CITY OF VINCENNES, INDIANA,**
**SIX PER CENT BONDS.**
ISSUED IN 1873. DUE IN 1893.

(The city reserves the option to pay these Bonds, with the accrued interest thereon, at any time before they are due.)
INTEREST PAYABLE JANUARY AND JULY, AND PROMPTLY PAID.

| | |
|---|---|
| Assessed value of property, 1875 | $3,644,854 |
| Entire bonded debt | 91,000 |
| Floating debt (which will be paid this year) | 23,000 |
| Population about | 8,000 |

The city has anticipated the maturity of many of its bonds heretofore issued, and paid them long before they were due.

I have an official statement from the City Treasurer made up to 1st February, 1876, giving the above figures. The above bonds *were not issued* until all the provisions of the law and ordinances were complied with, as I have the official documents to show to that effect. There can be no safer security made than these bonds. Only 2½ per cent. on its taxable property. Send for official statement.

A limited amount for sale by

## Co-partnership Notices

### Notice.

Having transferred to **HENRY HILTON** all my interest in the firm of **ALEXANDER T. STEWART & CO.,** the business of said house will hereafter be continued by him, under the same firm name, with such persons as he may associate with him.

Dated New York, April 14, 1876.

**CORNELIA M. STEWART.**

The business of the firm of **ALEXANDER T. STEWART & CO.,** will be continued by the undersigned as co-partners under the same firm name.

Dated April 14, 1876.

**HENRY HILTON.**
**WILLIAM LIBBEY.**

### Notice.

This is to certify:

1. That we **HENRY HILTON** and **WILLIAM LIBBEY,** both of the City and State of New York, have this day formed a co-partnership for the purpose of conducting a general mercantile business in the City of New York, and in the cities of Boston, Philadelphia, Paris, Lyons, Manchester, Bradford, Nottingham, Belfast, Glasgow, Berlin, Chemnitz, and elsewhere—in the United States and in the Kingdom of Great Britain and Ireland, and on the Continent of Europe and in other foreign countries.

2. That the principal place of business of said co-partnership will be in the City of New York.

3. That said business will be conducted under the firm name of **A. T. STEWART & CO.,** which firm name, it is hereby certified, will be continued in use by **HENRY HILTON** and **WILLIAM LIBBEY,** of the City and State of New York, aforesaid; the said **HENRY HILTON** being the assignee and grantee of **CORNELIA M. STEWART,** devisee and legatee under the last will and testament of **ALEXANDER T. STEWART,** late of the City of New York, now deceased, as to all the interests of said **ALEXANDER T. STEWART** in the late firm of **A. T. STEWART & CO.;** and the said **WILLIAM LIBBEY** being the only surviving partner of the said late firm of **A. T. STEWART & CO.,** which firm had business relations with foreign countries.

Witness our hands and seals this fourteenth day of April, A. D. 1876.

**HENRY HILTON.** [L. s.]
**WILLIAM LIBBEY.** [L. s.]

In presence of HENRY E. DAVIES, J. HENRY WORK.

*State of New York, City and County of New York, ss.:*

On this fifteenth day of April, A. D. 1876, before me came **HENRY HILTON** and **WILLIAM LIBBEY,** to me known to be the individuals described in and who executed the within certificate, and severally acknowledged that they executed the same.

(Signed) ROBERT PROTHEROE,
Notary Public,
New York City.

*State of New York, City and County of New York, ss.:*

I, WILLIAM WALSH, Clerk of the said City and County, and Clerk of the Supreme Court of said State for said County,

Do certify that I have compared the preceding with the original

CERTIFICATE
OF
CONTINUED USE OF FIRM NAME,

on file in my office, and that the same is a correct duplicate therefrom and of the whole of such original.

Indorsed, filed and recorded 15th April, 1876, 2 hrs.

In witness whereof I have hereunto subscribed my name and affixed my official seal, this fifteenth day of April, 1876.

WILLIAM WALSH,
[L. s.] Clerk.

☞ The Business Department of the CHRONICLE is represented among Financial Interests in New York City by Mr. Fred. W. Jones.

## PROSPECTIVE SUPPLY AND CONSUMPTION OF SILVER.

The past week will be remembered as the occasion of our second attempt to introduce silver in the place of our fractional currency. A first effort, made in October, 1873, scarcely deserves the name, as little was expected from it by any one. But the arrangements now are very complete, and contemplate, of course, the withdrawal of the entire fractional issues as rapidly as possible. While the question was being debated, and before a determination was reached, we expressed doubt as to the expediency of the step, because of the possibility of a rise in the price of silver to a point which would cause our silver currency to disappear. As, however, the plan is to be tried, its entire success will be the earnest hope of all. Certainly, the disciples of a paper-money system will find no consolation in the eagerness with which the entire community is seeking to feel of, and hold and own, these new metallic issues. Paper may be convenient; but, clearly, until by experience our people have learned its convertibility, and therefore that it has a value, they will prefer the real to its shadow.

It may not be uninteresting at this time to bring together, as briefly as possible, the various influences which are at this time affecting, or in the near future may affect, the price of silver. And first among them, of course, is the production. We all know how the United States' supply has increased and is increasing, and yet we think the popular impression puts it at a higher figure than it really is. Statements are published that the production in one month of the "Comstock Lode" has reached over $3,500,000; and it is at once concluded that here alone, in this one district, is a probable supply of $40,000,000 of silver bullion, forgetting that, even if that total production for the year is reached, about 45 per cent. of it is gold. In a word, then, there is little reason to suppose that the quantity of pure silver which the United States will furnish this year can exceed 40 million dollars from all sources. Even back in 1873 the production reached over 35 millions. Thus we find that our present supply is very far from limitless—not so very much in excess of what it has been, as some imagine. And, taking all other producing countries together, the prospective contribution from them cannot be more than the United States' supply. We thus see that there is nothing in the present production itself to so materially disturb values. The very low price reached must have been a temporary result of the considerable amount thrown upon the European markets, by reason of the German coinage operations, disturbing as it did men's minds as to values, and leading to a general "bear" movement.

After this spasm then has passed, what influences are likely to operate by increasing the demand in the near future? First, we have our own currency wants to supply, and for those we should require nearly the year's production of our mines. This, certainly, is a very important element in the question of price, and, if it were not for the amount of silver being set free in Germany, would necessarily have a disturbing influence upon values. As it is, is it unnatural to suppose that the tendency of the market from this cause will be towards firmer rates?

Then, again, France may see fit to resume specie payments any day, and if she were to do it, her silver wants are likely to be large. The London *Economist*, of March 18, referred at considerable length to this feature of the question, showing quite clearly that if silver remains relatively low this, new demand is, in the event mentioned, likely to assert itself. The French mint coins the two

metals at the proportion of 15½, which is about 60¼d. for an ounce of silver, whereas the market price to-day is 53¾d. In the Bank of France there is now about 250 millions of gold and 100 millions of silver. Says the *Economist:* "If the Bank of France could sell its gold for silver at "the present price, it would get a large profit; it would "have done a capital bullion transaction on a magnifi- "cent scale, and the shareholders would be large gainers "in consequence. In 1860, the Emperor Napoleon, to "whom the accounts of the Bank of France were then "constantly submitted, would not permit this natural "remedy to be tried, and, therefore, the Bank of France "had to forego the profit, and to change away the dearer "metal with the Bank of England. But now there can "be no choice; the sums to be dealt with are so large "that no such palliative by exchange can be thought of. "If cash payments are to be resumed in France, large "sales of gold for silver must precede and accompany "it."

It is also possible that the depreciation in the price of silver may lead to some preparations in Italy or Austria or Russia for a specie resumption, and the aim of those countries would necessarily be to reach a silver standard. We only refer to this as a possible contingency. They have all suffered long from a depreciated paper currency. And we suggest it in connection with the idea which largely prevails in Europe, that the production of silver will go on increasing. We notice that M. Chevalier, in a recent number of the *Revue des Deux Mondes*, takes the position that silver production is capable of indefinite expansion. He quotes from "Humboldt's New Spain," a passage in which this opinion is plainly expressed regarding the Mexican mines, and gives a statement of M. Duport, who travelled in Mexico subsequently to M. Humboldt, and who takes the same view. Until Mexico, however, can enjoy a better government than she now possesses, these speculations seem to us of very little value. We think it is far more likely that the countries we have named will require silver for currency than that Mexico, with its present government and the present depreciation in price prevailing, will increase its supply of silver.

These are some of the more prominent facts and possibilities which are involved in the discussion of this question. It is suggested, also, that France may discard silver. Her double metallic system is condemned by her leading writers; but, for reasons we have not the space to refer to now, we think such a change is unlikely to be made for many years. We reach, then, one conclusion from the foregoing which interests us especially, and that is, having now adopted the plan of a silver fractional currency, we shall, in case silver materially rises in value, ensure its permanency alone by a steady progress towards gold redemption for our greenbacks; and to that end it becomes us now to devote ourselves.

## TAXATION OF BANK SURPLUS.

It will be remembered that in December last we expressed ourselves very decidedly with regard to the impolicy of the taxation, by the State authorities, of the Surplus of the Banks. Early in the year, the Clearing-House, after futile efforts with the tax assessors, brought the whole subject to the attention of the Legislature, and have been waiting for some favorable action, but, up to this time, in vain. Consequently, at a large meeting of bank officers held at the Clearing-House on Tuesday of this week, the following admirable resolutions, offered by Mr. Coe, President of the American Exchange Bank, were unanimously adopted:

*Resolved*, That the officers of the banks composing the Clearing-House Association consider it to be their duty, and they will recommend to their respective institutions, to earnestly contest, by all legal means, the right claimed by the Tax Commissioners of the city of New York to assess the shares of bank stock to the extent now proposed, and for the following, among other reasons:

*First*—That the assessment is in excess of the authority given by Congress to tax the shares of National banks: "but not at a greater rate than other moneyed capital."

*Second*—That the proposed tax is upon a valuation having no respect to the convertibility of bank shares in the market, and one that is not applied to any other species of property.

*Third*—That while in all other forms of personal property the right of deducting Government bonds and of offsetting debts due by the party taxed, is admitted, it is in respect solely of bank shares absolutely denied.

*Fourth*—That the tax proposed is so oppressive that it may compel the banks to divide their surpluses among shareholders just at a time when they are most needed to meet the losses continually occurring to them by failures of business houses, and to provide for the peculiar extingencies of the commercial community in returning to specie values.

*Fifth*—That it will drive out of the city a large amount of capital from abroad invested in shares of city banks, which now contributes a great amount to State and city taxes.

*Sixth*—That such oppressive taxation will tend to diminish the power of the banks to such an extent that they cannot furnish the guarantees required to retain the confidence and the deposits, as hitherto, of the country at large, and it will, therefore, add a new influence to many others now operating to lessen the importance of the city of New York as a commercial metropolis.

*Seventh*—That the proposed assessment is not only an unequal tax upon the banks themselves, but that it will operate as a special and oppressive burden upon the commercial community, and is, therefore, subversive of the very purposes of taxation.

*Resolved*, That the legal counsellors of the various banks be requested to meet Judge Emott, the counsel of the Tax Committee, at the Clearing-House, on Wednesday (to-morrow), at 3 o'clock, to confer together upon such method of legal proceedings as shall most effectually meet the necessities of the case.

There is a feeling which to some extent prevails, that all which can be obtained from corporations by taxation or free services is lawful gain, and a saving to other taxpayers or the general public. So in some of the Western States, a few months back, it was believed that railroads could and must be made to serve the people indefinitely; but in that case a little experience appeared to throw new light on the subject, and the error was soon seen and acknowledged. With the same spirit, we find frequently laws proposed to cripple insurance business. At present, however, the popular delusion is that banks are the recipients of many favors, and give the public nothing in return. Therefore, as their gross capital is large and easily reached, taxing and weakening them is considered to be a good service. It surprises us, however, that men of the intelligence of our State assessors should be engaged in such a work, for we certainly had supposed they were above pandering to a popular prejudice.

Many of our readers do not probably understand the precise question at issue; and hence a few words of explanation will be of advantage.

It will be remembered that, in the Currency Act of 1864, it was provided by Congress that each National Bank "shall, before the declaration of a dividend, carry "one-tenth of its net profits of the preceding half year "to its surplus fund, until the same shall amount to "twenty per centum of its capital stock." This provision is obligatory upon all the National Banks, and many of our institutions, not only National, but State banks, have felt so strongly the importance of the principle here established, that their surplus now far exceeds the twenty per cent required by the act. These accumulations have been looked upon with great favor, as they so largely add to the stability of our banking system; and especially should they be favored, and their increase encouraged, at a time like the present, when so many uncertainties hang about the future. In our return to specie payments, the banks must necessarily bear a heavy strain. The commercial community suffers or profits in proportion as the banks are weak or strong when the trial comes; for they are the groundwork, or, perhaps, more accurately speaking, the nervous system of our whole

business organization. Dare we think what a disaster it would have been had our banks failed in the panic of 1873! We see, therefore, how every man is personally interested in sustaining each feature of our banking system which adds to its stability.

The latest State legislation on this subject of taxing banks is in the New York State Laws of 1866, and is as follows: "No tax shall hereafter be assessed upon the "capital of any bank or banking association organized "under the authority of this State, or of the United "States, but the stockholders in such banks and banking "associations shall be assessed and taxed on the *value* of "their shares of stock therein * * * but not at "a greater rate than is assessed upon other moneyed "capital in the hands of individuals in this State." The wording of the law of 1865 was that the assessment should be on the "*par value*," whereas it will be seen that the law of 1866, which is the present law, reads "on the *value*." This, however, has always been interpreted to mean *par* value, and all taxes have been assessed on that basis, until the past year, when suddenly it was discovered that it could be made to mean something else. Consequently, now the advertised capital and surplus are taken as the standard of value. Of course, to make up that surplus, there will, in almost every bank, be doubtful debts; and if any of the banks were to go into liquidation, probably in no case would the shareholder realize the full capital and surplus. The only true guage of the value of a share of stock is what it will sell for in the market—and, if the statute is to be interpreted to mean the *actual* value and not the *par* value, the assessors clearly should have taken the stock list and based their assessment on the average price for the year. But this did not suit, because there would be nearly as much lost on the stocks that were below par, as gained on those which were above. There would, however, have been, in the law, the semblance of authority for such a proceeding, whereas now there does not seem to be the least basis or excuse for the action taken. Besides, this action appears to be in direct violation of the United States law.

But we forbear entering upon the legal questions involved. It is sufficient to know that the assessors were in no way required by the State law to take the step they have taken, that law having rested, without any protest from the Legislature, under a different construction for ten years; and that public policy, and the interest of every business man in the State, demand that the banks be left free to increase their surplus, and not be driven by taxation to divide it among their shareholders. There is no law to prevent the State banks making such division at once; and the National associations can also, in the same way, bring their accumulations down to twenty per cent. In fact, all this is being done now. Surely, no one ever heard of a better device for placing a premium on bad banking.

But it may be asked, should there be no limit to these untaxed accumulations? We reply, that very likely there should be. To say, however, where the line is to be drawn, is an extremely delicate question; one, in the solution of which, the public safety is first to be considered. The Legislature should approach it with great deliberation and care, and clearly define and indicate its judgment and determination. It is of far more importance that our banks be prepared for every possible contingency, than that we should obtain from them a few dollars more or less by taxation. And especially is it ill-judged for assessors to take a law, not intended for any such purpose and which has borne a different interpretation since 1866, and suddenly construe it so as to work an entire change in the banking policy of the Nation. These institutions owe it to the public, as well as to themselves, to contest the question, and we are pleased that they have entered upon the work with so much spirit.

## NEW ORLEANS EXPORTING BREADSTUFFS.

The work of Captain Eads, in deepening the water at the mouth of the Mississippi River with his jetties, is rapidly growing in interest as its success becomes more assured; for, with success, we can scarcely over-estimate the resulting benefits to the country. A telegram, dated the 15th instant, states that careful soundings through the jetties, made last Friday, show the least depth of water to be 15½ feet clear. A depth of 22 feet extends 1¾ miles from the upper end of the jetties to within about half a mile from the deep sea. In this half mile there are several hundred feet of 22 feet depth. Half way down the jetties there are 32 feet of water in one locality, and several hundred feet of 26 feet and 28 feet. The 15½ feet shoal will be gone, the telegram states, by the 1st of May, when they will have a channel, at least 20 feet deep, through to the sea.

These facts indicate very satisfactory progress and a very hopeful prospect. If the end sought can be really attained—and there is every reason now to suppose it will be—we look for a decided change in the business at New Orleans. Of course, all trade channels work themselves into importance, like Captain Eads jetties, slowly. As is well known, however, the bar at the mouth of the Mississippi River, has always prevented any considerable development in breadstuff shipments. Much has been written in the North about wheat and corn heating, when taken that way; but we are persuaded there is nothing in this idea. Remove the bar, that is, give vessels 28 or more feet of water, and, we fancy, after that, there will be very little discussion of the heating question. The trouble is now, that it pays better to take cotton; but with the improved channel they can carry a mixed cargo, and make more money. For instance, the Mississippi & Dominion steamers, which run between New Orleans and Liverpool, are never loaded to their carrying capacity. They fill up with cotton, and load down to, say, 19 feet; but, remove the bar, and they will carry just about the same amount of cotton, and put in wheat as dead weight, loading down to 22 feet. This is simply an illustration of a general, well-known truth. Now, suppose we add to it one further fact, stated to us by a New Orleans friend who proposes to do it himself as soon as the difficulty at the mouth of the river is removed—that is, bring wheat to New Orleans from Cairo at three cents a bushel. Very possibly this is a little overdrawn, and may not be realized; but our informant's plan contemplates the construction of a peculiarly made boat, with a double bottom, which will permit its return up the river without too much resistance from the current. We might add that the person we refer to is a man whose business capacity has been demonstrated by a success few attain, and possessing energy enough to prove (if we did not know to the contrary) that his birth was among the New Hampshire hills.

But, aside from this individual promise, is it not reasonable to suppose that, after the Mississippi is opened at its mouth and low freights to Europe for breadstuffs become a possibility, some inexpensive mode of floating wheat down that river will be adopted, so as to save to the producer several cents a bushel, and solving the question of cheap transportation for the extreme

Western section? We are persuaded that there is much in this idea, and that the future of New Orleans, as a large exporter of grain, is very promising. The people themselves are not much more than beginning to understand the situation. It is not their fault, though, but the fault of a base, corrupt power, which has held their energies in check while stealing the little they did make. Now, however, this is being changed. Carpet-bag rule is at its last gasp, and we may soon hope to see that beautiful, fertile portion of our country left free to develop its wonderful resources.

New Orleans is also in other respects in a position now to be benefitted by any improvement in her surroundings. Not only is she gradually obtaining the blessings of good government, but she has arranged her city debt which has long been troubling her. The States which are her near neighbors, and in great part tributary to her, have also been able to throw off their imported officials, and are free now to develop their resources. A good illustration of the results likely to flow from this change, may be seen in the history of Arkansas the past twelve months. In the manufacturing business she has likewise made a very favorable beginning, the Lane cotton mill in the city having, as we are informed, made 30 per cent. dividends this year, and the cotton mill at Wesson 40 per cent. Then, again, efforts are being made by her people to open up the surrounding country; an illustration of this is seen in the projected railroad from Alexandria, on the Red River, to Marshall (part of the New Orleans & Texas Pacific Railroad), which is all graded from Alexandria to Mansfield, and the city proposes to tax itself to buy the rails, and hopes to have it finished for the next crop year. Should this be accomplished, about 80,000 bales of cotton, it is expected, will be added to the New Orleans receipts, and, besides this, the more important point will be gained of tapping the magnificent wheat-growing district of Northern Texas. Altogether the prospect is certainly very promising, and if Capt. Eads shall succeed in the work he has undertaken, the whole country will have cause to rejoice, while New Orleans will be pretty sure to find its eleven miles of water front well occupied.

## PETROLEUM—ITS POSITION AND PROSPECTS.

Trade in petroleum has, during the past few months, been going through what may be designated as a crisis in its history This is true of production and home consumption, as well as the foreign demand. Hence a review of the leading facts bearing upon the present position of this important article—the relation of supplies to demand, the prospective production, and the more recent course of prices—seems to be called for.

The production of petroleum increased very rapidly down to 1874, as may be seen in the following statement of production for seven years:

| Year. | Bbls. | Year. | Bbls. |
|---|---|---|---|
| 1869 | 4,210,000 | 1873 | 7,879,000 |
| 1870 | 5,678,000 | 1874 | 11,589,000 |
| 1871 | 5,715,000 | 1875 | 8,780,000 |
| 1872 | 6,532,000 | 1876, to April 1 | 2,345,000 |

In January, 1875, the yield was 852,000 bbls., from which it fell to 713,000 bbls. last December, and has since slightly increased, averaging 23,251 bbls. per day for the first three months of 1876. Consumption and export have also increased very rapidly, but not so rapidly as production, and there was, down to the summer of 1875, a very marked decline in prices, of which the annexed is an exhibit by years:

COMPARATIVE PRICES OF PETROLEUM AT NEW YORK FOR A SERIES OF YEARS.

| | In Bulk, Crude. Cents per gal. | In Bbls., Refined. Cents per gal. | Shipping order Naphtha. Cents per gal. |
|---|---|---|---|
| 1869 | 18·25 | 32·73 | 10·33 |
| 1870 | 13·93 | 26·35 | 9·83 |
| 1871 | 14·04 | 24·24 | 10·01 |
| 1872 | 12·80 | 24·75 | 14·81 |
| 1873 | 7·62 | 19·21 | 11·07 |
| 1874 | 5·92 | 13·09 | 9·04 |
| 1875 | 6·59 | 12·99 | 9·87 |
| 1876, to April 1 | 8·35 | 14·24 | 9·12 |

The lowest prices were reached in August last, when crude in bulk averaged 5.31c., and refined in shipping order 11.40c. The reduced production began to be felt then, giving rise to considerable speculation, with an advance of about three cents per gallon. The reduced production was the result of a contraction of work in boring new wells, and the extent to which this was carried by a combination among those who are proprietors of the petroleum lands is exhibited in the annexed table:

NUMBER OF WELLS IN PROCESS OF DRILLING AT VARIOUS DATES.

| Year. | Jan. 1. | April 1. | July 1. | Oct. 1. |
|---|---|---|---|---|
| 1869 | 378 | 292 | 305 | 331 |
| 1870 | 364 | 433 | 349 | 305 |
| 1871 | 167 | 231 | 386 | 426 |
| 1872 | 469 | 301 | 390 | 361 |
| 1873 | 361 | 177 | 340 | 163 |
| 1874 | 37 | 213 | 186 | 82 |
| 1875 | ... | 64 | 108 | 170 |
| 1876 | 340 | 450 | ... | ... |

It would appear from the above that the work has been renewed on the most extensive scale, and probably the dulness and depression in the principal markets which have prevailed for the past month, may be attributed as much to the prospect which is thus afforded that production will be increased materially, as to the fact that present prices are relatively high. There is another circumstance which causes dulness. The trade has become so well regulated, and the nature and sources of the supply so well understood, that it is not regarded as necessary to carry excessive stocks, and yet the stocks of petroleum at sources of supply on February 1st, for the past three years, were: In 1874, 1,283,000; 1875, 4,497,000; 1876, 3,735,000 bbls. But there are reduced supplies in Europe, the stocks at the six principal European markets being: December 31, 1874, 523,757 bbls.; Dec. 18, 1875, 380,254 bbls.; April 1, 1876, 172,362 bbls. This reduction would indicate an increased consumption, for our exports have been well maintained, as may be seen from the following statement of total exports from the United States for three years:

| Exports. | 1873. Gallons. | 1874. Gallons. | 1875. Gallons. |
|---|---|---|---|
| Crude | 19,643,710 | 14,430,851 | 15,141,295 |
| Refined | 209,021,305 | 208,635,382 | 201,471,470 |
| Naphtha | 10,250,547 | 10,617,268 | 13,799,112 |
| Total | 238,915,592 | 213,683,401 | 232,411,817 |

Germany has been and continues to be our chief foreign customer for petroleum, taking forty-two million gallons from this port in 1874, exclusive of a considerable proportion of ten million gallons which were cleared to "Cork for orders." The United Kingdom took twenty million gallons, exclusive of some portion of that which went to Cork for orders. France about eleven million gallons; the Mediterranean and Baltic ports were free buyers; Australia, China and the East Indies took nearly twelve million gallons; the West Indies about three millions; and Brazil about three millions; but other countries of South America are not yet awake to its cheapness and excellence as an illuminating fluid. The greatest increase in the exportation has been of late to Liverpool and London. These two cities took from this port only 3,324,000 gallons in 1871; but in 1874 our shipments to them were 15,642,000 gallons. The shipments from New York to Sweden in 1872 were only 100,230 gallons, but in 1874 they were 4,186,619 gallons. The exports of petroleum from New York in 1875 were some ten million gallons smaller than in 1874, but there was at the same time an increase of about eight million gallons to German, French and English ports, leaving a falling off of eighteen million gallons to be distributed among the Baltic and Mediterranean ports and the more distant or inconstant markets of the world; which deficit was in part made good, however, by more liberal shipments from other ports of the United States; and it is to be noted that China and Japan increased the quantity shipped to them from New York.

It will be observed that the price of naphtha has not followed the fluctuations in crude and refined petroleum, and that the export for 1875 was much larger than in either of the two preceding years. Germans invented a lamp, in which, it is stated, that naphtha may be safely burned; and at one time it was employed to a considerable extend in the manufacture of gas, but the indifferent results produced, and the lower prices of coal and other articles employed in gas works, have caused naphtha to be used less freely than formerly.

The conclusions to be drawn from this array of facts are not very obvious, and do not open up the near future of prices very clearly. Yet some assurance may be felt that prices at least are not likely to experience so great a decline as occurred in the summer of 1875. The producers have demonstrated to themselves and to consumers, what may be acomplished by concert of action in reducing production. Petroleum is an article of such acknowledged merit that its consumption is quite certain to increase, till

its cost shall become so great as to make other means of illumination comparatively cheap. Its substitution for gas, in the large cities, is a fact of much significance. Even at the current production of about 700,000 bbls. per month, the demand seems to be fully equal thereto. It is very probable, from the activity with which the work of drilling wells has been resumed, that current prices are highly remunerative, and that some decline is expected, and even desired, as a means of stimulating the demand to meet the increased production which will no doubt take place. It will be an interesting question, how far the new wells will add to the supply. Should the increased yield be considerable, efforts to extend the knowledge of the article and increase its consumption will be encouraged, as assurance will be afforded that supplies may be increased with the growth of the demand.

[From our own correspondent.]

LONDON, Saturday, April 8, 1876.

The Chancellor of the Exchequer delivered his Budget speech on Monday evening, and regretted that it fell to his lot to propose additional taxation. The only increase, however, is in the income tax, which is to be augmented to the extent of one penny in the pound, or from 2d. to 3d., from which all incomes of £100 per annum and under are to be exempt, while those up to £400 per annum are to undergo a ratable deduction. It is anticipated that the extra sum obtainable from this additional charge will amount to £1,480,000, the result of which will be that a presumed deficiency of about £800,000 will be converted into a surplus of £368,000. The total revenue for the coming year is estimated at £78,412,000, and the expenditure at £78,044,000. The principal increase will be in the expenditure for the army and navy, the necessity of which Sir Stafford Northcote regretted, but which he regarded as indispensable in the interests of the country. The army is to cost next year as much as £15,282,000, and the navy, £11,289,000. The public do not appear to have expected an increase in the income tax; but, as the tax will only amount to 3d. in the pound, not much has been said about it.

Mr. Cave's report upon the finances of Egypt has been published, but it does not contain very much that is new. It confirms, however, the popular opinion that the Government of the country has borrowed in excess of its means, and that great care will be necessary to avoid drifting into bankruptcy. Mr. Cave says, however, that, with the exception of the Suez Canal, Egypt has very little to show for the money she has borrowed, a remark which is not only new, but is disappointing to the bondholders, as the opinion was very general that the Government had made very fair use of the proceeds of the various loans. The accounts have been kept in a very slovenly manner, and it is evident that recent loans were simply acquired for the purpose of paying off existing liabilities. With regard to the loan issued in 1873, it is mentioned that it was contracted for the express purpose of clearing off the floating debt, which then amounted to £28,000,000. The nominal amount of that loan was £32,000,000, which was reduced to an apparent effective of £29,740,077, of which, however, £9,000,000 was paid in the bonds of the floating debt. "These bonds," it is added, "purchased by the contractors at a heavy discount, and sometimes at a price as low as 65 per cent, were paid into the Treasury at 93 per cent, an operation which materially enhanced the profits accruing to the negotiators of the loan." The floating debt was, in consequence, not paid off at all, and even now amounts to the heavy total of £18,243,000. In addition to this, every resource has been drawn upon and there is nothing further to hypothecate. This is evidently a gloomy condition of affairs, and the prospect is equally discouraging, for the Khedive has sacrificed permanently 50 per cent. of the revenue from the land tax, in order to meet his present and pressing needs. Under these circumstances, any loan for Egypt or doubtful States is altogether out of the question. Egypt will find great difficulty in re-establishing her credit. Prosperity, resulting from abundant harvests of cotton and cereals, will, of course, aid her materially, but the country is not an inviting one, and the progress must be slow. The fear is that Egypt is so low in financial embarrassment, that many years of extreme carefulness and watchfulness over the revenue and expenditure are necessary; while more honesty is imperative amongst the various officials, who, it is feared, from the insecurity of their positions, have, like in most Eastern countries, enriched themselves when they had the opportunity. To break through these abuses and to inaugurate a sound system of finance, will undoubtedly be an arduous task; not only because heavy liabilities exist, and the revenue is inadequate to meet them, but because, also, Egypt is wanting in men of capacity to propose and carry out the requisite reforms.

The directors of the Bank of England have, this week, reduced their *minimum* rate of discount from 3½ to 3 per cent. The movement was very generally anticipated, as the demand for money was on a restricted scale; the supply of floating capital was increasing, owing to the payment of the dividends, and gold was accumulating somewhat rapidly in the vaults of the Bank of England. The prospect is that money will remain easy for a long time to come. Trade remains exceedingly quiet, and there is but little prospect of new schemes being introduced to public notice, which will have the effect of causing money to leave the country. There is likely, therefore, to be a very restricted inquiry for money during the summer months, and hence low rates of discount must indubitably prevail. The quotations for money are now as follows:

| | Per cent. | Open-market rates: | Per cent. |
|---|---|---|---|
| Bank rate..... | 3 | 4 months' bank bills..... | 2⅝@2¾ |
| Open-market rates: | | 6 months' bank bills..... | 2⅝@2¾ |
| 30 and 60 days' bills..... | 2¾ | 4 and 6 months' trade bills. | 3 @3⅛ |
| 3 months' bills..... | 2¾ | | |

The rates of interest allowed by the Joint-stock banks and discount houses for deposits are now as under:

| | Per cent. |
|---|---|
| Joint-stock banks..... | 2 @... |
| Discount houses at call..... | 2 @... |
| Discount houses with 7 days' notice..... | 2 @2½ |
| Discount houses with 14 days' notice... | 2 @2½ |

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland cotton, of No. 40's Mule twist, fair second quality, and the Bankers' Clearing House return, compared with the previous four years:

The proportion of reserve to liabilities at the Bank now amounts to 45⅝ per cent, against 45 1-3 per cent last week.

There has been a fair arrival of gold during the week, and, in the absence of an export demand, some considerable sums have been sent into the Bank. The silver market has been scarcely so firm, notwithstanding that the Bank of Calcutta has raised its rate of discount to the high point of 11½ per cent. The price of fine bar silver is now 53⅝d. to 53½d. per ounce. Mexican dollars are quoted at 52½d. per ounce. The usual periodical sale of bills on India was held at the Bank of England on Wednesday, but, as the tenders were below the price at which the Government of India could entertain them, no allotment was made. The steamer for the East has taken out £230,916 in silver.

The following are the rates for money at the leading cities abroad:

| | Bank rate. | Open market. | | Bank rate. | Open market. |
|---|---|---|---|---|---|
| | per cent. | per cent. | | per cent. | per cent. |
| Paris | 4 | 2¾ | Brussels | 3 | 3 |
| Amsterdam | 3 | 3 | Turin, Florence and Rome | 5 | 4¾ |
| Hamburg | ... | 3 | Leipzig | 4 | 3¼ |
| Berlin | 4 | 3 | Genoa | 5 | 4¾ |
| Frankfort | 4 | 3 | Geneva | 3½ | 3¾ |
| Vienna and Trieste | 4½ | 4½ | New York | ... | 4½@6 |
| Madrid, Cadiz and Barcelona | 6 | 6 | Calcutta | 11½ | .... |
| Lisbon and Oporto | 4 | 3½ | Copenhagen | 5 | 5 |
| St. Petersburg | 5½ | 5½ | Constantinople | .... | ... |

The amount of business in progress in the stock markets has been very moderate, and rather a dull tone has prevailed. The principal movement has been in Egyptian Government securities, which have been depressed upon Mr. Cave's report, but the tendency of values has, in other respects, been adverse. The public have been operating to a very moderate extent, while only those speculators who enjoy the reputation of being wealthy have been able to operate to any considerable extent. Much caution naturally prevails, and this is a condition of affairs which is likely to last.

The closing prices of the principal American securities at today's market, compared with those of Saturday last, are subjoined:

We have enjoyed a week of remarkably fine weather, and the farmers have been able to make rapid progress with spring sowing. The effects of the recent heavy rains are passing away, and, indeed, on the high lands, a genial shower would do good. The prospect is certainly more encouraging, and there is no reason to believe that the harvest, taken as a whole, will be a deficient one. A large crop of wheat, however, is impossible, as the area of land under that cereal is small. Experience has taught us that we can now supply our deficiencies at a very moderate cost, and the public now pay but little attention to deficient harvests. The farmers, however, complain bitterly, and it is a well-known fact that there are many excellent farms to let, for which it is difficult to find tenants. The low price of wheat and the foot-and-mouth disease have frightened capital away from agriculture; and, unless farming should become more profitable, the productions of the soil in this country will diminish.

The trade for wheat during the week has been very quiet, but there has been no material change in prices. Choice qualities of produce have chiefly attracted attention and have been steady in value.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest, viz., from September 1 to the close of last week, compared with the corresponding periods in the previous three years:

| | 1875-6. | 1874-5. | 1873-4. | 1872-3. |
|---|---|---|---|---|
| IMPORTS. | | | | |
| Wheat cwt. | 31,953,973 | 21,632,445 | 26,815,349 | 29,089,470 |

| Indian Corn | 13,316,415 | 8,630,298 | 9,229,245 | 12,768,062 |
| Flour | 4,032,167 | 4,203,218 | 4,131,454 | 4,468,797 |
| EXPORTS. | | | | |
| Wheat cwt. | 163,287 | 172,163 | 1,522,232 | 139,140 |
| Barley | 18,898 | 151,690 | 227,755 | 10,144 |
| Oats | 173,659 | 42,674 | 67,086 | 10,638 |
| Peas | 24,9 8 | 15,482 | 9,364 | 5,483 |
| Beans | 5,732 | 1,470 | 2,332 | 1,042 |
| Indian Corn | 31,398 | 86,756 | 94,209 | 20,802 |
| Flour | 13,822 | 41,633 | 94,551 | 13,199 |

The returns for the week ending April 1 show that in that week 41,346 quarters of wheat were marketed in the 150 principal markets of England, against 46,699 quarters last year. In the whole Kingdom, it is computed that the sales were 165,400 quarters, against 186,800 quarters in 1875. Since harvest the sales in the 150 principal markets have been 1,410,365 quarters, against 1,862,243 quarters; and in the whole Kingdom, 5,641,460 quarters, against 7,449,000 quarters in 1874-5. It is estimated that the following quantities of produce have been placed upon the British markets since the commencement of last September:

| | 1875-6. cwt. | 1874-5. cwt. | 1873-4. cwt. | 1872-3. cwt. |
|---|---|---|---|---|
| Imports of wheat since harvest | 31,953,973 | 21,632,445 | 26,815,349 | 29,089,470 |
| Imports of flour since harvest | 4,032,167 | 4,203,218 | 4,131,454 | 4,468,797 |
| Sales of English wheat | 25,386,570 | 33,520,460 | 28,733,900 | 29,359,230 |
| Total | 61,372,710 | 59,354,063 | 59,680,703 | 62,917,497 |
| Deduct exports of wheat and flour | 157,109 | 213,796 | 1,616,863 | 152,339 |
| Result | 63,185,601 | 59,241,267 | 58,063,843 | 62,765,158 |
| Average price of English wheat for the season | 45s. 10d. | 43s. 1½d. | 61s. 11d. | 56s. 9d. |

Our supplies of foreign wheat and flour during the first seven months of the season, viz., from September to March inclusive, were derived from the following sources:

| From— | 1875-6. | 1874-5. | 1873-4. |

According to the official returns, the value of the cereal produce

imported into the United Kingdom during the first seven months of the season was as follows:

| | 1873-4. | 1874-5. | 1875-6. |
|---|---|---|---|
| Wheat | £17,471,408 | £11,001,070 | £17,811,24 |
| Barley | 2,594,289 | 3,999,038 | 2,427,61 |
| Oats | 2,458,809 | 2,211,612 | 2,352,66 |
| Peas | 281,118 | 483,924 | 429,31 |
| Beans | 822,964 | 677,850 | 956,685 |
| Indian corn | 3,652,305 | 3,518,021 | 4,744,199 |
| Flour | 3,793,029 | 2,653,496 | 3,141,978 |
| Total | £31,079,234 | £24,537,031 | £31,887,286 |

The increase over last season amounts, therefore, to about £7,350,000, or about one million sterling per month.

The Board of Trade returns for March and the three months ending March 31 were issued yesterday. They show the following results:

IMPORTS.

| | 1874. | 1875. | 1876. |
|---|---|---|---|
| In March | £20,748,844 | £20,920,717 | £27,451,253 |
| In three months | 92,875,401 | 89,221,940 | 92,915,097 |
| EXPORTS. | | | |
| In March | 20,100,814 | 18,606,223 | 17,739,101 |
| In three months | 57,802,034 | 53,060,239 | 50,876,118 |

The exports of cotton yarn and cotton piece-goods during the three months were as follows:

COTTON YARN AND TWIST.

# Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a decrease in both dry goods and general merchandise. The total imports amount to $5,063,422 this week, against $7,369,522 last week, and $7,447,171 the previous week. The exports amount to $5,069,395 this week, against $4,523,403 last week and $4,801,300 the previous week. The exports of cotton the past week were 5,220 bales, against 7,376 bales last week. The following are the imports at New York for week ending (for dry goods) April 13, and for the week ending (for general merchandise) April 14:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

| | 1873. | 1874. | 1875. | 1876. |
|---|---|---|---|---|
| Dry goods | $3,300,993 | $1,728,635 | $1,907,731 | $1,659,593 |
| General merchandise | 9,045,615 | 7,541,180 | 4,210,056 | 3,403,829 |
| Total for the week | $12,346,614 | $9,269,815 | $6 117,777 | $5 063,422 |
| Previously reported | 127,179,971 | 121,674,492 | 106,876,291 | 94,614,907 |
| Since Jan. 1 | $139,526,585 | $130,944,307 | $112,994,068 | $99,678,329 |

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports, for the week ending April 18:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1873. | 1874. | 1875. | 1873. |
|---|---|---|---|---|
| For the week | $6,947,560 | $4,309,253 | $5,618,640 | $5,969,395 |
| Previously reported | 74,820,296 | 78,904,463 | 66,782,418 | 69,396,652 |
| Since Jan. 1 | $81,767,856 | $83,218,721 | $72,389,258 | $74,465,047 |

The following will show the exports of specie from the port of New York for the week ending April 15, 1876, and since the beginning of the year, with a comparison for the corresponding date in previous years:

| | | | |
|---|---|---|---|
| Apr. 12—Str. City of Merida | Havana | Spanish gold | $130,120 |
| Apr. 13—Str. Suevia | Hamburg | Spanish gold | 223,400 |
| | | Gold bars | 20,000 |
| | | American gold coin | 225,000 |
| Apr. 15—Str. Nellie Martin | St. John, P. R. | Silver coin | 15,000 |

SILVER PAYMENT.—Secretary Bristow has issued the following regulations:

*Circular instructions concerning the issue of silver coin of the United States in place of fractional currency.*

TREASURY DEPARTMENT, WASHINGTON, D. C., April 18, 1876.

By virtue of the authority vested in the Secretary of the Treasury by the second section of an act entitled "an act to provide for a deficiency in the Printing and Engraving Bureau of the Treasury Department, and for the issue of silver coin of the United States in place of fractional currency," approved April 17, 1876, the several officers below named are hereby authorized, upon the presentation at their respective offices for redemption of the fractional currency of the United States, in sums of $5 or multiples thereof, assorted by denominations, and in amounts not to exceed $100, to issue therefor a like amount of the silver coin of the United States of the denomination of 10, 20, 25, and 50 cents; and furthermore, upon the presentation for redemption at the office of the Secretary of the Treasury of the United States in this city, of any amount of such currency properly assorted, and in sums of not less than $5, the Treasurer is authorized to issue silver coin therefor to the amount of the currency presented; or he may issue his check therefor, payable in silver at either of the offices hereinafter named, at the option of the party presenting the currency, as far as may be practicable from time to time. Fractional currency redeemed in silver under these instructions by any of the Assistant Treasurers, or any designated depositories of the United States, will be sent in sums of $1,000 or multiples thereof to the Treasurer of the United States, in this city, the amount to be charged in the Treasurer's general coin account as a transfer of funds, and any amount of such currency, for which silver has been paid, remaining at any time in the cash of the several offices, will be treated as coin assets, and in no case will such fractional currency be reissued.

Fractional currency sent by express or otherwise to the officers below named for redemption in silver, under the provisions of this circular, should be accompanied by a letter of advice, stating fully the address of the sender and how the remittance in payment therefor is desired, and, if by Treasurer's check, the office at which the check should be made payable. The Government will not pay express charges on the silver issued or the fractional currency presented for redemption under the provisions of this circular. The offices herein referred to are as follows: The Treasurer of the United States at Washington, D. C.; the Assistant Treasurer of the United States at Boston, Mass.; the Assistant Treasurer of the United States at New York City; the Assistant Treasurer of the United States at Philadelphia, Pa.; the Assistant Treasurer of the United States at St. Louis, Mo.; the Assistant Treasurer of the United States at Charleston, S. C.; the Assistant Treasurer of the United States at New Orleans, La.; the Assistant Treasurer of the United States at Cincinnati, Ohio.; the Assistant Treasurer of the United States at Chicago, Ill.; the Assistant Treasurer of the United States at San Francisco, Cal.; the Assistant Treasurer of the United States at Baltimore, Md.; the United States Depository at Buffalo, N. Y.; the United States Depository at Pittsburgh, Penn.

B. H. BRISTOW, Secretary.

NEW HOUSTON CITY BONDS.—The Houston (Tex). *Telegraph* says:

It is known to our citizens that during the past week quite a number of cases of the city against delinquent tax-payers have been tried in the District Court. In one of these cases, tried on Friday, the question of the city's power and authority to create a sinking fund of one per cent to pay the interest on the consolidated bonds was raised. Judge Masterson ruled that the Court refused in any way to interfere with this one per cent sinking fund, and further ruled that the city had the power and authority, under the law, to arrange with its creditors and issue this consolidated bond. In other cases, the Court also denied the right of parties to offset their taxes in coupons of the old bonds. This settles the legality of the city's action in compromising with its creditors, funding its debt and issuing a new bond therefor.

## Allegheny Valley.

(*For the year ending Dec.* 31, 1876.)

The annual report has the following:

EARNINGS.

| | 1875. | 1874. |
|---|---|---|
| From freight | $1,895,207 20 | $1,823,506 27 |
| From passengers | 421,764 47 | 408,100 26 |
| From express | 17,750 59 | 14,040 26 |
| From mail | 25,292 71 | 11,280 35 |
| From rents | 4,835 54 | 5,565 12 |
| From miscellaneous | 34,789 97 | 27,179 74 |
| Total | $2,399,638 48 | $2,389,166 48 |
| Showing an increase of | $10,166 48 | |

EXPENSES.

| | 1875. | 1874. |
|---|---|---|
| For conducting transportation | $312,807 66 | $375,106 60 |
| For motive power | 315,031 18 | 365,725 62 |
| For maintenance of cars | 126,927 67 | 133,672 23 |
| For maintenance of way | 557,375 14 | 506,135 11 |
| Total operating expenses | $1,342,141 65 | $1,380,638 96 |
| General expenses and taxes | 72,854 70 | 90,145 70 |
| Total expenses | $1,414,996 35 | $1,470,784 73 |
| Being a decrease of | $55,788 38 | |

Net earnings for 1875 are $984,642 15, an increase over 1874 of $65,954 86.

The percentage of expenses show a decrease of 1.85 per cent. over 1874.

RIVER DIVISION (PITTSBURGH TO OIL CITY).—The expenses and net earnings of this division show as follows: Expenses, $1,139,935 40; net earnings, $728,258 15, against $821,759 75 in 1874—a decrease of $93,501 60.

LOW GRADE DIVISION.—In this Division, Redbank to Driftwood, the earnings are given at $510,472 65, against $277,242 92 for 1874, an increase of $233,230 75. This increase is largely owing to the fact that this division was only in operation for eight months in 1874; also to the development of the coal traffic along the line.

ASSETS.—The value of the entire lines and equipment is placed at $23,837,683 79; available assets, including shops, materials, cash in hand, and balances due from agents and individuals, $460 703 57.

Added to the above are:

ASSETS.

| | |
|---|---|
| Balance due from Oil Creek & Allegheny River RR. (in bonds) | $158,511 21 |
| Claims in suit | 408,532 43 |
| Balance likely to be charged to construction | 26,784 64 |
| Cost of Buffalo Corry & Pittsburgh Railroad (43 miles) | 501,634 56 |
| Cost of stock in Oil Creek & Allegheny River Railroad Company (41,000 shares) | 1,692,250 00 |
| Cost of stock in Brady's Bend Bridge Company | 90,000 00 |
| Balance of income account (profit and loss) | 661,597 47 |
| Total assets | $27,757,697 67 |

LIABILITIES.

| | |
|---|---|
| Capital stock (43,300 shares) | $2,166,500 00 |
| Funded debt | 17,382,000 00 |
| Increased bonds | 5,403,900 00 |
| Total capital and funded debt | $24,952,400 00 |
| Bonds and mortgages on real estate | 136,443 97 |
| Due railroad companies on current accounts | 133,030 34 |
| Accounts and bills payable | 368,418 56 |
| Amount of coupons advanced for by Pennsylvania Railroad | 1,049,685 00 |
| Interest accrued due January and April, 1876 | 441,379 23 |
| Suspended debt | 676,140 52 |
| Total | $27,757,697 67 |

SUSPENDED DEBT.—Total cost of road up to December 31, 1875, is given at $2,831,683 79.

The settlement of the suspended debt has been made by most of the creditors on the terms of the composition in bankruptcy, the amount remaining unsettled with the close of 1875 being $676,140 52. Of this $111,895 22 is secured debt incurred for the purchase of the Buffalo Corry and Pittsburgh Railroad. The income bonds issued to Dec. 31, 1875, on account of suspended debt and interest amount to $5,403,900. Contributions by the Pennsylvania Railroad, Philadelphia & Erie, and Northern Central Companies to the payment of the deficit in this company's earnings, of the amount needed to pay interest on the income bonds, under the terms of the contract of Oct. 2, 1874, amount to $99,681 89; interest on the income bonds held by individuals has been paid in cash as due, that to the railroads in bonds. The report then alludes to the Oil Creek & Allegheny River road and the Buffalo Corry & Pittsburgh road, in which the Allegheny Valley Railroad owns controlling interests; it concludes by remarking that the present condition of the Allegheny Valley Railroad is better than for years before, and that its operations have been carried on without a serious accident during the year, not a single passenger having been killed or injured during 1875.

**Chesapeake and Ohio Railroad.**—The Committee of Purchase and Reorganization, under date of April 18th, has issued a circular, in which they say that having formally assumed the future direction and management of all matters connected therewith, "It will be the aim of the Committee to perfect the reorganization without unnecessary delay, and in the arrangement of the details to consult the interest and convenience of the bondholders."

"They will co-operate with the trustees of the mortgages in bringing the suits for foreclosure, now pending in the courts of Virginia and West Virginia, to a satisfactory issue, and in securing a decree of sale as early as practicable; they will provide for the deposit of the outstanding bonds, when their surrender becomes necessary, with a responsible trust company or other suitable depository, and the issue of negotiable certificates in denominations to suit the convenience of the owners of the bonds; they will purchase the property when offered for sale, and make the necessary provision for the issue of the new securities and the proper organization of the successor company, and, in general, endeavor to devise and carry out such measures, in accordance with the terms of the plan of reorganization, as will best promote the objects and tend to secure the results for which it is designed."

The committee are gratified to announce that, up to the present time, the holders of $10,512,400 of the first mortgage six per cent. bonds, out of a total of $15,000,000, and $10,892,000 of the seven per cent. mortgage bonds, out of a total of $12,131,000 outstanding, have already signed their assent to the plan of reorganization. The privilege of participation still remains open under the direction of the committee; and there is reason to expect that before the sale takes place the co-operation of the bondholders, and all other parties interested, will be practically unanimous.

| United States Express | $2 | May 1 | Apr. 21 to May 2 |

**FRIDAY, APRIL 21, 1876—6 P. M.**

**The Money Market and Financial Situation.**—The principal events of the past week were the commencement, on Thursday, of silver payments in exchange for fractional currency by the U. S. Treasury; the appearance of Secretary Bristow's circular, inviting proposals for $5,883,000 of the 5 per cent bonds of 1881 on Monday next; and the continued depression in our stock market.

As to the silver payments, there 's little new to be said beyond the details of the matter, which are, chiefly, that no smaller amount of fractional currency than $5 is taken for exchange, and no larger amount than $100 in one lot, is paid out at the Sub-Treasury, larger amounts than $100 being paid at Washington. During Thursday there was paid out altogether about $10,000 to some 150 parties, and to-day about $17,000 to 190 different applicants.

The circular of Secretary Bristow, quoted below, has caused a good deal of discussion, mainly from his limitation of the bids to a minimum of $500,000 each, and the requirement of payment in gold. The objection urged to these provisions, particularly the first one, is that it practically shuts out home investors, and throws the purchase into the hands of bankers—very probably some of the leading houses with foreign connections. There is a difference of opinion between the Secretary and many bankers in this city regarding the effect of this—he thinking that a higher price will thus be obtained, while the latter hold that he could do much better to make the loan popular and accept bids in currency for moderate amounts.

Our local money market has been easy on call loans at 3@4 per cent., and on prime commercial paper at 5@6 per cent. Some of the brokers in paper report a better demand, in consequence of a slight improvement in the tone of feeling in the dry goods section.

On Thursday, the Bank of England made a reduction of 1 per cent. in the minimum discount rate, which now stands at 2 per cent.; the gain in bullion for the week was £394,000, and the slight feeling of uneasiness which was indicated by the dispatches of last week has apparently passed away. The Bank of France gained 14,459,000 francs in specie.

The last statement of the New York City Clearing-House banks, issued April 15, showed a decrease of $186,900 in the excess above their 25 per cent. legal reserve, the whole of such excess being $6,851,975, against $7,038,875 the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

| | 1876. | | | 1875. | 1874. |
|---|---|---|---|---|---|
| | Apr. 8. | Apr. 15. | Differences. | Apr 17. | Apr. 18. |
| Loans and dis. | $261,786,200 | $258,297,900 | Dec. $8,488,300 | $277,964,500 | $293,461,700 |
| Specie | 20 836 800 | 19,400,800 | Dec. 936,000 | 14,013,200 | 23,213,600 |
| Circulation | 16,297,000 | 16,239,100 | Dec. 58,500 | 21,832,800 | 26,840,300 |
| Net deposits | 207,993,300 | 205,542,500 | Dec. 2,450,800 | 218,406,900 | 238,838,900 |
| Legal tenders | 38,700,400 | 38,836,800 | Inc. 136,400 | 50.290,000 | 55.163,900 |

**United States Bonds.**—The absorbing topic in the government bond market has been Secretary Bristow's circular of the 17th, which was as follows:

TREASURY DEPARTMENT,
WASHINGTON, D. C., April 17, 1876.

Under the provisions of an act of Congress approved April 11, 1876, to enable the Secretary of the Treasury to pay the judgments of the Commissioners of Alabama Claims, notice is hereby given that sealed proposals will be received at the Treasury Department until 12 o'clock, noon, on the 24th instant, and opened immediately thereafter, for the sale of five per cent coupon or registered bonds of the funded loan of 1881, authorized by the acts of July 14, 1870, and January 20, 1871, bearing interest payable quarterly from May 1, 1876, in lots of not less than $500,000, to the total amount, $5,883,000. These bonds will be sold for gold, and payment therefor must be made within three days after the acceptance by the Department of the bid. Each bid must be accompanied by a gold deposit of two per cent of the amount thereof, and no bid at less than par in coin will be considered. Payment may be made at the office of the Assistant Treasurer of the United States in New York, and the bonds will be delivered at the Treasury in Washington, or, if preferred, at the office of the Assistant Treasurer in New York, at the expense of the purchaser. The Department reserves the right to reject proposals that are not deemed advantageous to the Government. Proposals should be marked "Sealed proposals for loan," and addressed to the Secretary of the Treasury, Washington, D. C.

B. H. BRISTOW, Secretary.

We have remarked above upon some of the comments which this circular has called forth in banking circles here, but, as to its immediate effect upon the market, it appears that transactions have been stimulated the past few days, and considerable orders have been received by leading bond dealers, including a good many orders from New England. There are numerous reports as to parties who are likely to bid on the whole amount of bonds, and others who will bid for part of them, and among the names mentioned are several national banks and several banking houses with foreign connections.

Closing prices of securities in London have been as follows:

| | April 7. | April 13. | April 21. | Range since Jan. 1, '76. Lowest. | Highest. |

* This is the price bid; no *sale* was made at the Board,

**State and Railroad Bonds.**—The transactions in State bonds have been moderate in volume; Tennessees are steady at former prices; Missouri long bonds are quoted 104½@105; Louisiana and South Carolina consols are both selling about 67¼ to 67½. The Supreme Court of Louisiana has decided the $2,500,000 bonds issued to the Mobile & Chattanooga Railroad to be invalid, and, of course, not fundable. The total amount of consols issued is $9,018,700.

From Nashville it is reported that the State Treasurer has paid the last $50,000 of the State's loan account, and the only floating indebtedness remaining is about $200,000 in State warrants, which the Treasurer will soon redeem.

The District of Columbia 3.65 registered bonds have been placed upon the official list of the New York Stock Exchange. These bonds are issued in sums of $1,000 and $5,000 each in exchange for coupon bonds.

Railroad bonds have met with only a moderate demand, and are generally weaker, in sympathy with stocks. Compared with the higher prices of a few weeks ago, there are several bonds which offer a favorable opportunity for investment purchases.

The following securities were sold at auction:

**Railroad and Miscellaneous Stocks.**—The stock market has continued to show great depression, and on some stocks the lowest prices of the season have been reached. The weakest specialties have been the coal-carrying railroad stocks, New Jersey Central and Delaware Lackawanna & Western, and the trunk lines, Lake Shore and Michigan Central. As to the railroad companies interested in the anthracite coal trade, it is evident that the long depression in all kinds of manufacturing business, assisted by the recent mild winter, has so reduced the demand for coal that even their close combination is not sufficient to keep up receipts. It is also well known that these companies, as a class, have been among the largest borrowers ever since the panic, and their annual interest charge is heavy. On the other hand, they control completely the anthracite coal trade, and it seems but a question of time when the demand for this coal must again increase to such an extent as to pay them large profits. There are many who think that the last dividend payments by New Jersey Central and Philadelphia & Reading were extremely ill-advised.

The disagreement among the officers of leading trunk railroads from Chicago to the East, has been one of the principal causes of depression, and as the matter now rests, it is understood that the combination lately existing is broken up, and each company is making its own rates. The responsibility for this break is commonly charged to Commodore Vanderbilt, but the precise facts leading to the disagreement are not well known. It does not appear that the "war" applies to the roads running to St. Louis,

but recent reports from Chicago stated that the officers of those companies had formed a combination among themselves to keep up rates on business to and from that city. Pacific Mail has been stronger this week, on the payment of taxes due here, and also a payment of $50,000 to the Panama Railroad. Western Union remains without any new development in the war waged by the Atlantic & Pacific Company. Railroad earnings continue good; in the table below we have the reports of ten companies for the second week in April, and these, without exception, show an increase over 1875—they are as follows:

| | 1876. | 1875. |
|---|---|---|
| Canada Southern | $43,355 | $26,081 |
| Chicago & Alton | 96,979 | 95,770 |
| Chicago Milwaukee & St. Paul | 135,000 | 132,668 |
| Indianapolis Bloomington & Western | 28,919 | 22,791 |
| Michigan Central | 133,478 | 131,734 |
| Missouri Kansas & Texas | 55,409 | 45,095 |
| Ohio & Mississippi | 76,912 | 72,090 |
| St. Louis Alton & Terre Haute branches | 10,019 | 9,416 |
| St. Louis Kansas City & Northern | 66,671 | 61,437 |
| Toledo Peoria & Warsaw | 24,973 | 15,190 |
| Total | $675,765 | $612,322 |

Total sales of the week in leading stocks were as follows:

| | Pacific Mail. | Lake Shore. | West'n Union. | Chic. & N'west. | Erie. | Ohio & Miss. | St. Paul. | St. Paul pref. |
|---|---|---|---|---|---|---|---|---|

* Six days in 1875, against seven days last year.

**The Gold Market.**—Gold has shown very little animation, though at one time there was some talk about a possible twist in the market, when the Government sale of bonds takes place next Monday. On gold loans the rates paid for carrying to day were 2, 1¼, and 1 per cent, and loans were also made flat. The payment of silver in exchange for fractional currency is hardly referred to as having any important influence on the gold market. Customs receipts of the week were $2,111,000.

The following table will show the course of gold and operations of the Gold Exchange Bank each day of the past week:

| | Quotations. Op'n | Low. | High | Clos. | Total Clearings. | Balances. Gold. | Currency. |
|---|---|---|---|---|---|---|---|
| Saturday, April 15 | 113¾ | 113¾ | 113¾ | 113¾ | $21,725.00 | $1 075,948 | $1,344,003 |
| Monday, " 17 | 113¾ | 112¾ | 113¾ | 113¾ | 24,886,000 | 1,061,758 | 1,208,194 |

**Exchange.**—The foreign exchange dealings have presented much the same features noticed in our late reports. Rates have been kept at high figures, business has been dull, and on actual transactions figures are considerably below nominal quotations. To-day, there were some outside bills on the market, which sold about 1¼ lower than the asking rates of leading bankers.

The transactions for the week at the Custom House and Sub-Treasury have been as follows:

| | Custom House Receipts. | Sub-Treasury. Receipts. Gold. | Currency. | Payments. Gold. | Currency. |
|---|---|---|---|---|---|
| April 15 | $349,000 | $520,287 00 | $273,668 31 | $54,777 59 | $161,182 86 |

## ANNUAL REPORTS.

### South Carolina Railroad.

*(For the year ending December 31, 1875).*

From the annual report we have the following:

The earnings were:

| | |
|---|---|
| From passage | $229,221 |
| From freight | 931,905 |
| From mail service | 18,176 |
| Total receipts | $1,229,302 |

The expenses have been:

| | | |
|---|---|---|
| For conducting transportation | $260,609 | |
| For maintenance of motive power | 199,730 | |
| For maintenance of way | 208,011 | |
| For maintenance of cars | 66,858 | |
| For general expenses | 45,487 | |
| Total operating expenses | | 780,727 |
| Net earnings | | $448,574 |
| Compared with 1874, the earnings show a decrease of | | $136,669 |
| The expenses show a decrease of | | 69,787 |
| The balance of earnings show a decrease of | | 66,881 |
| The ratio of expenses to earnings is | | 63 50 per cent. |
| The ratio of expenses to earnings in 1874 | | 62 25 per cent. |
| The tonnage movement was | | 264,680 tons. |
| That of last year was | | 270,278 " |
| Difference | | 6,598 " |
| Average receipt from freight, per ton | | $3 75 |
| do do last year | | 4 15 |
| Average cost of moving same, per ton | | 2 24 |
| do do last year | | 2 86 |

As to the decrease in receipts, it is said that the freight earnings of 1875 are $139,874 less than those of 1874. Of that sum $131,568 is apportionable to down, or eastward, and $8,305 to up, or westward freight. In comparison with last year, we have moved, 47,541 bales cotton, 14,314 barrels flour, 46,651 bushels grain, and 6,003 packages mdse., etc., less.

"If to these several quantities we apply a moderate average of our standard tariff rates, we will have obtained in round figures a sum little below $60,000, on account of the deficiency of east bound business, nearly one-half of that deficiency.

"Again, as to west bound business:

"The tables show an increase of tonnage 4,583 tons, and a decrease of earnings of $8,305 72.

"This maintenance of tonnage in the comparison of the West-bound business of the two years is due, first, to the fact of an increased movement of fertilizers, 4,874 tons; and, second, to a very heavy diversion of western produce from the Green Line Route to the Route via Baltimore and Charleston, created by the contest between the Baltimore & Ohio and Pennsylvania Railroads during the year.

"It is gratifying again this year to observe conspicuously prominent a feature of our business, which, in our last report, afforded us just ground of encouragement. We refer to the large proportion of the local to the general business of the Company, in comparison with the through."

In a condensed shape the following results appear:

| | 1874. | 1875. |
|---|---|---|
| All freight West | $467,903 | $442,304 |
| do East | 653,876 | 498,066 |
| Charleston local (West) | 285,898 | 281,002 |
| do (East) | 408,536 | 414,508 |

Showing that whilst there has been a considerable decline in the business passing through Charleston, the business beginning and ending in the city has been fully maintained.

| | | |
|---|---|---|
| The balance of earnings, as before stated, is | | $448,574 |
| Add incidental income | | 1,431 |
| | | $450,005 |
| Against this sum are charged interest on first mortgage sterling bonds and premium on remittance | $103,034 | |
| Do. on first mortgage currency bonds | 67,130 | |
| Do. on second mortgage bonds | 60,270 | |
| Do. on non-mortgage bonds, bills payable | 207,893 | 438,328 |
| Balance transferred to profit and loss | | $11,677 |

The Treasurer's tables show an increase of the bills payable, given in settlement and for purchases, $128,159 06; and an increase of the bond debt from sales first mortgage bonds, and sale and exchange of second mortgages, $81,000; but the general indebtedness has only been increased $63,286 12.

CONDENSED BALANCE SHEET DECEMBER 31, 1875.

### International & Great Northern (Texas.)

*(For the year ending Dec. 31, 1875.)*

The following statistics have been furnished for publication in this paper:

*Road.*

| | |
|---|---|
| Main line laid with track—From Houston to Long View | 236 miles. |
| Branch lines owned—From Palestine to Rochdale | 121 " |
| From Troupe to Mineola | 44¾ " |
| From Phelps to Huntsville | 8 " |
| From Houston to Columbia | 49¾ " |
| Total | 459¼ miles. |

*Equipment.*

| | |
|---|---|
| Number of locomotives | 40 |
| Number of cars for passenger trains | 25 |
| Number of baggage, mail and express cars | 8 |
| 8 wheel cars for freight and construction trains | 661 |

*Earnings and Expenses.*

| | |
|---|---|
| Earnings from passengers | $279,355 |
| Earnings from freight | 1,033,816 |
| Earnings from other sources | 95,130 |
| Total | $1,408,303 |
| Operating expenses and taxes | $792,339 |
| Net earnings | 615,963 |
| Interest on funded debt | 599,350 |
| Other payments from income | 682,62 |

*Assets and Liabilities.*

| | | |
|---|---|---|
| Cost of road, buildings, &c | | $16,082,606 |
| Cost of equipment | | 1,362,521 |
| Other property of the Co.—Stocks and bonds | $1,306,745 | |
| Materials and fuel | 98,259 | |
| Bills receivable | 1,895 | |
| Other current assets | 188,154 | |
| Cash | 42,121 | 1,637,180 |
| Total assets | | $19,082,510 |
| Capital stock paid up | | $5,500,000 |
| 1st mortgage bonds, 7s, gold, due in 1900-1911 | | 7,318,000 |
| 2d and convertible bonds, 8s, due in 1892-1904 | | 4,816,000 |
| Floating debt—Bills payable | $323,789 | |
| Coupons past due | 868,745 | |
| Other liabilities | 545,762 | 1,743,297 |
| Total liabilities | | $19,407,297 |

Directors—Samuel Sloan, New York; Moses Taylor, New York; John S. Barnes, New York; Thomas W. Pearsall, New York; W. J. Hutchins, Houston, Texas; R. S. Hayes, Palestine, Texas; H. M. Hoxie, Palestine, Texas; D. S. H. Smith, Palestine, Texas; Ira H. Evans, Palestine, Texas.

Officers—Samuel Sloan, President; Ira H. Evans, Secretary; D. S. H. Smith, Treasurer; H. M. Hoxie, General Superintendent.

### Morris & Essex.

*(For the year ending Dec. 31, 1875.)*

This company is leased to the Delaware Lackawanna & Western, and makes no annual report. From the returns made to the State authorities of New Jersey, we gather the figures below:

| | | |
|---|---|---|
| Capital stock | | $15,000,000 |
| Funded debt | | 18,112,000 |
| Total | | $33,112,000 |
| Deduct amount expended on new Bergen tunnel and other work, not yet available | $1,313,959 | |
| Sundry assets | 1,320,475 | |
| | | 2,634,435 |
| Balance | | $30,477,564 |

The earnings for the year were as follows, compared with 1874:

| | 1875. | 1874. |
|---|---|---|
| Passengers | $837,192 | $938,383 |
| Freight and coal | 3,289,762 | 2,770,657 |
| Other sources | 193,396 | 237,114 |
| Total earnings | $4,340,350 | $3,946,161 |
| Maintaining road | 690,264 | 550,998 |
| Repairs of machinery | 312,338 | 398,863 |
| Operating road | 1,861,933 | 1,703,141 |
| Taxes | 102,819 | 87,269 |
| Total expenses | $2,967,456 | $2,741,293 |
| Net earnings | $1,372,894 | $1,204,888 |

Notwithstanding the increase in coal freights on this road since its lessee discontinued coal business on the Central of New Jersey, it appears that after paying interest at 7 per cent. on all the bonded debt the balance remaining would fall short about $945,000 of paying the 7 per cent. guaranteed dividend on stock.

### Oil Creek & Alleghany River.

*(For the year ending Dec. 31, 1875.)*

The Philadelphia *Inquirer* gives the following figures for 1875 from the Pennsylvania State Railroad report, and compares the same with 1874:

EARNINGS.

| | 1874. | 1875. |
|---|---|---|
| From passengers | $183,916 | $130,454 |
| From freight | 654,935 | 658,822 |
| From mail and express | 23,718 | 17,594 |
| From miscellaneous | 4,260 | 2,925 |
| Total earnings | $816,851 | $809,796 |

EXPENSES.

| | | |
|---|---|---|
| For maintenance of road | 145,747 | 192,222 |
| For repairs, machinery | 89,473 | 86,561 |
| For operating the road | 291,401 | 285,263 |
| For municipal taxes | 3,060 | 2,157 |
| For State taxes | 29,435 | 4,670 |
| Total expenses | $564,119 | $570,875 |
| Net earnings | 284,742 | 238,920 |

TRANSPORTATION AND MILEAGE.

| | 1874. | 1875. |
|---|---|---|
| Number of passengers carried | 313,162 | 241,516 |
| Do. carried one mile | 4,773,223 | 4,260,647 |
| Tons of coal carried | 237,981 | 232,093 |
| Do. petroleum and other oils do | 295,962 | 293,096 |
| Do. other articles do | 115,388 | 113,520 |
| Total tons of freight carried | 649,331 | 739,711 |
| Rate charged per passenger per mile | | 3¼c. |
| Cost per passenger per mile | | 3 78-100c. |
| Rate charged on through freight per ton per mile | | 1 1-10c. |
| Rate charged on local freight per ton per mile | | 3¼c. |

## Detroit Lansing & Lake Michigan Railroad.

(*For the year ending December* 31, 1875.)

The annual report shows the following:

The earnings and expenses of the road for 1875 were as follows:

| RECEIPTS. | | EXPENSES. | |
|---|---|---|---|
| From freight | $495,169 | Operating | $301,706 |
| From passengers | 215,594 | Taxes | 17,622 |
| From miscellaneous | 28,939 | Insurance | 4,964 |
| | | Boston office | 4,514 |
| Total | $739,704 | Total | $328,807 |
| Net earnings | | | $410,816 |
| From which has been used and charged to construction and equipment accounts | | | 13,835 |
| Available net earnings | | | $197,561 |

The gross earnings of the year show a decrease from those of the previous year of $67,993 27, a result of low rates forced upon us by competion,—the volume of business being about the same as last year. The charges to construction account have been mainly for new machinery in the shops of the company, fireproof vault at Ionia, general offices at Detroit, and new water station. The road, including the track and the road-bed, has been kept in good condition, and, on the whole, improved during the year.

The net earnings of the road during the past two years have been insufficient to provide for the half coupon interest proposed in the funding plan dated Dec. 15, 1873, and at the same time do justice to the property in the interest of its bondholders. At the close of the last financial year this deficit, with interest, amounted to about $75,000, represented by withheld coupons. The greater portion of this amount has since been paid, but as the spring receipts of the road are always light, no available funds are left applicable at present (April) to payment of coupon interest due April 1, 1876. A notice has been sent to bondholders to that effect.

As may be seen from this and former reports, basing the net receipts of this year upon the depressed state of trade existing during the past two years, a fair proportion of the interest of the first mortgage bonds should be earned (applicable to dividends to the bondholders) during the year.

GENERAL ACCOUNT, DECEMBER 31, 1875.

| | | | |
|---|---|---|---|
| Capital stock | $1,680,600 | Construction account* | $5,600,883 |
| Bonded debt | 6,054,000 | Equipment account | 942,410 |
| Bills payable | 145,123 | Supplies, material, &c., on hand | 36,583 |
| Account due Michigan Central Railroad for equipment and iron | 69,180 | Amounts due from other roads and agents | 24,186 |
| Unpaid Coupons— | | Bills receivable | 14,793 |
| To be funded into preferred stock | $502 860 | Due from other roads, secured by collateral | 58,000 |
| To be paid | 69,180— 572,040 | Due on account for second mortg-ge bonds | 12,367 |
| Unpaid vouchers | 20,072 | Cash in hands of Treasurer at Boston | 14,993 |
| Cash advanced by Assistant Treasurer from funds of 1876 | 4,464 | Balance of profit and loss account | 1,865,242 |
| | $8,575,411 | | $8,575,411 |

* Includes $1,644,700 stock issued with bonds.

## Atchison & Nebraska Railroad.

(*For the year ending December* 31, 1875.)

From the annual report we have the following:

| | |
|---|---|
| The gross earnings were | $270,955 |
| Operating expenses, insurance and taxes | 270,683 |
| Net earnings | $272 |
| Amount received from collection of county bond coupons | 22,580 |
| | $22,852 |
| Expended and charged to construction | 2,065 |
| Leaving as available net revenue | $20,786 |
| Which amount has been applied to reduction of floating debt. This debt, as stated in previous report, was $76,238 82, and has been reduced during the year to | $58,000 |
| Besides this amount, there is due for equipment | 15,910 |
| Making the entire floating debt of the company at this date | $73,910 |

This entire floating debt is secured by a pledge of county bonds, not covered by the mortgage, and amounting to $234,000.

The earnings and expenses in detail were as follows:

| | |
|---|---|
| From passengers | $46,211 |
| From freight | 180,942 |
| From mail | 9,136 |
| From express | 4,770 |
| From miscellaneous | 29,894 |
| Total | $270,955 |
| Total operating expenses | $219,727 |
| Insurance paid at Boston | 3,630 |
| Taxes paid | 47,325 |
| Total operating expenses, insurance and taxes | $270,683 |
| Leaving as net earnings | $272 |

Proportion of expenses to earnings, including taxes and insurance, 99 90-100 per cent.

The General Manager's report says: The road was operated during the year under very discouraging circumstances. Grasshoppers hatched out and appeared along the line about the middle of April, and entirely destroyed the young corn and wheat south of Table Rock, and part of the crop north of that place.

The following is a comparative statement of shipments of the products of the soil:

| | 1873. pounds. | 1874. pounds. | 1875. pounds. |
|---|---|---|---|
| Wheat | 45,771,220 | 54,373,599 | 31,211,273 |
| Barley | 8,071,505 | 7,602,609 | 951,810 |
| Corn | 29,666,095 | 5,653,765 | 9,461,898 |
| Oats | 6,890,035 | 1,122,810 | 1,343,035 |
| Rye | 894,010 | 433,730 | 177,130 |
| Potatoes | 1,686,815 | 84,235 | 117,470 |
| Total | 92,980,680 | 69,278,648 | 43,317,400 |

COMPARISON OF EARNINGS.

| | 1874. | 1875. | Per mile. 1874. | Per mile. 1875. |
|---|---|---|---|---|
| Passenger | $72,168 | $46,211 | $485 | $310 |
| Freight | 244 805 | 180,942 | 1,647 | 1,217 |
| Mail and miscellaneous | 26,280 | 43,801 | 213 | 294 |
| Total | $353,204 | $270,955 | $2,378 | $1,823 |

An estimate of earnings and expenses for 1876 gives the estimated net earnings at $87,000.

BALANCE SHEET TO JANUARY 1, 1876.

| | | | |
|---|---|---|---|
| To purchase of road: Total amount paid for old roads | $ 168,912 | By bond account | $3,750,000 |
| Construction: Total cost of road | 2,376,438 | Coupon account: Unpaid coupons | 750,000 |
| Equipment: Total cost of equipment | 460,868 | Detroit, Lansing and Lake Michigan Railroad Co.: Due them for borrowed money | 58,000 |
| Profit and loss | 1,338,758 | Bills payable | 15,940 |
| County bonds | 234,000 | Assistant Treasurer: "Unpaid vouchers" | 19,234 |
| Bills receivable | 700 | | |
| Supplies on hand | 11,717 | Treasurer: Cash advanced by him | 14 |
| Due from other railroads | 19,058 | | |
| Assistant Treasurer's cash | 22,759 | | |
| | $4,593,210 | | $4,593,210 |

## GENERAL INVESTMENT NEWS.

**Albany & Susquehanna.**—The proposed amendments to the lease of this road, by the Delaware & Hudson Canal Company, have been agreed to by both companies, and the amended lease placed on record. It provides that the capital stock is to be fixed and limited at $3,500,000, on which the lessee is to pay dividends of 7 per cent. annually. The clause of the old lease giving 25,000 shares a preference is annulled, and in consideration thereof the lessee, whenever the $1,000,000 Albany city bonds are paid off, is to apply the $70,000, now paid annually into the sinking fund, to the payment of additional dividends on the stock, making them 9 per cent. annually. The Albany & Susquehanna Company is to execute a first consolidated mortgage for $10,000,000 to the Farmers' Loan & Trust Company, as trustee, the bonds to bear 6 or 7 per cent. interest, as may be deemed best, and to have 30 years to run. Of these new bonds $3,450,000 are to be reserved to exchange for outstanding bonds; $1,595,000 are to be issued to the lessee in exchange for an equal amount of stock now held by it, which stock is to be surrendered and canceled; a further amount is to be issued to the lessee sufficient to pay for improvements heretofore made on the road, and the balance is to be issued as the lessee may require. These new bonds are to be guaranteed, principal and interest, by the lessee, and provision is made for renewing them when the 30 years shall have expired; but the amount of stock and bonds outstanding shall at no time exceed $13,500,000.—*Railroad Gazette.*

**Canada Southern.**—The attention of British holders of this company's bonds has been called to an application about to be made to the Dominion Parliament, to authorize the issue of preferred shares in payment of first mortgage and other bonds and interest, and a petition has been prepared by these British bondholders against this application.

**Detroit & Milwaukee.**—Receiver Trowbridge reports to the Court as follows for March:

| | |
|---|---|
| Balance on hand March 1 | $36,890 |
| Earnings in March | 94,580 |
| Rents, sale of old iron, &c. | 2,383 |
| Total receipts | $134,104 |
| Car mileage, rents, interest, supplies, &c. | $32,161 |
| January pay-rolls | 37,674 |
| February pay-rolls | 39,007— 98,846 |
| Balance April 1 | $35,257 |

**Illinois Railroad Tax Cases.**—The United States Supreme Court revereed, last week, the decision of the lower courts in the Illinois railroad cases, holding that the railroads' remedy for alleged excessive or illegal taxation is not by injunctions, but only by suits at law after paying the taxes. The companies applied to the lower courts to wholly enjoin the enforced collection of taxes on their lands and other property, for the alleged reasons that in some respects the taxes were illegally levied, and in others that the assessments were too high. A number of such injunctions have been granted in the United States Circuit Court of California, and there are a large number of suits pending in Illinois to enjoin the collection of taxes assessed against lands and other property of railroad companies.

**Lake Freight Rates.**—Charters are reported to have been taken, April 10, from Chicago and Buffalo at 3½ cents by sail and 4 cents by steam for corn to Buffalo. On the 12th charters were for wheat by sail at 4 cents and 4½ cents. On the 13th charters were reported for wheat from Chicago to Port Colborne, Can., at 4½ cents per bushel by sail; Chicago to Buffalo, 4½ cents and 4 cents. From Toledo, corn to Erie, 2½ cents; corn to Cleveland, 2½ cents. From Cleveland, coal to Chicago, 50 cents; to Detroit, 35 cents. Charters reported in Chicago on the 14th were: Corn by sail to Buffalo, 4 cents; wheat to Port Colborne, 4½ cents. Coal rates were quoted from Erie, Cleveland and Sandusky to Chicago at 50 cents; at Buffalo shippers would offer but 35 cents.

**Louisiana State Finances.**—A telegram from New Orleans, La., April 17, says: The Supreme Court to-day decided the issue of $2,500.000 of State bonds to the Mobile & Chattanooga Railroad under act No. 95, 1871, to be invalid and unconstitutional on the ground that the constitutional limit of the State debt had been reached when the bonds were issued; that the issue was fraudulent, and that the State received no consideration therefor.

A statement furnished by the Auditor shows the present condition of the State debt to be: New consolidated bonds, issued in place of valid bonds exchanged, $9,035,387; valid outstanding bonds and warrants, not yet funded, $4,710,000; which, if all funded in new consols at 60 cents on the dollar, will make the total State debt $11,861,387.

**Louisville Paducah & Southwestern.**—This railroad has been ordered to be sold by the marshal of the United States Court, of the Kentucky district, at a time to be hereafter specified.

**Montclair & Greenwood Lake.**—This company is now offering for sale to the bondholders a part of the preferred bonds, provided for in the reorganization, for the purpose of completing and equipping the road. They are offered at 85, and enough of them are to be sold to realize $100,000, which is needed to build the extension to Greenwood Lake.

**Nashville Chattanooga & St. Louis Railway.**—The following is a statement of receipts and expenses for month of March, and for nine months ending March 31, this year and last:

RECEIPTS.

| | March. | | 9 mos. end'g Mar. 31. | |
|---|---|---|---|---|
| | 1875. | 1876. | 1875. | 1876. |
| Passage | $35,579 | $37,004 | $390,042 | $379,166 |
| Freight | 95,470 | 103,558 | 911,906 | 929,599 |
| Mail | 3,217 | 3,217 | 28,956 | 28,956 |
| Rents and privileges | 1,950 | 2,199 | 18,191 | 18,428 |
| Total receipts | $136,217 | $145,979 | $1,349,097 | $1,356,151 |

EXPENSES.

| | | | | |
|---|---|---|---|---|
| Maintenance of way | $29,096 | $25,709 | $284,118 | $213,033 |
| Motive power | 30,239 | 29,109 | 249,141 | 224,628 |
| Maintenance of cars | 8,398 | 7,664 | 98,248 | 67,221 |

| Miscellaneous, including taxes. | 2,979 | 6,770 | 62,369 | 83,561 |
| Total expenses | $94,576 | $92,878 | $828,816 | $784,418 |
| Net earnings | 41,641 | 53,101 | 420,281 | 571,732 |
| Interest on bonded debt accruing | ..... | 38,510 | ..... | 328,590 |
| Surplus | ..... | 16,591 | ..... | 243,142 |

**New Jersey West Line.**—Under the recent decision of the Court of Errors, Messrs. Randolph and Clark, the trustees under the first mortgage, have taken possession of the road. They have appointed as their agent Col. Wm. P. McMichael, of Bordentown, formerly superintendent of the Camden & Amboy, and more recently State Treasurer. The sale of the road will be had as soon as an inventory is taken, and other necessary preliminaries can be arranged. It is said that the principal holders of bonds are Hon. Asa Packer, president of the Lehigh Valley Co., and the Beekman estate; also, the Central of New Jersey and Delaware Lackawanna & Western Railroads.

**Penn. & Sodus Bay.**—Judgment of foreclosure and sale against the Pennsylvania & Sodus Bay Railroad was entered in the county clerk's office April 15. The railroad runs through Tioga, Tompkins, Seneca and Wayne counties of this State. The Union Trust Company of this city is the plaintiff in the suit for foreclosure, it having been made trustee for the $1,620,000 of mortgage bonds issued by the company.

**Railroad Land Grants and Homestead Entries.**—The following is the text of the bill, lately passed by both Houses of Congress, relative to homestead and pre-emption entries within land-grant limits. It reverses the ruling of Secretary Delano—that railroad grants can take effect prior to the reception at the local land offices and notices of withdrawal:

*Be it enacted &c.*, That all pre-emption and homestead entries, or entries in compliance with any law of the United States of the public land, made in good faith by actual settlers upon tracts of lands of no more than 160 acres each, within the limits of any land grant, prior to the time when notice of withdrawal of the lands embraced in such grant, was received at the local land office of the district in which such lands are situated, or after their restoration to market by order of the General Land Office, and where the Pre-emption and Homestead laws have been complied with, and proper proofs thereof have been made by the parties holding such tracts or parts, they shall be confirmed, and patents for the same shall issue to the parties entitled thereto.

SEC. 2. That when, at the time of such withdrawal, as aforesaid, valid pre-emption or homestead claims existed upon any lands within the limits of any such grants, which afterwards were abandoned, and, under the decision and ruling of the Land Department, were re entered by pre-emption or homestead claimants, who have complied with the laws governing pre-emption or homestead entries and shall make proper proofs required under such laws, such entries shall be deemed valid and patent issue to the persons entitled thereto.

SEC. 3. That all such pre-emption and homestead entries which may have been made by permission of the Land Department, or in pursuance of the rules and instructions thereof, within the limits of any land grant, at a time subsequent to expiration of such grant, shall be deemed valid, and a compliance with the laws and the making of the proofs required shall entitle the holder of the claim to a patent therefor.

**Tennessee & Pacific.**—The joint committee appointed by the Wilson and Davidson county courts report that the amount claimed by the State, and for non-payment of which the road is to be sold, is $158,803, of which $10,760 is payable in cash and the rest in State bonds. These can be bought at 42, making the actual amount needed $72,938 27, and, moreover, $9,000 of the State claim is disputed by the company. The company has on hand about $10,350 which can be used. The committee recommends that the counties raise the balance needed and prevent the sale; if this cannot be done, then they should buy in the road when it is sold. The latter course will probably be adopted.

**Union Pacific.**—A bill has been introduced in Congress to provide a plan for the settlement of the debt due to the Government by this company, which is much similar in tenor to the proposition of Mr. Huntington, of the Central Pacific. It provides that the company shall sell all its lands, west of the 100th meridian, to the Government, at the fixed price of $2 50 per acre. The company is also to pay $1,000,000 in cash and such further sums, from time to time, as shall produce, at the maturity of the bonds, a sum sufficient to pay the entire amount of principal and interest which will then be due.

**Virginia State Bonds.**—The circular of Messrs. Thomas Branch & Co., of Richmond, has the following:

The Legislature has adjourned, and no law in any way affecting the bonds of the State has been passed, if we except a clause in the tax-bill subjecting the coupons cut from bonds held by a non-resident of the State to the same tax as has heretofore been deducted from coupons held by residents. This tax amounts to one dollar and seventy cents on each coupon of thirty dollars, or five and two-fifths per cent.—the coupons being received at 94.60 per cent. of their par value in payment of taxes. A portion of the coupons from non-resident bonds have heretofore been exempt from this tax by being accompanied by evidence of ownership; but the proportion of this realized by the bondholder has been very small. The profit was made by the dealers. This has been stopped by the present law, and the quotation of coupons will in consequence be uniform in the future. They have been in steady demand during the spring. They will probably advance on the payment of May licenses.

The few old bonds coming in for funding would indicate a smaller amount outstanding than the records of the Treasury Department show. We report the figures as follows:

| | | |
|---|---|---|
| Consols carrying tax-paying coupons | $19,030,000 | |
| Do. registered, convertible into above | 1,207,000 | |
| | | $20,237,000 |
| Peelers (coupons not receivable) | | 3,130,000 |
| Unfunded—all classes—reduced to peelers | | 5,934,000 |
| Total debt, excluding about $15,000,000 West Virginia's | | $29,301,000 |

The State is still in debt for money borrowed to meet temporary deficiencies in the revenue; and the payments to the Sinking Fund have been suspended, as also the payments of interest of July, 1874, on the non-consol debt. The tax-bill includes some additional subjects of taxation, which will make a small increase in the revenue, but it is now certain that no *cash* payments will be made during the present year on account of interest, except that the small balance due on July, '74, intereet may be paid.

We have endeavored to explain in these circulars the various issues of State obligations and their relative value. We give quotations of the best known:

Sterling bonds (issued before the war) have no market here.
Coupons or registered bonds of the ante-war issue, and those of 1866 and 1867, and coupons of same, whether detached or not, due on or before July, 1871, all stand on the same footing, and if no interest has been paid on them since July, '71, the aggregate of principal and interest to July, 1871, is worth ..... 36@37
Consol bonds—with tax-receivable coupons—current coupon on ..... 69@70
New consols (peelers), coupons not receivable—coupon of January, 1875, on ..... 40@42
Certificate given for one-third of principal due by West Virginia ..... 9
Certificate given for one-third of unpaid interest ..... 16@18
Past due coupons cut from consols, good for taxes ..... 85@88

—The Auditor calls the attention of collectors, to the recent act which requires all coupons received in payment of taxes and other dues to the State to be taxed. The tax upon each coupon will be as follows: On the $20 coupon, $1 70; on the $15 coupon, 85 cents; and on the $3 coupons, 17 cents.

**Western Railroad Tariffs.**—A Chicago telegram of April 17th stated that a meeting of the managers of the various railroads operating east of St. Louis was held at the Pacific Hotel, that day, to effect a pool arrangement on all business originating at St. Louis, somewhat similar to the Eastern railroad combinations. It was finally arranged to pool the gross earnings on all competition business to and from St. Louis on the basis of the earnings of the various roads for the years 1873, 1874 and 1875. The roads concerned in the arrangement are the Ohio & Mississippi, Chicago & Alton, Toledo & Wabash, Vandalia, and the Indianapolis & St. Louis. An executive board, composed of J. C. McMullin, of the Chicago & Alton; J. E. Simpson, of the Vandalia, and E. Waldron, of the Ohio & Mississippi, was elected, with power to agree upon a tariff to be observed. The new arrangement was to go into effect immediately.

—A Chicago press despatch, April 19, says of the meeting of managers of trunk lines from that city, that on account of the failure of the pool lines to adjust amicably their difficulties, and owing to the disputes which arose in the meeting held here last week and that held in New York on Tuesday, the pool has broken. Mr. Joy telegraphed the agent for the Michigan Central to-day to protect the road. The agent did so by taking freight at a reduction of 5 cents for fourth class to New York. The other roads followed, and fourth class freight was taken in some cases as low as 30 cents, a reduction of 10 cents.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, April 21, 1876.

Spring seems to have opened at last, and trade already receives a considerable impetus by reason of the milder weather. Still, storms and a low temperature are too recent to admit of a full development of the effect that may be expected to follow the change that has taken place in this respect. The United States Treasury has begun the work of substituting silver coin in place of fractional currency, which is regarded by many people as a long step towards the resumption of specie payments; and, as such, contributes to the more cheerful feeling which evidently prevails.

There has been a declining tendency in most descriptions of provisions, under the growing conviction that the speculation in them was at least premature, or from an increase in present or prospective supplies; but in lard only has the decline been important or the business active, and this staple has recovered somewhat from the lowest prices. The sales of prime Western lard on Wednesday and Thursday were reported to the extent of 35,000 tierces, and the lowest prices touched were $13 62½ on the spot, $13 50 for May, $13 67½ for June, $13 85 for July and $13 95 for August. The reaction in futures during Thursday was fully 15 cents from the above prices. To-day, the sales on the spot were small at $13 60@13 62½; and for future delivery the closing bids were $13 50 for May, $13 65 for June, $13 80 for July, and $13 97½ for August, showing renewed depression. Mess pork has sold at $22 75 for June and $22 90 for August, but to-day sold on the spot at $23 50@23 60, and the closing bids for future delivery were $22 15 for May, $22 40 for June, $22 60 for July, and $22 75 for August. Bacon and cut meats have been quiet. Beef and beef hams are without new feature. Butter has materially declined under increased receipts of new. Cheese has also been drooping. Tallow has been firmer, and more active at 9c. for prime. Stearine lower and unsettled.

Rio coffee has been selling slowly, and, with fair receipts, there is an accumulation of stocks, and lower prices; the stock in the market yesterday was 139,200 bags, and the visible supply for the United States 325,400 bags; fair to prime cargoes, 17½@18¾c., gold; mild coffees unchanged in supply or prices. Rice has been doing a little better. Foreign fruits less active in the wholesale movement, but prices well maintained. Teas fairly active for greens and Japans, but blacks held above views of buyers. Molasses has continued to move freely, in view of large importations, with prices at and on the basis of 33 cents for 50 test Cuba Muscovado, but stocks are still large. Sugars advanced early in the week, but close easier, under a free importation; fair to prime refining Cuba, 7⅞@7¾c.; standard crushed refined, 10⅝c. The movement in raws has been:

| | Hhds. | Boxes. | Bags. | Melado. |
|---|---|---|---|---|
| Receipts past week | 21,921 | 11,155 | 8,414 | 500 |
| Sales past week | 15,485 | 935 | 5,070 | ... |
| Stock April 20, 1876 | 58,470 | 32,872 | 159,201 | 3,641 |
| Stock April 22, 1875 | 69,261 | 41,050 | 155,798 | 1,551 |

Hides have been in moderate demand only, and prices have declined, the market closing weak; dry Montevideo sold at 18½c., gold, 4 months; do. seconds at 15½c., gold, 4 months, and California at 18c., 30 days, gold. Linseed oil has ruled lower and fairly active at 58@59c. Other oils have been quiet and unchanged. Clover seed is quiet at 16½@17c. Whiskey nearly nominal at $1 11@1 11½, tax paid. The market for fish has remained quiet, and prices are unchanged.

Kentucky tobacco has been in better demand, and quotations are firm at 5c.@7½c. for lugs, and 8c.@15c for leaf; the sales for the week embraced 950 hhds., of which 800 were for export and 150 for consumption. Seed leaf has been more active and steady; the sales embrace: Crop of 1871, 20 cases New England at 10c.; crop of 1873, 75 cases do. at 15½c., 150 cases New York at 8c.@12c., and 16 cases Ohio on private terms; crop of 1874, 150 cases New England and 412 cases Pennsylvania on private terms; crop of 1874 and 1875, 283 cases Ohio, and crop of 1875, 350 cases Pennsylvania, on private terms; also 200 cases sundry kinds at 7c.@40c. Spanish tobacco has remained steady, with sales 500 bales Havana at 88c.@$1 15.

The market for ocean freights has been moderately active on the whole, though the individual demands for room have continued quite small; the more reduced offerings of room, however, have led to a steadier tone, which was especially noticeable at the close. Late engagements and charters include: Grain to Liverpool, by steam, 4½@4¾d.; provisions, 20@25s. per ton; cotton, 7-32@¼d. Grain to London, by steam, 6d.; do., by sail, 6d.; flour, at 1s. 10½d. Grain to Glasgow, by steam, 7d.; do. to Bristol, by sail, 6½d.; do. to Cork for orders, 5s. 4½d@5s. 6d.; do. to the Penarth Roads for orders, at 5s. 2½d.; refined petroleum to Venice or Trieste, 5s. 3d.; crude petroleum from Philadelphia to Antwerp or Bremen, 3s. 10½d.; do. from do. to Havre, 4s. To-day there was only a small business, but rates were generally considered steady. Grain to Liverpool, by steam, 4½@4¾d.; sugar, 20s. per ton. Grain to London, by steam, 6½d.; do. to Bremen, 8½d.; do. to Cork, for orders, 5s. 6d.; do. to Rotterdam, 5s. 9d.

Naval stores have been rather dull during the past week, and, while spirits turpentine has been weak and closes lower at 37c.; rosins have remained firm at $1 80@$1 85 for common to good strained, due to the concentrated stocks. In petroleum little or nothing has been done, and values have been weak and declining, with the close nominal at 8½@8¾c. for crude, in bulk, and 14c. for refined, in bbls., for immediate deliveries. Ingot copper has remained steady, with 200,000 lbs. Lake sold at 22⅝@22¾c., cash, and small lots at 23c.

## COTTON.

FRIDAY, P. M., April 21, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (April 21) the total receipts have reached 30,920 bales, against 41,620 bales last week, 55,804 bales the previous week, and 59,012 bales three weeks since, making the total receipts since the 1st of September, 1875, 3,885,496 bales, against 3,296,816 bales for the same period of 1874–5, showing an increase since Sept. 1, 1875, of 588,650 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

| Receipts this week at— | 1876. | 1875. | 1874. | 1873. | 1872. | 1871. |
|---|---|---|---|---|---|---|
| New Orleans | 11,315 | 8,170 | 6,381 | 18,997 | 12,976 | 23,519 |
| Mobile | 1,548 | 1,801 | 1,706 | 5,490 | 1,755 | 5,089 |
| Charleston | 3,029 | 1,723 | 3,921 | 2,634 | 2,040 | 2,991 |
| Port Royal, &c. | 348 | .... | .... | | | |
| Savannah | 2,078 | 2,858 | 3,676 | 4,035 | 4,635 | 7,172 |
| Galveston | 3,828 | 2,863 | 4,115 | 3,238 | 1,722 | 9,145 |
| Indianola, &c. | 211 | 290 | 857 | | | |
| Tennessee, &c. | 4,938 | 2,968 | 6,292 | 6,901 | 5,732 | 9,095 |
| Florida | 27 | 8 | 84 | 409 | 223 | 176 |
| North Carolina | 993 | 881 | 753 | 436 | 672 | 658 |
| Norfolk | 3,003 | 8,047 | 4,971 | 3,761 | 3,231 | 5,197 |
| City Point, &c. | 109 | 76 | 231 | 383 | 509 | |
| Total this week | 30,920 | 22,190 | 32,937 | 46,373 | 33,931 | 63,042 |
| Total since Sept. 1 | 3,885,496 | 3,296,816 | 3,545,503 | 3,200,868 | 2,538,175 | 3,512,602 |

The exports for the week ending this evening reach a total of 33,160 bales, of which 20,633 were to Great Britain, 5,661 to France, and 6,866 to rest of the Continent, while the stocks as made up this evening are now 565,409 bales. Below are the stocks and exports for the week, and also for the corresponding week of last season:

| Week ending April 21. | Exported to | | | Total this week. | Same week 1875. | Stock. | |
|---|---|---|---|---|---|---|---|
| | Great Britain. | France | Continent. | | | 1876. | 1875. |
| New Orleans* | 10,462 | 5,661 | 1,855 | 17,988 | 22,272 | 213,402 | 189,119 |
| Mobile | .... | .... | .... | .... | 2,222 | 38,645 | 23,882 |
| Charleston | .... | ... | 8,605 | 8,605 | 3,838 | 13,680 | 17,218 |
| Savannah | .... | .... | .... | .... | 5,062 | 24,548 | 54,433 |
| Galveston† | 2,375 | ... | 782 | 3,157 | 2,396 | 27,792 | 49,801 |
| New York | 4,820 | .... | 400 | 5,220 | 4,566 | 191,296 | 194,620 |
| Norfolk | .... | .... | .... | .... | .... | 11,066 | 4,913 |
| Other ports‡ | 2,976 | .... | 214 | 3,190 | 1,295 | 40,000 | 45,082 |
| Total this week | 20,633 | 5,661 | 6,866 | 33,160 | 41,666 | 565,409 | 509,083 |
| Total since Sept. 1 | 1,733,687 | 368,848 | 638,184 | 2,740,717 | 2,225,239 | .... | .... |

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 41,000 bales; for Havre, 22,000 bales; for Continent, 500 bales; for coastwise ports, 1,000 bales; which, if deducted from the stock, would leave 146,000 bales representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on shipboard at that port, not cleared: For Liverpool, 2,941 bales; for other foreign, 3,010 bales; for coastwise ports, no bales; which, if deducted from the stock, would leave remaining 21,841 bales.

‡ The exports this week under the head of "other ports" include from Baltimore 214 bales to Bremen; from Boston 2,130 bales to Liverpool; from Philadelphia 158 bales to Liverpool; from Wilmington 698 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a *decrease* in the exports this week of 8,506 bales, while the stocks to-night are 56,326 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to April 14, the latest mail dates:

| PORTS. | RECEIPTS SINCE SEPT. 1. | | EXPORTED SINCE SEPT. 1 TO— | | | | Coastwise Ports. | Stock. |
|---|---|---|---|---|---|---|---|---|
| | 1875. | 1874. | Great Britain | France | Other forel'n | Total. | | |

* Under the head of *Charleston* is included Port Royal, &c.; under the head of *Galveston* is included Indianola, &c.; under the head of *Norfolk* is included City Point, &c.

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

There has been a growing business in cotton on the spot, favored since Monday by improving rates of exchange and stronger foreign advices, which have enabled shippers to operate more freely. Spinners were in want of stock, and the business for speculation has latterly been of some significance, yet there was no approach to activity, and prices have been barely supported. To-day, there was less doing for export, but a fair business for consumption, and quotations unchanged. For future delivery, on Monday and Wednesday, a considerable advance in prices took place. Flood accounts from the lower Mississippi began to be serious, and were employed with considerable vigor to revive speculation. But each advance was followed on the succeeding day by some decline, so that the actual improvement up to last night was only 3-32@3-16c. The greatest advance was in the early months of the next crop, September and October. The comparatively small stocks at present in store, together with the lateness of the planting season, excite some apprehensions of scarcity at that time. Accounts of slight frost have been received from South Carolina, and the temperature was quite low for two or three days of the past week throughout the South. To day, there was much pressure to sell, under which the spring and summer months gave way ⅛@3-16c., but the autumn months were only 1-16c. lower.

The total sales for forward delivery for the week are 135,400 bales, including —— free on board. For immediate delivery the total sales foot up this week 5,169 bales, including 1,260 for export, 2,830 for consumption, 1,079 for speculation, and —— in transit. Of the above, 400 bales were to arrive. The following were the closing quotations to-day:

| Total, new ports | 11,600 | 11,272 | 53,784 | 6,765 | 11,022 | 40,329 |
| Total, all | 16 923 | 20.343 | 127.296 | 10,769 | 20,048 | 111,322 |

* 1,500 bales reported burned.

The above totals show that the old interior stocks have *decreased* during the week 4,238 bales, and are to-night 2,519 bales *more* than at the same period last year. The receipts at same towns have been 1,119 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 19,000 bales shipped from Bombay to Great Britain the past week, and 18,000 bales to the Continent; while the receipts at Bombay during this week have been 50,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, April 20:

| | Shipments this week | | | Shipments since Jan. 1 | | | Receipts. | |
|---|---|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | Total. | Great Britain. | Continent. | Total. | This week. | Since Jan. 1. |
| 1876..... | 19,000 | 18,000 | 37,000 | 212,000 | 150,000 | 362,000 | 50,000 | 522,000 |
| 1875..... | 36,000 | 37,000 | 73,000 | 372,000 | 268,000 | 640,000 | 65,000 | 781,000 |
| 1874..... | 66,000 | 26,000 | 92,000 | 340,000 | 201,000 | 541,000 | 92,000 | 752,000 |

From the foregoing it would appear that, compared with last year, there is a *decrease* of 36,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 278,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—There has been a very decided improvement in the weather the past week in the Southwestern and Gulf States—that is in Arkansas, Texas, Louisiana, Mississippi and most of Alabama—so that in those sections there has been good progress made in planting. Work, however, in all that district is backward on account of the cold and rain, but seasonable weather now would be very beneficial. In the Atlantic States there has also been less rain than during previous weeks, but generally the weather has been cold and backward.

*Galveston, Texas.*—The weather this week has been warm and dry, and favorable for farm work. After great delay, therefore, planting is now making good progress. Average thermometer this week has been 67; highest 78, and lowest 55.

*Indianola, Texas.*—There has been no rain here during the week. Planting is now progressing well. The thermometer has averaged 67, ranging from 54 to 79.

*Corsicana, Texas.*—There has been no rain here this week, and the weather has been favorable for planting purposes, which is proceeding actively. Average thermometer, 64; highest, 88, and lowest 41.

*Dallas, Texas.*—The weather here has been warm and dry, and farming operations have thereby been stimulated. The thermometer has averaged 78, ranging from 45 to 88. The grain prospect is excellent. There will be a moderate fruit crop, as all was not killed by frost.

*New Orleans, Louisiana.*—There was rain here on one day this week, the rainfall reaching ninety hundredths of an inch. The thermometer has averaged 63.

*Shreveport, Louisiana.*—The weather here during the week has been clear and warm. There has been no rainfall. The thermometer has averaged 66, the highest being 87 and the lowest 54.

*Vicksburg, Mississippi.*—There has been no rain here this week. The thermometer has ranged from 47 to 79, averaging 63. Planting is now much behind last year. We have an increase of labor from Georgia and Alabama.

*Columbus, Mississippi.*—The days of the week have been warm, but the nights cold, and on two nights there were frosts, though not killing frosts. Planting is progressing, although very backward. Average thermometer 57, highest 68 and lowest 47.

*Little Rock, Arkansas.*—We have had a week of delightful weather. There have been no clouds or rain, and the farmers are very busy planting. Average thermometer 62, highest 80 and lowest 41.

*Nashville, Tennessee.*—We have had two rainy days this week, the rainfall reaching ninety-six hundredths of an inch, but the rest of the week has been pleasant. The thermometer has averaged 57, ranging from 47 to 67.

*Memphis, Tennessee.*—No telegram received.

*Mobile, Alabama.*—It rained one day this week severely, but the balance of the week has been pleasant. Crop accounts are more favorable, but operations are backward. Total rainfall this week, one inch and sixty-one hundredths. Average thermometer 62, highest 78 and lowest 48.

*Montgomery, Alabama.*—There has been one rainy day this week, the rainfall reaching seventy-one hundredths of an inch. The days have been warm and the nights cold. Snow fell this week, but as the week closes there is a favorable change in the weather. We had a frost one night, but not a killing frost. The thermometer has averaged 61, ranging from 45 to 80.

*Selma, Alabama.*—There has been one rainy day here this week, the rainfall reaching ninety hundredths of an inch. The rest of the week has been pleasant. The thermometer has averaged 59.

*Madison, Florida.*—We have had no rainfall this week. The thermometer has averaged 61, the highest being 78 and the lowest 54.

*Macon, Georgia.*—We have had no rain this week, and the weather has been very favorable for planting. Average thermometer, 60; highest 87, and lowest 39.

*Atlanta, Georgia.*—The weather during the week has been cold and dry, and so unfavorable that much seed planted has failed to come up. There were showers on two days, the rainfall reaching fifty-six hundredths of an inch. The average thermometer is 57, the highest 74 and the lowest 44.

*Columbus, Georgia.*—There has been one rainy day here this week, the rainfall reaching forty hundredths of an inch. We have had two frosts, neither of which, however, was a killing frost. Planting is very backward. Average thermometer 59, highest 70 and lowest 44.

*Savannah, Georgia.*—Rain fell on two days this week, the remaining five days being pleasant but cool. Average thermometer 64, highest 86 and lowest 46. Total rainfall sixty-three hundredths of an inch.

*Augusta, Georgia.*—There has been one rainy day this week, the remaining six days being pleasant. The average thermometer is 61, the highest 81, and the lowest 42. The rainfall is sixty-one hundredths of an inch.

*Charleston, South Carolina.*—Telegram not received.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock April 20. We give last year's figures (April 23, 1875) for comparison.

| | | April 20, '76. | | April 23, '75. | |
|---|---|---|---|---|---|
| | | Feet. | Inch. | Feet. | Inch. |
| New Orleans | Below high-water mark | 3 | 9 | 4 | 5 |
| Memphis | Above low-water mark | 33 | 10 | 24 | 0 |
| Nashville | Above low-water mark | 12 | 0 | 8 | 2 |
| Shreveport | Above low-water mark | 26 | 2 | Missing. | |
| Vicksburg | Above low-water mark | 43 | 5 | 43 | 0 |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

EXPORTS OF COTTON GOODS.—The Bureau of Statistics furnishes us with the following statement, showing the exports of cotton goods from the United States during the eight months ended February 29, 1876:

| Exported to | Colored. Yards. | Colored. Value. | Uncolored. Yards. | Uncolored. Value. | Not stated. Value. |
|---|---|---|---|---|---|
| Argentine Republic | ..... | $..... | 134,420 | $27,631 | $3,714 |
| Belgium | ..... | ..... | ..... | ..... | 16,908 |
| Brazil | 1,714,716 | 206,780 | 1,514,150 | 172,252 | 10,464 |
| Central Amer. States | 49,525 | 5,155 | 35,650 | 3,554 | 5,238 |
| Chili | 240,281 | 22,315 | 3,591,979 | 329,240 | 2,024 |
| China | ..... | ..... | 4,451,896 | 429,137 | 4,149 |

| Sandwich Islands | 42,849 | 4,375 | 84,494 | 8,175 | 12,667 |
| Spanish Possessions, Cuba | 4,062 | 685 | 50,169 | 13,494 | 13,250 |
| Turkey in Asia | 328,356 | 34,546 | 552,213 | 54,913 | 50 |
| U. S. of Columbia | 206,168 | 18,916 | 203,912 | 28,990 | 8,806 |
| Venezuela | 199,425 | 19,527 | 611,194 | 65,657 | 5,523 |
| All other cities in Africa, not specified | | | 5,800,504 | 476,260 | |
| Other countries, not specified | 82,332 | 9,044 | 320,415 | 42,957 | 39,925 |
| Total | 5,522,196 | $616,582 | 32,936,440 | $3,232,931 | $573,626 |
| | 5,522,196 yards, colored, value | | | | $616,582 |
| | 32,936,440 yards, uncolored, value | | | | 3,232,931 |
| Aggregate | 38,458,636 | | | | $4,423,03 |

GUNNY BAGS, BAGGING, &C.—Bagging has continued in the same quiet state noted in our last, and we do not hear of any transactions of moment. Holders are quoting 12¼c.@12½c., though these figures are nominal. Sales rule dull and easy in price at 9c.@9½c. for India and 13c. asked for Borneo. Bags are quiet and unchanged, 44os being quoted at 13c. Butts have sold in small lots for spot parcels, and we hear of 500 bales in Boston at 3c. cash, and about 600 bales here at 2⅞c.@3⅛c. cash and time. Lots to arrive are quiet, and we hear of no sales. Prices at the close are quoted at 3c.@3⅛c., cash and time, asked.

LIVERPOOL, April 21.—3:00 P. M.—BY CABLE FROM LIVERPOOL.—Estimated sales of the day were 10,000 bales, of which 2,000 bales were for export and speculation. Of to-day's sales 6,900 bales were American. The weekly movement is given as follows:

| | Mch. 21. | April 7. | April 13. Six days. | April 21. |
|---|---|---|---|---|
| Sales of the week.. .....bales. | 53,000 | 86,000 | 83,000 | 83,000 |
| Forwarded..... | 9,000 | 8,000 | 16,000 | 17,000 |
| Sales American..... | 29,000 | 22,000 | 21,000 | 25,000 |
| of which exporters took..... | 8,000 | 4,000 | 4,000 | 4,000 |
| of which speculators took..... | 8,500 | 2,000 | 2,000 | 3,000 |
| Total stock..... | 753,000 | 853,000 | 926,000 | 1,005,000 |
| of which American..... | 421,000 | 504,000 | 537,000 | 6000,00 |

| | Mch. 21. | April 7. | April 13. Six days. | April 21. |
|---|---|---|---|---|
| Total import of the week | 27,000 | 147,000 | 94,000 | 132,000 |
| of which American | 9,000 | 109,000 | 62,000 | 100,000 |
| Actual export | 4,000 | 7,000 | 5,000 | 4,000 |
| Amount afloat | 502,000 | 449,000 | 393,000 | 365,000 |
| of which American | 374,000 | 340,000 | 288,000 | 215,000 |

The following table will show the daily closing prices of cotton for the week:

| | Satur. | Mon. | Tues. | Wednes. | Thurs. | Fri. |
|---|---|---|---|---|---|---|
| *Spot.* | | | | | | |
| Mid. Upl'ds. | Easter | Holidays. | ..@6¾ | ..@6¾ | ..@6¾ | ..@6¾ |
| do Orl'ns. | | | ..@6¾ | ..@6¾ | ..@6¾ | ..@6¾ |
| *Futures.* | | | | | | |

SATURDAY.—Easter holiday.
MONDAY.—Easter holiday.
TUESDAY.—June-July delivery, Uplands, Low Mid. clause, 6 7-16d.
July-Aug. delivery, Uplands, Low Mid. clause, 6¾d.
March shipment, Uplands, Low Mid. clause, by sail, 6¾d.
April-May delivery, Uplands, Low Mid. clause, 6 9-32d.
July-Aug. delivery, Uplands, Low Mid. clause, 6 17-32@¾d.
WEDNESDAY.—May-June delivery, Uplands, Low Mid. clause, 6 11-32d.
June-July delivery, Uplands, Low Mid. clause, 6 7-16d.
July-Aug. delivery, Uplands, Low Mid. clause, 6¾d.
May-June delivery, Uplands, Low Mid. clause, 6¾d.
June-July delivery, Uplands, Low Mid. clause, 6 15-32d.
July-Aug. delivery, Uplands, Low Mid. clause, 6 17-32d.
THURSDAY.—July-Aug. delivery, Uplands, Low Mid. clause, 6 9-16d.
March-April shipments, Uplands, Low Mid. clause, by sail, 6 7-16d.
April-May delivery, Uplands, Low Mid. clause, 6¾d.
June-July delivery, Uplands, Low Mid. clause, 6¾d.
April-May delivery, Uplands, Low Mid. clause, 6 11-32d.
May-June delivery, Uplands, Low Mid. clause, 6 13-32@6¾d.
June-July delivery, Uplands, Low Mid. clause, 6 15-32d.
FRIDAY.—March shipments, Uplands, Low Mid. clause, by sail, 6 7-16d.
June-July delivery, Uplands, Low Mid. clause, 6 7-16d.
July-Aug delivery, Uplands, Low Mid. clause, 6 17-32d.
April-May delivery, Uplands, Low Mid. clause, 6 5-16d.
May-June delivery, Uplands, Low Mid. clause, 6¾d.
May-June delivery, Uplands, Low Mid. clause, 6 11-32d.
July-Aug. delivery, Uplands, Low Mid. clause, 6½d.

WEEKLY RECEIPTS OF COTTON.—Below we give a table showing the receipts of cotton each week at all the ports of the United States for several seasons, indicating, also, the total crop each year. Our figures are given in thousands of bales.

| Date. | 1875-76. Week. | 1875-76. Month. | 1874-75. Week. | 1874-75. Month. | 1873-74. Week. | 1873-74. Month. | 1872-73. Week. | 1872-73. Month. | 1871-72. Week. | 1871-72. Month. | 1870-71. Week. | 1870-71. Month. |

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 47,951 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

| | Total bales. |
|---|---|
| NEW YORK—To Liverpool, per steamers Germanic, 1,783... Helvetia, 554....Bothnia, 666....Idaho, 1,013....per ship Strathearn, 804.... | 4,820 |
| To Bremen, per steamer Oder, 400 | 400 |
| NEW ORLEANS—To Liverpool, per steamer St. Louis, 3,762....per ships Pegasus, 3,779....Sam Skolfield, 5,072. ..Bertha, 2,576....per bark Ibis, 474 | 15,683 |
| To Havre, per ships Westfield, 3,433... Emma, 2,881 | 6,314 |
| MOBILE—To Liverpool, per ships Empire of Peace, 4,502....George Hurlburt, 3,523 | 8,025 |
| SAVANNAH—To Liverpool, per ship Andrew Jackson, 3,818 Upland | 3,818 |
| TEXAS—To Liverpool, per steamers San Antonio, 7 Sea Island....San Jacinto, 509, and 8 Sea Island | 524 |
| To Cork, for orders, per schooner Luola Murchison, 1,325 | 1,325 |
| WILMINGTON—To Liverpool, per brig Elgia, 700 | 700 |

| Total | 39,912 | 1,325 | 6,314 | 400 | 47,951 |

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

JAMES DUNCAN, ship (Br.), at Liverpool, April 3, from Charleston, had foretopmast carried away during a severe gale, March 16, in lat. 46 N., lon. 39 W.

SULTANA, ship (Br.), Telfer, from Galveston for Liverpool, put into Queenstown, April 7, leaky.

TURKESTAN, ship (Br.), from New York, ashore at Port Madoc, had discharged all her cargo March 31. The diver had been able to materially lessen the flow of water through the large fracture in the lee bilge, which was from 25 to 40 feet in length. A second steam pump had been sent down to pump up the sand and empty the dock round the vessel.

NANCY HOLT, bark (Br.), from Wilmington, N. C., at Liverpool April 4, had been damaged by collision with the Eagle, from St. Michaels, off Point Lynas, at midnight, April 2.

VANGUARD, bark, Michel, from New Orleans for Falmouth, Eng., before reported at Key West, leaky, was undergoing slight repairs April 10, and would take on board a steam pump and proceed on her voyage. She was to be ready to proceed about the last of the week or the first of the week following.

Cotton freights the past week have been as follows:

| | Liverpool. Steam. | Liverpool. Sail. | Havre. Steam. | Havre. Sail. | Bremen. Steam. | Bremen. Sail. | Hamburg. Steam. | Hamburg. Sail. |

## BREADSTUFFS.

FRIDAY, P. M., April 21, 1876

The market in flour has been active the past week, and prices have had a downward tendency. Yet, no considerable decline can be quoted. At a slight concession, shipping extras were readily placed. The most conspicuous weakness has been in medium Western extras, some of which have been closed out at prices of shipping brands. The choice high grades continue in but limited supply, and have ruled firm. There is, however, no disposition on the part of any class of buyers to purchase beyond immediate wants. Receipts have everywhere been light, and production appears to be small, but there is a disposition to realize. Rye flour and corn meal have ruled rather easier. To-day, the market was dull and heavy.

The wheat market opened the week with a considerable show of firmness, owing to the warlike rumors from Europe, the lower ocean freights, and the bad weather in England and in the northwestern section of the United States. But belligerent reports died out, the weather improved, and ocean freights began to advance; holders, at the same time, began to show increased anxiety to effect a reduction of supplies, by realizing on lots in store, current receipts became more liberal, and a marked reduction in railway freights threatened to precipitate large quantities upon our market from the West in advance of the re-opening of inland navigation. The better grades of reds began, consequently, to decline, but the lower grades of reds, with the stock reduced by recent free sales, brought full prices. To-day, the market was dull, with a partial decline in prices.

Indian corn has been in rather better supply on the spot, and prices have given way, under a disposition to take advantage of the situation, and close out lots in store. For future delivery there has been more steadiness, with sales of prime mixed at 63c. for April and 65c. for May, but latterly have given way a fraction under the great reduction that has been made in rail freights from the West. To-day, the market was unsettled on the spot, and mixed sold at 67½c. for April and 64c. for May.

Rye has been less active, and, with the falling off in the demand, prices have not been fully maintained. Canada peas have been sold for arrival in May at $1 02, in bond. Barley and barley malt have been more steady, but quiet.

Oats have been moderately active, with prices showing a slight upward tendency, especially for choice qualities of State. To-day, Western were lower and more active. The Erie Canal will, it is officially announced, be re-opened for navigation on the 4th of May.

The following are closing quotations:

| FLOUR. | | GRAIN. | |

* Estimated.

The reduction in the visible supply of wheat is more apparent than real; probably, considerable in vessels in Chicago not included.

## THE DRY GOODS TRADE.

FRIDAY, P. M., April 21, 1876.

Manufacturers' agents representing domestic cotton and woolen productions have experienced a better demand for package lots of goods required for keeping up assortments, and in volume the trade of the past week has been fairly satisfactory for the time of year. Business has been dull with importers, and there has been continued pressure on their part to force sales through the medium of the auction rooms, where unprofitable prices have been realized. The jobbing trade in both domestic and foreign goods has been fairly active, owing to a large influx of near-by retailers, who have commenced the purchase of spring and summer goods. With the exception of prints, which have continued in a demoralized condition, the market has been steady, and jobbers' quotations have shown more uniformity than of late, while agents' prices have remained unchanged. Messrs. Dexter & Brother, Pawtucket, R. I., the most extensive manufacturers of cotton and knitting yarns in this country, have failed, with liabilities of about $400,000 and nominal assets of $300,000; and a jobbing and retail dry goods house, doing business in Charleston, S. C., and having branches at Atlanta, Ga., and Jacksonville, Fla., has suspended payment.

DOMESTIC COTTON GOODS.—The export trade in cotton goods has shown further improvement, and the week's shipments reached 4,476 packages, of which Great Britain took 1,737 China 1,216, and Africa 1,054 packages, the remainder having been taken in smaller lots by other countries. As above stated, the print market continued unsettled, and a further reduction of ¼c. was made on the following makes: Manchester, Hamilton, American, Dunnell's, Garner's, Washington, and Allen's fancies; and Merrimack, Knickerbocker and Garner's shirtings were reduced ¼c. Mourning prints were also marked down ¼c., and the Pacific Mills percales, jaconets and organdies declined from 2c. to 4c. per yard. Print cloths were taken more freely by printers and speculators, but showed no improvement in price, closing at 3⅛c., cash@10 days, for extra standard 64s. Four-yard and light-brown sheetings were fairly active and steady in price, but fine browns and heavy standard makes ruled quiet. Fine and medium fine bleached shirtings continued in good demand, and the most prominent makes are sold up to receipts by agents. Drills were in steady request for export, but the home demand was light. Cheviots were more freely taken by the Western trade, whose operations in dyed ducks were more liberal. Cottonades moved slowly, and there was a mere hand-to-mouth inquiry for tickings, denims, stripes, checks and plaid osnaburgs. Corset jeans and satteens were in fair request, and rolled jacconets were taken in small parcels. Cotton dress goods continued sluggish, and, being in over-supply, some makes were closed out by agents at a large concession from former holding rates, although the best fabrics were fairly steady.

DOMESTIC WOOLEN GOODS.—There has been a slight improvement in the demand for men's-wear woolens, and, while sales have mostly been effected in small amounts, the transactions of the week have reached a fair aggregate amount. Prices, however, are very unsatisfactory, and many fabrics are selling at a positive loss to manufacturers. Business has been more active with cloth jobbers than with agents, and the retail clothing trade has been better than at any time since the outset of the season. Cassimeres, trouserings and suitings of spring weights have been distributed in moderate amounts by agents and jobbers, and choice styles of worsted coatings have received more attention. Imitation worsted coatings have ruled quiet, and prices are almost nominal. Overcoatings have been sluggish, although some fair deliveries were made in execution of orders placed with agents some time ago. Cloths and doeskins continued in limited request, but are more steady in price than goods of a fancy character. Satinets were quiet, although a few sales of low qualities were made for printing purposes. Kentucky jeans moved slowly, and there was not much inquiry for flannels. Worsted dress fabrics were distributed to a considerable aggregate amount, but shawls were dull and barely steady.

FOREIGN DRY GOODS.—Business has been dull with importers, but increased activity has been apparent in the jobbing trade. The auction rooms distributed very large quantities of silks and dress goods of the importation of such prominent houses as Messrs. Passavant & Co., Benkard & Hutton, and C. A. Auffmordt & Co., and this checked sales of such fabrics from first hands, as both jobbers and retailers were enabled to re-assort their stocks on favorable terms, without having recourse to importers. Ribbons and some descriptions of millinery silks were in fair demand. Housekeeping linens were in steady request, and dress linens, handkerchiefs, and white goods were fairly active in jobbers' hands. Woolen goods continued sluggish in first hands, but English and Scotch suitings were disposed of by jobbers in fair amounts. Canton mattings were in good demand, and new fancy styles are in comparatively light supply. There was about the usual movement in hosiery and kid gloves, and no price changes were reported.

We annex prices of a few articles of domestic manufacture:

## Exports of Leading Articles from New York.

The following table, compiled from Custom House returns, shows the exports of leading articles from the port of New York since Jan. 1, 1876, to all the principal foreign countries, and also the totals for the last week, and since Jan. 1. The last two lines show *total values*, including the value of all other articles besides those mentioned in the table.

EXPORTS SINCE JANUARY 1 TO—

| Articles. | Great Britain. | France. | Holland & Belg. | Germany. | Other N. Europe. | Spain. | Other S. Europe. | China & Japan. | Aust'a. | Br. N. A. Colonies. | Cuba. | Hayti. | Other W. Indies. | Mexico. | British Guiana. | Brazil. | Other S. American. | All oth. Ports | Total this week. | Total since January 1, 1876. | Same time 1875. |

NEW YORK AGENTS,

**Messrs. WARD, CAMPBELL & CO.**

REAL ESTATE MORTGAGE BONDS

GUARANTEED BY THE

Equitable Trust Co.,

**$1,000,000 CAPITAL.**

THESE REAL ESTATE MORTGAGE BONDS ARE COMMENDED TO THE ATTENTION OF THE MOST

**CONSERVATIVE INVESTORS.**

*First*—They have the individual liability of the maker.

*Second*—Each bond is secured by a first mortgage of real estate of not less than double its value.

*Third*—The prompt payment of both principal and interest of every bond is guaranteed by this Company.

The Company guaranteeing these Bonds receives no deposits, owes no money, and incurs no obligations of any character except those arising from such guaranty thereby keeping its whole capital of One Million Dollars unimpaired, TO MEET AT ALL TIMES the prompt payment of both principal and interest of these Bonds.

All mortgages securing the Bonds are formally approved by the following Executive Board:

ROBERT L. KENNEDY, ADRIAN ISELIN,
SAMUEL WILLETS, JAMES A. ROOSEVELT,
WM. REMSEN, EUGENE KELLY,
CHAS. BUTLER, JOHN D. MAXWELL,
HENRY P. HAVEN, GUSTAV H. KISSELL.

These Securities bear Seven Per Cent Interest payable semi annually, and are offered for sale at one hundred and two and interest at the office of the Equitable Trust Company, Nos. 52 & 54 William street.

JONATHAN EDWARDS, President.

**THE NEW ENGLAND**

Mortgage Security Co.

OFFERS FOR SALE, AT PAR,

SEVEN PER CENT TEN-YEAR BONDS

SECURED BY

**FIRST MORTGAGES OF IMPROVED REAL ESTATE.**

GUARANTEED, PRINCIPAL AND INTEREST,

BY ITS

**CAPITAL STOCK OF $500,000.**

Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next due Coupon being stamped so as to denote that interest begins at the date of purchase.

A Pamphlet with full information will be sent on application to the Company's Office,

**43 Milk Street, Boston.**

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.

The security of each Bond is not confined to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by Individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactor investment. The Loans are all upon improved Farms in some of the most fertile Western states, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and interest are more promptly paid; and upon the success of Agriculture depends that of almost every industrial investment.

HENRY SALTONSTALL, President.
FRANCIS A. OSBORN, Treasurer.

## Insurance.

**"Pay as you go, get what you buy, stop when you choose."**

**COMMON SENSE AND FAIR PLAY IN LIFE ASSURANCE!**

*Do not Assure your Life* till you have examined the NEW PLANS devised by SHEPPARD HOMANS Actuary, for

THE

# Provident Savings Life Assurance Society,

**WESTERN UNION BUILDING,**

NEW YORK.

**Guaranty Cash Capital, $125,000,**

Invested in U. S. Five-Twenty Bonds.

*This Society separates the Insurance Part of the Premium from the Reserve or Deposit Part*, which latter is held merely for accumulation.

*This Society recognizes the Policy-holder as owner of the Reserve.*

This Society, therefore, will either issue policies on the payment of uniform annual premiums, *guaranteeing a specified surrender value for every year in cash;* or it will furnish the PROTECTION OF LIFE ASSURANCE *at actual current cost for death claims and expenses of management, each year by itself, renewable at the close of any year without further medical examination.*

These Plans are indorsed by leading Actuaries and State Commissioners, and also by the "*Society for the Promotion of Life Insurance among Clergymen*," James Brown, *President;* Howard Potter, *Treasurer.*

For Plans, Rates, and Full Particulars apply to

**THE PROVIDENT SAVINGS LIFE ASSURANCE SOCIETY,**

WESTERN UNION BUILDING, NEW YORK.

GEORGE WALKER, President. SHEPPARD HOMANS, Vice-Pres't and Actuary

UNITED STATES BRANCH,

**54 William, Cor. Pine St., New York.**

—o—

| | |
|---|---|
| **Capital paid up** | **$10,000,000** |
| **Gross Fire Reserve** | **3,700,000** |
| **Net Life Assets** | **13,300,000** |
| **Total** | **$27,000,000** |

Gross Assets held by Board of Management in New York, $1,600,000.

The Company's actual losses by Chicago conflagration in 1871 were $1,743,457 81.

The Company's actual losses by Boston conflagration in 1872 were $503,680 46.

Yet the Company paid these losses at sight without borrowing or selling a single dollar of permanent investments, continued regular dividends to their stockholders, and at the end of 1873 had entirely made up (not in this country, however), the losses of these two conflagrations and all others, commencing 1871 with a surplus over $100,000 larger than ever before.

Annual Income of Fire Department alone over $4,000,000.

Fire and Life Assets entirely distinct—the one not liable for the other.

The Company organized A. D. 1809. Commenced business in this country A. D. 1867.

Agencies in most of the principal cities and towns in the United States.

The Board of Trustees have resolved to pay Six per cent interest on the outstanding Scrip Certificates, to the holders thereof, or their legal representatives, on or after the 1st March next.

The Trustees have also resolved that the outstanding Certificates of the Company of the issue of 1860 be redeemed and paid to the holders thereof, or their legal representatives, on or after 1st of March next, from which date interest thereon will cease. The Certificates to be produced at the time of payment, and cancelled.

In addition to a bonus of fifteen per cent already paid in cash, on the Subscription Notes, they have further resolved to return to the dealers entitled to the same Fifteen per cent on the net amount of Earned Premiums of the year ending 31st December, 1875, for which Certificates will be issued on or after the 5th April next.

By order of the Board,
CHARLES IRVING, Secretary.

OF

**LONDON AND EDINBURGH.**

UNITED STATES BRANCH,

**54 William, Cor. Pine St., New York.**

| | |
|---|---|
| **Capital paid up - - - -** | **$10,000,000** |
| **Gross Fire Reserve - - -** | **3,700,000** |
| **Net Life Assets - - - -** | **13,300,000** |
| **Total - - - - - - -** | **$27,000,000** |

Gross Assets held by Board of Management in New York, $1,600,000.

The Company's actual losses by Chicago conflagration in 1871 were $1,743,457 81.

The Company's actual losses by Boston conflagration in 1872 were $503,680 46.

Yet the Company paid these losses at sight without borrowing or selling a single dollar of permanent investments, continued regular dividends to their stockholders, and at the end of 1873 had entirely made up (not in this country, however), the losses of these two conflagrations and all others, commencing 1874 with a surplus over $100,000 larger than ever before.

Annual Income of Fire Department alone over $4,000,000.

Fire and Life Assets entirely distinct—the one not liable for the other.

The Company organized A. D. 1809. Commenced business in this country A. D. 1867.

Agencies in most of the principal cities and towns in the United States.

BROOKLYN CITY SEVENS,
NEW YORK CITY SEVENS,
FOR SALE BY
VERMILYE & CO.,
16 AND 18 NASSAU STREET.

Elizabeth City bonds due 1876 wanted at par and accrued interest.

CITY OF VINCENNES, INDIANA,
SIX PER CENT BONDS.
ISSUED IN 1873. DUE IN 1893.

(The city reserves the option to pay these Bonds, with the accrued interest thereon, at any time before they are due.)

INTEREST PAYABLE JANUARY AND JULY, AND PROMPTLY PAID.

| | |
|---|---|
| Assessed value of property, 1875 | $3,644,854 |
| Entire bonded debt | 91,000 |
| Floating debt (which will be paid this year) | 23,000 |
| Population about | 8,000 |

The city has anticipated the maturity of many of its bonds heretofore issued, and paid them long before they were due.

I have an official statement from the City Treasurer made up to 1st February, 1876, giving the above figures. The above bonds *were not issued* until all the provisions of the law and ordinances were complied with, as I have the official documents to show to that effect. There can be no safer security made than these bonds. Only 2½ per cent. on its taxable property. Send for official statement.

A limited amount for sale by
WM. R. UTLEY,
4 Wall Street, N. Y.

## The Chronicle.

THE COMMERCIAL AND FINANCIAL CHRONICLE *is issued on Saturday morning, with the latest news up to midnight of Friday.*

**TERMS OF SUBSCRIPTION—PAYABLE IN ADVANCE.**

THE COMMERCIAL AND FINANCIAL CHRONICLE,

For One Year (including postage)..... $10 2)
For Six Months..... 6 10

Subscriptions will be continued until ordered stopped *by a written order or at the publication office.* The Publishers cannot be responsible for Remittances unless made by Drafts or Post-Office Money Orders.

**Advertisements.**

Transient advertisements are published at 25 cents per line for each insertion, but when definite orders are given for five, or more, insertions, a liberal discount is made. No promise of continuous publication in the best place can be given, as all advertisers must have equal opportunities. Special Notices in Banking and Financial column 60 cents per line, each insertion.

**London Office.**

The London office of the CHRONICLE is at No. 5 Austin Friars, Old Broad street, where subscriptions are taken at the following rates:

Annual Subscription to the Chronicle (including postage)..... £2 2s.
Six months' subscription..... 1 3s.

WILLIAM B. DANA, JOHN G. FLOYD, JR. } WILLIAM B. DANA & CO., Publishers, 79 and 81 William Street, NEW YORK. POST OFFICE BOX 4 592.

☞ A neat file-cover is furnished at 50 cents; postage on the same is 17 cents. Volumes bound for subscribers at $1 50.

☞ A complete set of the COMMERCIAL AND FINANCIAL CHRONICLE—July 1865, to date—is for sale at the office. Also one set of HUNT'S MERCHANTS MAGAZINE, 1839 to 1871, sixty-three volumes.

☞ The Business Department of the CHRONICLE is represented among Financial Interests in New York City by Mr. Fred. W. Jones.

## A FOUR PER CENT. FUNDING LOAN.

The event has justified the course pursued by the Secretary of the Treasury in the negotiation of the Alabama Bonds the past week. Bids to so large an amount, and at prices so favorable to the Government, were scarcely to be expected. It would have been more satisfactory to the public if the offerings had been in smaller lots, and in that case the aggregate of the bids would have been greater; but the price actually obtained was all that could be hoped for.

This affair brings prominently forward again the subject of a further funding of our six per cent bonds. There are still about 700 millions of five-twenties outstanding, which are redeemable at the pleasure of the Government. Whether these may not now be satisfactorily funded, is a subject which is exciting some discussion. There is, however, at the outset, a difficulty the Secretary would meet with, and that is, that no authorization of a proper bond at present exists. The only law intended to meet the case is that of July 14, 1870, known as the "Refunding law of 1870," amended in 1871, and again in 1875. As it now stands it authorizes the issue of 1,000 millions of four per cent bonds, payable after *thirty* years. Such a bond could not be negotiated at par. All authorities agree that a longer date is necessary to meet the market. We have before suggested that an amendment be passed extending the date to fifty years. Until this is done, the negotiation of our four per cents in Europe is certainly impracticable.

With the law amended, the Secretary could take advantage of any favorable moment. Undoubtedly there is a very good demand in Europe now for our securities. The investing public in Great Britain and on the Continent has lost confidence in almost all foreign loans. This is due to the large losses made during the year by the holders of Egyptian, Turkish, Spanish and South American bonds. Foreign stocks are, therefore, under a cloud. Industrial or speculative undertakings are also in discredit. The public cannot so soon forget the "notorious swindles" in the way of mining and industrial stocks which have been floated upon them, so that any new enterprise is carefully scrutinized. As a result of these causes, a vast amount of capital is accumulating, awaiting investment, and is ready to take up any good securities which are offered. The shutting up of these hitherto popular channels for the outflow of loanable funds, especially the discredit of Eastern securities, cannot but make new outlets for capital necessary, while the securities of all nations whose credit is above suspicion must constantly appreciate.

Another circumstance appears to operate in the same direction at the present time, and that is, the decreased trade in Great Britain which has made English railways less profitable, so that the prices now ruling for English railway stocks do not offer sufficient margin for satisfactory investment. Altogether, therefore, the time appears to be opportune for bringing out a new loan. Our Government credit has also been steadily appreciating, and there is good reason for this in the growing disposition shown in this country to bring our currency speedily up to a metallic basis. This progress towards the reform of our currency is a necessary condition to our placing our bonds at low rates. Many think that the return to a specie standard should be a preliminary step to any further funding, as the better rates we could then obtain would, it is claimed, more than compensate for the continuance of the present larger interest paid. There is force in this idea. And yet, if we show our determination to progress steadily toward that

reform, we may reap the benefit, in great part, which would flow from its attainment before we actually reach the end itself. Would it not be well, therefore, for Congress to further amend the "Refunding law of 1870," so as to authorize a fifty-year loan?

## SILVER DOLLARS A LEGAL TENDER.

Senator Jones' speech in the Senate, this week, on the Silver question, was, with the exception of the brief outline of it given in the telegrams of the Associated Press, withheld from publication until to-day. We cannot, therefore, fairly speak of its merits or possible demerits at this time. It will be of interest, however, to recall some facts bearing upon the general question raised by Senator Sherman's bill, as they are necessary to a proper understanding of the subject, and appear to be largely misapprehended; and, first, in order that we may have the proposition of the Finance Committee before us, we give a copy of the proposed act:

*Be it enacted, etc.*, That there shall be coined at the mints of the United States a silver dollar of the weight of 412 8 10 grains Troy of standard silver, the emblems, devices and inscriptions of which shall conform to those prescribed by law for the gold and silver coins of the United States, with such modifications thereof as may be necessary to render the said dollar readily distinguishable from the trade dollar, and in the coinage and delivery thereof the same deviations from standard weight and fineness shall be allowed as are prescribed by law for the trade dollar. And the said dollar herein authorized shall be a legal tender at its nominal value for any amount not exceeding $20 in any one payment, except for customs duties and interest on the public debt, and shall be receivable in payment of all dues to the United States, except duties on imports; and the trade dollar shall not hereafter be a legal tender.

SECTION 2. That the Secretary of the Treasury is hereby authorized to exchange the silver dollars herein authorized for an equal amount of United States notes, which shall be retired and cancelled and not be again replaced by other notes, and all United States notes redeemed under this act shall be held to be a part of the sinking fund provided for by existing law, the interest to be computed thereon as in the case of bonds redeemed under the acts relating to the sinking fund.

SECTION 3. That any owner of silver bullion may deposit the same at the mints, to be taken at its market value, as ascertained and publicly announced from time to time by the Director of the Mint, with the approval of the Secretary of the Treasury, and to be paid for either in silver dollars or with gold coin or United States notes; or, bullion for the coinage of said silver dollars may be procured in the mode provided for as to other silver coins, by section 3,536 of the Revised Statutes of the United States, the gain and wastage to be accounted for as provided in said section.

This bill appears to cover two important points—first, it directs the coinage of silver dollars of the weight of 412·8 grains; making them legal tender for all amounts up to twenty dollars; and, second, it authorizes the issue of these dollars in exchange for an equal amount of United States notes, which notes are to be cancelled, and no other notes to be issued in their place. It will thus be seen that a very interesting and important proposition is here made, and one that cannot be readily dismissed. In many quarters, however, the proposal is criticised as if it were an entire innovation—a great change in our existing laws, and, therefore, not worthy of consideration. But this is not the fact, or, at least, was not, up to the passage of the Revised Statutes; and it will be of interest to indicate what the law on this subject has been and is, that we may be better prepared to intelligently discuss the policy of the proposed act.

It was in 1792 that the Mint at Philadelphia was established. The very same law provided that our money should be expressed in dollars, &c., the old Spanish dollar being at that time the practical monetary unit of commerce. Gold, silver, and copper coins were authorized, gold coins being rated at 24·75 grains of pure gold to the dollar, and the silver coins, at 371¼ grains pure silver (412½ grains Troy) to the dollar, the relative value of the two metals being declared to be as 15 to 1. Under this law, silver dollars were issued, in 1794, of the standard mentioned, and were by the act made a legal tender for all amounts. In 1834, gold was reduced from 24·75 to 23·20 grains to the dollar; but, in 1837, the fineness was increased to 23·22. The relation between the two metals thus became as 16 to 1, but no change was made in the weight of the silver dollar. In fact, from the first issue in 1794, down to the passage of the Revised Statutes in 1874 (eighty years), it remained of precisely the same weight, and during all that time was a legal tender to any amount. This is a very important point in this discussion, as it shows that the proposed law is no innovation.

But, it may be asked, why then is there any objection to this new silver dollar? The simple answer is, because the value of silver has declined so materially, changing the relations between the metals. Up to near the close of 1874 the price had been remarkably steady, as may be seen from the following statement taken from the annual circular of Pixley & Abell, London. The prices are for standard bar silver, and are the average annual price for each year named:

| Years. | Average price per oz. | Years. | Average price per oz. | Years. | Average price per oz. |
|---|---|---|---|---|---|
| 1845 | d. 59¾ | 1835 | d. 61 5-16 | 1865 | d. 61 1-16 |
| 1846 | 59 5-16 | 1836 | 61 5-16 | 1866 | 61⅛ |
| 1847 | 59 11-16 | 1857 | 61¾ | 1867 | 60 9-16 |
| 1848 | 59½ | 1858 | 61 5-16 | 1868 | 60⅝ |
| 1849 | 59¾ | 1859 | 62 1-16 | 1869 | 60 7-16 |
| 1850 | 60 1-16 | 1860 | 61 11-16 | 1870 | 60 9-16 |
| 1851 | 61 | 1861 | 60 13-16 | 1871 | 60¾ |
| 1852 | 60½ | 1862 | 61 7-16 | 1872 | 60 5-16 |
| 1853 | 61⅛ | 1863 | 61⅛ | 1873 | 59¾ |
| 1854 | 61¼ | 1864 | 61⅜ | 1874 | 59 5-16 |

From the latter part of 1874 the price has continued to decline, until now the quotation is about 53½d., against about 60d. during the thirty years given above. The truth is, that in 1837 we placed too high a value on silver compared with gold. That is, we made the difference 16 to 1, and, as a consequence, our silver dollars were more valuable than gold, and passed out of the country or out of existence rapidly. Hence, since 1853, we have coined no silver dollars under this old law, although the authority to do so has remained in force until the act of 1873, when it was taken away by the following provision: "That no coins, either of gold, "silver, or minor coinage, shall hereafter be issued from "the Mint other than those of the denominations, stand-"ards, and weights herein set forth." But even after 1873, and until the Revised Statutes of 1874, the old silver dollar remained a legal tender to any amount.

We thus see that making these silver dollars a legal tender is no new thing; and the inquiry whether they should be again issued *pari passu* with the withdrawal of greenbacks, and up to a certain amount be a good tender, must be determined on its own merits as a question of policy, and not, as some appear to discuss it, on a par with, or bearing some semblance to, the issue of paper legal tenders. The Government has the evident right to do what is proposed; it is simply reviving in a modified form a law that has existed from 1792 to 1874; and the only point open for discussion is its wisdom.

And here we think every one must admit that there is much force in the arguments advanced on both sides. In favor of the proposition it may be urged, in the first place, that as the silver was issued our legal tenders would disappear. This we all recognize as no small benefit. Then, again, with such a basis for our currency, we should secure stability, and be put in sympathy with the world's commerce. That is, there would be no more fluctuations except as silver fluctuated, and values would be fixed by a standard known and recognized in every commercial country as fully as gold is. Besides this, we all acknowledge the difficulty of

btaining within any reasonable period sufficient gold to ıect our necessities, if we are to adopt that standard. While the change is progressing in Germany, and rance holds its present position, our efforts would be ttended with more uncertainties than they could have een at any previous period of our history. It can also e urged that our use of silver would have a tendency o improve its price; and, if it actually had that effect, radually and imperceptibly our currency would appre- ate, until possibly our silver dollars again became equal ı value to the gold dollar. There is also force in the lea that a different standard from the European would, ı a measure, save us from the full influence of panics nd monetary disturbances in England and on the Con- nent. That is to say, in case of a sudden imperative eed for specie in Europe, they could only indirectly ffect us, our different currency breaking the full force f the blow. These, and other suggestions we might ffer, show that the passage of the law for the re-issue f the silver dollar is favored by some substantial easons.

On the other hand, however, it is said that the pro- uction of silver can be increased indefinitely, and that s price will tend downwards constantly. This is a oint which it is very difficult to determine. Certainly he price cannot go below, or remain for any consider- ble time below, the cost of production, for in that case he supply would fall off. Senator Jones attempts to rove that it is very near that point now. Then, again, bi-metallic standard (which the proposed act contem- lates), might lead to severe losses and complications mong those who were compelled to take the silver. his point is well illustrated by Mr. Nourse of Boston, ı a letter to the *Advertiser* of that city, from which we ake the following extract:

> Of all the transactions between citizens, of payment of debt or ages, or of purchase and sale, wherein actual currency is used, ore than 90 per cent is in sums less than twenty dollars each. uch small transactions constitute the great aggregate of the cash currency) business from day to day. On the other hand, of the ayments, transfers, and clearings by checks or drafts,—the vast ggregate of payments and exchanges accomplished at the great arkets and by those having large capital—at least 90 per cent is sums exceeding twenty dollars. That is, under this proposed aw, the wages-earning and other humble classes may be com- elled to receive a depreciated legal-tender for their small claims, nd, in turn, may compel the butcher and grocer, and others from whom they buy supplies, to take the same. But the butcher can- ot tender the silver for an ox, nor the grocer for his wholesale urchases; so they will protect themselves from loss by an extra rice to the laborer for his supplies. The poor man must suffer. he laborer saves up his hardly-earned silver dollars until he as enough, as he supposes, to pay off the mortgage upon his ouse. He tenders them for the amount of dollars due, and is old that gold dollars or United States legal-tender notes—as he case may be—are the "dollars" nominated in the bond; so he nust get ten or twelve per cent more before he can pay off his lebt, because it exceeds twenty dollars. He must receive silver, ut he must pay gold or its equivalent.

There would be more force in this idea if practically he probable workings of the law were as stated. But s it likely that any head of a factory on pay-day, or ny head of a family who is about to settle his servants' ages, will supply himself with silver for the purpose? emember that, even at present prices, ninety dollars of old would only purchase one hundred of silver dollars. Why have we not in the past specie-payment period lways obtained five dollars of silver currency to pay ny five-dollar debt?

These and other objections may be urged against the ystem proposed, but we have not time at present to well at greater length upon the subject. Sufficient as been said, however, to show that Mr. Sherman's bill s worthy of deliberate and thoughtful consideration. Certainly, very much can be pleaded in its favor; and it nly remains to be determined, after a full discussion, whether there are, or are not, still weightier reasons gainst its adoption.

## PUBLIC VS. PRIVATE ENGRAVING AND PRINTING.

We have often referred to the circumstance that, while every one insists upon honesty and economy in the administration of the government, few appear to be controlled by any certain principle in their efforts to reach those ends. To rightly comprehend the situation, and effectively provide relief, we must take in all the outlying facts, which, together, cause or make up the evils complained of. First, we have government expenses increased since 1860 about three hundred per cent. Second, the Government attachés in 1860 were about fifty thousand; now they are more than a million,* all of whom have votes and pay a percentum of their salaries towards helping others vote. Third, official corruption appears to be the rule, not the exception. Now, these are the facts which are apparent to every one, and we must keep them all in view when we seek to restore the Government service. Some propose, as a sufficient cure, to cut off ten per cent from all salaries. That, however, is, in very many cases, only scratching a wound for the purpose of healing it. But we seem to take in the whole disease and provide a simple manifest remedy, when we reduce the government machinery; take out some of the wheels and make new combinations; have everything done, which can be, outside of Government offices; simplifying in every way the Government, business and having as limited a number of attachés as possible; and finally, when we have placed the few officers left, beyond any power of election assessment, and removal except for cause. This is the way to a simple, pure, inexpensive anti-war government, and any other would appear to be ineffective and partial. On former occasions, we have given many illustrations of the direction in which this system may be pursued. Only a week or two since, in our remarks upon the Indian Bureau, we showed how the remedy should be applied in that case. But we refer to the subject now because, in a proposition at present before Congress, an excellent illustration is afforded of the mode in which the Government became so cumbersome, so expensive, and, as a result, so corrupt.

It seems that up to this time all the revenue stamps, mentioned below, have been prepared by the Bank-Note companies of New York, under contracts awarded to them as the lowest bidders, after the Department had advertised for proposals. The Government Bureau of Engraving and Printing have, however, always shown a desire to extend their work and enlarge their business. So, at the session of last Congress, they prepared the following table for the Committee on Banking and Currency, showing the comparative cost of these internal revenue stamps at rates now paid to the New York Bank-Note companies, and at the rates the Bureau of Engraving and Printing say they can do them for; their estimate being based, as they state, on reduced prices to journeymen printers. They do not indicate, however, the extent of the reduction to printers referred to, or whether lower rates than have hitherto been paid could not now be obtained from the Bank-Note Companies for the same reason.

---

*This number may be questioned, but a moment's reflection will show that the total can only be measured by millions. Take, first, the Department of the Post Office, which embraces 42,000 post offices, with all their employees, mail agents (on every railroad), carriers, &c. Next the Customs Department, with its army of attachés in every large city and smaller squads in smaller cities; next, the Revenue Department, with its branches extending into every corner of the land; then, next, the Pension Bureau agents—but we have not even space to enumerate them. We began to prepare a table, and had stated what we supposed were the large items for it, when we opened some Government reports for guidance, and found we had scarcely begun the work.

| Bank-note Companies. | Title of stamps. | Number of stamps required. | Proposed rates by New York bank-note companies.—Per 1,000 stamps. | Aggregate. | Proposed rates by Bureau.—Per 1,000 stamps. | Aggregate. |

| do. | 8-ounce | 130,000 | 1 00 | 130 00 | 1 00 | 130 00 |
| do. | 16-ounce | 120,000 | 1 75 | 297 50 | 1 75 | 297 50 |
| | | | | $242,799 22 | | $241,037 12 |
| | The face value of the stamps, enumerated as having been issued during the fiscal year, is $99,930,000; and the expressage from New York to Washington, at 20 cents per $1,000, added to the bank-note companies' rates will be | | | 19,986 00 | | |
| | Making total cost by bank-note companies | | | $262,785 22 | | |
| | Total cost by Bureau | | | 241,037 12 | | |
| | Difference in favor of Bureau rates | | | $21,748 10 | | |
| | Diff. in favor of Bureau, exclusive of freight | | | $1,762 10 | | |

On the twelfth of this month, we see this subject was again brought before Congress, when, on the motion of Mr. Randall, and without any discussion, an amendment to the Appropriation bill was agreed to, to the effect that the engraving and printing of above stamps be hereafter done in the Bureau, provided the *cost does not exceed the price paid under the existing contract.* The only argument advanced for the change was that, if adopted, "*about two thirds of the employees now, on fur-*"*lough or discharged, would be re-employed by the Gov-*"*ernment.*" This is all plausible, and, in connection with the foregoing table, if one would look at it with his mental eyes shut, it would appear quite conclusive; but the least analysis shows that the statements and reasoning are all specious, fair on the outside, but totally misleading. Now let us examine the subject very briefly:

And, first, how is the Bureau to know that "the cost "will not exceed the present cost," except by the experiment? In fact, even after the experiment is made, unless the Bureau kept their separate accounts very exact, the different kinds of business entirely distinct, it would be difficult to know what the actual outgoes were on that portion of the business. And if there should be any desire to conceal the facts, or to make it appear that the estimate was not exceeded, it can easily be done beyond discovery. Then, again, as a principle, who ever knew of Government work being accomplished as cheaply as private work? What business man is there that would commit his work to a Government office with the idea of economy? But these are only preliminary suggestions; let us look at the figures.

And here, in the outset, we are struck with the trifling difference between the rates which were being paid and the actual cost as the Bureau gives it. The item of expressage, Mr. Randall states, has been reduced; the actual fact, however, with regard to that matter, is that whoever added that item to the table was guilty of a great inaccuracy, for these stamps, as every one knows, are never sent to Washington, but directly to the Internal Revenue officers. So that, according to the Bureau's estimate, there is, on all this work, a profit to the bank-note companies of only $1,762.10. And for this trifling favorable balance (which may be turned into a very large unfavorable deficit, just as, this year, the Bureau overstepped its gross appropriation several hundred thousand dollars, and had to stop work waiting for a new appropriation,) the experiment of giving the Government more work and more employees is to be tried.

But Mr. Randall says the Bureau ought to do it cheaper than the bank-note companies, for it has no rent to pay, and, of course, in the estimates, they have allowed for no rent. Strangely enough, however, while this discussion, or, more correctly speaking, while this remark was being made in the House, Mr. Morrill, of Vermont, was in the Senate proposing to enlarge the Treasury building, a necessity, as we understand it, *because the Printing Bureau takes up so much room;* and for this enlargement the simple land will cost, as he thinks, over one million dollars. "The Treasury building is very "greatly crowded," Mr. Morrill said, "and scarcely ac-"commodates half the force that belongs to the Depart-"ment." With regard to the land he spoke as follows:

"I am directed by the Committee on Public Buildings and Grounds to report back the letter of the Secretary of the Treasury, in relation to the cost of the land required for the completion of the east front of the Treasury building, and ask to be discharged from its further consideration. I will merely say that by the examination of the committee we find a rather curious state of facts. The land itself on that street is assessed at a value of $379,369 64, but the estimated value of it is $1,039,674. By the estimate of the Supervising Architect of the Treasury, it would cost, to obtain the whole of the grounds, including what would be wanted by the United States in the different lots, $939,272. If we only took what we require for the extension, it would cost $100,000 more, or $1,039,674 80."

Do not the words—"no rent to be paid"—sound a little strange in connection with these other words which were being uttered almost within the hearing of Mr. Randall, and at the very moment he was speaking? Certainly, the statement "one million dollars for land" comes in very nicely as an echo to the words "no rent," and makes them remarkably emphatic. And precisely here, let us stop and apply the excellent illustration, this case furnishes, of one way in which Government expenses have gone on increasing of late years. Here is a proposition for the Government to take hold of some work; it can be done in this way, according to the estimate, two thousand dollars cheaper. The Government, therefore, enters upon the business. We next hear of it in the expense of fitting up some new rooms for the purpose. It is folly to say this would not be necessary. Any business man knows that he could not add the work of making those stamps, in his already overcrowded factory, without increasing the size of his buildings. Then, again, the building must be lighted and heated; more machinery must be added; new dies must be made; and many other incidental expenses arise. What is the result? Precisely what it has been in all the Bureaus—a constantly increasing expense, which we are finally told cannot be cut down without crippling the Government. Is not this history? Or, in other words, is not

this the precise way in which the expensiveness of our Government machinery has for years been insensibly increasing?

But the twin evil is also part of the same growth. This work, we are told, is to be undertaken so that some poor people thrown out of employment can again become Government pensioners. What a noble object! And yet it would leave in idleness the same number of citizens, in other sections, who are now engaged upon this work; so that, even in this contracted view, the resulting benefit would be difficult to discover. But the real harm it would do is the increase it would add to our official army. Here is the point of our greatest weakness. It should be our constant aim to disband these forces as far as can be in the interest of a pure Government.

## IMPORTS AND EXPORTS FOR MARCH, 1876.

Statement, by Customs Districts, of the values of Imports into, and domestic and foreign exports of merchandise from, the United States during the month of March, 1876.

[From our own correspondent.]

LONDON, Saturday, April 15, 1876.

The Easter holidays having commenced, business has been remarkably quiet during the week, and but few features of interest have presented themselves. Apart from some disturbance in the market for Egyptian and Peruvian government securities, which is quickly influenced by dispiriting rumors, the variations in the prices of public securities have been almost unimportant. The investing public pay but little attention to the course of affairs in the Stock Exchange, as there is but little money to invest, and what is invested finds an outlet in home or colonial government securities. It is said that the amount of money in the hands of solicitors and lawyers, for investment in ground rents, fre-hold property, &c., is unusually large. A circumstance which is not to be wondered at considering the heavy sums of money which the British public have lost of late years in Turkish, Peruvian, Spanish, and the various other Central American and South American stocks. Investors now purchase only the very choicest foreign stocks, such as French or United States, while Italian have attracted attention for some time past, as the belief exists that the country is a rising and prospering one. Russian are naturally more or less influenced by the ever-recurring Eastern question, but they hold their ground well, although of late they have been subjected to numerous fluctuations. Thus, only a few foreign stocks are in favor, and the majority are shunned by investors; obviously, this is no matter for surprise, especially when it is borne in mind how serious have been the defaults of late, and how great has been the fall in prices. The decline in British railway shares since the commencement of the year has also been very severe, and

partly from the fact that the general public are weary of the Stock Exchange, are alarmed at the rapidity of the fluctuations which take place almost week by week, and, owing to the diminished profits in trade, are unable to purchase stocks freely, even if they are considered to be cheap; there are no distinct indications of revival. A time will possibly come when an end to such a condition of affairs will be reached, but there is no doubt that the existing policy of caution in nearly every department of business will be persisted in, and that any hope of a decided revival must be postponed until the autumn. The revelations of late, both before the House of Commons' Committee and in the Bankruptcy courts, and, I regret to add, before the criminal courts, have been of too serious a nature to admit of merchants embarking freely in commercial enterprise unless they are very certain of what they are about. Commercial confidence has unquestionably, been lost, and, although we are daily hoping for its return, we know that to regain it is a difficult and slow process. Throughout the whole country, strict economies have been and continue to be practiced. The fancy trades are unusually dull and the demand for luxuries is restricted. This falling off in the demand for superfluities is natural to the present condition of our trade and to the small profits which accrue; but for articles of necessity there is a moderate inquiry, and in these a moderate degree of activity presents itself.

In the money market the chief feature during the week has been a steady decline in the rates of discount. Last week the Bank rate was lowered to 3 per cent, but, although no change has been made since then, the open market rates have been steadily declining, and for the best short-dated and three months' bills they are fully 1 per cent below the official minimum. The supply of commercial bills is very limited, and consequently the demand for money for mercantile purposes is very small. There is scarcely, for obvious reasons, any finance paper afloat; and, as gold is now accumulating in the Bank of England, a period—possibly a long period—of easy money is regarded as certain. Not one fact can be brought forward calculated to make money dear, the indications being all of a contrary nature. It might have been thought that cheap money would have given a stimulus to trade, but the fact is that the absence of commercial and financial enterprise is producing cheap money, and no one appears to foresee an end to this condition of affairs. The prices of money are now as follows:

| | Per cent. | | Per cent. |
|---|---|---|---|
| Bank rate | 3 | Open-market rates: | |
| Open-market rates: | | 4 months' bank bills | 2 @2½ |
| 30 and 60 days' bills | 1½@2 | 6 months' bank bills | 2½@2¾ |
| 3 months' bills | 1½@2 | 4 and 6 months' trade bills | 2½@3 |

The rates of interest allowed by the Joint-stock banks and discount houses for deposits are as under:

| | Per cent. |
|---|---|
| Joint-stock banks | 2 @... |
| Discount houses at call | 2 @... |
| Discount houses with 7 days' notice | 2 @2½ |
| Discount houses with 14 days' notice | 2 @2½ |

The following are the rates for money at the leading cities abroad:

| | Bank rate. | Open market. | | Bank rate. | Open market |
|---|---|---|---|---|---|
| | per cent. | per cent. | | per cent. | per cent. |
| Paris | 4 | 2½ | Brussels | 3 | 3 |
| Amsterdam | 3 | 3 | Turin, Florence and Rome | 5 | 4½ |
| Hamburg | ... | 3 | Leipzig | 4 | 3½ |
| Berlin | 4 | 3 | Genoa | 5 | 4½ |
| Frankfort | 4 | 3 | Geneva | 3½ | 3½ |
| Vienna and Trieste | 4½ | 4½ | New York | ... | 4½@6 |
| Madrid, Cadiz and Barcelona | 5 | 5 | Calcutta | 12½ | .... |
| Lisbon and Oporto | 4 | 3½ | Copenhagen | 5 | 5 |
| St. Petersburg | 5½ | 5½ | Constantinople | .... | ... |

In the above table, the principal alteration is a rise of 1 per cent in the rates at Calcutta, the lowest quotation being now 12½ per cent. For silver there has been a good demand, and the price of fine bars has risen to 54d. per ounce.

Annexed is a statement showing the present position of the Bank of England, the Bank rate of discount, the price of Consols, the average quotation for English wheat, the price of Middling Upland cotton, of No. 40's Mule twist, fair second quality, and the Bankers' Clearing House return, compared with the previous four years:

The proportion of reserve to liabilities at the Bank now amounts to 46 per cent.

The Secretary of State for India has given notice that he will be prepared to receive on Friday, the 28th of April, tenders for a loan of £4,000,000, bearing interest at 4 per cent per annum. The dividends are to be payable half-yearly, in London, on the 5th of April and the 5th of October in each year, and the stock is not to be redeemed until the 10th of October, 1888. The whole of the loan must be paid up by the 1st of August next.

In the Stock Exchange, during the week, business has been very quiet, and the tone has been dull. The Egyptian market has been in an unsettled state, and, with but few exceptions, the tendency has been adverse.

The closing prices of the principal American securities at to-day's market, compared with those of Saturday last, are subjoined:

| | Redm. | April 15. | April 8. |
|---|---|---|---|

| Do 6s | .... | 35 @ 45 | 35 @ 45 |

The trade for wheat during the week has been exceedingly quiet, and there has been no material variation in prices. The demand has been chiefly for the better qualities of produce, which have changed hands at about late rates.

The following figures show the imports and exports of cereal produce into and from the United Kingdom since harvest, viz., from September 1 to the close of last week, compared with the corresponding periods in the previous three years:

| | 1875-6. | 1874-5. | 1873-4. | 1872-3. |
|---|---|---|---|---|
| **IMPORTS.** | | | | |
| Wheat cwt. | 34,527,002 | 22,430,065 | 27,367,379 | 29,662,113 |
| Barley | 5,939,853 | 9,618,874 | 5,834,234 | 10,668,173 |
| Oats | 6,767,934 | 5,075,407 | 5,646,736 | 6,167,103 |
| Peas | 968,635 | 1,067,955 | 642,658 | 835,304 |
| Beans | 2,258,782 | 1,604,297 | 2,894,854 | 1,660,283 |
| Indian Corn | 13,916,164 | 8,970,778 | 9,636,010 | 12,947,693 |
| Flour | 4,187,728 | 4,432,188 | 4,242,063 | 4,520,566 |
| **EXPORTS.** | | | | |
| Wheat cwt. | 186,616 | 172,801 | 1,561,289 | 166,397 |
| Barley | 19,131 | 155,521 | 228,220 | 10,672 |
| Oats | 185,270 | 48,604 | 68,779 | 10,767 |
| Peas | 27,224 | 15,722 | 9,147 | 5,633 |
| Beans | 6,292 | 1,551 | 2,232 | 1,159 |
| Indian Corn | 81,435 | 37,190 | 95,530 | 22,047 |
| Flour | 14,187 | 42,727 | 95,244 | 13,829 |

According to the last official return, the deliveries of home-grown wheat in the 150 principal markets of England and Wales during the week ending April 15, amounted to 41,226 quarters, against 54,283 quarters last year. In the whole Kingdom, it is computed that they were 164,900 quarters, against 217,130 qrs. in 1875. Since harvest, the sales in the 150 principal markets have amounted to 1,451,591 quarters, against 1,916,526 quarters, and in the whole Kingdom to 5,806,400 quarters, against 7,666,100 qrs. in 1874-5. There has been a diminution, therefore, of 1,859,700 quarters. It is estimated that the following quantities of wheat and flour have now been placed upon the British markets since harvest:

| | 1875-6. cwt. | 1874-5. cwt. | 1873-4. cwt. | 1872-3. cwt. |
|---|---|---|---|---|
| Imports of wheat since harvest | 34,527,002 | 22,430,065 | 27,367,379 | 29,662,113 |
| Imports of flour since harvest | 4,187,728 | 4,432,188 | 4,242,063 | 4,520,566 |
| Sales of English wheat | 26,128,700 | 34,497,500 | 29,348,600 | 30,049,100 |
| Total | 64,843,430 | 61,359,753 | 60,958,042 | 64,231,779 |
| Deduct exports of wheat and flour | 200,803 | 215,528 | 1,656,533 | 179,726 |
| Result | 64,642,627 | 61,144,225 | 59,301,509 | 64,052,053 |
| Average price of English wheat for the season | 45s. 10d. | 43s. 1'd. | 61s. 10d. | 56s. 8d. |

## English Market Reports—Per Cable.

The daily closing quotations in the markets of London and Liverpool for the past week have been reported by cable, as shown in the following summary:

# Commercial and Miscellaneous News.

IMPORTS AND EXPORTS FOR THE WEEK.—The imports this week show a decrease in dry goods and an increase in general merchandise. The total imports amount to $6,954,749 this week, against $5,063,422 last week, and $7,369,522 the previous week. The exports amount to $4,582,548 this week, against $5,069,395 last week and $4,523,403 the previous week. The exports of cotton the past week were 4,176 bales, against 5,220 bales last week The following are the imports at New York for week ending (for dry goods) April 20, and for the week ending (for general merchandise) April 21:

FOREIGN IMPORTS AT NEW YORK FOR THE WEEK.

| | 1873. | 1874. | 1875. | 1876. |
|---|---|---|---|---|
| Dry goods | $2,088,748 | $1,840 821 | $1,591,064 | $1,219.663 |
| General merchandise | 8,252,015 | 5,388,553 | 5,286,879 | 5,735,086 |
| Total for the week | $10 340,763 | $7,228,374 | $6 877,943 | $6,954.749 |
| Previously reported | 139,526,585 | 130,944,807 | 112,994 068 | 99,618,329 |
| Since Jan. 1 | $149,867,348 | $138,173,181 | $119,872,011 | $106,633,078 |

In our report of the dry goods trade will be found the imports of dry goods for one week later.

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports, for the week ending April 25:

EXPORTS FROM NEW YORK FOR THE WEEK.

| | 1873. | 1874. | 1875. | 1876. |
|---|---|---|---|---|
| For the week | $5,955,290 | $7,295,279 | $5,902,249 | $4,582,548 |
| Previously reported | 81,767,856 | 83,218,721 | 72,369,258 | 74,465,047 |
| Since Jan. 1 | $87,123,146 | $90,513,950 | $78,271,507 | $79,047,595 |

The following will show the exports of specie from the port of New York for the week ending April 22, 1876, and since the beginning of the year, with a comparison for the corresponding date in previous years:

| | | | |
|---|---|---|---|
| Apr. 18—Str. Wilmington | Havana | Spanish gold | $100,000 |
| | | American gold | 5,000 |
| Apr. 18—Str. Amerique | Havre | Gold bars | 42,978 |
| Apr. 20—Str. Gellert | London | Silver bars | 214,000 |
| | Plymouth | Gold bars | 78,796 |

| 1871 | 2.971,893 | | |

Cumberland & Pennsylvania.—This road has been heretofore owned nominally by a separate corporation, although 14,905 out of its 15,000 shares of stock were owned by the Consolidation Coal Company. Now it appears by a deed executed March 2, but only recently recorded, that the Cumberland & Pennsylvania Railroad Company has conveyed all its road franchises and other property to the Consolidation Coal Company. The consideration is that the Consolidation Company pay $10 in cash, assume all the bonded and other debt, and surrender and cancel its 14,905 shares of stock. The Consolidation Company charter gives it power to own railroads as well as to mine coal, has assumed possession of the road, which will hereafter be known as the Cumberland & Piedmond Railroad.

This transfer is, it is naturally assumed, made for the purpose of evading the law recently passed by the Maryland Legislature for the purpose of reducing the rates on coal over the road. There are reports that a suit will be brought by the Attorney-General of Maryland to enforce the law unless a compromise is made.

Pacific Railroads—Sinking Fund.—The Chairman of the House Committee on the Judiciary has addressed to the Presidents of the Pacific Railroads the following letter, inviting proposals for a method of meeting their indebtedness to the Government:

CHAMBER OF THE COMMITTEE ON THE JUDICIARY,
HOUSE OF REPRESENTATIVES,
WASHINGTON, April 25, 1876.

SIR: I am directed by the Committee on the Judiciary to request you to lay before the committee, within ten days from this date, such proposition as would be agreed to by the company of which you are president, as to the creation of a sinking fund to meet the principal and interest of the bonds advanced by the Government to said company, stating the amount which said company is willing, or would be willing, to pay into such fund annually, in half yearly installments, for meeting the principal, and what sums, payable in like manner, to meet the interest when due, and such details as to the management of the fund as would be satisfactory to the company, but leaving out of any such proposition any offer to reconvey to the United States any of the land heretofore granted by the Government to the company, as the committee have already determined that it would be inexpedient to accede to such an offer.

This communication is addressed to you at this time with a view toward arriving at some satisfactory arrangement of the matter, if possible, and an early reply is respectfully requested. I have the honor to be, very respectfully,

J. PROCTOR KNOTT, Chairman.

St. Joseph & Denver City.—As soon as the sale is confirmed, the new company will be organized. In the new company, holders of Eastern Division bonds will receive new 7 per cent. bonds for the face of the old bonds and about 20 per cent. of the accrued interest, and new stock to about one-half of the amount of their old bonds. The new bonds will, for the first five years, have the coupons payable only *pro rata* as the income of the road will permit. Western Division bondholders will receive for each $1,000 bond and accrued interest $450 new first mortgage bonds; $200 new second mortgage bonds; $200 land scrip, and $140 new stock.

—The following is an abstract of the reports made to the Comptroller of the Currency, showing the condition of the national banks in the United States at the close of business on Friday, March 10, 1876:

Number of banks, 2,090.

The above statement is exclusive of the First Nat'onal Bank of Boscobel, Wis., from which a report has not yet been received.

—Attention is directed to the Maverick National Bank in Boston, whose card will be found on the first page of THE CHRONICLE. This bank has a capital of $400,000, with a surplus of $175,000, and invites correspondence from bankers, merchants and others, as it gives special attention to collections in connection with its general banking business.

—Messrs. Ivison, Blakeman, Taylor & Co., 138 and 140 Grand street, give notice in our advertising columns of their celebrated "Spencerian" steel pens, which have become one of the leading articles of trade among stationery dealers. There are fifteen numbers of these pens, suited to various tastes and uses, and a sample card, containing one of each number, is sent by mail on receipt of 25 cents.

—Messrs. Ratten & Bonn, 52 Exchange place, pay on May 1 the gold coupons then due on the Denver & Rio Grande Railway and the Colorado Improvement Company.

# The Bankers' Gazette.

## NATIONAL BANKS ORGANIZED.

The United States Comptroller of the Currency furnishes the following statement of National Banks organized the past week:

2,331—Flemington National Bank, New Jersey. Authorized capital, $100,000; paid-in capital, $50,000. Peter E. Emery, President; C. C. Dunham, Cashier. Authorized to commence business April 22, 1876.

2,332—Farmers' National Bank of Geneseo, Illinois. Authorized capital, $50,000; paid-in capital, $37,875. Levi Waterman, President; John P. Stewart, Cashier. Authorized to commence business April 24, 1876.

## DIVIDENDS.

The following Dividends have recently been announced:

| Company. | Per Cent. | When P'able. | Books Closed (Days inclusive.) |
|---|---|---|---|
| **Railroads.** | | | |
| Cedar Rapids & Missouri River (quar.) | 1 | May 1 | ..... |
| Manchester & Lawrence | 5 | May 1 | ..... |
| New Bedford | 4 | April 30 | ..... |
| **Banks.** | | | |
| American Exchange National | 3½ | May 1 | April 26 to May 1 |
| Fulton National | 6 | May 1 | April 21 to May 1 |
| German Exchange | 6 | May 5 | April 22 to May 4 |
| Mechanics' & Traders' National | 5 | May 1 | April 25 to May 1 |
| Union National | 5 | May 1 | ..... |
| **Miscellaneous.** | | | |
| Iowa Railroad Land Co. (quar.) | 1 | May 1 | ..... |

**FRIDAY, APRIL 28, 1876—6 P. M.**

**The Money Market and Financial Situation.**—The two principal features of the past week have been the Treasury sale of government bonds and of the gold received therefor, and the continued depression in stocks.

On Monday the bids were received according to notice for the purchase of $5,883,000 of the government 5 per cents of 1881, and there were no less than ten offers for the whole amount, besides a number for smaller amounts than the whole. The price obtained was 103.78 7-16 in gold, which made the currency price about 118.22. The transaction, upon the whole, must be considered quite favorable to the government credit, although the price realized was naturally a little below the market price in this city on ordinary transactions in small lots. The purchase was on joint account for Messrs. Drexel, Morgan & Co., who were the successful bidders, and A. Belmont & Co., and J. S. Morgan & Co. and Messrs. Rothschild of London, and the high range of their bid was probably influenced by the low price of money in London, and the possibility of easily using the bonds there during the summer. Favorable comment is excited by the ease with which the whole operation has been managed in this market, in selling both the bonds and gold without occasioning any material disturbance either in gold or money. Though it is generally believed that if the original requirement had been held to, of demanding payment for the gold entirely in greenbacks, there might have been some temporary stringency in the loan market.

In money there has been continued ease, and on call loans the demand has been easily supplied at 2½@4 per cent. Commercial paper is in good demand for that which is strictly prime, but other grades sell proportionately much higher, quotations being 5@6 per cent. for choice paper, and 7 to 10 per cent for other grades ranking not quite so high.

On Thursday the Bank of England reported a gain of £410,000 in bullion for the week, and the discount rate was left unchanged at 2 per cent. The Bank of France gained 18,563,000 francs in specie.

The last statement of the New York City Clearing House banks, issued April 22, showed an increase of $1,806,525 in the excess above their 25 per cent. legal reserve, the whole of such excess being $8,658,500, against $6 851,975 the previous week.

The following table shows the changes from the previous week and a comparison with 1875 and 1874:

| | 1876. Apr. 15. | Apr. 22. | Differences. | 1875. Apr 21. | Apr. 25. | 1874. Apr. 25. |
|---|---|---|---|---|---|---|
| Loans and dis. | $258,297,900 | $255,752,400 | Dec. $1,545,500 | $275,886,0 0 | $288,423,500 | |
| Specie | 19,400,800 | 18 077,300 | Dec. 1,323,500 | 12,045,900 | 23,336,100 | |
| Circulation | 16,239,100 | 16,2 2,000 | Dec. 7,100 | 21,146,200 | 26,901,600 | |
| Net deposits | 205,542,500 | 204,262,400 | Dec. 2,280,100 | 217,926,300 | 231.486,700 | |
| Legal tenders | 38,836,800 | 41,396,800 | Inc. 2,560,000 | 51,970,300 | 51.739,600 | |

**United States Bonds.**—The great event of the week, which was the sale by the Treasury of $5,883,000 new fives of 1881, is referred to above. This transaction has rather had the effect of strengthening than of reducing prices, as the effect of the sale had been fully discounted in the market, and it is possible that two-thirds or more of the amount sold may go to London, though we have heard of the sale here already of about one million of the amount taken from the government. There has been a good demand for bonds throughout, and a large part of it has come from New England, both from Boston and smaller cities. There have also been some purchases for Baltimore, Virginia, and Kentucky, showing a pretty general inquiry for governments in different parts of the country. All issues have shared in the improvement, but the new fives of 1881 have been most prominent.

Closing prices daily have been as follows:

| | Int. period. | April 22. | April 24. | April 25. | April 26. | April 27. | April 28. |

**State and Railroad Bonds.**—In Southern State bonds the Tennessees have been hardly steady. Virginia consols are lower in consequence of the sale of some bonds here for London account. In our report last week a transparent error occurred in writing South Carolina instead of Virginia in noticing the fact that the consolidated bonds of Virginia and Louisiana were then selling at about the same figures; the mistake was too palpable to mislead any one.

Railroad bonds have continued dull and depressed, being still affected to a considerable extent by the low prices of stocks. Sales of Ohio and Mississippi second mortgage bonds were made in considerable amounts at 69, but, in reply to a report in a daily paper, the Secretary states that the sales were not made for account of the company and that they have none of the bonds for sale. Among the bonds that have shown lower prices are the popular 6 per cent gold bonds of the Central Pacific branches—the California & Oregon and San Joaquin Valley selling respectively at 90½ and 92. The decline is attributed to the attack made on the company in a daily newspaper. Union Pacific sinking funds advanced and sold at 92.

Messrs. A. H. Muller & Son sold at auction, this week, the following:

| Shares. | Shares. |
|---|---|
| 55 N. Y. & Harlem Nav. Co. | 61 |
| 128 N. Y., Prov. & Bos. RR. | 135@137½ |

* This is the price bid; no *sale* was made at the Board.

**Railroad and Miscellaneous Stocks.**—The stock market has shown further depression, and, with the exception of an occasional re-action in some particular stock, there has been no sign of recovery. Prices, however, have at length reached such low figures that there is general talk of touching "bottom," and on the first sign of a change in the bear element it is more than probable that there would be some sharp purchasing. The tone has not been panicky of late, but, on the other hand, the comparatively small volume of business has been one of the principal features of the market. It is difficult, in a time like the present, when every unfavorable element is exaggerated and other rumors are invented for the purpose of knocking down prices, to get at the actual facts which indicate the value of stocks, aside from the present market influences. So far this year, it is known that railroad earnings show a considerable improvement over the same time in 1875, and that the latest reports for the current month indicate that this is still kept up. The granger railroads have obtained an important advantage in the new tariff which went into effect at the beginning of April. As to the recent disagreements between the pool railroad lines from Chicago eastward, it appears that the reduction in rates applies to east-bound freights, and the reports, both in Chicago and here, agree in stating that there has been no reduction in passenger rates, and none is yet proposed. Mr. Vanderbilt states in his Lake Shore report, just issued, that $600,000 was saved in the operating expenses during the first quarter of this year. As to the Telegraph war, the public desires to get at the facts, as they have no confidence whatever in the professed reduction of rates *pro bono publico*. A reduction in rates will undoubtedly increase business; and as

to loss by Western Union, it has been stated that its gain by reduction of salaries would probably equal, this year, any loss by competition; of this, however, no one can speak positively except those who can see the Company's books. The most unfavorable point, at present, seems to be the general commercial depression, which naturally tends to reduce business. To-day the market was about at the lowest point, and closed dull.

The daily highest and lowest prices have been as follows:

* Six days in 1876, against seven days last year.

**The Gold Market.**—Gold has been quite steady, notwithstanding the extraordinary event of the large government sale on Thursday. The proceeds of the $5,883,000 government bonds sold on Monday were $6,105,634 in gold, and this amount was sold again on Thursday, the total bids filed amounting to $7,493,000. The banking-house which purchased the bonds appeared as buyers of only $1,800,000 of the gold. To-day, the market was rather stronger, partly in consequence of a report of panic in stocks at San Francisco. The silver payments continue to be made here at the rate of ten or fifteen thousand per day, and the demand continues lively; indeed, there has been so much scarcity of fractional currency and silver lately that both were in demand to-day at 1@2 per cent. premium. On gold loans the terms to-day for carrying were 1, 2, 3, 1¼ and 4 per cent. Loans were also made flat. Customs receipts of the week were $1,757,000.

The following table will show the course of gold, and operations of the Gold Exchange Bank, each day of the past week:

| | Quotations Op'n | High. | Low. | Clos. | Total Clearings. | Balances. Gold. | Currency. |
|---|---|---|---|---|---|---|---|
| Saturday, April 22 | 112¾ | 112¾ | 112¾ | 112¾ | $24,738,000 | $1,149,390 | $1,611,961 |

## ANNUAL REPORTS.

### Chicago Milwaukee & St. Paul Railway.

*(For the year ending December 31, 1875.)*

The annual report has the following:

A branch of one mile in length, extending from North McGregor to McGregor, was built during the year, making the whole length of the road owned and operated by the company 1,400 miles.

During the year, 5 locomotives, 2 passenger cars, 251 box, freight and stock cars, and 132 flat cars, have been added to the equipment of the road, at a cost of $217,245. At the close of the year the company had 246 56-100 miles of steel rail upon their road-bed, of which 57 74-100 miles were laid during the year. The Oshkosh & Mississippi River Railway, between Ripon and Oshkosh, twenty miles in length, is under lease to this company for a period of twenty years, by the terms of which this company engages to pay the interest on the 8 per cent first mortgage bonds of that company, amounting to $240,000, being $12,000 per mile. It is provided by the Consolidated Sinking Fund mortgage that these bonds may be purchased by this company, and payment made in sinking-fund bonds at par; purchases to the extent of $203,000 have already been made in accordance with this authority.

Of the Wisconsin Legislature, the report says: "The Legislature of Wisconsin, which assembled in January last, appeared to be fully impressed with the unjust and impolitic character of the legislation in respect to railroads, and at once entered upon a thorough examination and investigation of the laws passed in 1874 and 1875. Their inquiries satisfied them that not only the best interests of the railroad companies, but those of the whole people of the State, as well, demanded the substantial repeal of the former legislation. An act was prepared repealing all the provisions of the law which fixed and established arbitrary rates, prescribing our tariff of June 15, 1872, as a maximum of tariff of rates, and providing for one railroad commissioner, with powers similar to the Board of Railroad Commissioners in Massachusetts. This act was passed by a very large majority, more than two-thirds of each house concurring in its passage. Therefore, whatever may be the decision of the Supreme Court of the United States, in the cases now before it, we may congratulate ourselves that the State of Wisconsin, through its own Legislature, has redressed the wrong done to its railroad interests, and by its own free and voluntary act restored its credit in the markets of the world."

The average price, per ton per mile, received for freights for a series of years past, has been as follows:

| | Cents. | | Cents. |
|---|---|---|---|
| 1865 | 4 11-100 | 1871 | 2 54-100 |
| 1866 | 3 76-100 | 1872 | 2 43-100 |
| 1867 | 3 94-100 | 1873 | 2 60-100 |

### Lake Shore & Michigan Southern.

*(For the year ending Dec. 31, 1875.)*

In advance of the publication of the full report, the *World* gives the report of Mr. Vanderbilt, President, from which we extract, the following: The number of miles of road operated in 1875 was the same as in 1874—1,175 miles. This company owns 1,024.71 miles of railroad (although 160.11 miles are embraced in three other organizations), and leases 150.68 miles.

The total number of miles of single track to be maintained amounts to 1,852.89.

CONSTRUCTION AND EQUIPMENT.

This account for 1875 amounted to $275,481 25, as follows:

| | |
|---|---|
| New side tracks, 17.48 miles | $121,707 73 |
| Ashtabula Harbor—Coal docks, &c. | 31,180 03 |
| Real estate | 24,293 04 |
| New buildings | 90,915 18 |
| Bridge masonry | 7,295 87 |
| Total—1875 | $275,481 25 |
| 1874 | 1,043,723 82 |
| 1873 | 2,319,959 84 |
| 1872 | 5,504,217 99 |
| 1871 | 3,343,383 70 |
| 1870 | 1,113,560 90 |
| Total—Six years | $13,630,328 10 |

But little change was made in the equipment of the road in 1875. Two engines were sold, reducing the number from 497 to 495. Ninety-five cars of various classes were added, increasing the number from 10,442 to 10,537. The amount of this account for 1875 was $95,238 02. For six years, 1870 to 1875, inclusive, $5,904,087 09, for 223 locomotives and 4,739 cars.

The road is equipped sufficiently for a much larger volume of business than it is now doing.

The balance against this company for car service was reduced, as predicted in the last report, from $614,315 86 in 1874, to $428,807 03 in 1875; and a further reduction will be made in 1876.

STOCK AND DEBT.

The capital stock of the company is $50,000,000, to wit:

| | |
|---|---|
| Guaranteed, (10 per cent), 5,335 Shares—$100 | $533,500 |
| Ordinary, 494,665 Shares—$100 | 49 466,500 |

Of the guaranteed stock, the claim for dividends between 1857 and 1863 has been settled by compromise on $350,600, leaving $182,900 still unsettled.

The bonded debt of the Company stood:

| | |
|---|---|
| December 31, 1874 | $26,511,000 |
| December 31, 1875 | 26,250,000 |
| Decrease | $261,000 |

This decrease was accomplished by providing for the arrearages of the sinking fund of the first general consolidated mortgage of $25,000,000. This mortgage provides for a sinking fund of 1 per cent., or $250,000 per year. This obligation has run for five years, amounting to $1,250,000, and is now entirely fulfilled. This leaves outstanding $23,750,000 of the first general mortgage debt—including the divisional—or bonds of the different companies embraced in the consolidation, which, at maturity, are to be merged into this debt. Of the second general mortgage of $25,000,000, there are outstanding, including the bonds of 1882, $12,500,000. The entire debt of the Company bears interest at the rate of 7 per cent. (currency).

EARNINGS.

| | 1875. | 1874. | Decrease. |
|---|---|---|---|
| From freight | $9,639,038 | $11,918,849 | $2,279,311 |
| From passengers | 3,924,7 7 | 4,249,032 | 326,224 |
| From all other sources | 872,362 | 978,758 | 106,395 |
| Total | $14,434,198 | $17,146,130 | $2,711,932 |
| Operating expenses and taxes | 10,531,500 | 11,154,371 | 620,870 |
| Net earnings | $3,902,697 | $5,993,759 | $2,091,062 |
| Interest on debt, rentals, &c. | 2,810,293 | 3,008,192 | |
| Balance for stock ($2 20 per share) | $1,092,404 | | |
| Paid dividend No. 11, 2 p. c., Feb. 1, 1876. | 989,330 | | |
| Surplus, 1875 | $103,074 | | |

The result for the six years of this (consolidated) company's existence are as follows:

| Year. | Gross Earnings. | Operating Expenses and Taxes. Amount. | Per Cent. | Net Earnings. |
|---|---|---|---|---|
| 1870 | $13,509,235 | $8,368,821 | 61.95 | $5,140,414 |
| 1871 | 14,898,449 | 9,779,806 | 65.64 | 5,118,643 |
| 1872 | 17,699,935 | 11,839,525 | 66 90 | 5,860,409 |
| 1873 | 19,414.509 | 13,746,598 | 70.80 | 5,667,910 |
| 1874 | 17,146,130 | 11,152,371 | 65.04 | 5,993,759 |
| 1875 | 14,434,198 | 10,531,500 | 72.96 | 3,902,697 |

| Year. | Interest, Leases, &c. | Dividends. Amount. | Rate. | Surplus. |
|---|---|---|---|---|
| 1870 | $1,838,897 | $2,752,360 | 8 | $559,157 |
| 1871 | 2,121,164 | 2,874,355 | 8 | 123,122 |
| 1872 | 2,201,459 | 3,468,094 | 8 | 192,854 |
| 1873 | 2,654,560 | 1,978,040 | 4 | 1,035,310 |
| 1874 | 3,008,192 | 1,607,661 | 3¼ | 1,377,905 |
| 1875 | 2,810,293 | 989,330 | 2 | 103,074 |

An analysis of the decrease in freight earnings, 1875, shows as follows:

| | | |
|---|---|---|
| Decrease from reduced rates | $1,603,501 47 or | 13.45 per cent. |
| Decrease from reduced business | 875,810 17 or | 5.67 per cent. |
| Total decrease | $2,279,311 64 or | 19.12 per cen |

The average rates per ton per mile for the past six years have been as follows:

| Year. | East-bound. | West-bound. | Both ways. |
|---|---|---|---|
| 1870 | Cent, 1.356 | Cent, 1.881 | Cent, 1.504 |
| 1871 | Cent, 1.357 | Cent, 1.473 | Cent, 1.891 |
| 1872 | Cent, 1.272 | Cent, 1.833 | Cent, 1.374 |
| 1873 | Cent, 1.297 | Cent, 1.437 | Cent, 1.335 |
| 1874 | Cent, 1.098 | Cent, 1.432 | Cent, 1.180 |
| 1875 | Cent, .954 | Cent, 1.153 | Cent, 1.010 |

The average rate, per ton per mile, in 1875, was, on its entire business, through and local, only 1.01 cents, which is 14¼ per cent below the very low rate of 1874 (1.18 cents). This difference—17-100 of 1 cent—on the large tonnage moved resulted in a loss in net earnings of $1,603,501, which is equal to 3¼ per cent. upon the capital stock.

The earnings from passengers, as compared with the two preceding years, show the following results:

| Year. | No. passengers. | Miles traveled. | Average rate per mile. | Earnings. |
|---|---|---|---|---|
| 1875 | 3,170,284 | 52 | 2.38 cents. | $3,922,797 |
| 1874 | 3,096,263 | 56 | 2.45 cents. | 4,249,022 |
| 1873 | 2,845,163 | 63 | 2.55 cents. | 4,569,729 |

It is a gratifying fact that the local business of the road was larger in 1875 than ever before, showing an increase of 67,109 tons freight and 79,328 passengers, in both cases 2.6 per cent. over the previous year.

OPERATING EXPENSES.

| | |
|---|---|
| Operating expenses and taxes, 1875, including 105 miles steel rail | $10,531,500 88 |
| Operating expenses and taxes, 1874, including 78 miles steel rail | 11,152,371 56 |
| Operating expenses and taxes, 1873, including 141 miles steel rail | 13,748,598 54 |

It is expected that 1876 will show a further large reduction in this account, the first quarter of the year being over $600,000 less than the same quarter of 1875.

GENERAL REMARKS.

Upon reference to the "Income Account," in the full report, it will be found that the two items, "Discount on Bonds" and "Interest on Floating Debt," which have appeared in that account in each preceding annual report of this company, and have absorbed so much money, are not there; they have disappeared never to return, it is hoped.

The sale of bonds and increase of debt came to a full stop in 1874. No increase in the aggregate funded debt has been made since the troublesome floating debt, inherited from the previous administration, was extinguished; not only so, but a movement has been made in the opposite direction, by providing for the sinking fund, thus reducing the funded debt.

A noticeable fact shown by this report is that after paying every charge against the year 1875, including (by anticipation) the dividend payable February 1, 1876, and satisfying the sinking fund, there remained in the treasury a very considerable balance applicable to the future. This is the first time that this result has been attained.

The fixed charges against net earnings, which take precedence of dividends upon the capital stock, will be in 1876 as follows:

| | |
|---|---|
| Interest on L. S. & M. S. Railway debt, $36,250,000, at 7 per cent | $2,537,500 |
| Interest on D. M. & T. Railway debt, $924,000, at 7 per cent | 64,680 |
| Interest on K. & W. P. Railway debt, $600,000, at 7 and 8 per cent | 44,000 |
| Dividend on guaranteed stock, $333,500, at 10 per cent | 33,350 |
| Rental of four branch roads—partly estimated | 275,000 |
| | $2,974,530 |
| Less interest and dividends on assets | 225,000 |
| Total (equal to $229,000 per month) | $2,749,530 |

## Atlantic & Pacific Telegraph.

*(For the year ending Dec. 31, 1875.)*

The annual meeting of stockholders of the Atlantic & Pacific Telegraph Company was held this week. The following directors were elected: Oliver Ames, Elisha Atkins, Benjamin E Bates, Albert B. Chandler, F. Gordon Dexter, Sidney Dillon, G. M. Dodge, Thomas T. Eckert, Jay Gould, Wm. H. Guion, C. P. Huntington, Christopher Meyer, S. M. Mills, J. H. Mortimer, C. J, Osborne, G. G. Sampson, James D. Smith, W. J. Syms, Henry M. Taber.

The stockholders ratified the previous resolution of the Executive Committee, determining to construct lines from Washington south, through leading cities to New Orleans. Of this the *World* money article says: "For the new lines contemplated, we understand that it was decided at to day's meeting to raise funds by issuing $5,000,000 new stock at 20. This is an increase of 50 per cent. in the capital stock, bringing it up to $15.000,000, and stockholders are to have the option, until May 8, of taking, at $20 per share, 50 per cent. of new stock on the amounts now standing in their names. Of this amount, $2,000,000 of stock is reported posively contracted for 20."

The report of the President has the following: "My present report refers only to affairs of the Atlantic & Pacific Company; the lease of the Franklin to the Atlantic & Pacific having been annulled in May, 1875. During the year we have constructed lines, making in all, additions of 471 5-6 miles of poles, and 1466½ miles of wire, at a cost of $101,119.87. The following statement shows the extent of lines and number of offices owned by the Atlantic & Pacific and Franklin Companies, December 31, 1875:

| | Miles of Line. | Miles of Wire. | Offices. |
|---|---|---|---|
| Atlantic & Pacific | 4,646 | 10,777 | 360 |
| Franklin | 1,132 | 3,680 | 152 |
| The receipts messages | | | $386,296 97 |
| The operating expenses, including repairs | | | 395,899 75 |
| Deficit | | | $ 9,572 78 |

"The gain in receipts, over 1874, notwithstanding the general depression of business, the loss of Signal Office patronage, of our Southern connection, and the reduction of rates, was $24,545 73. The increase of expenses is accounted for by extensive and imperatively necessary repairs of lines, amounting to $50,332 90, as against $29,820 99 in 1874, and as against $25,000, estimated for 1876; by the establishment of sixty-one additional offices, the most important of which were not opened until near the close of the year, involving a large outlay properly applicable to expenses of 1875, without a corresponding increase of receipts until after the beginning of 1876; by the temporary employment of additional force, in the introduction of the automatic system of transmission, and by the continuance in executive management and in superintendence, of a number of officers and others, whose services their previous relations with both the Atlantic & Pacific and Franklin Companies made it proper to retain until the end of the year.

"The 'Special Fund' acquired in 1874 and 1875 by the sale of the Company's Treasury Stock, amounting to $300,420, has been applied as follows:

| | |
|---|---|
| For construction and purchase of lines | $101,119 |
| For Purchase of equipment (in which the company was found very deficient) and for line material not used at the end of the year | 43,822 |
| For United States bonds | 63,284 |
| For Patents | 33,637 |
| For Advances on account Automatic Co | 29,964 |
| For Advances to Franklin Co. for repairs to lines and new equipment | 23,511 |
| Uncollected | 80 |
| | $300,420 |
| The receipts accruing on business transmitted from Sept. 1st, 1869, the date of reorganization of the company, to Dec. 31, 1875, inclusive were | $1,806,715 |
| The operating expenses for the same period | 1,660,537 |
| Leaving net earnings | 146,168 |
| The receipts from sale of stock were | 486,169 |
| | 632,348 |

Of this sum there has been expended:

| | | |
|---|---|---|
| For construction of lines | $340,941 | |
| For payment of old A. & P. Co.'s indebtedness | 48,180 | |
| For patents | 33,637 | |
| For 10 shares A. & P. stock to replace stock lost | 236 | |
| For property in use and on hand Dec. 31, 1875 | 93,342 | |
| | | 516,328 |
| Total net receipts, included in statement of assets | | $106,009 |

"Through inducements offered by the Western Union Co., the Southern & Atlantic Co., in April, 1875, violated its contract with the Franklin Company, thus depriving the Atlantic and Pacific Company of its southern connection."

## New Jersey Southern Railroad.

*(For the Year ending Dec. 31, 1875.)*

The lines worked are as follows:

| | Miles. |
|---|---|
| Sandy Hook, N. J., by Long Branch and Whiting to Pemberton Junction | 65·0 |
| Southern Division, Whiting to Bayside | 71·0 |
| Port Monmouth Branch, Eastonton to Port Monmouth | 10·0 |
| Tom's River Branch, Manchester to Barnegat Junction | 20·5 |
| Atco Spar, Atlson to Atco | 9·5 |
| Total | 176·0 |

The road has been, since April 30, 1874, in possession of Hon. Benjamin Williamson, trustee under the first mortgage, and the present report is made to him by Wm. S. Sneden, General Manager, who has charge of its operations. In addition to the railroad, a steam ferry about twenty miles long, from New York to Sandy Hook, is maintained throughout the year, and during the peach season another ferry was run from Bayside across Delaware Bay to Bombay Hook.

The earnings for the year ending Dec. 31 were as follows:

| | |
|---|---|
| Passengers | $314,967 |
| Freight | 156,341 |
| Mails and express | 22,778 |
| Other sources | 11,703 |
| Total earnings | $515,810 |
| Expenses of railroad | $381,215 |
| New York ferry, steamer service, &c | 123,516 |
| Delaware ferry | 1,801 |
| Total expenses | $408,533 |
| Net earnings | $109,276 |

In 1874 the gross receipts were $515,810; expenses, $383,811; net earnings, $129,843.

The steamer Jesse Hoyt has been thoroughly repaired, lengthened 20 feet, and furnished with new boilers. She can now carry 1,500 passengers. The new steamboat Crystal Wave has been chartered for the coming season.

The trustee's income account for the year is as follows:

| | | |
|---|---|---|
| Net earnings | | $109,276 |
| Interest on investments | | 2,653 |
| Difference in prepaid insurance and water rent | | 351 |
| Total | | $112,281 |
| Construction and renewals | $29,852 | |
| Surplus of fuel and materials bought | 8,842 | |
| Balance of purchase money, Jesse Hoyt | 25,330 | |
| On account of new boilers, Jesse Hoyt | 2,400 | |
| Long Branch & Sea Shore coupons paid | 14,060 | |
| Tom's River Branch coupons paid | 8,225 | |
| Legal expenses on foreclosure account | 10,037 | |
| Accounts charged off | 1,227 | |
| | | 99,915 |
| Surplus for year | | $12,366 |
| Balance of cash account, Jan. 1, 1875 | | 76,507 |
| Balance, Jan. 1, 1876 | | $88,874 |

Mr. Sneden says: "Without the large expenditure due to the increased mileage above mentioned, we should have fallen off in our gross receipts much more than enough to counterbalance the amount, and it is not to be forgotten that it will accrue to the advantage of the road the coming year. The increased accommodation given and the good time made by our through trains last summer have advertised the route and made it popular with the traveling public.

## GENERAL INVESTMENT NEWS.

**Erie Railway.**—By the London mails of the 15th inst., we have full accounts of the report of Messrs. Miller and Fleming, the delegates of the London committee of bond and stockholders.

The committee issue the report from Messrs. Miller and Fleming, and state that they will meet at an early day to finally revise the financial scheme for submission to the bondholders and stockholders.

The report says: Without incumbering this report with figures already in your possession, we may say that we found,

1. Floating debts at first of February:

| | |
|---|---|
| Bills payable, loans, &c. | $1,016,587 |
| Supply bills unpaid | 2,175,423 |
| Wages unpaid | 1,265,750 |
| | $4,457,760 |

From this, however, there ought to be deducted the January supplies and wages, which in the ordinary course of the settlements of the best companies are only payable in the following month. With this deduction the net floating debt would be reduced to $2,800.000. * * *

2. Liabilities other than funded and floating debt. The most important items of this character are three:—

1. A balance of about $1,000,000 due on the coal lands bought by the Watson administration. This is due during the present year, and if it be not paid the sum of $2,600,000 already paid may be forfeited.
2. The cost of the third rail presently being laid from Buffalo to Elmira will be about $1,200,000. This must be paid during the next two years, though the increased revenue which it will bring should in part provide funds for the purpose.
3. Some $2,400,000 of the bonds of the Boston Hartford & Erie railroad, interest guaranteed by the Erie, are in the hands of the public, and on these the interest has not been paid since 1871, the company contesting its liability for same. Should the Supreme Court confirm the decision of the lower Court, and validate the guarantee, this matter must be settled. The overdue interest already exceeds $400,000. This last obligation ranks after the mortgage bonds of the Erie Company, but of course ahead of the stock. There is, however, every reason to believe that a favorable compromise of the whole matter might be made by the stockholders.

3. *Funded Mortgage Debt.*—The total amount is $54,394,100, on which the annual interest charge, calculating the premium on the gold portion at 112½ per cent., is $4,166,127. On this debt there are arrears of interest of over $3,000,000 maturing since June, 1875, unpaid.

4. *Realizable Assets and Claims.*—The receiver holds a mass of stocks and bonds of the nominal value of some $20,000,000, largely obtained by the widely-trumpeted Jay Gould restitution. The greater part of these documents are not worth the paper on which they are written. A careful examination, however, leads to the conclusion that a sum of at least $3,000,000, released by the application of the bondholders' moneys, may safely be estimated as derivable for the general purposes of the Company during the next three years from the disposition of certain of these securities.

The cash value of the claims of the Company against Gould, Vanderbilt, Bischoffsheim, McHenry, and the London Banking Association, though probably considerable, we will not venture to estimate.

5. *Leases.*—The rents of leased roads, docks, &c., for the year ending Sept. 30, 1875, were $1,192,871 53. We have carefully examined into each individual lease, and send herewith a separate report on them, Without expressing a precise opinion, which, during the pendency of negotiations, would be inexpediant, we cannot but state that we are convinced the reduction possible on this head has been much overstated.

So far, Mr. Jewett has made little or no progress in successfully completing any of these negotiations.

6. *Annual Revenue.*—The gross and net figures having been already published, it is enough here to say that the net result of the total operations of the company for the year ending 30th Sept., 1875, are substantially correct as reported to the State authorities. For payment of lease rents, and mortgage interest, the earnings show a net deficit of $1,350,000, or, including interest on the coupons in arrear, nearly $1,600,000; in other words, the earnings for the past year were sufficient to provide for the full interest on the first consolidated mortgage, and nearly 2 per cent on the seconds, including the gold convertibles.

For the first four months of the present financial year, viz., from 1st Oct., '75, to 1st Feb., '76, compared with the same period in last year, the traffic results are as follows:

| | Gross earnings. | Expenses. | Net earnings. |
|---|---|---|---|
| 1874-75 | $5,580,387 | $1,077,941 | $1,502,446 |
| 1875-76 | 5,812,971 | 4,752,770 | 1,060,201 |

In part explanation of the extraordinary expenses, it may be mentioned that a sum of $258,292 was spent in renewals of equipment, and, in other respects, a much larger sum has been expended in improving the condition of the line than in the previous year.

To discuss with us the question of reorganization, the board appointed a committee, consisting of Messrs. Ed. D. Morgan, Thomas Dickson, and Samuel Sloan. Mr. Dickson, President of the Delaware Hudson Canal Company, and Mr. Sloan, President of the Delaware, Lackawanna & Western Railroad, are railroad managers of the highest repute, and therefore the opinions of the committee may be reckoned of great value. After repeated conferences the committee came to the conclusion, in which we concurred, that if a part of the net revenue of the property for a sufficient period could be applied to pay off floating debt and narrow guaging the line, there could, with capable management, be no question as to the ability of the property to earn the interest on all its mortgage debt without the necessity for a foreclosure and assessment on the shares.

These results, we reckoned, could be substantially accomplished by a funding of the September coupon on the first consolidated mortgage for five years—the March coupon being paid in cash) and of all the coupons on the bonds secured by the second consolidated mortgage for five years—an understanding being had that, should any of the work remain undone or unpaid for at or near the end of the period (about three and a-half years from this time), the funds for same shall be provided by an issue of income bonds. We frankly told these gentlemen that, after the experience of the past, it would be folly to expect the bondholders to consent to any such application of the revenue properly belonging to them, unless they were absolutely secured in the control of its expenditure and of the management of the Company for some time to come, and that, so far as we could see, no satisfactory control could be obtained unless the shareholders voluntarily came forward and placed a majority of the $86,000,000 stock in the hands of trustees of character and position appointed by the bondholders—the shareholders, of course, receiving in exchange therefor certificates of a negotiable character. If this condition could be secured, the bondholders would have substantially all they could gain by a foreclosure seeing they would have the management of the entire property to make the best they could out of it until their claims were fully satisfied.

As an attempt to meet the views indicated in our instructions already referred to, a draft agreement has been prepared embodying these proposals as to funding, and is sent herewith. * *

The foreclosure scheme of the committee is certainly the soundest plan, and would doubtless be preferred by those shareholders who really care for the welfare of their property. Mr. Jewett has repeatedly expressed the opinion that a foreclosure will in the end be inevitable, and unquestionably the amount of the debt having foreclosure powers has now reached danger point, even under the best management. With certain modifications of a not very important character, we see no reason to doubt that the committee's scheme of reorganization by foreclosure may be successfully carried out, and result in placing the road in a thoroughly sound financial position.

These modifications can be discussed with the committee. * *

It cannot be too strongly impressed upon both bond and stockholders that while the Erie Company's affairs continue to be administered by the courts, a fortune is annually spent in lawyers' fees, and that its management must be ineffective in many ways, and that there it must remain until the holders of substantially all of the bonds have agreed to release it. * * *

The Erie Railway earnings for last year, as before stated, were $1,600,000 short of meeting the mortgage interest, and the earnings for this year are, so far, greatly under last year's, although Mr. Jewett assures us that the total earnings for the whole year will exceed those of last year. The arrears of interest are constantly accumulating. Any scheme which proposes to ask the stockholders to contribute a sum of money to be spent directly on the improvement of his property, and at the same time proposes to reduce the charge for the mortgage debt to the limit of actual earnings, is so manifestly to his advantage that opposition would be inexplicable.

There may be opposition on the part of those who desire to continue their manipulations of the stock. We cannot prevent it, but we can defeat it.

Sometimes one hears on this side that foreclosure is impossible. All that need be said in reply is that the Erie Company was in 1861 foreclosed and new stock issued to the old holders on payment of an assessment of $9 per share. Foreclosure, instead of being impossible, is inevitable, if gone on with. All that the stockholders can possibly do is to delay its consummation, the expense of which must be borne by themselves.

The present condition of things is most unsatisfactory. It is now nearly a year since the appointment of a receiver, and no progress has been made towards a better condition of things, and no progress can be made until the bondholders and stockholders come forward and arm the committee with the power which the possession of their proxies or assents will give. It is to be hoped that bondholders and stockholders now see the folly of holding aloof and allowing things to drift on as at present. We would suggest, as our conclusion on the matter, that the committee should, without delay, reissue, with some modifications, the scheme of reconstruction by foreclosure, already prepared by them.

If it were possible to present to the bondholders the scheme of proceeding by amicable arrangement as practicable, and, therefore, as presenting a real alternative for their acceptance, we should suggest to you at the same time to lay the option before them. We feel, however, that that scheme can only be regarded as such an alternative when stockholders enough have signified their willingness to vest their shares in trustees on the footing of it, and so secure an effectual control to the bondholders for a certain period. We must, therefore, content ourselves for the present with suggesting that the committee should proceed with vigor in the direction of foreclosure, at the same time inviting the stockholders to signify their willingness to vest their shares in trustees as above mentioned. Whenever enough of them have done so, it will be right to consult our constituents as to choice of plan. * * * O. G. MILLER, RODT. FLEMING.

**Pekin Lincoln & Decatur.**—Under a decree of the United States Circuit Court at Pekin, Ill., this railroad was sold on the 21st to John J. Martin, on behalf of the bondholders, for $500,000. The total amount of the debt is stated at $1,200,000. The road belonged to the Wabash Road.

* In January and February only 507 miles were operated; since the 1st of March 711 miles have been operated.
† 1,264 miles were operated until 17th of November, after which time 1,297 miles were operated.
‡ In January, 332 miles were operated; from February to June inclusive, 407 miles; during the rest of the year, 458 miles.
§ 395 miles only were operated in January and February; during the remainder of the year, 623 miles were operated.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, April 28, 1876.

The weather for the past week has been much more spring-like, but there is no improvement in general trade, and business circles present the same unsatisfactory aspect that has so long been noted. To this it may be added that the indifferent results attending the spring trade excite apprehension of still more serious difficulties during the summer months. Failures of banks and commission houses at the West, which have been involved in carrying Western staples on speculation, have been felt severely on our Produce Exchange. In fact, the whole situation is quite unpromising, except for a free exportation of our surplus products. The complete re-opening of the navigation of the great lakes was announced to-day.

There has been a severe decline in pork and lard, under a pressure to sell on Western account. Mess pork is down about one dollar per bbl., without, apparently, causing any important increase in the volume of business. To-day, the market was more steady, but quiet on the spot; and closing bids for mess, for future delivery, were $21 50 for May, $21 95 for June, $22 10 for July, and $22 40 for August. Lard has not declined so much as pork, and has, in fact, re-acted at intervals, with considerable excitement; but yesterday there was a feeling of depression approaching a panic. To day, the market was less depressed, but not much better; and the closing prices bid for prime Western steam were $13 25 for May, $13 42½ for June, $13 60 for July, $13 75 for August, and $13 80 for September. Bacon has declined to 12½@12¼c. for Western and city long clear. Cut meats have also favored buyers. Butter has been steadily declining. Cheese declined early in the week, but is latterly more steady. Tallow has declined to 8¼@8¼c. for prime, and stearine is very unsettled.

Rio coffee has been rather more active, and prices are steady at 17¼c.@18¼c., gold, for fair to prime cargoes. The stock in this market is reduced to 129,000 bags, and the visible supply for the United States to 293,000 bags. Mild grades have also been in fair request and steady. Rice has been rather quiet. Teas are dull and depressed at the close. Foreign dried fruits remained about steady, but the demand was less active. Molasses ruled about steady, but slow of sale, and the stock of foreign is increased to 9,444 hhds. Sugars have been without essential change, but stocks show some accumulation, and prices are barely steady; fair to good refining Cuba, 7¼c.@7¾c., and standard crushed refined, 10¼c.

| | Hhds. | Boxes. | Bags. | Melado. |
|---|---|---|---|---|
| Receipts past week | 13,481 | 1,725 | 61,513 | 1,914 |
| Sales past week | 9,954 | 5,013 | 5,991 | 103 |
| Stock April 27, 1876 | 61,997 | 29,534 | 214,813 | 5,475 |
| Stock April 29, 1875 | 74,434 | 30,993 | 90,550 | 443 |

Kentucky tobacco has ruled a shade lower, and fairly active at 5@7c. for lugs and 7½@14c. for leaf. The sales for the week embrace 800 hhds., of which 600 were for export and 200 were for consumption. Seed leaf has been in fair demand and unchanged. The sales embrace: Crop of 1870, 13 cases New England, at 6½c.; crop of 1872, 225 cases do., on private terms; crop of 1873, 43 cases do., at 13c., 122 cases Pennsylvania, at 13@16c., 50 cases Wisconsin, on private terms; crop of 1874, 474 cases New England, at 6½@40c., 25 cases Ohio, at 8c.; and crop of 1875, 400 cases Pennsylvania, on private terms; also 200 cases sundry kinds, at 7@25c. Spanish tobacco has remained steady, with sales of 400 bales Havana at 88c.@$1 15.

There has been only a moderate demand for hides during the past week, and prices are steady at the late decline. Dry Montevideo sold at 18c., four months, gold; dry Texas, part to arrive, at 16c.; dry salted do., at 11c., and city-slaughter ox at 8½c. currency.

Linseed oil has been in fair jobbing demand at 57@58c.. Crude whale sold to the extent of 4,000 bbls. northern, at New Bedford, at 60c.; crude sperm has ruled lower, at $1 45. Codfish have been in fair demand and steady, at $5 25 for new Georges. Whiskey has been dull, and closed at $1 11 tax paid. Grass seeds are quiet and nominal.

Ocean freights have latterly shown firmness and buoyancy; due to reduced offerings of both berth and charter tonnage, and somewhat better demand from the different trades. Late engagements and charters included: Grain to Liverpool, by steam (next week) 6d.; provisions, 5@30s. per ton; cotton, ¼d; grain to London, by sail, 7d.; flour, 2s.; grain to Hull, by steam, 7d.; do. to Hamburg, by steam, 1.30 marks; refined petroleum to the Baltic, 4s. 6d.; do. to Bremen, 3s. 6d.; do. in cases to Java, 30c. gold.; do. in bbls. from Philadelphia to Antwerp or Bremen, 3s. 7½d.@3s. 9d. To-day, a moderate movement took place, and full rates were maintained. Grain to London, by steam, 7½d.; do. by sail, 7d.; do. to Glasgow, by steam (next week) 8@8½d.; do. to Rotterdam, by steam, 9d.; do. to Cork for orders, 5s. 9d., flat; do. to Rotterdam, 6s. per qr.; a British steamer to Havre or Antwerp, with grain at 9d. per bushel; refined petroleum to Bristol, 4s.; do. from Philadelphia to Barcelona, 5s.

Naval stores have latterly been very quiet, and spirits turpentine has declined in consequence; closing at 35½c.; common to good strained rosins, however, are about steady at $1 75@$1 80; the higher grades are firm, under small stocks. Petroleum has latterly advanced, and shown much firmness, under higher advices from the Creek; crude, in bulk, closes at 8½c., and refined, in bbls., at 14c., for early deliveries. Ingot copper has declined, with sales of 200,000 lbs. Lake at 22½c., cash.

## COTTON.

FRIDAY, P. M., April 28, 1876.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening (April 28) the total receipts have reached 29,838 bales, against 30,020 bales last week, 41,620 bales the previous week, and 53,804 bales three weeks since, making the total receipts since the 1st of September, 1875, 3,915,354 bales, against 3,319,082 bales for the same period of 1874–5, showing an increase since Sept. 1, 1875, of 596,272 bales. The details of the receipts for this week (as per telegraph) and for the corresponding weeks of five previous years are as follows:

| Receipts this week at— | 1876. | 1875. | 1874. | 1873. | 1872. | 1871. |
|---|---|---|---|---|---|---|
| New Orleans | 10,151 | 8,582 | 4,373 | 20,837 | 8,329 | 18,900 |
| Mobile | 2,180 | 1,590 | 2,214 | 3,822 | 962 | 4,687 |
| Charleston | 1,049 | 1,879 | 3,003 | 3,906 | 1,733 | 2,585 |
| Port Royal, &c. | 208 | .... | .... | | | |
| Savannah | 1,632 | 2,635 | 2,761 | 3,936 | 3,339 | 7,732 |
| Galveston | 4,218 | 2,231 | 3,998 | 3,146 | 714 | 10,201 |
| Indianola, &c. | 306 | 118 | 994 | | | |
| Tennessee, &c. | 4,287 | 3,420 | 7,630 | 5,419 | 5,210 | 6,524 |
| Florida | 39 | 29 | 49 | 440 | 171 | 115 |
| North Carolina | 1,531 | 1,073 | 810 | 563 | 963 | 723 |
| Norfolk | 2,063 | 2,714 | 4,723 | 4,590 | 4,914 | 5,216 |
| City Point, &c. | 379 | 333 | 351 | 218 | 165 | |
| Total this week | 29,838 | 22,199 | 33,843 | 47,046 | 26,512 | 56,685 |
| Total since Sept. 1 | 3,915,354 | 3,319,082 | 3,576,201 | 3,238,170 | 2,564,632 | 3,570,759 |

The exports for the week ending this evening reach a total of 47,357 bales, of which 29,982 were to Great Britain, 9,683 to France, and 7,692 to rest of the Continent, while the stocks as made up this evening are now 533,521 bales. Below are the stocks and exports for the week, and also for the corresponding week of last season:

| Week ending April 28. | Exported to | | | Total this week. | Same week 1875. | Stock. | |
|---|---|---|---|---|---|---|---|
| | Great Britain. | France | Continent. | | | 1876. | 1875. |
| New Orleans* | 16,279 | 9,683 | 6,027 | 31,989 | 27,619 | 180,365 | 117,596 |
| Mobile | 3,538 | .... | 800 | 4,338 | .... | 35,707 | 25,273 |
| Charleston | 1,221 | .... | .... | 1,221 | 3,776 | 18,040 | 13,790 |
| Savannah | .... | .... | .... | .... | 2,343 | 25,012 | 32,374 |
| Galveston† | 2,748 | ... | 765 | 3,513 | 15,733 | 25,158 | 41,180 |
| New York | 4,076 | .... | 100 | 4,176 | 1,747 | 193,697 | 188,651 |
| Norfolk | .... | .... | .... | .... | .... | 11,533 | 5,124 |
| Other ports‡ | 2,120 | .... | .... | 2,120 | 1,587 | 35,000 | 41,376 |
| Total this week | 29,982 | 9,683 | 7,692 | 47,357 | 53,810 | 533,521 | 465,851 |
| Total since Sept. 1 | 1,771,234 | 388,212 | 648,156 | 2,807,602 | 2,230,975 | .... | .... |

* *New Orleans.*—Our telegram to-night from New Orleans shows that (besides above exports) the amount of cotton on shipboard and engaged for shipment at that port is as follows: For Liverpool, 35,000 bales; for Havre, 14,000 bales; for Continent, none; for coastwise ports, 6,000 bales; which, if deducted from the stock, would leave 131,500 bales; representing the quantity at the landing and in presses unsold or awaiting orders.

† *Galveston.*—Our Galveston telegram shows (besides above exports) on shipboard at that port, not cleared: For Liverpool, 05 bales; for other foreign, 3,0 2 bales; for coastwise ports, none; which, if deducted from the stock, would leave remaining 21,491 bales.

‡ The exports this week under the head of "other ports" include from Baltimore 614 bales to Liverpool; from Boston 1,135 bales to Liverpool; from Philadelphia 321 bales to Liverpool.

From the foregoing statement it will be seen that, compared with the corresponding week of last season, there is a *decrease* in the exports this week of 5,953 bales, while the stocks to-night are 67,657 bales *more* than they were at this time a year ago. The following is our usual table showing the movement of cotton at all the ports from Sept. 1 to April 21, the latest mail dates:

| PORTS. | RECEIPTS SINCE SEPT. 1. | | EXPORTED SINCE SEPT. 1 TO— | | | | Coastwise Ports. | Stock. |
|---|---|---|---|---|---|---|---|---|
| | 1875. | 1874. | Great Britain | France | Other for'n | Total. | | |

* Under the head of *Charleston* is included Port Royal, &c.; under the head of *Galveston* is included Indianola, &c.; under the head of *Norfolk* is included City Point, &c.

These mail returns do not correspond precisely with the total of the telegraphic figures, because in preparing them it is always necessary to incorporate every correction made at the ports.

The market has been very depressed for cotton on the spot, and a material reduction made in quotations. They were marked down ¼c. on Monday, 1-16c. on Tuesday, and 3 16@¼c. on Wednesday. Notices for delivery on May contracts have come out pretty freely, and holders have pressed stocks for sale. At the reduc-

tion on Wednesday there was more business for export, and the market yesterday ruled comparatively steady, with a moderate general demand. To-day, the market was quiet, but steady. For future delivery, unusual depression has prevailed, amounting, at times, to a semi-panic, and prices at noon on Wednesday were 5-32@11-32c. lower than the close on the previous Friday. The greatest depression was in the present crop and in the early months. The dull accounts from abroad, and the unfavorable reports which were made of the state of trade and manufactures in domestic cotton fabrics, caused a general loss of confidence in the ability to maintain prices; and there was much anxiety to unload. Planting accounts from the South are much more favorable, though the floods in the Mississippi Valley have not abated, and high water is threatened to so late a date as to make planting in a certain section precarious, at best. Accounts from Bombay have indicated a diminished movement from that quarter, and it is claimed that spinners are generally carrying light stocks of cotton. These "points," with the natural desire of the "bears" to realize the profits accruing to them from the decline, caused a brisk demand to cover contracts, and, in the course of Wednesday afternoon and Thursday morning, there was some recovery of prices, but the demand soon fell off; there was no decided improvement in the tone of the market, and the advance was but temporary, a further decline of 1-16c. taking place later in the afternoon. To-day, the market was stronger, and after 'Change a slight advance was paid.

The total sales for forward delivery for the week are 209,500 bales, including —— free on board. For immediate delivery the total sales foot up this week 5,234 bales, including 1,794 for export, 2,972 for consumption, 468 for speculation, and —— in transit. Of the above, 586 bales were to arrive. The following were the closing quotations to day:

THE VISIBLE SUPPLY OF COTTON, as made up by cable and telegraph, is as follows. The continental stocks are the figures of last Saturday, but the totals for Great Britain and the afloat for the Continent are this week's returns, and consequently brought down to Thursday evening; hence, to make the totals the complete figures for to-night (Apr. 28), we add the item of exports from the United States, including in it the exports of Friday only:

| | 1876. | 1875. | 1874. | 1873. |

These figures indicate an *increase* in the cotton in sight to-night of 75,671 bales as compared with the same date of 1875, an *increase* of 29,865 bales as compared with the corresponding date of 1874, and an *increase* of 40,434 bales as compared with 1873.

AT THE INTERIOR PORTS the movement—that is the receipts and shipments for the week and stock to-night, and for the corresponding week of 1875—is set out in detail in the following statement:

| | Week ending Apr. 28, 1876. | | | Week ending April 30, 1875. | | |
|---|---|---|---|---|---|---|
| | Receipts. | Shipments. | Stock. | Receipts. | Shipments. | Stock. |
| Augusta, Ga..... | 798 | 1,277 | 3,083 | 1,031 | 871 | 9,210 |
| Columbus, Ga..... | 104 | 330 | 5,980 | 273 | 191 | 6,155 |
| Macon, Ga..... | 103 | 250 | 3,203 | 141 | 729 | 4,597 |
| Montgomery, Ala.. | 303 | 616 | 4,760 | 251 | 461 | 2,326 |
| Selma, Ala..... | 410 | 562 | 3,100 | 373 | 709 | 2,807 |
| Memphis, Tenn.... | 2,641 | 4,127 | 41,781 | 1,220 | 5,219 | 20,388 |
| Nashville, Tenn... | 313 | 263 | 2,852 | 424 | 251 | 11,762 |

| Dallas, Texas..... | 125 | 135 | 836 | 48 | 57 | 230 |
| Jefferson, Texas ... | 300 | 645 | 3,591 | 90 | 431 | 861 |
| Shreveport, La..... | 940 | 1,767 | 4,564 | 683 | 1,931 | 1,365 |
| Vicksb'g, Miss..... | 1,628 | 1,654 | 4,131 | 796 | 988 | 1,721 |
| Columbus, Miss..... | 135 | 154 | 1,141 | 23 | 79 | 434 |
| Eufaula, Ala. (est.). | 191 | 216 | 1,725 | 136 | 126 | 942 |
| Griffin, Ga..... | 8 | 23 | 461 | 21 | None. | 463 |
| Atlanta, Ga..... | 72 | 418 | 2,450 | 115 | 10 | 1,712 |
| Rome, Ga..... | 89 | 200 | 503 | 151 | 47 | 750 |
| Charlotte, N. C.,... | 598 | 380 | 680 | 75 | 934 | 2,075 |
| St. Louis, Mo..... | 1,515 | 2,216 | 11,438 | 830 | 2,333 | 13,529 |
| Cincinnati, O..... | 2, 83 | 3,488 | 18,564 | 578 | 663 | 12,325 |
| Total, new ports | 7,579 | 11,295 | 50,057 | 3,746 | 7,569 | 36,306 |
| Total, all..... | 12,251 | 18,721 | 120,836 | 7,259 | 16,030 | 102,551 |

The above totals show that the old interior stocks have *decreased* during the week 2,753 bales, and are to-night 4,514 bales *more* than at the same period last year. The receipts at same towns have been 959 bales *more* than the same week last year.

BOMBAY SHIPMENTS.—According to our cable despatch received to-day, there have been 22,000 bales shipped from Bombay to Great Britain the past week, and 19,000 bales to the Continent; while the receipts at Bombay during this week have been 62,000 bales. The movement since the 1st of January is as follows. These are the figures of W. Nicol & Co., of Bombay, and are brought down to Thursday, April 27:

| | Shipments this week | | | Shipments since Jan. 1 | | | Receipts. | |
|---|---|---|---|---|---|---|---|---|
| | Great Britain. | Continent. | Total. | Great Britain. | Continent. | Total. | This week. | Since Jan. 1. |
| 1876..... | 22 000 | 19,000 | 41,000 | 231,000 | 169 000 | 400,000 | 52,000 | 584,000 |
| 1875..... | 40.000 | 3,000 | 43,000 | 412,000 | 271,000 | 683,000 | 59,000 | 810,000 |
| 1874..... | 66,000 | 23,000 | 89,000 | 411,000 | 219,000 | 630,000 | 62,000 | 814,000 |

From the foregoing it would appear that, compared with last year, there is a *decrease* of 2,000 bales this year in the week's shipments from Bombay to Europe, and that the total movement since January 1 shows a *decrease* in shipments of 280,000 bales compared with the corresponding period of 1875.

WEATHER REPORTS BY TELEGRAPH.—Very good progress has been made in planting operations the past week. Almost everywhere favorable weather is reported. In Texas, the seed is now about all in the ground, and the same is also true of other portions of the Southwest. So that, with the exception of the flooded land in the Mississippi Valley (which is now of limited extent), the prospect at present is almost everywhere fairly favorable, though the start, especially in the Gulf States, was late.

*Galveston, Texas.*—The weather the past week has been warm and dry. Planting is finished everywhere, and some sections are beginning to need rain. The average thermometer is 74; the highest, 83, and the lowest 67.

*Indianola, Texas.*—Planting is very nearly completed in this neighborhood. The thermometer has averaged during the week 74, ranging from 82 to 66. A moderate shower would prove beneficial.

*Corsicana, Texas.*—We had a shower one day this week, the rainfall reaching fifty-six hundredths of an inch. The weather is favorable. In this vicinity, planting is now about completed. Average thermometer, 73; highest, 87, and lowest 58.

*Dallas, Texas.*—On one day this week there was a shower, the rainfall reaching sixty-five hundredths of an inch. Farm operations are progressing well. Average thermometer, 76; highest, 84, and lowest 57. Wheat is promising. There are some complaints of rust, but no serious damage has been done.

*New Orleans, Louisiana.*—There has been no rain here all this week. The thermometer has averaged 69.

*Shreveport, Louisiana.*—We had rain here on Wednesday last, to the extent of one inch and seventy-seven hundredths, which restored the crops to a good condition. The thermometer has averaged 72, the highest being 85 and the lowest 59.

*Vicksburg, Mississippi.*—There have been two rainy days here this week. The thermometer has averaged 70, ranging from 56 to 85. Planting is progressing.

*Columbus, Mississippi.*—The weather the past week has been warm and, excepting two rainy days, has been dry; to-day, the indications are favorable for rain. Total rainfall, one inch and eighty-two hundredths. Average thermometer 63, highest 72 and lowest 54. Planting is about completed in this neighborhood, and the crop is developing promisingly.

*Little Rock, Arkansas.*—The past week has been very pleasant, but most too dry for farmers. We had a very acceptable rain last night. The rainfall for the week has been to the depth of one inch and twenty-eight hundredths. The thermometer has averaged 67, while the range was from 50 to 82.

*Nashville, Tennessee.*—It rained slightly one day this week, the rainfall reaching two hundredths of an inch. Planting is making good progress. Average thermometer 63, highest 73 and lowest 53.

*Memphis, Tennessee.*—We have had no rain this week nor for the last two weeks, save a fine rain this (Friday) morning. The weather this week has been pleasant, and planting is progressing satisfactorily, excepting in the overflowed lands. The thermometer has averaged 67, the extremes being 78 and 57. The thermometer last week was: highest 69, lowest 50 and average 61.

*Mobile, Alabama.*—There has been no rain here, the weather being warm and dry all the week. Planting is making satisfactory progress. The average thermometer is 67, the highest 80 and the lowest 55.

*Montgomery, Alabama.*—There has been no rainfall here this week, the weather during the whole week having been warm and dry. The thermometer has averaged 69, ranging from 52 to 81.

*Selma, Alabama.*—It has been warm and dry all the week, and is now cloudy. The thermometer has averaged 60.

*Madison, Florida.*—Our telegram from Madison has not been received.

*Macon, Georgia.*—We have had no rainfall this week, and the weather has been very favorable for planting. The thermometer has ranged from 53 to 90, averaging 74.

*Atlanta, Georgia.*—We had, on one day this week, a thunder shower, the rainfall reaching fifty hundredths of an inch. The days have been warm and the nights cold. The thermometer has averaged 70, the highest being 80 and the lowest 48.

*Columbus, Georgia.*—The days have been warm and the nights cold. There has been no rain, and rain is needed. Average thermometer 70; highest 80 and lowest 58.

*Savannah, Georgia.*—The weather this week has been warm and dry. There has been no rainfall. The thermometer has averaged 70, ranging rom 56 to 85.

*Augusta, Georgia.*—It has been warm and dry here all the week. Average thermometer 69; highest 85 and lowest 51.

*Charleston, South Carolina.*—Our usual weekly telegram has failed to reach us to-night.

The following statement we have also received by telegraph showing the height of the rivers at the points named at 3 o'clock April 27. We give last year's figures (April 30, 1875) for comparison.

| | April 27, '76. | | April 30, '75. | |
|---|---|---|---|---|
| | Feet. | Inch. | Feet. | Inch. |
| New Orleans..Below high-water mark..... | 3 | 9 | 4 | 4 |
| Memphis.....Above low-water mark..... | 33 | 10 | 19 | 4 |
| Nashville.....Above low-water mark..... | 7 | 9 | 29 | 11 |
| Shreveport....Above low-water mark..... | 22 | 6 | Missing. | |
| Vicksburg....Above low-water mark..... | 43 | 9 | 42 | 1 |

New Orleans reported below high-water mark of 1871 until Sept. 9, 1874, when the zero of gauge was changed to high-water mark of April 15 and 16, 1874, which is 6-10ths of a foot above 1871, or 16 feet above low-water mark at that point.

MEMPHIS COTTON EXCHANGE REPORT FOR APRIL.—We are very sorry that, through an oversight, this report was omitted last week:

MEMPHIS, Tenn., April 10, 1876.

One hundred and twenty responses to interrogatories issued by your committee on the 20th ult. Of these responses, 39 are from West Tennessee, 38 from North Mississippi, 32 from Arkansas (north of Arkansas River), and 10 from North Alabama. Average date of responses, April 5. We would state that, owing to the overflow of the Mississippi and tributary streams in this district, we have not been enabled to reach our correspondents in the bottom regions to that extent desired; but we are constrained to believe that a more extended response would not materially change the nature of this report.

QUESTION 1. What has been the relative number of bales produced of the crop of 1875 in your neighborhood, as compared with crop of 1874? Answer per cent.

*Answer:* West Tennessee, 23 per cent. more; North Mississippi, 15½, and Arkansas 53 per cent. more; North Alabama, 3 per cent. less.

QUESTION 2. How did the facilities afforded by factors, financially or in plantation supplies of whatever kind, compare with those furnished in 1874? Answer per cent.

*Answer:* West Tennessee, 2 per cent. less; North Mississippi, 8 per cent. less; Arkansas, 1 per cent. more; North Alabama, 16 per cent. less.

QUESTION 3. What proportion of the past year's crop yet remains on plantations in your neighborhood?

*Answer:* West Tennessee, 5¾ per cent.; North Mississippi, 8; Arkansas, 3 8-10; and North Alabama, 2½ per cent.

QUESTION 4. Has the number of laborers increased in your vicinity; if so, to what extent, and from what region have they come? If they have decreased, please state to what extent.

*Answer:* West Tennessee, 1 64-100 per cent decrease; North Mississippi, 1-5 per cent. decrease; Arkansas, 3 per cent. increase, derived from Tennessee, North Mississippi, Alabama, Georgia, South Carolina, and Western States; North Alabama, 1 per cent. decrease.

QUESTION 5. Are laborers making contracts with alacrity? What proportion are contracting for wages, and what for shares and renting? How will their terms of compensation probably compare with last season?

*Answer:* 107 answer that laborers have contracted with alacrity; 13 answer that they have not. West Tennessee 59 per cent for shares, 21 per cent renters, 20 per cent wages; shares and rents about same; wages, 5 per cent lower than last year. North Mississippi, 50 per cent for shares, 29 renters, 21 wages; shares and rents about same; wages, 5 per cent less. Arkansas, 52 per cent shares, 21 renters, 27 wages; shares and wages about same; wages 2 per cent less. North Alabama, 54 per cent shares, 27 renters, 19 wages; shares and renters about same; wages, 2 per cent less.

QUESTION 6. What per cent of new land will be brought into cultivation this season for the first time?

*Answer:* West Tennessee answers that about 1¾ per cent increase of new lands brought into cultivation this year; North Mississippi, 1¾; Arkansas, 4 2-5, and North Alabama, 1 7-10 per cent.

QUESTION 7. Are preparations for planting in your vicinity better or worse than at same date last year? Please state per cent either way, and causes.

*Answer:* West Tennessee answers that preparations for planting are 30 per cent worse than last year, and three weeks later, owing to wet and cold weather. North Mississippi, 30 per cent worse, 19 days later; attributed to wet, cold weather and overflow. Arkansas, 25 per cent worse, three weeks later; causes, wet cold, weather and overflow. North Alabama, 1½ per cent better, owing to more favorable weather.

QUESTION 8. Will there be an increase or decrease of acreage in cotton cultivation in your vicinity as compared with last season? State per cent either way.

*Answer:* West Tennessee anticipates an increase in cotton acreage of 4 per cent. North Mississippi, 3 per cent decrease. Arkansas, 3 per cent decrease, and North Alabama, 1 per cent decrease.

QUESTION 9. Will corn planting in your vicinity equal that of last season? If more or less, state per cent either way.

*Answer:* West Tennessee anticipates 6 per cent decreased acreage of corn planting. North Mississippi, 1¾ per cent increase. Arkansas, 5 per cent increase, and North Alabama, 2 per cent increase.

QUESTION 10. How will the acreage of small grains planted and to be planted compare with this date last season?

*Answer.* West Tennessee reports 24 per cent decreased acreage of small grains; North Mississippi, 26 per cent decrease; Arkansas, 3 per cent increase; North Alabama, 3 per cent decrease.

QUESTION 11. What is the condition of work stock compared with same date last year, and has the number increased or decreased?

*Answer.* West Tennessee reports work stock in 30 per cent better condition, with 1 3-5 per cent increase of numbers; North Mississippi, 30 per cent improved condition and 2¼ per cent increase; Arkansas, 21 per cent better condition and 2 per cent increase; North Alabama, 36 per cent better conditioned, 2-5 per cent decrease.

QUESTION 12. What is the condition of fences, and has there been any material improvement in outhouses and homes the past season?

*Answer.* West Tennessee, 33 report fences well conditioned, 6 bad condition, with 2 per cent improvement in homes and outbuildings. North Mississippi, 21 fences good, 14 bad; 2 per cent improvement in homes and outbuildings. Arkansas, 25 per cent report fences good, 8 bad, with 2½ per cent improvement in outhouses and homes. North Alabama, 5 report fences well conditioned, 5 bad, with 1½ per cent improvement in homes and outhouses.

QUESTION 13. Are planters in your vicinity giving an increased attention to raising their own pork? If so, to what extent?

*Answer:* West Tennessee all report much interest being taken in pork raising, with prospective of an increase of 75 per cent. over last year. North Mississippi, all save in overflowed lands, report great interest with prospective of 50 per cent. increase. Arkansas, much interest is taken, anticipating an increase of 30 per cent. North Alabama reports anticipated increased production of 115 per cent.

AGGREGATE FOR NORTH ALABAMA.

1. Two per cent less number of bales of cotton raised than of the crop of 1874.

2. The facilities furnished by factors in aid of producing the crop estimated to be 2 per cent less than 1874.

3. It is estimated that 2½ per cent of the crop remained unmarketed on th 5th inst.
4. The decrease of laborers is estimated at 1 per cent.
5. Laborers have accepted work with alacrity; 54 per cent for shares, 27 per cent renters, 19 per cent wages. Compensation of workers for shares and renters nominally unchanged, for wages 11 per cent lower than 1875.
6. The increased acreage of new lands is estimated to be 1¾ per cent.
7. Preparations for crop planting are estimated to be 1½ per cent better than last year, owing to more favorable weather.
8. The prospective average decreased acreage in cotton planting is 1 per cent.
9. The estimated increased acreage of corn is 2 per cent.
10. The decreased acreage of small grain is reported to be 3 per cent.
11. Work stock is reported in 36 per cent better condition, but with decrease of 2-5 per cent in numbers.
12. Five report fences in good condition, 5 report bad condition, with an average of 1¾ per cent improvement in homes and outbuildings.
13. All report great interest in pork raising, with an estimated increase over last year of 115 per cent. Very respectfully,

SAM. M. GATES, Chairman. H. FURSTENHEIM,
W. W. GUY, J. W. JEFFERSON,
HUGH TORRANCE, J. L. WELLFORD,
B. BAYLISS,

Committee on Statistics and Information.

WEEKLY RECEIPTS OF COTTON.—Below we give a table showing the receipts of cotton each week at all the ports of the United States for several seasons, indicating, also, the total crop each year. Our figures are given in thousands of bales.

GUNNY BAGS, BAGGING, &c.—Bagging has ruled quiet during the past week, and but few lots are moving, and those of a jobbing character. Prices are unchanged, and holders still ask 12¼@12½c. Bales are dull and nominal in tone at 9@9¼c. for India and 13c. for Borneo. Bags rule quiet at previous figures; 440s are held at 13c. Butts have been in moderate request for small lots, and we hear of parcels, in all about 800 bales, at 3c., cash and time, with holders quoting at 2 15-16@3c. cash. Lots to arrive are enquired for, but no sales have been made that we hear of.

SHIPPING NEWS.—The exports of cotton from the United States the past week, as per *latest mail* returns, have reached 51,591 bales. So far as the Southern ports are concerned, these are the same exports reported by telegraph, and published in THE CHRONICLE last Friday. With regard to New York, we include the manifests of all vessels cleared up to Wednesday night of this week.

Below we give all news received to date of disasters, &c., to vessels carrying cotton from United States ports:

HEVELIUS str. (Br.), Markwell, for Liverpool, while hauling out of her dock at Martin's stores, Brooklyn, at 6 A. M, April 23, was carried, by the tide, with such force against the pier above as to damage two of the plates on the port side very seriously, which will necessitate the taking out of a portion of the cargo and detain her several days to repair the damage.

LANCASTER, ship, from Galveston, in docking at Liverpool, April 13, struck the north end of the landing stage and sustained damage.

J. G. NORWOOD, bark, (of Camden, Me.), Sheppard, from Galveston for Bremen, before reported overdue, has been out 110 days, and is now thought to be lost, with all hands. Edward Cooper, mate, G. B. Smith, steward, and Wm. Berry, seaman, were from Rockport, Me. The bark was owned principally by Carleton, Norwood & Co., of Rockport, and was a year old, 418 tons, and partly insured.

VANGUARD, bark, Michel, from New Orleans for Falmouth, E., before reported at Key West, leaky, made slight repairs and resumed her voyage April 22.

OSSEO, brig, Lowry, from Mobile for Havre, before reported, remained at Bermuda, April 20, repairing.

Cotton freights the past week have been as follows:

| | Liverpool. Steam. | Liverpool. Sail. | Havre. Steam. | Havre. Sail. | Bremen. Steam. | Bremen. Sail. | Hamburg. Steam. | Hamburg. Sail |

# BREADSTUFFS.

FRIDAY, P. M., April 28, 1876.

The flour market was, for the first half of the week, dull, drooping and unsettled; but yesterday, at some decline, there was a brisk revival of demand for export; of shipping extras, &c., large lines were sold, to the extent of several thousand bbls., at $5 15 @$5 20 for prime brands of extra State, $5 35 for fancy do., $4 85 for unsound winter extra, and $5 75@$5 85 for choice City mill flours. The better grades, at $6 and above, remained dull and nearly nominal. Low grades were scarce, but not in much demand. The production is comparatively small, and stocks nowhere large; but holders are not willing to permit supplies to accumulate. To-day, the market was more steady, but less active.

The wheat market has experienced a considerable decline Gold and exchange are lower and ocean freights are higher. Increased anxiety to sell has arisen from the failure of banks in Chicago and a leading house in the trade at Milwaukee. Under these influences, No 2 Milwaukee declined to $1 21¼@1 22 on the spot, and $1 20 for early arrival; and all other grades of spring shared more or less in the decline. The weather has been good for completing the spring sowing in the Northwest; and, altogether, confidence in the future of prices a good deal impaired To-day, at a slight concession, the market was quite active, including No. 1 spring at $1 28½@1 29¼ in store and afloat, and No. 3 spring, $1 10@1 13.

Indian corn has declined rapidly under increased supplies, new Western going free at 60¼@61¼c. for damp, and 65@67c. for steam and sail mixed, on the spot; 61@62c. for sail mixed, all May and the first half of the month. At these prices, however, there were more sellers than buyers, and latterly there has been some recovery, especially for future delivery. To-day, there was a good business at 64¼@64¾c. for steamer mixed on the spot, and 61@61¼c. for sail mixed, May delivery.

Rye has been quiet and weak. Barley has recovered a portion of the recent decline, especially Canadian. Barley malt in fair request. Canada peas are quiet.

Oats have been pressed on the market, and prices have given way materially, large sales of No. 2 Chicago having been made yesterday at 42c. To-day, Western oats were again lower, a 41c. for No. 2, with large sales.

The following are closing quotations:

| FLOUR. | | GRAIN. | |
|---|---|---|---|
| No. 2..... | $ bbl. $3 00@ 3 65 | Wheat—No.3 spring, bush. | $1 00@ 1 13 |

## THE DRY GOODS TRADE.

FRIDAY, P. M., April 28, 1876.

There has been a steady demand throughout the week for moderate parcels of domestic goods, for replenishing the stocks of jobbers in the interior, and sales to a fair aggregate amount have been effected by the commission houses. Foreign goods have been very quiet in first hands, and importers having become restive under their accumulations of stock, have freely resorted to the auction rooms as an outlet, and in this way a very large amount of merchandise has changed hands. The jobbing trade has been somewhat less active, although a good many retailers from near-by sections have been in the market, whose joint purchases were fairly satisfactory. The Western trade has shown a marked improvement within the last two weeks, and as jobbers in Chicago, St. Louis, Cincinnati and other large distributing points are carrying comparatively light stocks, a more active demand from that quarter is expected in the early future. Prices of domestic goods have been fairly steady, with the exception of prints and cotton dress-goods, which have continued weak and unsettled; but several descriptions of imported fabrics have shown a further shrinkage in value.

DOMESTIC COTTON GOODS.—For export, 1,398 packages of cotton goods were taken during the week, of which the greater part was sent to Great Britain. Brown sheetings were in steady demand, with most relative activity in popular four and five yard makes, which are firmly held. Bleached shirtings of the best makes changed hands in liberal amounts, but wide sheetings were comparatively quiet. Drills and corset jeans were in steady but moderate request, and there was a hand-to-mouth demand for denims, tickings, cheviots, and other makes of colored cottons. Cottonades moved slowly and at irregular prices, and rolled jacconets were taken in small lots for keeping up assortments. Print cloths continued depressed and barely steady at 3¼c., cash, for extra 64s., at which figures some sales were made with a small discount off. Prints met with a liberal distribution, but prices continued low and unsatisfactory, several additional makes having declined, viz.: Cocheco fancy and shirting styles to 6¼c. and 6c. respectively; Garner's fancy to 6c.; do. shirtings to 5¾c.; Richmond and Southbridge fancy to 6c.; and Knickerbocker fancy to 6¼c. The entire line of Amoskeag fancy prints was closed out by Messrs. Garner & Co. to a large jobbing house, who offered them to their customers at 5c. Ginghams were in better demand, and heavy sales of cotton dress-goods were made by agents at a great reduction from previous holding rates.

DOMESTIC WOOLEN GOODS.—Apart from heavy cassimeres and overcoatings, which have been taken rather more freely by the larger clothiers, men's-wear woolens have been quiet in agents' hands. Spring-weight cassimeres and suitings of the newest styles have been taken in small lots, and diagonal worsted coatings of the best makes have been in fair request, but both cassimeres and worsteds of indifferent styles have been moving slowly and at unprofitable prices. Cloths have been a trifle more active, as have black doeskins; but selections have been, in most cases, restricted to small parcels of the most popular makes. Satinets have been in limited request, and there has not been much animation in Kentucky jeans. Blue clothing flannels have been active, and some makes are closely sold up to production; otherwise, flannels have been quiet. Worsted dress-goods were in steady demand and are generally firm, but a line of 1,650 pieces camels'-hair cloths were sold at auction and brought very low rates. Shawls were quiet and weak in agents' hands.

FOREIGN DRY GOODS.—There has been an unsatisfactory movement in imported goods from first hands, but jobbers' sales have been to a fair aggregate amount. At auction there was a further decline in dress goods, silks, &c., but linens and white goods maintained their values in most cases. Alpacas and pure mohairs were sluggish, but cashmeres, de beges, drab d'ete, and mousseline de laine were in steady demand, and there was rather more inquiry for black grenadines, chambrays and percales. White goods were fairly active in jobbers' hands, but quiet with importers, and housekeeping, shirting and dress linens met with fair sales. Woollen goods, for mens' wear continued dull, and are selling at low figures. Ribbons and millinery goods were largely sold at auction, including a line of the importation of Messrs. A. T. Stewart & Co., which, consisting of old colors, brought low and unprofitable prices. Kid gloves were in steady request, and there was a good demand for Balbriggan hosiery, in both plain and embroidered makes.

We annex prices of a few articles of domestic manufacture:

### REAL ESTATE MORTGAGE BONDS

GUARANTEED BY THE

### Equitable Trust Co.,

**$1,000,000 CAPITAL.**

THESE REAL ESTATE MORTGAGE BONDS ARE COMMENDED TO THE ATTENTION OF THE MOST

**CONSERVATIVE INVESTORS.**

*First*—They have the individual liability of the maker.

*Second*—Each bond is secured by a first mortgage of real estate of not less than double its value.

*Third*—The prompt payment of both principal and interest of every bond is guaranteed by this Company.

The Company guaranteeing these Bonds receives no deposits, owes no money, and incurs no obligations of any character except those arising from such guaranty thereby keeping its whole capital of One Million Dollars unimpaired, TO MEET AT ALL TIMES the prompt payment of both principal and interest of these Bonds.

All mortgages securing the Bonds are formally approved by the following Executive Board:

ROBERT L. KENNEDY, ADRIAN ISELIN,
SAMUEL WILLETS, JAMES A. ROOSEVELT,
WM. REMSEN, EUGENE KELLY,
CHAS. BUTLER, JOHN D. MAXWELL,
HENRY P. HAVEN, GUSTAV H. KISSELL.

These Securities bear Seven Per Cent Interest payable semi annually, and are offered for sale at one hundred and two and interest at the office of the Equitable Trust Company, Nos. 52 & 54 William street.

JONATHAN EDWARDS, President.

---

**THE NEW ENGLAND**

### Mortgage Security Co.

OFFERS FOR SALE, AT PAR,

**SEVEN PER CENT TEN-YEAR BONDS**

SECURED BY

**FIRST MORTGAGES OF IMPROVED REAL ESTATE.**

GUARANTEED, PRINCIPAL AND INTEREST,

BY ITS

**CAPITAL STOCK OF $500,000.**

Interest Coupons payable semi-annually. Bonds registered to order, or payable to bearer at option. Accrued interest is not required to be paid by purchaser, the next-due Coupon being stamped so as to denote that interest begins at the date of purchase.

A Pamphlet with full information will be sent on application to the Company's Office,

**43 Milk Street, Boston.**

These Bonds are commended to the attention of the MOST CONSERVATIVE INVESTORS, as they are believed to be as perfect a security as can be obtained. The issue of Bonds is limited to one-half the amount of the same class of Bonds ever issued under a like Guarantee.

The security of each Bond is not confined a to single Mortgage, but extends over all the Mortgages owned by the Company. This Company receives no deposits, guarantees no other securities, and has no other debts than its bonds. Its Mortgages are of like character to those which have been bought in the last twenty years by Individuals, Life Insurance Companies and other Corporations, to the amount of more than Fifty Millions of Dollars, proving a most secure and satisfactor investment. The Loans are all upon improved Farms in some of the most fertile Western states, near the Railroads, with short and perfect titles, and average less than $650 each, upon property worth nearly four times their amount. Experience has proved that well-selected Mortgages upon this class of property are safer than those upon city property, either in the East or West. They are not affected by Fires, or by Business revulsions; Principal and interest are more promptly paid; and upon the success of Agriculture depends that of almost every industrial investment.

HENRY SALTONSTALL, President.

# Investors' Supplement

OF THE

## COMMERCIAL AND FINANCIAL CHRONICLE.

PUBLISHED ON THE LAST SATURDAY OF EACH MONTH.

**Furnished Gratis to all Subscribers of the Chronicle.**

[Entered according to act of Congress, in the year 1876, by WM. B. DANA & Co., in the office of the Librarian of Congress, Washington, D.C.]

NEW YORK, APRIL 29, 1876.

# INVESTORS' SUPPLEMENT

OF THE

## Commercial and Financial Chronicle.

The Supplement is issued on the last Saturday of each month, containing a complete exhibit of the Funded Debt of States and Cities, and of the Stocks and Bonds of Railroad and other Companies.

It is furnished without extra charge to all regular subscribers of THE CHRONICLE; no single copies are sold at the office, as a sufficient supply is printed for subscribers only.

Transient advertisements are inserted at twenty-five cents per line; advertisements by the quarter, six months or year, at special rates.

## INVESTMENTS IN APRIL.

The month of April has shown less activity in investment securities than any of its predecessors during the current year. There was at times a fair business in government bonds, but even for these favored investments the demand was not as large and steady as it had been previously. Among the principal causes for the decline in investment purchases were the depression in stocks, both speculative and other; the unfavorable condition of mercantile business, and the report of the mercantile agency, showing a large number of failures in the first quarter of the year; and the reduction in our city bank reserves in consequence of the usual flow of greenbacks towards the country about the first of April, which often makes the month a dull one in all stock and bond transactions.

As to government bonds, there was a continued demand, but not at all steady, and after it was known that Secretary Bristow would sell the new fives to pay Alabama claims, the market was held in suspense for that until the sale took place on the 24th inst. The amount offered was $5,883,000, and bids were required to be for not less than $500,000, and payable in gold. The whole amount was bid for by no less than nine parties, and the details being somewhat interesting we give them as follows:

Bids were opened at the Treasury on the 24th for these five per cent coupon or registered bonds of the funded loan of 1881, authorized by the acts of July 14, 1870, and January 20, 1871, bearing interest payable quarterly from May 1, 1876, in lots of not less than $500,000 to the total amount of $5,883,000. The following were the bidders.

J. W. Seligman & Co., $1,000,000 at 103 16-100; $1,000,000 at 103 105-1,000; $1,000,000 at 103 7-100; $1,000,000 at 103; $500,000 at 102 98-100; $783,000 at 102 95-100; $600,000 at 102 91-100.

L. Von Hoffman & Co., $5,883,000 at 103 25-100.

Philip Speyer & Co., $1,000,000 at 102 25-100; $500,000 at 102 48-100; $500,000 at 103 7-100; $500,000 at 103 24-100.

First National Bank of New York, $5,883,000 at 103 29-100

Greesheck & Ketcham, $500,000 at 103 27-100.

Woerishoffer & Co., $500,000 at 103 15¼-100.

Kidder, Peabody & Co., $1,000,000 at 103 1-100.

Kuhn, Loeb & Co., $5,883,000 at 102 63-100.

Richardson, Hill & Co., $500,000 at 103 7-100.

Foote & French, Boston, $500,000 at 103 27-100.

Schoeler Bros., New York, $500,000 at 102 55-100.

Gallatin National Bank, New York, $500,000 at 102¾.

New England Mutual Insurance Company, Boston, $500,000 at 103.

Drexel, Morgan & Co., for themselves and associates, $5,883,000, or any part thereof, at 103 71¼-100, or the whole amount at 103 73 7-16-100.

Winslow, Lanier & Co., $1,000,000 at 102 99-100; $1,000,000 at 102 94-100; $1,000,000 at 102 89-100; $1,000,000 at 102 84-100; $1,000,000 at 102 79-100; $583,000 at 102 75-100; or the whole amount at the average rate of the above.

Merton, Bliss & Co., $1,000,000 at 103 21-100; $1,000,000 at 103 15-100; $1,000,000 at 103 11-100; $1,000,000 at 103 3-100; $1,000,000 at 102 97-100; $883,000 at 102 91-100.

G. G. Haven & Co., $500,000 at 101 85-100; $500,000 at 103 15-100.

Rutten & Bonn, $500,000 at 102 34-100; $500,000 at 102 55-100; $500,000 at 102 63-100.

Fisk & Hatch, $1,000,000 at 102 77-100; $1,000,000 at 102 83-100; $1,383,000 at 102 54-100; $1,500,000 at 103 42-100; $1,000,000 at 103 20-100.

August Belmont & Co., for N. Rothschild & Sons, $5,883,000 at 103 71¼-100.

The whole amount was awarded to Drexel, Morgan & Co.

In State and city bonds there were few new features. The city of Cincinnati offered the first $3,000,000 of the new $6,000,000 loan for her Southern railroad, the bonds to be issued either as seven per cent currency or six per cent gold bonds, running not less than thirty years, with the agreement that none of the balance should be offered before September 1, 1876. Three bids were received, each for the whole amount; one at 13 100 per cent premium for six per cent gold bonds, another at 20¼-100 per cent premium for currency bonds, and a third at 8-100 per cent premium for either. The award was made to Espy, Heidelbach & Co., of Cinn., for the entire amount—their bid being the first above named; their representatives in this city are Messrs. Kuhn, Loeb & Co. A small loan was also offered in New York for the city of Logansport, Indiana.

Railroad and miscellaneous stocks were greatly depressed this month, and in sympathy with stocks the bonds in many cases showed lower prices, and in nearly all cases a much smaller volume of sales. There were several influences which led to the depression here noticed—in the first place there had been a large decline in one or two prominent speculative stocks, especially Pacific Mail and Western Union Telegraph, under the direct attack of speculative parties, and this had more or less influence on the whole market. Then came the weakening in the coal railroad stocks which had been ranked among the best investments in this market at 110 to 120; the annual reports for 1875, as they came out, showed a bad business for that year and the payment of dividends out of previous surplus, and this, together with the unfavorable prospect for the present year, had the effect of knocking prices off to an important extent. Added to the influences just mentioned, came the reports of a breaking up in the "pool" arrangements of the Trunk lines from Chicago eastward, and a reduction in freight rates with the opening of navigation, and this caused a further decline in the stocks principally affected—Lake Shore and Michigan Central. The market was thus given over to the control of the "bear" clique, and at the time of writing (April 27), the decline in many stocks had been so large as to suggest the probability that they were not likely at present to go lower. Railroad earnings, so far as reported for the current year, have shown a large improvement over the same period of 1875, and the latest reports at hand for the first two or three weeks of April, generally show a continued improvement. This is quite satisfactory, as it is assumed that the percentage of operating expenses is lower than last year, and the net earnings therefore should be considerably better. The advanced rates in Wisconsin on the so called granger roads went into effect April 1 on passenger traffic and April 3 on freight, and the companies anticipate that there will be an average increase on their receipts from business within that State of about 12 per cent.

It is noticed as an encouraging feature that there have been very few new defaults by railroads since the first of the year, and it is hoped from this that almost every road which has stood the test of 1873–1875, will be able to pay its bonded interest hereafter. The general effect on railroad business, however, of the large number of railroads now insolvent and operated by receivers, can hardly be otherwise than prejudicial. In mercantile affairs the "survival of the fittest" is pointed to as one of the gradual results to be accomplished by the existing depression, as the weaker parties go out of business. But in the case of railroads an insolvent corporation does not withdraw from competition, and on the other hand has less to fear than its rivals from a sharp war in rates.

The semi-annual statement of the Equitable Trust Company was noticed in the CHRONICLE of April 15, on page 368, from which it appeared that the company had taken, up to March 1, 1876. $6,535,000 of real estate mortgage bonds, and had sold with its own guaranty $5,665,000 of such bonds.

# STOCK AND BOND TABLES.

## NOTES.

These tables are expressly intended to be used in connection with the information concerning Investment matters, published from week to week in the CHRONICLE—to which an index is furnished in the remarks at the foot of the tables. Annual reports are in black-faced figures.

A full description of U. S. Government Securities is published regularly in the CHRONICLE each month, as soon as the official "Debt Statement" is issued.

Prices of all Stocks and Bonds are quoted weekly in the CHRONICLE.

The following will give explanations of each column of the tables below:

*Description.*—Railroads leased to others will often be found under the lessee's name. The following abbreviations frequently occur, viz.: M. for "mortgage," s. f. for "sinking fund," l. gr. for "land grant," reg. for "registered," coup. for "coupon," Br. for "Branch," guar. for "guaranteed," end. for "endorsed."

*Date of Bonds.*—The date of issue on the face of the bond is referred to in this column.

*Miles of Road.*—Opposite Stocks, this means the miles of road operated, on which the earnings are based; opposite bonds, the miles covered by the mortgage.

*Size or Par Value.*—These figures are dollars, showing the denominations or par value. The figures "100, &c.," signify $100 and larger.

*Rate Per Cent.*—The interest *per annum* is given for bonds, but the per cent of *last dividend* for stocks; *g* means gold; *x*, extra; *s*, stock or scrip.

*When Payable.*—J. & J. stands for Jan. & July; F. & A., Feb. & Aug.; M. & S., March & Sept.; A. & O., April & Oct.; M. & N., May & Nov.; J. & D., June & Dec.; Q.—J., quarterly from January; Q.—F., quarterly from Feb.; Q.—M., quarterly from March.

*Bonds, principal when due; Stocks, last dividend.*—The date in this column shows the period when the principal falls due of *bonds*, but the time when the last dividend was paid on *stocks*.

| Brunswick & Albany Railroad direct bonds | 1870 | 1,000 | 1,500,000 | 7 | J. & D. | Not paid. | Dec., 1890 |

*Alabama.*—The commissioners, under law of Dec. 1, 1874, to ascertain, liquidate and adjust, the legal liabilities of the State on its bonds, propose substantially that 30 year bonds bearing 2 per cent for 5 years, 3 per cent for next 5 years, 4 per cent for next 10 years, and 5 per cent for last 10 years, be exchanged for old bonds, without any allowance for past due coupons. The State has been in default since January, 1874. The value of all taxable property is given at $160,000,000; tax rate, 7½ mills. The assessed valuation of real estate in 1875 was $83,851,252. (V. 20, p. 139, 534, 570, 581; V. 21, p. 276, 294, 322, 534, 612; V. 22, p. 110, 157, 205.)

*Arkansas.*—Rate of taxation, 5 mills. Unfunded debt is mostly held by U. S. The State is in default for interest. By the last assessment for 1872 and 1873 the total valuation of property was $104,972,329. Interest was paid Jan. 1, 1876, on secured sinking fund bonds, issued under the law of December, 1874, to pay expenses. A Board of Finance was appointed in January, 1875, to confer with bondholders of the State and they issued a notice as quoted in V 20, p. 161. See CHRONICLE, V. 19, p. 167, 189, 637; V. 20, p. 139, 161; V. 21, p. 465, 590.

*California.*—California finances appear to be in a particularly sound condition. The State holds in trust for School and University funds the $500,000 Capitol bonds and $2,063,000 of bonds 1873. Total valuation of property, 1874, over $600,000,000. Tax rate, 50 cents per $100. As the debt is now practically extinguished, the Governor advises the gradual cancellation of the bonds held in trust and the purchase of foreign securities in their place. (V. 19, p. 3 of advertisements; V. 19, p. 32.)

*Connecticut.*—The debt of Connecticut was all created for war purposes, and has been reduced since 1866 from $10,000,000 to the present figures by sinking fund purchases. The 1861 bonds are payable at pleasure since July, 1871, and those of 1864 after October, 1874. Assessed value of real and personal property, $353,491,451; rate of taxation, 1 mill.

*District of Columbia.*—The total assessed value of taxable real estate in 1875 was $93,452,684. United States Attorney-General Pierrepont rendered an opinion that the faith of the United States is pledged for the payment of interest on the 3.65 bonds, but conflicting legal opinions have been rendered as to the right of New York savings banks to invest in these, as government securities. The interest due February, 1876, was not paid till March, as no appropriation was made by Congress. The total amount of 3-65 bonds issued to February were as above. (V. 20, p. 83. See also V. 19, p. 15, 61, 142, 189, 477; V. 20, p. 239, 446; V. 21, p. 63, 417, 465; V. 22, p. 181.)

*Florida.*—Less the sinking fund of $49,900, and J. P. and M. loan, the total debt is $1,199,700. Real and personal property are valued about $35,000,000; tax rate, 7 mills. The loan to J. P. & M. RR. is secured by mortgage on road, and the question as to the State's obligation to the bondholders was before the United States Supreme Court, and decided in December, 1875, (V. 21, p. 591), in favor of the State; no interest has been paid on these bonds for some years past, and a late decision of the State Supreme Court holds them unconstitutional. (V. 21, p. 466; V. 22, p. 158, 233.)

*Georgia.*—This is one of the Southern States that has paid the interest on its acknowledged debt, but the State Legislature declared void all the semi-annual gold bonds of 1870 ($1,880,000), and $102,000 of the quarterly bonds held by H. Clews & Co.; the Brunswick & Albany bonds, $1,500,000; and all railroad endorsements, except, $1,950,000 Macon & Brunswick; $194,000 Ala. & Chatt.; $240,000 No. & So. Ga.; and $31,000 Memphis Branch. Assessed value of property in 1874, $273,000,000; in 1875, $261,-735,884; rate of tax, four mills. Macon & Brunswick Railroad endorsement was declared valid by Legislature of 1874, but the later issue of $600,000 was declared void by the Legislature in 1875. Governor's Message, V. 22, p. 87. (V. 20, p. 83. See also V. 19, p. 111, 350, 375; V. 20, p. 241, 326, 570.)

*Illinois.*—The debt has been rapidly reduced of late years, and, without the addition of new loans, will soon be extinguished. The Illinois Central Railroad charter tax on earnings contributes over $100,000 per year to the State revenue. The assessment of all property in 1875 was $1,085,529,856. Municipalities in Illinois are in some localities heavily incumbered with debt issued to railroads. (V. 19, p. 15, 38, 526.)

*Indiana.*—There are also $139,000 of war bonds. There is a question as to the State's obligation to pay the Wabash & Erie Canal debt. A reference to the origin of that debt, arising from the State's compromise with the bondholders in 1846, will be found in the CHRONICLE, V. 19, p. 493; see also p. 526. A suit on the question was brought and decree of sale obtained (V. 21, p. 85; V. 22, p. 104). Taxable valuation, 1875—real estate, $621,416,973; personal, $231,667,147; railroads, $38,436,919; corporations, $4,045,503; tax rate, 1¼ mills. A law permitting towns to issue bonds was passed in 1875, the main section being as follows:

"SECTION 1.—*Be it enacted by the General Assembly of the State of Indiana*, That any corporated town in this State which shall have heretofore, by the action of its Board of Trustees, commenced the erection of any public buildings, to be used as a market house, engine house or other public purposes, and shall not have the necessary means with which to complete such building, on the passage of an ordinance authorizing the same by the Board of Trustees of said incorporated town, issue the bonds of such town to an amount not exceeding in the aggregate $10,000, in denominations of not less than $50 nor more than $500, and payable at any place that may be designated in the bonds; the principal in not less than one year nor more than ten years after the date of such bonds, and the interest, annually or semi-annually, as may be therein provided, to provide the means with which to complete such buildings; provided that such bonds shall not be sold at a price less than ninety-four cents on the dollar, nor bear a greater rate of interest than eight per centum per annum."

A similar law was passed for counties, which, referring to contracts that have been made for public buildings, &c., says that in counties where such contracts have been so made, the board of commissioners of such counties are authorized to issue bonds to an amount not exceeding one-half of one per centum on the assessed valuation of the property of such county, in addition to any loan for said purpose for which bonds may have been heretofore issued, negotiated and sold. (V. 22, p. 209.)

*Kansas.*—Kansas has but a small State debt, but the issues of municipal bonds have been large. An extract from the State Auditor's report was given in V. 20, p. 14. The valuation of real and personal property in 1875 was $121,544,341; tax rate, 6 mills for State purposes and an average of 8.78 per $100 for al lpurposes. State funds hold $759,250 of the bonds. (V. 20, p. 14.)

*Louisiana.*—The funding bill passed Jan. 24, 1874, scaled the debt down to 60 per cent of the face value. For coupons lacking on bonds funded, similar coupons are cut from the new bonds issued; interest on consol. bonds is paid in New York, but no interest paid on bonds unfunded. The bonds are according to the N. O. Stock Exchange statement of April 15. Of these the principal amounts not fundable are, $111,000 of RR. bonds; $48,000 school; $280,000 Miss. & Mex. Gulf Canal; $80,000 Bœuf & Cr. Nav.; $875,000 N. O. M. & Chat. endorsed; and $2,500 000 N. O. Mob. & Texas. The same tax of 14½ mills, in 1875 as in 1874 (in 1873 the rate was 21½ mills) The total assessed value of real estate in 1875 was $150,507,073; personal, $40,319,547; of which New Orleans had $93,463,269 of real and $26,118,833 of personal. The gross revenue in 1875 was $3,286,153 and expenses $3,185,707. The $2,500,000 bonds to N. O. Mob. & Texas Railroad have been declared void by State Supreme Court, but a re-hearing granted. (V. 20, p. 78, 84, 476, 521, 546; V. 21, p. 15, 63 110, 159, 231, 459, 535, 615; V. 22, p. 62.)

*Maine.*—The sinking funds, January, 1876, reduce the total debt to a net amount of $5,272,688. Valuation of total taxables in 1875, $255,000,000; tax rate, 5 mills. Governor's message in V. 22, p. 62.

*Maryland.*—The assessed valuation of property in 1875 was $427,753,393, on which the rate of taxation in 1876 is 17¼ cents per $100; income from dividends on railroad, canal and other stocks owned by the State was $133,491. The State has largely assisted canals and railroads, and holds $4,787,235 of stocks and bonds of companies paying interest promptly, leaving only $5,916,582 of debt without any offset; the State also holds $22,555,188 in unproductive securities. On two investments only, the Comptroller says that the State has met no loss, viz., the Baltimore & Ohio and the Columbia & Port Deposit railroads.

*Massachusetts.*—Governor's message on finances, V. 22, p. 62. All interest on the funded debt of Massachusetts is paid in coin. The credit of the State stands high in London and at home. During 1874 the debt was increased $987,400, and in 1875, $4,500,000. The sinking funds in January, 1876, were $11,725,309. The Hoosac tunnel has cost the State over $14,500,000. Real estate assessed in 1875, $1,311,031,826; personal, including bank shares, $560,815,162; tax rate, 1·06 mills; deposits in savings banks, $237,848,963; corporation property (above real estate and machinery), $34,213,632. The loan to Boston Hartford & Erie Railroad was secured by deposit of $3,600,000 "Berdell" mortgage bonds. (V. 20, p. 336, 521; V. 21, p. 277; V. 22, p. 62.)

*Michigan.*—The debt has been largely diminished in the last few years. Assessed valuation of real and personal property, 1871-72, $830,000,000, and tax rate 2¼ mills. Surplus revenue is applied to purchase of bonds. (V. 20, p. 139.)

*Minnesota.*—All the State bonds are now held by the permanent school fund. Minnesota is usually classed among the States which have avoided their obligations, in consequence of her refusal to recognize the "State Railroad bonds" of 1858 to the amount of $2,275,000. There seems to be a growing feeling in the State that those bonds should be acknowledged. See Governor's Message, V. 22, p. 63. Property valuation, 1875, $218,855,743, of which $45,162,467 was personal; tax, 21-10 mills. (V. 19, p. 493.)

*Missouri.*—Valuation of real and personal property in 1875 was $549,593,471, upon which the tax is 4½ mills. Railroad property was assessed at $54,849-312, as returned to County Courts; but at only $19,881,141, as returned to the State Auditor in 1875. The State had $1 428,000 bonds maturing in 1875, and $3,907,000 in 1876. To provide for these, a law of 1875 authorizes the sale of new bonds. The Hannibal & St. Joseph Railroad provides for its own debt. Bonds falling due are paid in currency, pursuant to a resolution of the Legislature, although some of these bonds are payable by their terms in "gold or silver." Some difficulty has arisen about the last six months' interest due on bonds maturing. (V. 20, p. 83, 161, 290, 313, 336, 383, 477; V. 21, p. 277; V. 22, p. 83.)

*Nevada.*—The debt of Nevada is hardly more than nominal.

*New Hampshire.*—The debt of New Hampshire was created for war purposes, and is being rapidly reduced. The Municipal loan of 1872 was issued to cities and towns, the proceeds to be used in reducing their several war debts, which the State thus assumed.

*New Jersey.*—The debt was created for war purposes. Of the first two classes of bonds the principal is payable $100,000 per year. Valuation of real and personal property in 1875 $612,731,091, against $619,097,903; State tax, 3½ mills.

*New York.*—There is also $68,000 contingent debt to Long Island Railroad, and $7,361 per annum for Indian annuities. An abstract of the Governor's Message was given in V. 22, p. 63, showing a net reduction of $2,744,505 in the debt for year ending Sept. 30, 1875. The following were valuations and tax rate for State purposes in the years 1859 and 1865, and from 1870 to 1874:

| Year. | Real Estate. | Personal. | State tax. |
|---|---|---|---|
| 1859..... | $1,097,564,524 | $377,349,155 | 2¼ |
| 1835..... | 1,158,32 ,371 | 332,552,314 | 4 53-80 |
| 1870..... | 1,532,720,907 | 431,280,278 | 7 41-156 |
| 1871..... | 1,593,930,166 | 452,6 7,732 | 5 79-120 |
| 1872..... | 1,641,379,410 | 147,248,035 | 9¼ |
| 1873..... | 1,692,523,071 | 437,102,315 | 6 95-100 |
| 1874..... | 1,750,698,918 | 418,608,955 | 7¼ |
| 1875..... | 1,963,352,703 | 407,427,399 | 6 |

For the present fiscal year, 1875-6, the Comptroller recommended a tax rate of 3 mills, reducing the rate of 1875 by one half; this is partly owing to the considerable reduction in the Bounty debt, and the increase of sinking fund resources. It appears that the assessed value of real estate by local assessors is $1,750,698,918, while the full value, as estimated by the State assessors, is $4,168,330,757. The Comptroller says the actual value should be adopted as the basis of taxation. The total amount raised by tax, State and local, in 1875, was $56,926,470, or 24 mills on the $1 of assessed valuation. In 1874, the local debts of cities in N. Y. State were $137,539,6 9; of counties, $46,685,264, and towns, $25,140,181. (V. 19, p. 350; V. 20, p. 28, 60, 615; V. 22, p. 63.)

*North Carolina.*—North Carolina is heavily burdened with debt, in proportion to her taxable property. A lengthy extract from the Treasurer's report was given in V. 20, p. 84. Total property was assessed in 1872 at $123,507,628, a low valuation. Interest is paid on bonds issued to North Carolina Railroad ($2,800,000), as the State holds $3,000,200 stock and receives dividends thereon. Other interest in default. A funding bill passed the Legislature March, 1875. (See CHRONICLE, V. 20, p. 336.) In New York, bonds are classified thus: "Old," being those issued prior to May 1, 1861, coupons on from Jan. '69; "N. C. R. R." issue of $2,800,000 to that road, coups. on since Jan. & April, '69; same "coup. off" have had 7 coups. paid; "funding act '66 carry coups. Jan., '69; "funding act" '68 carry coupons April, '69. "New"—authorized before war, except $1,500,-000 in 1868; "Special tax, 1st," carry coup. April, '69; "2d" coup. of Oct. '69; "3d" coup. April, 1870. (V. 18, p. 166, 629; V. 20, p. 84, 161, 283; V. 21, p. 570.)

*Ohio.*—Ohio has a very small State debt, but large local debts, amounting in 1875 to $25,957,588. Valuations in 1874 were: Real estate in cities, &c., $366,031,721; other, $696,883,323; personalty, $535,-660,818. Tax rate in 1875, 3 2-10 mills for State, and an average of 25 9-10 mills for local purposes. Of the 1875 loan above $868,230 was paid Jan. 1, 1876, and the balance April 1. Report on State and local debts, V. 22, p. 64.

*Oregon.*—The debt is provided for by sinking funds, payable from land sales. Taxable property in 1875 was assessed at $41,197,149; ½ mill tax was laid for Relief bonds and 1 mill for Bounty bonds.

*Pennsylvania.*—Total debt Nov. 30, $23,233,137; available assets, $9,466,572; net debt, $13,766,564. The financial system is remarkable in Pennsylvania, in the fact that no tax is laid for State purposes on real estate. Revenue is raised from numerous sources, principally from corporations. Taxes are levied on personal property, which was assessed at $159,382,242, and the tax was $574,817 in 1875. State expenses have lately exceeded revenue, and sinking funds have been diverted to meet the deficiency. The State holds $1,751,321 in stocks and $10,554,321 of railroad bonds. Interest is paid in gold on all the State debt issued prior to 1867. Any coupon bonds may be changed to registered. The bonds due in 1877 are payable at any time till 1882; those of 1882 till 1892. (V. 21, p. 137; V. 22, p. 64.)

*Rhode Island.*—The debt was all created for war purposes and is being steadily diminished. The valuation of real and personal property in 1873 was $247,798,580, and tax rate 20 cents on $100.

*So. Carolina.*—The Governor's message on finances in V. 21, p. 535. The funding law approved Dec. 22, 1873, provided for scaling down the old debt by giving new bonds to the extent of 50 per cent, and declared void the conversion bonds to the amount of $5 965,000. The January and July interest was paid on consolidated bonds, but a loss to the State of about $200,000 cash by failure of a trust company caused a suspension of payments afterwards. Total valuation of all property—in 1875, real estate, $88,177,218; personal, $46,791,006; rate of taxation in 1874, 12, mills. (V. 20, p. 81, 241, 291, 358, 547; V. 21, p. 489, 514.)

*Tennessee.*—On the first July, 1874, the payment of interest was resumed, and the interest due January 1, 1875, was paid by help of a loan of $300,000, but default again made July, 1875. The Governor's letter in December, 1875, on the finances, discouraged the expectation of further payments soon, and suggested "scaling." The law passed in March, 1873, provided for funding all outstanding, legally issued bonds, due between July 1, 1874, and July 1, 1884, as well as all past-due coupons, and coupons maturing on or before Jan. 1, 1874, in a 10-40 year 6 per cent bond. The total debt given above is, substantially, according to the last report of the Comptroller, January, 1875. The Comptroller estimated debt of solvent railroads at $3,238,896; due from purchasers of railroads then sold, $372,000; value of Knoxville & Charleston road, $100,000. The State's endorsements for railroads are $1,802,000, of which $1,560,000 is taken care of by the roads. Total valuation of real estate, $289,000,000, and railroad property, $51,000,000. The rate of taxation is 40 cents on the $100. Tennessee bonds, sold in New York as "old," are those issued before 1862, and having coupons of July, 1869; Old "ex coupon," have only the coupon of July, 1875; "New," issued since 1862 carrying coupon of July, 1869, "ex coupon" July, 1875, only; "New Series," the new funding bonds. (V. 18, p. 143, 217, 350, 497; V. 19, p. 167; V. 20, p. 14, 84, 161, 282, 491; V. 21, p. 87, 313, 614.)

*Texas.*—The State Comptroller, in February, 1876, reported total funded debt $1,219,757; floating debt, $543,;37, and bonds of doubtful validity remaining in hands of State Treasurer, $842,210. The valuation of taxable property in 1875 was $250,853,739, against $241,841,860 in 1874. Tax rate, 50. From the Comptroller's report we have the following statistics for 1875:

| | |
|---|---|
| Total value of taxable property assessed | $250,853,798 |
| State tax | 1,254,354 |
| Poll tax | 198,322 |
| County taxes | 1,959,184 |
| Miles of RR. in the State ass'd for taxes | 1,487 |
| Value of railroads | $18,605,122 |
| No. of acres of land assessed in the State | 66,637,920 |
| Value of lots assessed in the State | 44,666,937 |

(V. 19, p. 15, 117, 142; V. 20, p. 84; V. 22, p. 281.)

*Vermont.*—This State has a very small debt—all created for war purposes. Of the registered bonds $135,500 are held for Agricultural College. The sinking fund, Aug. 1., 1874, was $37,932.

*Virginia.*—The Funding act of 1871 provided that coupons of the funded bonds should be receivable for State taxes. For 2-3 of the old bonds a new bond was issued, and for the other ⅓ a deferred certificate given (as the proportion due by West Virginia). The act of 1872 amended that of 1871 by not allowing coupons to be received for taxes. All the amounts marked (*) may be funded under the amended act of 1872. The sinking fund holds $2,446,-983 of State bonds and certificates. All interest over-due and unpaid to Sept. 30, 1875, (on the basis of 4 per cent.) was $1,193,864. A part of the interest due July, 1874, has been paid since Jan 1, 1876. Assessed value of property is $329,424,152; tax rate, 5 mills. The circular of Messrs. Branch & Co., bankers, April, 1876, said: "The Legislature has adjourned, and no law in any way affecting the bonds of the State has been passed, if we except a clause in the tax bill subjecting the coupons cut from bonds held by a non-resident of the State to the same tax as has heretofore been deducted from coupons held by residents. This tax amounts to $1 70 on each coupon of $30, or five and two-fifths per cent—the coupons being received at 94·60 per cent of their par value in payment of taxes. The State is still in debt for money borrowed to meet temporary deficiencies in the revenue; and the payments to the sinking fund have been suspended, as also the payments of interest of July, 1874, on the non-consolidated debt. The tax bill includes some additional subjects of taxation, which will make a small increase in the revenue, but it is now certain that no *cash* payments will be made during the present year on account of interest, except that the small balance due on July, 1874, interest may be paid." Auditor's report, V. 21, p. 604. (V. 19, p. 295 502, 526, 582; V. 20, p. 14, 306, 356, 373, 547; V. 21, p. 527, 604.)
